The Chief of Engineers (to whose department a large part of the annual appropriation "Equipment of officers' schools at military posts" has been assigned for the purchase of instruments) has expressed the opinion that no further provision by specific appropriation need be made for the purchase of these articles, in view of which the Assistant Secretary of War, under date of June 7, 1913, approved the recommendation of the Chief of the Quartermaster Corps that the appropriation "Equipment of officers' schools at military posts" be merged with that of "Regular supplies, Quartermaster Corps," as the small amount that may be required for purchase of instruments, textbooks, etc., can be provided for from the appropriation "Regular supplies, Quartermaster Corps," without increasing the same. If the merger of these two appropriations is favorably considered, it is suggested that the appropriation "Regular supplies, Quartermaster Corps" be worded as follows, which if done will meet all requirements and obviate the necessity for the appropriation "Equipment of officers' schools at military posts."—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

Regular supplies of the Quartermaster Corps, including their care and protection, consisting of stoves and heating apparatus required for heating offices, hospitals, barracks and quarters, and recruiting stations, and United States military prisons; also ranges, stoves, coffee roasters, and appliances for cooking and serving food at posts, in the field, and when traveling, and repair and maintenance of such heating and cooking appliances; authorized issues of candles and matches; for furnishing heat and light for the authorized allowance of quarters for officers and enlisted men, for contract surgeons and acting dental surgeons when stationed at and occupying public quarters at military posts, for officers of the National Guard attending service and garrison schools, and for recruits, guards, hospitals, storehouses, offices, the buildings erected at private cost in the operation of the act approved May 31, 1902; for sale to officers, and including also fuel and engine supplies required in the operation of modern batteries at established posts; for post bakeries, including bake ovens and apparatus pertaining thereto, and the repair thereof; for ice machines and their maintenance where required for the health and comfort of the troops and for cold storage; ice for issue to organizations of enlisted men and offices at such places as the Secretary of War may determine, and for preservation of stores; for the construction, operation, and maintenance of laundries at military posts in the United States and its island possessions; for the authorized issues of laundry materials for use of general prisoners confined at military posts without pay or allowances, and for applicants for enlistment while held under observation; authorized issues of soap; for hire of employees; for the necessary furniture, textbooks, paper, and equipment for the post schools and libraries, including the purchase and issue of instruments, office furniture, stationery, and other authorized articles for the use of officers' schools at the several military posts; commercial newspapers, market reports, etc.; for the tableware and mess furniture for kitchens and mess halls, each and all for the enlisted men, including recruits; of forage, salt, and vinegar for the horses, mules, oxen, and other draft and riding animals of the Quartermaster Corps at the several posts and stations and with the armies in the field, and for the horses of the several regiments of Cavalry, the batteries of Artillery, and such companies of Infantry and Scouts as may be mounted; for remounts and for the authorized number of officers' horses, including bedding for the animals; for seeds and implements required for the raising of forage at remount depots and on military reservations in the Hawaiian and Philippine Islands, and for labor and expenses incident thereto; for straw for soldiers' bedding, stationery, typewriters and exchange of same, including blank books and blank forms for the Quartermaster Corps, certificates for discharged soldiers, and for printing department orders and reports: *Provided*, That no part of the appropriations for the Quartermaster Corps shall be expended on printing unless the same shall be done at the Government Printing Office, or by contract after due notice and competition, except in such cases as the emergency will not admit of the giving notice of competition, and in cases where it is impracticable to have the necessary printing done by contract the same may be done, with the approval of the Secretary of War, by the purchase of material and hire of the necessary labor for the purpose. For the fiscal year ending June 30, 1915, whenever the ice machines, steam laundries, and electric plants shall not come in competition with private enterprise for sale to the public, and in the opinion of the Secretary of War it becomes necessary to the economical use and administration of such ice machines, steam laundries, and electric plants as have been or may hereafter be established in pursuance of law, surplus ice may be disposed of, laundry work may be done for other branches of the Government, and surplus electric light and power may be sold on such terms and in accordance with such regulations as may be prescribed by the Secretary of War: *Provided*, That the funds received from such sales and in payment for such laundry work shall be used to defray the cost of operation of said ice, laundry, and electric plants; and the sales and expenditures herein provided for shall be accounted for in accordance with the methods prescribed by law; and any sums remaining, after such cost of maintenance and operation have been defrayed, shall be deposited in the Treasury to the credit of the appropriation from which the cost of operation of such plant is paid, $8,351,264.85.

*Incidental Expenses, Quartermaster Corps*—

Postage; cost of telegrams on official business received and sent by officers of the Army; extra pay to soldiers employed on extra duty, under the direction of the Quartermaster Corps, in the erection of barracks, quarters, and storehouses, in the construction of roads and other constant labor for periods of not less than 10 days, and as clerks for post quartermasters at military posts, and for prison overseers at posts designated by the War Department for the confinement of general prisoners, and for the United States military prison guard; of extra-duty pay at rates to be fixed by the Secretary of War for mess stewards and cooks at recruit depots, who are to be graduates of the schools for bakers and cooks, and instructor cooks at the schools for bakers and cooks; for expenses of expresses to and from frontier posts and armies in the field, of escorts to officers or agents of the Quartermaster Corps and to trains where military escorts can not be furnished; authorized office furniture; authorized issues of towels; hire of laborers in the Quartermaster Corps, including the care of officers' mounts when the same are furnished by the Government, and the hire of interpreters, spies, or guides for the Army; compensation of clerks and other employees to the officers of the Quartermaster Corps, and clerks, foremen, watchmen, and organist for the United States military prison, and incidental expenses of recruiting: *Provided*, That authority is hereby granted to employ the services of an advertising agency in advertising for recruits under such terms and conditions as are most advantageous to the Government; for the apprehension, securing, and delivering of deserters, including escaped military prisoners, and the expenses incident to their pursuit, and no greater sum than $50 for each deserter or escaped military prisoner shall, in the discretion of the Secretary of War, be paid to any civil officer or citizen for such services and expenses; for a donation of $5 to each dishonorably discharged prisoner upon his release from confinement, under court-martial sentence, involving dishonorable discharge; for the following expenditures required for the several regiments of Cavalry, the batteries of Field Artillery, and such companies of Infantry and Scouts as may be mounted, the authorized number of officers' horses and for the trains, to wit: Hire of veterinary surgeons, purchase of medicines for horses and mules, picket ropes, blacksmith's tools and materials, horseshoes and blacksmith's tools for the Cavalry service, and for the shoeing of horses and mules; chests and issue outfits; and such additional expenditures as are necessary and authorized by law in the movements and operations of the Army, and at military posts, and not expressly assigned to any other department (*R. S., p. 207, sec. 1137; p. 223, sec. 1287; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 2, 1913, vol. 37, p. 713, sec. 1*)..... $1,850,666.00 $1,960,000.00

NOTE.—The proviso referred to was incorporated in the estimate upon the recommendation of The Adjutant General of the Army of Sept. 13, 1913, as approved by the Chief of Staff. The Adjutant General of the Army in indorsement dated Oct. 28, 1913, in response to a request of the Chief of the Quartermaster Corps for an explanation regarding the new language stated as follows:

"The advantage of the proviso quoted lies in the reduced amount of paper work that would be required under the method proposed. There will be no reduction or increase in the cost of the advertising. The method proposed is that now used by the Navy Department, and works satisfactorily."—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Horses for Cavalry, Artillery, Engineers, etc.*— For the purchase of horses of ages, sex, and size as may be prescribed by the Secretary of War, for remounts, for officers entitled to public mounts, for the Cavalry, Artillery, Signal Corps, and Engineers, the United States Military Academy, service schools, and staff colleges, and for the Indian scouts, and for such Infantry and members of the Hospital Corps in field campaigns as may be required to be mounted, and the expenses incident thereto, and for the hire of employees: *Provided*, That the number of horses purchased under this appropriation, added to the number now on hand, shall be limited to the actual needs of the mounted service, including reasonable provisions for remounts, and, unless otherwise ordered by the Secretary of War, no part of this appropriation shall be paid out for horses not purchased by contract after competition duly invited by the Quartermaster Corps and an inspection under the direction and authority of the Secretary of War. When practicable, horses shall be purchased in open market at all military posts or stations, when needed, at a maximum price to be fixed by the Secretary of War: *Provided further*, That no part of this appropriation shall be expended for the purchase of any horses below the standard set by Army Regulations for Cavalry and Artillery horses, except when purchased as remounts or for instruction of cadets at the United States Military Academy: *Provided*, That no part of this appropriation shall be expended for polo ponies except for West Point Military Academy, and such ponies shall not be used at any other place (*R. S., p. 206, sec. 1133; p. 221, sec. 1270, 1271; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 2, 1913, vol. 37, p. 714, sec. 1*) | $565,285.00 | $325,240.00 |

NOTE.—The increase of $240,045 in estimate for "Horses for Cavalry, Artillery, and Engineers," for fiscal year 1915 over the appropriation for fiscal year 1914 is due to an increase of 321 horses for the Fourth Cavalry in Hawaii, an increase of horses for batteries of light Field Artillery changed to heavy Artillery, providing horses for a battalion of Field Artillery transferred from Philippine Islands to Hawaii, also for one telegraph company of the Signal Corps and one new field hospital and ambulance company. An item of $50,000 for hire of employees has also been included, for which no provision was made in estimate for fiscal year 1914.—*J. B. Aleshire, Major General United States Army, Chief of the Quartermaster Corps.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Barracks and Quarters*—Continued. of fuel or quarters to officers or enlisted men: *Provided further*, That the number of and total sum paid for civilian employees in the Quartermaster Corps shall be limited to the actual requirements of the service, and that no employee therein shall receive a salary of more than $150 per month, except upon the approval of the Secretary of War: *Provided*, That of the sum herein appropriated $70,000 shall be immediately available (*R. S., p. 206, sec. 1136; p. 211, sec. 1270; Revised Army Regulations, 1910, p. 179, par. 1017; act of Mar. 2, 1913, vol. 37, p. 714, sec. 1*)..... | $2,194,997.00 | $2,073,680.00 |

NOTE.—The net increase of $121,317 is partly due to an increase in requirements for rentals caused by the retention of troops in China, for which no estimate was included for fiscal year 1914 and also on account of the increased requirements for new buildings at the various military posts and stations, a detailed statement of which will be prepared and included in the hearing.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

*Military Post Exchanges*—

For continuing the construction, equipment, and maintenance of suitable buildings at military posts and stations for the conduct of the post exchange, school, library, reading, lunch, amusement rooms, and gymnasium, including repairs to buildings erected at private cost in the operation of the act approved May 31, 1902, to be expended in the discretion and under the direction of the Secretary of War (*act Mar. 2, 1915, vol. 37, p. 715, sec. 1*)..... $154,391.00 $40,000.00

NOTE.—Total increase of $114,391.00 is due to the increase in the requirements for new construction of bowling-alley building and alleys at Fort Baker, Cal.; an addition to the post exchange and gymnasium, at Fort McKinley, Me., and the purchase of moving-picture machines, films, etc., for amusement purposes for the enlisted men at the various posts.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

*Transportation of the Army and its Supplies*—

For transportation of the Army and its supplies, including transportation of the troops when moving either by land or water and of their baggage, including the cost of packing and crating; for transportation of recruits and recruiting parties; of applicants for enlistment between recruiting stations and recruiting depots; for travel allowance to enlisted men on discharge; of persons on their discharge from the United States military prison or from any place in which they have been held under a sentence of dishonorable discharge and confinement for more than six months, or from the Government Hospital for the Insane after transfer thereto

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| ***Transportation of the Army and its Supplies*—Continued.** from such prison or place, to their homes (or elsewhere as they may elect), provided the cost in each case shall not be greater than to the place of last enlistment; of supplies furnished to the militia for the permanent equipment thereof; of the necessary agents and other employees; of clothing and equipage and other quartermaster stores from Army depots or places of purchase or delivery to the several posts and Army depots and from those depots to the troops in the field; of horse equipment; of ordnance and ordnance stores, and small arms from the foundries and armories to the arsenals, fortifications, frontier posts, and Army depots; for payment of wharfage tolls and ferriage; for transportation of funds of the Army; for the hire of employees; for the payment of Army transportation lawfully due such land-grant railroads as have not received aid in Government bonds (to be adjusted in accordance with the decisions of the Supreme Court in cases decided under such land-grant acts), but in no case shall more than 50 per centum of full amount of service be paid: *Provided*, That such compensation shall be computed upon the basis of the tariff or lower special rates for like transportation performed for the public at large and shall be accepted as in full for all demands for such service: *Provided further*, That in expending the money appropriated by this act a railroad company which has not received aid in bonds of the United States, and which obtained a grant of public land to aid in the construction of its railroad on condition that such railroad should be a post route and military road, subject to the use of the United States for postal, military, naval, and other Government services, and also subject to such regulations as Congress may impose restricting the charge for such Government transportation, having claims against the United States for transportation of troops and munitions of war and military supplies and property over such aided railroads, shall be paid out of the moneys appropriated by the foregoing provision only on the basis of such rate for the transportation of such troops and munitions of war and military supplies and property as the Secretary of War shall deem just and reasonable under the foregoing provision, such rate not to exceed 50 per centum of the compensation for such Government transportation as shall at that time be charged to and paid by private parties to any such company for like and similar transportation; and the amount so fixed to be paid shall be accepted as in full for all demands for such service; for the purchase and hire of draft and pack animals in such numbers as are actually required for the service, including reasonable provision for replacing unserviceable animals; for the purchase, hire, operation, maintenance, and repair of such harness, wagons, carts, drays, and other vehicles as are required for the transportation of troops and supplies, and for official, military, and garrison purposes; for drayage and cartage at the several depots; for the hire of teamsters and other employees; for the purchase and repair of ships, boats, and other vessels required for the transportation of troops and supplies and for official, military, and garrison purposes; for expenses of sailing public transports and other vessels on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific Oceans: *Provided further, That hereafter private mounts of officers in excess of the authorized mounts may be shipped on Government bill of lading with authorized mounts, and reimbursement collected for transportation charges on such excess mounts: Provided further, That authority is hereby granted the Secretary of War to sell or otherwise dispose of in accordance with law and regulations the United States Army interisland transports Seward and Wright* (*R. S., p. 36, sec. 220, p. 206, secs. 1133, 1135; Revised Army Regulations, 1910, p. 179, pars. 1017, 1018; act Mar. 2, 1913, vol. 37, p. 715, sec. 1*)..... | $10,164,645.00 | $10,555,555.00 |

NOTE.—The authority for the disposition of the transports Wright and Seward is requested as an economical measure, both vessels being of old age, too small for satisfactory, efficient service, and are now in need of such extensive repairs to maintain them in a serviceable condition that it is believed the expenditures necessary for the work required are unwarranted and that they should be disposed of, the vessels now being out of service in the Philippines.

The insertion of clause under heading appropriation "Transportation of the Army and its supplies, fiscal year 1915," to provide for shipment of excess mounts of officers with authorized mounts is made in view of the following:

Such authority of law will not cause additional expense from public funds. The expense of shipping extra mounts for officers will be charged against the officers and collected from them on a pro rata basis. Such authority will also result in a lower cost to the Government for shipping authorized mounts. The total expense of shipment being paid pro rata from public and private funds.—*J. B. Aleshire, Major General, United States Army, Chief of the Quartermaster Corps.*

|---|---|---|
| *Repair and Maintenance of Military and Post Roads, Bridges and Trails, Alaska*— | | |
| Repair and maintenance of military and post roads, bridges, and trails, Territory of Alaska (*act to provide for the construction and maintenance of roads, etc., approved Jan. 27, 1905, and annual acts for the support of the Army as published in G. O. Nos. 115, 1906; 48, 1907; 80, 1908; 49, 1909; 54, 1910; 45, 1911; Bulletins No. 15, 1912, and No. 7, 1913; and act Mar. 2, 1913, vol. 37, pp. 716, 717, sec. 1*)..... | $125,000.00 | [1]$155,000.00 |
| NOTE.—The routes coming properly under the above designation, as set forth in estimate of last year, "Military and post roads, bridges, and trails," in the Alaska Road Commission's classification, consist of the following:<br>*Wagon road:* Fort Wm. H. Seward (Haines Mission), up the Chilkat River to the National Boundary; Fort Liscum (Valdez), to Fairbanks, with branch from Willow Creek to Chitina on the Copper River Railroad; Fort Davis to Nome.<br>*Winter sled road:* Cut-off-on-Valdez—Fairbanks route for winter travel between Donnelys and Washburn; extension from Fairbanks to Fort Gibbon (winter mail route).<br>*Trails (winter mail):* Fort Gibbon down Yukon to Kaltag, thence to Unalakleet; Unalakleet to St. Michael; and Unalakleet to Fort Davis.<br>These routes embrace an aggregate mileage of 470 miles of wagon road; 204 miles of winter sled road; 575 miles of winter trail.<br>The principal route, Valdez to Fairbanks, thence for winter travel to Fort Gibbon, and westward to the military posts on Bering Sea, follows closely the line of the military telegraph, and all the routes named have "military and post" uses in connection with the present service of the Army in Alaska.<br>The total of special appropriations made by Congress under the above caption and expended up to the beginning of the present fiscal year, July 1, 1913, aggregate $1,375,000, and this represents the cost of the above-named routes plus a small additional expenditure from the "Alaska fund." The present estimate is for the maintenance of these routes in their present condition of ordinary country road and winter sled road and trail, and based upon an estimate of $225 per mile for wagon road, $25 per mile for winter sled road, and the remainder for repairs to trail. The amount asked for is considered to be the minimum absolutely necessary for the purpose named and to protect expenditures already made.<br>The estimate for repair and maintenance of wagon roads is somewhat larger than last year, due to increased expenditures required on account of damages by flood late last season, and also to heavier traffic over the roads.<br>There are certain very necessary bridges yet to be constructed on this route which are not estimated for in the above, but will have to be asked for in the next estimate unless funds from some other source are made available for this work.—*W. P. Richardson, Lieut. Col. of Infantry, President of the Board of Road Commissioners for Alaska.* | | |
| *Barracks and Quarters, Philippine Islands*— | | |
| Continuing the work of providing for the proper shelter and protection of officers and enlisted men of the Army of the United States lawfully on duty in the Philippine Islands, including repairs and payment of rents, the acquisition of title to building sites, and such additions to existing military reservations as may be necessary, and including also shelter for the animals and supplies, and all other buildings necessary for post administration purposes: *Provided*, That no part of said sum shall be expended for the construction of quarters for officers of the Army, the total cost of which, including the heating and plumbing apparatus, wiring and fixtures, shall exceed in the case of quarters of a general officer the sum of $8,000; of a colonel or officer above the rank of captain, $6,000; and of an officer of and below the rank of captain, $4,000 (*act Mar. 2, 1913, vol. 37, p. 717, sec. 1*)..... | 500,000.00 | 500,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Clothing, and Camp and Garrison Equipage—* For cloth, woolens, materials, and for the purchase and manufacture of clothing for the Army, for issue and for sale at cost price according to the Army Regulations; for altering and fitting clothing and washing and cleaning when necessary; for equipage, including authorized issues of toilet articles, barbers' and tailors' materials, for use of general prisoners confined at military posts without pay or allowances and applicants for enlistment while held under observation; issue of toilet kits to recruits upon their first enlistment, and issue of housewives to the Army; for expenses of packing and handling and similar necessaries; for a suit of citizen's outer clothing, to cost not exceeding $10, to be issued upon release from confinement to each prisoner who has been confined under a court-martial sentence involving dishonorable discharge; for indemnity to officers and men of the Army for clothing and bedding, and so forth, destroyed since Apr. 22, 1898, by order of medical officers of the Army for sanitary reasons (*R. S., p. 206, sec. 1133; Revised Army Regulations, 1910, p. 179, par. 1017; act Mar. 2, 1913, vol. 37, p. 717, sec. 1*)..... | $6,500,000.00 | $6,000,000.00 |

NOTE.—The estimate for 1915 clothing and equipage, exceeds the 1914 appropriation by $500,000. Of the amount estimated for 1915, $225,389.95 is for reserve, which is $19,568.84 less than appropriated for 1914 for reserve. The total increase for current requirements, therefore, is $519,568.84, or approximately 8.6 per cent.

The estimate for 1915 for current requirements is based on 98,468 enlisted men, whereas the estimate for 1914 was based on 90,000 enlisted men, an increase of approximately 10 per cent. It will be seen, therefore, that the increase in the estimate is in close proportion to the increase of enlisted strength of the Army for 1915 over the 1914 estimate.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

| Garage, Quartermaster Corps | 1,500.00 | | |
| One room (for storage purposes), Quartermaster Corps | 54.00 | | |
| Quarters for officers, noncommissioned officers, and privates, on duty with troops where no public quarters are available | 13,347.90 | | |
| | | 49,587.00 | 49,587.00 |
| NOTE.—For statement of buildings rented by the Quartermaster's Department, United States Army, in the District of Columbia, for military purposes, see Appendix B. | | | |
| *Claims for Damages to and Loss of Private Property—* | | | |
| For settlement of claims for damages to and loss of private property belonging to citizens of the United States, Hawaii, and the Philippine Islands (*acts Mar. 2, 1907; May 30, 1908; Aug. 24, 1912, vol. 37, p. 586, sec. 1; Mar. 2, 1913, vol. 37, p. 718, sec. 1*) | | 3,631.75 | 1,652.43 |

NOTE.—This estimate is submitted under the authority contained in the act of Aug. 24, 1912, making appropriations for the support of the Army for the fiscal year ending June 30, 1913, vol. 37, p. 586, sec. 1.

The amount asked for is to cover the 25 claims which have been considered and adjusted up to Sept. 30, 1913, as follows:

Harper Line of steamers, Wilmington, N. C., for damages to steamer Wilmington, $6; Frank Groth, Witoka, Minn., for damages to his pump by troops of Sixth Cavalry, $22; Maria Kip Orphanage, San Francisco, Cal., for damages to windows in chapel, $9.50; E. C. Davis, Boston, Mass., for damages to his houses, $194.73; Wood L. Butler, San Francisco, Cal., for damages to window glass in his house, $8; Manuel Hernandez, Baliuag, Bulacan, P. I., for damages to his watermelon field, $75; Guillermo Puatu, Manila, P. I., for 40 per cent of damages to sugar-cane field, $188.11; Juan Rodriguez, Quingua, Bulacan, P. I., for 40 per cent of damages to sugar-cane field, $70.04; Atanasio Villalon, Quingua, Bulacan, P. I., for 40 per cent of damages to sugar-cane field, $42.94; Catalino Bernandino, Quingua, Bulacan, P. I., for 40 per cent of damages to sugar-cane field, $12.44; Northport Steamboat Co., Northport, Long Island, N. Y., for damages and demurrage to their steamer Northport, $224; Don Cayetano Munoz, Manila, P. I., for destruction of house, etc., at Salasa, P. I., $1,162.50; Sotero Bulaong Mendoza, Malolos, Bulacan, P. I., for damages to cane and cart, $17.50; Hamline M. E. Church, Washington, D. C., for damages to window, $6; Manhattan Lighterage Co., New York City, for damage to their barge Bayside, $509.20; Mrs. M. E. James, Hull, Mass., for damages to her house, $18.70; estate of E. Welling, W. R. Welling, executor, Charleston, S. C., for damages to house, $3.50; Mrs. S. T. May, Moultrieville, S. C., for damages to her house, $100; John W. Peterman, Charleston, S. C., for damages to his house and furniture, $221.13; Mrs. L. Divine, Texas City, Tex., for value of a calf killed and damages to fence, $15; E. F. Connor, Charleston, S. C., for damages to his house, $32.28; John J. Panard, Charleston, S. C., for damages to plastering in house of sister, Mrs. Delany, $8.05; Gaetano Pizzetola, Lamarque, Tex., for compensation for mare killed, $80; W. D. Middleton, Charleston, S. C., for damages to his house, $505.18; William Moore, Texas City, Tex., for damages to fence and house and loss of cow and calf, $99.95.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.*

MEDICAL DEPARTMENT.

*Medical and Hospital Department—*

For the purchase of medical and hospital supplies, including ambulances and disinfectants, and the exchange of typewriting machines, for military posts, camps, hospitals, hospital ships, and transports; for expenses of medical supply depots; for medical care and treatment not otherwise provided for, including care and subsistence in private hospitals, of officers, enlisted men, and civilian employees of the Army, of applicants for enlistment, and of prisoners of war and other persons in military custody or confinement, when entitled thereto by law, regulation, or contract: *Provided*, That this shall not apply to officers and enlisted men who are treated in private hospitals or by civilian physicians while on furlough; for the proper care and treatment of epidemic and contagious diseases in the Army or at military posts or stations, including measures to prevent the spread thereof, and the payment of reasonable damages not otherwise provided for, for bedding and clothing injured or destroyed in such prevention; for the pay of male and female nurses, not including the Nurse Corps (female), and of cooks and other civilians employed for the proper care of sick officers and soldiers, under such regulations fixing their number, qualifications, assignment, pay, and allowances as shall have been or shall be prescribed by the Secretary of War; for the pay of civilian physicians employed to examine physically applicants for enlistment and enlisted men, and to render other professional services from time to time under proper authority; for the pay of other employees of the Medical Department; for the payment of express com-

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| ***Medical and Hospital Department***—Continued. panies and local transfers employed directly by the Medical Department for the transportation of medical and hospital supplies, including bidders' samples and water for analysis; for supplies for use in teaching the art of cooking to the Hospital Corps; for the supply of the Army and Navy Hospital at Hot Springs, Ark.; for advertising, printing, binding, laundry, and all other necessary miscellaneous expenses of the Medical Department (*act Mar. 2, 1913, vol. 37, pp. 718, 719, sec. 1*)..... | $800,000.00 | $750,000.00 |

NOTE.—The above estimate is for $50,000 more than the amount appropriated under this head for the fiscal year 1914. The amount appropriated represents a deduction of $75,000 made by the War Department from my original estimate for 1914, and a further deduction of $25,000 made by Congress from the approved estimate forwarded by the department. The amount originally asked for was, however, no more than commensurate with recent increases in the personnel of the Military Establishment, in connection with the prevailing high prices of medical supplies, to say nothing of the need of modern improved equipments and special apparatus for hospital service. The authorized strength of the Army has been increased from 85,029 on July 1, 1908, to near 105,000 on Apr. 20, 1913 (including 6,000 enlisted men of the Quartermaster Corps authorized by the act Aug. 24, 1912), for all of whom medical care and treatment must be provided under this appropriation at an estimated annual cost of between $9 and $10 per capita, or a total increase of requirements of between $180,000 and $200,000 over 1909. Meanwhile the appropriations have been only $700,000 for each of the fiscal years 1909, 1910, 1911, 1912, and 1913, and $750,000 for the year 1914, regardless of the constantly increasing number of men to be provided for. It is obvious that, as the size of the Army increases, a corresponding increase must be made in its medical appropriations on the one hand, or the efficiency of its hospital service must be proportionally sacrificed on the other. The amount herein asked for $800,000, is no more than necessary to maintain the present efficiency of medical administration under the conditions which are likely to continue during the fiscal year 1915.

In compliance with section 6 of the sundry civil act approved Aug. 24, 1912, I append the following statement showing the number of persons employed and the expenditures made or obligated out of the appropriation "Medical and Hospital Department, 1913," under the several heads thereof, and the number of persons expected to be employed and other expenditures contemplated under the same heads during the fiscal year 1915. The number of employees being a fluctuating quantity as the needs of the military situation vary, the pay roll of June, 1913, has been taken as exhibiting the required data respecting them at the latest date available. The total thereof is $12,169.17, as against aggregate payments on this account made or obligated during the entire fiscal year 1913 amounting to $144,579.53. It is to be understood also that the amounts exhibited under the other heads for 1913, while for the most part based upon accounts and claims actually settled prior to the date of this tabulation, are nevertheless in part necessarily estimated, as many claims are yet outstanding of which the Surgeon General can have no certain knowledge until they are presented for settlement. It should be added that while it is expected that the expenditures during the fiscal year 1915 for the several objects of expenditure enumerated will approximate the amounts set opposite them, respectively, it is quite impossible to forecast with certainty the amount of sickness that will require relief during that year or the exigencies that may arise which might cause a particularly heavy draft under one or more of these heads. If the total amount appropriated for 1915 is disbursable as one fund, a single working margin for safety will suffice, since in the usual course of events fluctuations of expenditure under the several heads will about balance one another, i. e., an increase of expenditures under one head over the amount expected would in all likelihood be counterbalanced by a decrease or decreases under some of the other heads. But if the several items are to constitute distinct appropriations, then a separate working margin will be needed for each to prevent distress and suffering among the sick—say an increase of 20 per cent under each heading.—*George H. Torney, Surgeon General, U. S. Army.*

| Express charges and local transfers | 1,500.00 | 1,251.02 |
| Gas and electricity for laboratory apparatus | 1,800.00 | 1,620.04 |
| Customs and internal-revenue taxes on Medical Department supplies | 400.00 | 385.80 |
| Miscellaneous | 200.00 | 196.93 |
| Total | 800,000.00 | 697,419.41 |

*Army Medical Museum and Library*—

For Army Medical Museum, preservation of specimens, and the preparation and purchase of new specimens (*act Mar. 2, 1913, vol. 37, p. 719, sec. 1*)..... $5,000.00

For the library of the Surgeon General's office, including the purchase of necessary books of reference and periodicals (*act Mar. 2, 1913, vol. 37, pp. 718, 719, sec. 1*)..... 10,000.00 $15,000.00 $15,000.00

BUREAU OF INSULAR AFFAIRS.

*Care of Insane Filipino Soldiers*—

For care, maintenance, and treatment at asylums in the Philippine Islands of insane natives of the Philippine Islands cared for in such institutions conformably to the act of Congress approved May 11, 1908 (35 Stats., 122) (*acts May 11, 1908, vol. 35, p. 122, sec. 1; Mar. 2, 1913, vol. 37, p. 719, sec. 1*)..... 2,000.00 2,000.00

*Care of Insane Soldiers, Porto Rico Regiment of Infantry*—

For care, maintenance, and treatment at asylums in Porto Rico of insane soldiers of the Porto Rico Regiment of Infantry (*acts June 25, 1910, vol. 36, p. 724, sec. 1; Mar. 2, 1913, vol. 37, p. 719, sec. 1*)..... 500.00 500.00

ENGINEER DEPARTMENT.

*Engineer Depots*—

For incidental expenses for the depots, including fuel, lights, chemicals, stationery, hardware, machinery, pay of civilian clerks, mechanics, laborers, and other employees, extra duty pay to soldiers necessarily employed for periods not less than ten days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine drivers, telegraph operators, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers; for lumber and materials and for labor for packing and crating engineer supplies; repairs of, and for materials to repair, public buildings, machinery, *and instruments*, and for unforseen expenses (*act Mar. 2, 1913, vol. 37, p. 719, sec. 1*)..... 30,000.00 30,000.00

NOTE.—Estimated as necessary for current operations of the depots, including the repair of instruments, heretofore provided for separately. The words "and other employees" have been inserted to provide for the payment of civilian employees that strictly could not be classed as clerks, mechanics, or laborers. No separate estimate is submitted for "purchase and repair of instruments to be issued to officers of the Corps of Engineers and to officers detailed and on duty as acting engineer officers for the civil works surveys," as funds for the purchase of additional instruments are not required at this time, but the words "and instruments" have been inserted in the above estimate to provide for the repair of instruments.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Engineer School, Washington, D. C.*— | | |
| Equipment and maintenance of the Engineer School at Washington Barracks, District of Columbia, including purchase of instruments, machinery, implements, models, and materials, for the use of the school and for instruction of Engineer troops in their special duties as sappers and miners; for land mining, pontoniering, and signaling; for purchase and binding of professional works and periodicals of recent date treating of military and civil engineering and kindred scientific subjects for the library of the United States Engineer School; for incidental expenses of the school, including fuel, lights, chemicals, stationery, hardware, machinery, and boats; for pay of civilian clerks, draftsmen, electricians, mechanics, and laborers; compensation of civilian lecturers and payment of tuition fees of student officers at civil technical institutions; for extra-duty pay to soldiers necessarily employed for periods not less than ten days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine drivers, telegraph operators, telephone operators, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers; for repairs of and materials to repair public buildings and machinery; for unforseen expenses; for travel expenses of officers on journeys approved by the Secretary of War and made for the purpose of instruction: *Provided*, That the traveling expenses herein provided for shall be in lieu of mileage and other allowances; and to provide means for the theoretical and practical instruction at the Engineer School by the purchase of textbooks, books of reference, scientific and professional papers, and for other absolutely necessary expenses: *Provided*, That section 3648, Revised Statutes, shall not apply to subscriptions for foreign and professional newspapers and periodicals to be paid for from this appropriation (*act Mar. 2, 1913, vol. 37, p. 719, sec. 1*)..... | $25,000.00 | $25,000.00 |
| NOTE.—The last proviso in the language above suggested is recommended in order to relieve the school of embarrassment in subscribing for foreign publications. Difficulty is at present experienced in inducing foreign publishers to accept subscriptions unless the subscription price be prepaid.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| *Engineer Equipment of Troops*— | | |
| For pontoon material, tools, instruments, supplies, and appliances required for use in the engineer equipment of troops, for military surveys, and for engineer operations in the field, including the purchase and preparation of engineer manuals (*act Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | 50,000.00 | 50,000.00 |
| NOTE.—Estimated as necessary for maintenance of the available pontoon equipage and for new equipage, for maintenance of the engineer equipment prescribed for posts and for engineer and other line troops, and the accumulation of suitable reserves, and for the tools, instruments, supplies, and appliances required for military surveys and engineer operations in the field.<br>The words "and appliances" and "and for engineer operations in the field" are inserted for the sake of clearness and for the purpose of covering such items as field searchlights, field pile drivers, etc., which can not properly be classed as tools, instruments, and supplies, but which are required for engineer operations in the field, and will normally form part of the Engineer field parks. The words "for military surveys" are inserted with a view to covering the instruments, supplies, etc., required for military surveys.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| *Civilian Assistants to Engineer Officers*— | | |
| For services of surveyors, survey parties, draftsmen, photographers, master laborers, and clerks to Engineer officers on the staff of division, corps, and department commanders (*act of Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | 40,000.00 | 40,000.00 |
| *Contingencies, Engineer Department, Philippine Islands*— | | |
| For contingent expenses incident to the operations of the Engineer Department in the Philippine Islands, to be expended at the discretion of the Secretary of War (*act Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | 5,000.00 | 5,000.00 |
| Hereafter in the settlement of transactions between appropriations under the Engineer Department, or between the Engineer Department and another office or bureau of the War Department, or of any other executive department of the Government, payment therefor shall be made by the proper disbursing officer of the Corps of Engineers or of the office, bureau, or department concerned (*submitted*). | | |
| NOTE.—In the prosecution of public works under the Engineer Department occasion frequently arises for transfer of construction plant, which has been purchased from one appropriation and used on the work for which the appropriation was made, to another work carried on under another appropriation, settlement for the plant so transferred being made, on a properly assessed valuation of the plant, between the appropriations concerned.<br>It also frequently happens that the Engineer Department renders services for another bureau of the War Department or another executive department of the Government, settlement for which is made between the appropriations of the Engineer Department and those of the bureau or department concerned.<br>In these transactions and numerous others where settlement between appropriations is involved settlement is made by charging and crediting upon the books of the Treasury Department the appropriations concerned—a process which causes considerable clerical labor and frequently considerable delay, and this new legislation is believed to be in the interest of economy and simplicity.<br>The proposed legislation extends to the Engineer Department authority similar to that granted to the then Subsistence Department by a provision in the act making appropriations for the support of the Army, approved Mar. 3, 1911, and to the Ordnance Department by a provision in a similar act, approved Aug. 24, 1912.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| ORDNANCE DEPARTMENT. | | |
| *Ordnance Service*— | | |
| For the current expenses of the Ordnance Department, in connection with purchasing, receiving, storing, and issuing ordnance and ordnance stores, comprising police and office duties, rents, tolls, fuel, light, water, and advertising, stationery, *printing, binding, and blank books*, typewriters and adding machines including their exchange, and office furniture, tools, and instruments of service; for incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance stores; for publications | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Ordnance Service*—Continued. | | |
| for libraries of the Ordnance Department, including the Ordnance Office; subscriptions to periodicals which may be paid for in advance, and payment for mechanical labor in the office of the Chief of Ordnance (*act Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | $300.000.00 | $300,000 00 |

NOTE.—This is the same amount as was appropriated for the fiscal year 1914, and is necessary for the proper conduct of the ordnance service.

Of the amount herein estimated for $135,000 is chargeable to the expenses of Coast Artillery, and $165,000 to the mobile Army.

The italicized words in the verbiage of the appropriation—"*printing, binding, and blank books*"—are added in view of the provision contained in Senate bill 825, Sixty-third Congress, first session, introduced Apr. 12, 1913, entitled "A bill to amend, revise, and codify the laws relating to the public printing and binding and the distribution of Government publications," as follows: " * * * and no appropriations other than those made specifically for printing and binding shall be used for such purposes * * * " (p. 20, lines 4, 5, and 6). Approximately $15,000 is annually expended out of this appropriation for the printing, binding, and blank books required in conducting the operations of the Ordnance Department.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Ordnance Stores—Ammunition—* | | |
| Manufacture and purchase of ammunition and materials therefor for small arms for reserve supply; ammunition for burials at the National Soldiers' Home in Washington, D. C.; ammunition for firing the morning and evening gun at military posts prescribed by General Orders, No. 70, Headquarters of the Army, dated July 23, 1867, and at National Home for Disabled Volunteer Soldiers and its several branches, including National Soldiers' Home in Washington, D. C., and soldiers' and sailors' State homes, *including necessary printing, binding, and blank books (act Mar. 2, 1913, vol. 37, p. 720, sec. 1)*..... | $250,000.00 | $200,000.00 |

NOTE.—Estimated to procure a reserve supply of ball and guard cartridges, caliber .30, model of 1906, sodium nitrate, and ball cartridges for revolvers and pistols; also for ammunition for burials at National Soldiers' Home, and for morning and evening guns.

Of the amount estimated, $16,315 is chargeable to the expenses of Coast Artillery and $233,685 to the mobile army. The amount estimated is $50,000 in excess of that appropriated for the fiscal year 1914. Approximately $39,410.43 is required for the maintenance, upkeep, and operation of the present authorized strength of the Army, and approximately $210,589.57 is estimated for improvement of present conditions in accumulating a better reserve supply of rifle and pistol ammunition, sodium nitrate, etc.

The italicized words in the verbiage of the appropriation—"including necessary printing, binding, and blank books"—are added for the reasons given under the appropriation "Ordnance service." The cost of printing and binding the blank forms, etc., required in connection with the production and issue of reserve small-arms ammunition is paid for out of this appropriation.—*William Crozier, Brigadier General, Chief of Ordnance.*

| | | |
|---|---|---|
| *Small-Arms Target Practice—* | | |
| Ammunition, targets, and other accessories for small-arms and machine-gun target practice and instruction; marksmen's medals, prize arms, and insignia for all arms of the service, *including necessary printing, binding, and blank books;* and ammunition, targets, target material, and other accessories may be issued for small-arms target practice and instruction at the educational institutions and State soldiers' and sailors' orphans' homes, to which issues of small arms are lawfully made, under such regulations as the Secretary of War may prescribe, provided the total value of the stores so issued to the educational institutions does not exceed $30,000 (*act Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | 825,000.00 | 750,000.00 |

NOTE.—This is $75,000 in excess of the amount appropriated for the fiscal year 1914; the increase is made necessary by increased demands upon this appropriation by reason of battle practices and machine-gun target practice and the increase of number of men in the Army, the consumption of ammunition for these purposes, and due to the issue of a larger number of machine guns to the service having materially increased.

Of the amount estimated $96,766.92 is chargeable to the expenses of Coast Artillery and $728,233.08 is chargeable to the mobile army.

This should procure ball cartridges, caliber .30, model of 1906, revolver and pistol ball cartridges, blank cartridges, and gallery-practice cartridges for the target year, and in addition the necessary target materials, marksmen's medals and insignia, etc. This estimate is based on the allowance of ammunition per man prescribed in Circular No. 1, dated Office of the Chief of Ordnance, War Department, Washington, Feb. 24, 1913.

This estimate also includes sufficient ammunition, targets, etc., to provide the Philippine Scouts with the same allowances as regular troops, in accordance with the instructions of the Secretary of War, dated Aug. 10, 1905.

The italicized words in the verbiage of the appropriation—"printing, binding, and blank books"—are added in view of the provisions of Senate bill No. 825, now pending, as explained under the appropriation "Ordnance service." The cost of printing and binding blank forms required in connection with target practice is paid from this appropriation.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Small-arms target practice.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Manufacture of Arms*— | | |
| For manufacturing, repairing, procuring, and issuing arms at the national armories, *including necessary printing, binding, and blank books* (*act. Mar. 2, 1913, vol. 37, p. 720, sec. 1*)..... | $500,000.00 | $600,000.00 |

*Provided*, That the Secretary of War is hereby authorized to issue, without expense to the United States, for use in target practice, United States magazine rifles and appendages therefor, not of the existing service model and not necessary for the maintenance of a proper reserve supply, together with 40 rounds of ball cartridges suitable to said arm, for each range at which target practice is had, not to exceed a total of 120 rounds per year per man participating in target practice, to rifle clubs organized under the rules of the National Board for the Promotion of Rifle Practice and to schools having a uniformed corps of cadets and carrying on military training, in sufficient number for the conduct of proper target practice.

Issues of public property under this provision shall be made in compliance with regulations prescribed by the Secretary of War insuring the designed use of the property issued, providing against loss to the United States through lack of proper care, and for the return of the property when required, and embodying such other requirements as he may consider necessary adequately to safeguard the interests of the United States (*submitted*).

NOTE.—The $500,000 stated above is estimated to procure 25,885 U. S. magazine rifles, caliber .30, model of 1903; 25,855 bayonets, and 25,855 bayonet scabbards; overhauling, repairing, and issuing arms, amounting to $97,697.59. Of the amount estimated, $97,697.59 is required for maintenance, upkeep, and operation of the present authorized strength of the Army, and $402,302.41 is for improvement of conditions, in accumulating the prescribed reserve supply of rifles, bayonets, bayonet scabbards, etc. The entire amount is chargeable to the mobile army.

With reference to the provision authorizing the issue of rifles, not of the service type, to rifle clubs, uniformed corps of cadets, etc., it may be stated that the small number of rifles sold under the provisions of the act of Mar. 3, 1909, to rifle clubs formed under the regulations of the National Board for the Promotion of Rifle Practice, indicates that the law is not accomplishing its purpose. If as many as 10 persons should be using each rifle purchased by a club, the total number would not exceed 4,000, while very moderate success in promoting skill in the use of the rifle would call for at least 100,000 men practicing with it. The arms and ammunition necessary to carry out the object of the proposed legislation are on hand and available for the purpose.

The italicized words in the verbiage of the appropriation—"including the necessary printing, binding, and blank books"—are added for the reasons stated in the note under "Ordnance service." The cost of printing and binding pamphlets of instruction for the use and care of the arms, as well as the necessary blank forms connected with their manufacture, is paid from this appropriation.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Ordnance Stores and Supplies*—

For overhauling, cleaning, repairing, and preserving ordnance and ordnance stores in the hands of troops and at the arsenals, posts, and depots; for purchase and manufacture of ordnance stores to fill requisitions of troops; for infantry, cavalry, and artillery equipments, including horse equipments for cavalry and artillery, *and the necessary printing, binding, and blank books (act Mar. 2, 1913, vol. 37, p. 720, sec. 1)*..... $900,000.00 $700,000.00

NOTE.—Estimated to procure ordnance and ordnance stores for issue to troops, including cleaning, repairing, and preserving supplies; for overhauling, cleaning, repairing, and preserving ordnance and ordnance stores at arsenals, posts, and depots; and for supplies for cleaning and preserving equipments.

The amount asked for is $100,000 in excess of that estimated for last year, and $200,000 in excess of that appropriated for the fiscal year 1914. The increased amount is required to supply the new cavalry equipment which, upon the recommendation of the Cavalry Equipment Board will be adopted for that branch of the service, to one regiment, and to provide harness for 5 additional batteries (or a total of 15 batteries) of field artillery. Of the amount estimated, $586,838.05 is for maintenance, upkeep, and operation of the present authorized strength of the Army, and $313,161.95 is for improvement of conditions in accumulating a proper reserve of personal and horse equipments and artillery harness for a mobile army of 450,000 men, and furnishing one regiment of cavalry with the new equipment adopted for that branch of the service.

The italicized words in the verbiage of the appropriation—"and the necessary printing, binding, and blank books"—are added for the reasons stated under the appropriation "Ordnance service." The cost of printing and binding the necessary blank forms in connection with the object of this appropriation is paid therefrom.—*William Crozier, Brigadier General, Chief of Ordnance.*

*National Trophy and Medals for Rifle Contests*—

For the purpose of furnishing a national trophy and medals and other prizes to be provided and contested for annually, under such regulations as may be prescribed by the Secretary of War, said contest to be open to the Army, Navy, Marine Corps, and the National Guard or Organized Militia of the several States, Territories, and of the District of Columbia, members of rifle clubs, and civilians, and for the cost of the trophy, prizes, and medals herein provided for, and for the promotion of rifle practice throughout the United States, including the reimbursement of necessary expenses of members of the National Board for the Promotion of Rifle Practice, *and the necessary printing, binding, and blank books*, to be expended for the purposes hereinbefore prescribed under the direction of the Secretary of War (*act Mar. 2, 1913, vol. 37, p. 721, sec. 1*)..... $10,000.00 $10,000.00

NOTE.—This is the amount appropriated annually for several years. The entire amount is chargeable to the mobile army, and is required for maintenance, upkeep, and operation of the present authorized strength of the Army.

The italicized words in the verbiage of the appropriation—"and the necessary printing, binding, and blank books"—are added for the reasons stated under the appropriation "Ordnance Service." The cost of the necessary printing and binding in connection with the object of this appropriation is paid therefrom.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Automatic Machine Rifles*—

For the purchase, manufacture, and test of automatic machine rifles, including their sights and equipments, *and the payment of royalties on automatic machine rifles, and including also the necessary printing, binding, and blank books*, to be available until the close of the fiscal year ending June 30, 1916 (*act Mar. 2, 1913, vol. 37, p. 721, sec. 1*)..... 150,000.00

NOTE.—The amount estimated is intended to cover the contract authorization contained in the Army appropriation act approved Mar. 2, 1913.

The project for equipping the Army with machine guns contemplates the supply of 1,811 guns. At the present time 1,380 guns have been provided, leaving 431 still to be provided.

The italicized words in the verbiage of the appropriation—"and the payment of royalties on automatic machine rifles"—are added in order to provide for the payment of such royalties. Legislation making similar provision with respect to prior appropriations for automatic machine rifles is contained in the Army appropriation act approved Mar. 2, 1913.

The italicized words—"and including also the necessary printing, binding, and blank books"—are added for the reasons stated under the appropriation "Ordnance service." The cost of printing the necessary blank forms, and binding same, in connection with the object of this appropriation is paid therefrom.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Field Artillery for Organized Militia*— | | |
| For the purpose of procuring field artillery material for the Organized Militia of the several States, Territories, and the District of Columbia, *including the necessary printing, binding, and blank books*, without cost to the said States, Territories, or the District of Columbia, but to remain the property of the United States and to be accounted for in the manner now prescribed by law, the Secretary of War is hereby authorized, under such regulations as he may prescribe, on the requisitions of the governors of the several States and Territories or the commanding general of the militia of the District of Columbia, to issue said artillery material to the Organized Militia; and the sum of $2,100,000 is hereby appropriated and made immediately available and to remain available until the end of the fiscal year 1916 for the procurement and issue of the articles constituting the same (*act Mar. 2, 1913, vol. 37, p. 721, sec. 1*)..... | $2,100,000.00 | $1,000,000.00 |

NOTE.—Estimated to procure 4 batteries of 3-inch guns, 4 batteries of 4.7-inch howitzers, 2 batteries of 4.7-inch guns, 2 batteries of 6-inch howitzers, and 3 ammunition batteries for 3-inch gun, complete, with tools, accessories, spare parts, fire-control instruments, horse equipments, personal equipments, etc.

The estimated cost of the artillery matériel remaining to be provided for the Organized Militia, under present projects, is $15,651,419. The time required to provide the remaining matériel at the rate of appropriation for the fiscal year 1914 is 15½ years; at the rate of present estimates, 7 years.

The entire amount estimated is for improvement of conditions. The supply of this class of equipment is less satisfactory than that of any other furnished by the Ordnance Department, except the ammunition for field artillery. The appropriations for the last 2 years have been somewhat larger than for several years prior to that time, but it is hoped that still larger annual appropriations may be made, as even the present rate is not such as to provide a sufficient amount within a reasonable time.

The italicized words in the verbiage of the appropriation—"including the necessary printing, binding, and blank books"—are added for the reasons stated under the appropriation "Ordnance service." The cost of the necessary printing and binding in connection with the object of this appropriation is paid therefrom.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Ammunition for Field Artillery for Organized Militia*— | | |
| For procuring reserve ammunition for field artillery for the Organized Militia of the several States, Territories, and the District of Columbia, *including necessary printing, binding, and blank books*, the funds to be immediately available and to remain available until the end of the fiscal year ending June 30, 1916 (*act Mar. 2, 1913, vol. 37, p. 721, sec. 1*)..... | $3,000,000.00 | $500,000.00 |

NOTE.—The increase of $2,500,000 over the amount appropriated by the Army appropriation act approved Mar. 2, 1913, is needed in order to provide within a more reasonable time the amount of ammunition prescribed as the the allowance for the mobile artillery. The supply of field-artillery ammunition is less satisfactory than that of any other class of equipment furnished by the Ordnance Department, and is wholly insufficient to meet the needs for war service, for guns already provided. The present supply is so limited as to be a matter of grave concern. The entire amount estimated is for improvement of conditions.

The italicized words in the verbiage of the appropriation—"including necessary printing, binding, and blank books"—are added for the reasons stated under the appropriation "Ordnance service."—*William Crozier, Brigadier General, Chief of Ordnance.*

*Ammunition for Field Artillery for Organized Militia.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Replacing Ordnance and Ordnance Stores Destroyed by Fire, Benicia Arsenal, Cal.*— | | | |
| For replacing ordnance and ordnance stores destroyed by fire at the Benicia Arsenal, Benicia, Cal., on Oct. 18, 1912, the funds to be immediately available and to remain available until the close of the fiscal year ending June 30, 1916, as follows: | | | |
| For infantry, cavalry, and artillery equipments, including horse equipments (*submitted*) | $541,583.21 | | |
| For artillery harness (*submitted*) | 35,273.34 | | |
| For drafting and photographic supplies for use in connection with seacoast artillery-practice (*submitted*) | 1,496.15 | | |
| For carpenter's tools for use in connection with mobile artillery (ordnance stores and supplies) (*submitted*) | 735.21 | | |
| For small-arms ammunition (ordnance stores—ammunition) (*submitted*) | 486,215.55 | | |
| For small arms and spare parts thereof (manufacture of arms) (*submitted*) | 239,750.57 | | |
| For machine guns, their spare parts and accessories (automatic machine rifles) (*submitted*) | 19,080.40 | | |
| For material for small-arms practice (small-arms target practice) (*submitted*) | 16,123.88 | | |
| For miscellaneous tools and implements for general use, publications pertaining to ordnance material, its use, care and preservation, etc. (*submitted*) | 8,724.75 | | |
| | | $1,349,083.06 | |
| NOTE.—These stores are needed for current use, and for the reserve of ordnance stores, already low in most instances, and their loss depletes that reserve to that extent. The department carries no fire insurance on its ordnance and ordnance stores, and has no funds from which those lost could be replaced. A specific appropriation for the purpose is therefore necessary.<br>The title of the appropriation from which the ordnance or ordnance stores were originally procured is given in parenthesis after each item or group of items.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| Hereafter printing, binding, and blank books required for use outside of the District of Columbia in connection with the support of the Army and the militia may be done or procured elsewhere than at the Government Printing Office when, in the opinion of the Secretary of War, such work can be more advantageously done or procured locally, the cost thereof to be paid from the proper appropriations (*submitted*). | | | |
| NOTE.—This legislation is desirable in view of the provision contained in Senate bill 825, Sixty-third Congress, first session, introduced Apr. 12, 1913, entitled "To amend, revise, and codify the laws relating to the public printing and binding and the distribution of Government publications," to the effect that all printing and binding shall be done at and blank books procured from the Government Printing Office.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| Appropriations for 1914 not asked for 1915: | | | |
| Washington-Alaska military cable and telegraph system | | | $50,000.00 |
| Pontoon shed, Washington Barracks, D. C | | | 15,000.00 |
| Total, Support of the Army | | 104,947,758.65 | 94,241,145.51 |
| MILITARY ACADEMY. | | | |
| *Pay of Military Academy*— | | | |
| Permanent establishment: | | | |
| For pay of 7 professors (increase of $1,000 submitted) (*R. S. 228, sec. 1336, p. 225, sec. 1309; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1015; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | $26,500.00 | | |
| NOTE.—Increase due to operation of R. S. 1336 and act of Congress making appropriations for Military Academy approved Aug. 9, 1912.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 1 chaplain (increase of $600 submitted) (*acts Feb. 18, 1896, vol. 29, p. 8, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1015; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 3,000.00 | | |
| NOTE.—The present pay is entirely out of proportion for a man of the abilities and influence required at this academy. He should at least have the pay and allowances of a major.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of the master of the sword (increase of $600 submitted) (*R. S. p. 225, sec. 1309; acts Mar. 3, 1905, vol. 33, p. 850, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1015; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 3,000.00 | | |
| *Provided*, That the master of the sword shall have the relative rank and shall be entitled to the pay, allowances, and emoluments of a major. | | | |
| NOTE.—This instructor was appointed master of the sword on Feb. 1, 1885. Recognizing the importance of a thorough course in physical training, the authorities directed him to evolve a system of physical training that would meet the requirements peculiar to this institution, and as a result of his efforts, the Military Academy possesses a course of training which because of its thoroughness, efficiency, and rationality, is believed to be superior to that of any other institution.<br>In 1901, Congress recognized the efforts of this instructor by providing him with the relative rank of first lieutenant and changing his status to that of master of the sword, instructor of military gymnastics and physical culture; in 1905 Congress increased his rank to that of captain. At that time this training was confined to members of the fourth (freshman) class only, and for 15 years he conducted this work without assistants.<br>In 1906, by direction of the President, the course was extended to include all classes, and since that time the entire corps has been receiving regular instruction in gymnastics, fencing, swimming, boxing, and wrestling under this instructor, assisted by 1 officer and 3 civilian assistants.<br>Since all cadets who graduate from the academy are trained to conduct this work in the service, it might be said that the instructor of military gymnastics and physical culture at this institution is indirectly responsible for the physical training in the Army; the authorized manuals used in the Army were written by him, by direction of the War Department.<br>The increase is recommended on account of the added responsibility and labor which has been placed upon him and is a reward for a lifetime unselfishly and unstintingly spent in devotion to a cause that has left its indelible impress upon more than a generation of cadets.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Pay of Military Academy*—Continued. | | | |
| Permanent establishment—Continued. | | | |
| For pay of cadets (increase of $30,000 submitted) (*R. S., p. 226, sec. 1315; acts June 6, 1909, vol. 31, p. 656; June 28, 1902, vol. 32, p. 410; May 3, 1903, vol. 32, p. 1011; Mar. 3, 1911, vol. 36, p. 1015; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | $390,000.00 | | |
| | | $422,500.00 | |
| NOTE.—While it is not expected that the Corps of Cadets will be of authorized maximum strength, this estimate is based on that number to avoid the possibility of a deficiency.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| *Provided*, That the present manager of the cadet store shall, on his own application, after 40 years' service as clerk, superintendent, and manager of said store, be entitled to be placed on the retired list of the Army with the pay of a retired pay clerk, Quartermaster Corps, of the same period of service. | | | |
| NOTE.—The position of this manager is one of the most important connected with supplies at the academy. It is one requiring large business ability and experience, and that should hold out to the very modestly paid incumbent the reward of retired pay for long and faithful service. Men of ability and experience to fill this position satisfactorily can secure a much larger salary in civil life.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For extra pay of officers of the Army on detached service at the Military Academy: | | | |
| For pay of 1 commandant of cadets (lieutenant colonel, in addition to pay as major) (*R. S., p. 228, sec. 1334; acts Mar. 4, 1911, vol. 36, p. 1302; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 500.00 | | |
| For pay of 1 professor of ordnance and science of gunnery (lieutenant colonel, in addition to pay as major) (*acts May 2, 1907, vol. 34, p. 1063, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 500.00 | | |
| For pay of 1 professor of law (lieutenant colonel, in addition to pay as major) (*R. S., p. 225, sec. 1309; R. S., p. 228, sec. 1336; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 500.00 | | |
| For pay of 1 instructor of practical military engineering (major, in addition to pay as captain) (*R. S., p. 228, sec. 1336; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 600.00 | | |
| *Provided*, That the position shall be filled by the detail of an officer of the Army not above the grade of major, who while so serving shall have the rank, pay, and allowances of the grade next above that actually held by him in the Army. | | | |
| NOTE.—This item, exclusive of the proviso, is an old one and has appeared in these terms in the annual appropriation acts for a great many years. The proviso was submitted last year and was approved by the War Department and was included in the Book of Estimates. It will occasion no increase in cost of maintaining the Academy, but will increase the efficiency of this department of instruction.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 11 assistant professors (captains, in addition to pay as first lieutenants) (*R. S., p. 225, sec. 1309; R. S., p. 228, sec. 1337; acts Apr. 29, 1912, vol. 23, p. 720, sec. 2; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 4,400.00 | | |
| For pay of 2 battalion commanders (majors, in addition to pay as captains) (*acts May 11, 1908, vol. 35, p. 108, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 1,200.00 | | |
| For pay of 2 senior assistant instructors of Artillery tactics and practical military engineering (captains, in addition to pay as first lieutenants) (*R. S., p. 228, sec. 1337; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 800.00 | | |
| For pay of 7 instructors of Cavalry, Artillery, and Infantry tactics (captains, in addition to pay as second lieutenants) (*R. S., p. 228, sec. 1337; acts Mar. 3, 1875, vol. 18, p. 467, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 4,900.00 | | |
| For pay of 1 adjutant, who shall not be above the rank of captain (*R. S., p. 226, sec. 1309; acts Mar. 4, 1909, vol. 35, p. 1028, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 856, sec. 1*) | 600.00 | | |
| For pay of 1 quartermaster and commissary of cadets and treasurer, in addition to pay as captain (*acts May 11, 1908, vol. 35, p. 108, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 600.00 | | |
| For pay of 1 line officer, on duty in the quartermaster's department at academy, in addition to pay as first lieutenant (*acts June 6, 1900, vol. 31, p. 911, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 400.00 | | |
| For pay of 1 associate professor of mathematics (major, in addition to pay as captain) (*acts Mar. 3, 1905, vol. 33, p. 850, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 600.00 | | |
| For pay of 1 associate professor of modern languages (major, in addition to pay as captain) (*acts Mar. 3, 1903, vol. 32, p. 1013, sec. 1; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 600.00 | | |
| For pay of 1 constructing quartermaster, in addition to his regular pay (*acts Mar. 4, 1909, vol. 35, p. 1028, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 1,000.00 | | |
| | | 17,200.00 | |
| For additional pay of professors and officers (and officers on increased rank) for length of service (*R. S., p. 220, secs. 1262, 1263; p. 228, sec. 1336; acts May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | | 12,000.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Pay of Military Academy*—Continued. | | | |
| For pay of the Military Academy band, field musicians, general Army service, Cavalry, and Artillery and Engineer detachments, and enlisted men on detached service, and extra pay for enlisted men on special duty: | | | |
| For pay of Military Academy band— | | | |
| One band sergeant and assistant leader, at $75 per month (*acts Mar. 2, 1901, vol. 31, p. 712, sec. 1; Mar. 3, 1905, vol. 33, p. 853, sec. 1; May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | $900.00 | | |
| Twelve enlisted musicians, at $45 each per month (*same acts*) | 6,480.00 | | |
| Twelve enlisted musicians, at $36 each per month (*same acts*) | 5,184.00 | | |
| Sixteen enlisted musicians, at $30 each per month (*same acts*) | 5,760.00 | | |
| | | $18,324.00 | |
| Additional pay for length of service (*acts May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | | 4,900.00 | |
| For pay of field musicians— | | | |
| One sergeant at $50 per month (*acts Mar. 2, 1901, vol. 31, p. 712, sec. 1; Mar. 3, 1905, vol. 33, p. 853, sec. 1; May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 431, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 600.00 | | |
| One corporal, at $21 per month (*same acts*) | 252.00 | | |
| Twenty-two privates, at $15 each per month (*same acts*) | 3,960.00 | | |
| | | 4,812.00 | |
| Additional pay for length of service (*same acts*) | | 720.00 | |
| For pay of general Army-service detachment— | | | |
| One first sergeant, at $45 per month (*acts of May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 540.00 | | |
| Eight sergeants, at $30 each per month (*same acts*) | 2,880.00 | | |
| Nine corporals, at $21 each per month (*acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1016; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 2,268.00 | | |
| Three cooks, at $30 each per month (*same acts*) | 1,080.00 | | |
| One hundred and eighty privates, at $15 each per month (*same acts*) | 32,400.00 | | |
| Extra pay of the enlisted men of the Army-service detachment, Quartermaster Corps, on extra duty at West Point (*acts Mar. 2, 1907, vol. 34, p. 1064, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 24,000.00 | | |
| | | 63,168.00 | |
| Additional pay for length of service (*same acts*) | | 18,000.00 | |
| For pay of Cavalry detachment— | | | |
| One first sergeant, at $45 per month (*acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | 540.00 | | |
| One stable sergeant, at $30 per month (*same acts*) | 360.00 | | |
| Five sergeants, at $30 each per month (*same acts*) | 1,800.00 | | |
| Three cooks, at $30 each per month (*same acts*) | 1,080.00 | | |
| Eleven corporals, at $21 each per month (*same acts*) | 2,772.00 | | |
| Two trumpeters, at $15 each per month (*same acts*) | 360.00 | | |
| Three horseshoers, at $30 each per month (*same acts*) | 1,080.00 | | |
| One farrier, at $21 per month (*same acts*) | 252.00 | | |
| Two saddlers, at $21 each per month (increase of one saddler submitted) (*same acts*) | 504.00 | | |
| One wagoner, at $21 per month (*same acts*) | 252.00 | | |
| One hundred privates, Cavalry, at $15 each per month (*same acts*) | 18,000.00 | | |
| For additional pay of one sergeant in charge of mess, at $6 per month (*submitted*) | 72.00 | | |
| | | 27,072.00 | |
| Additional pay for length of service (*acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 857, sec. 1*) | | 12,275.00 | |
| NOTE.—The above makes the following increase in this detachment: One saddler. There is more equipment in this detachment than in two troops of Cavalry. To keep it in repair it has been necessary to detail a man from his other duties. Increase of additional pay of $72 for a mess sergeant, which is the same amount received by mess sergeants in troops and companies.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent, U. S. Military Academy.* | | | |
| For pay of Artillery detachment— | | | |
| One first sergeant, at $45 per month (*acts May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 481, sec. 1; May 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, pp. 857, 858, sec. 1*) | 540.00 | | |
| One quartermaster sergeant, at $30 per month (*same acts*) | 360.00 | | |
| One stable sergeant, at $30 per month (*same acts*) | 360.00 | | |
| One chief mechanic, at $24 per month (*same acts*) | 288.00 | | |
| Six sergeants, at $30 each per month (*same acts*) | 2,160.00 | | |
| Three cooks, at $30 each per month (*same acts*) | 1,080.00 | | |
| Twelve corporals, at $21 each per month (*same acts*) | 3,024.00 | | |
| Four mechanics, at $21 each per month (*same acts*) | 1,008.00 | | |
| Two trumpeters, at $15 each per month (*same acts*) | 360.00 | | |
| One hundred and twenty-seven privates, at $15 each per month (increase of 25 privates submitted) (*same acts*) | 22,860.00 | | |
| One electrician sergeant, at $45 per month (*same acts*) | 540.00 | | |
| One electrician sergeant, second class, at $36 per month (*same acts*) | 432.00 | | |
| One master gunner, at $40 per month (*same acts*) | 480.00 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Pay of Military Academy*—Continued. | | | |
| For pay of artillery detachment—Continued. | | | |
| One horseshoer (*submitted*) | $360.00 | | |
| For additional pay for first and second class gunners (*acts May 11, 1908, vol. 35, p. 109, sec. 1; May 28, 1908, vol. 35, p. 481, sec. 1; May 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, pp. 857, 858, sec 1*) | 2,103.00 | | |
| For additional pay of 1 sergeant in charge of detachment mess, at $6 per month (*same acts*) | 72.00 | | |
| | | $36,027.00 | |
| Additional pay for length of service (*same acts*) | | 2,253.32 | |
| NOTE.—The items above enumerated are the same as those granted for the fiscal year ending June 30, 1914, except in the following:<br>A horseshoer is allowed all batteries of Field Artillery throughout the Army, and as one of the enlisted men in this detachment performs the duties of horseshoer the item is submitted so as to give this man the same as horseshoers throughout the service.<br>The number of privates is increased by 25, and the consequent pay for gunners, length of service, clothing on discharge, etc., is correspondingly increased.<br>The cadets have no great familiarity with artillery material nor with drills, and it is highly desirable and economical to have experienced men present with each battery to assist in the instruction of cadets, to look out for the material and care for same, which is impossible with the present authorized strength of the Artillery detachment.<br>In view of the fact that the strength of this detachment is but 136 enlisted men (the number authorized by Congress to man and care for only one 3-inch gun battery is 133) it seems necessary to state further reasons for the imperative need of the increase of the 25 men asked for. Every gun and every article of the equipment is absolutely necessary for the proper instruction of cadets. Nothing can be dispensed with, but to properly care for the equipment and to derive a fair degree of interest on the investment more men are necessary in the Artillery detachment. The increase asked for (25) is the lowest number consistent with economy and efficiency.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of Engineer detachment— | | | |
| One first sergeant, at $45 per month (*acts Feb. 2, 1901, vol. 31, p. 750, sec. 11; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1909, vol. 37, p. 733, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 540.00 | | |
| One quartermaster sergeant, at $36 per month (*same acts*) | 432.00 | | |
| Eight sergeants, at $36 each per month (*same acts*) | 3,456.00 | | |
| Ten corporals, at $24 each per month (*acts Feb. 2, 1901, vol. 31, p. 750, sec. 11; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 2,880.00 | | |
| Two cooks, at $30 each per month (*acts Mar. 2, 1899, vol. 30, p. 978, sec. 4; Feb. 2, 1901, vol. 31, p. 750, sec. 11; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 720.00 | | |
| Two musicians, at $15 each per month (*acts Feb. 2, 1901, vol. 31, p. 750, sec. 11; May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 360.00 | | |
| Thirty-eight privates, first class, at $18 each per month (*same acts*) | 8,208.00 | | |
| Thirty-eight privates, second class, at $15 each per month (*same acts*) | 6,840.00 | | |
| For additional pay of 1 sergeant in charge of detachment mess, at $6 per month (*acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1039; Aug. 9, 1912, vol. 37, p. 254, sec. 1; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 72.00 | | |
| | | 23,508.00 | |
| Additional pay for length of service (*same acts*) | | 6,996.00 | |
| NOTE.—The above-enumerated items conform to the act approved Aug. 9, 1912, making appropriation for the support of the Military Academy for the fiscal year ending June 30, 1913, by which act the detachment of engineers stationed at this post was made separate and distinct from the three Battalions of Engineers of the Army. This act provided that the enlisted men of this detachment should have the same pay and allowances as are now or may be hereafter authorized for corresponding grades in the Battalion of Engineers and the items named above cover such pay and allowances.<br>No items not previously authorized have been introduced in any way whatsoever.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| Bonus to enlisted men reenlisting within three months from date of discharge (*acts May 11, 1908, vol. 35, p. 109, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 2,381.00 | | |
| Travel allowances to enlisted men on discharge (*acts Mar. 2, 1901, vol. 31, p. 902, sec. 1; June 12, 1906, vol. 34, p. 247, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 1,082.48 | | |
| Clothing not drawn due enlisted men on discharge (*R. S., p. 224, sec. 1302; R. S., p. 225, sec. 1308; acts Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 10,226.60 | | |
| Interest on deposits due enlisted men on discharge (*R. S., p. 225, secs. 1305–1308; acts June 12, 1906, vol. 34, p. 247, sec. 1; Mar. 3, 1911, vol. 36, p. 1017; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 1,275.16 | | |
| | | 14,965.24 | |
| Extra pay to enlisted men— | | | |
| For extra pay of 3 enlisted men employed as clerks in the office of the adjutant, United States Military Academy, at 50 cents each per day (Sundays and holidays included) (*acts Mar. 3, 1911, vol. 36, p. 1018; Mar. 4, 1913, vol. 37, p. 858, sec. 1*) | 549.50 | | |
| NOTE.—This is an old item, with the exception of the words "Sundays and holidays included," and these words are inserted to insure these clerks getting all the pay that is due them, as they are subject to call at any time.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For extra pay of 2 enlisted men employed as clerks in the office of the commandant of cadets, at 50 cents each per day (*same acts*) | 365.00 | | |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| ***Pay of Military Academy***—Continued. | | |
| Extra pay to enlisted men—Continued. | | |
| For extra pay of 5 enlisted men: 4 as printers and 1 as book-sewer's helper, at headquarters, United States Military Academy, at 50 cents each per day (increase $156.50 submitted) (*acts Mar. 3, 1911, vol. 36, p. 1018; Mar. 4, 1913, vol. 37, p. 858, sec. 1*). | $782.50 | |
| NOTE.—This is an old item only that provision is made for 1 additional enlisted man in the bindery connected with the printing office. The services of another man are urgently needed in the bindery if advantage is to be taken of its well-equipped plant, which is capable of turning out more and much-needed work than it is now doing, owing to the inadequate force. Following is a statement showing the work turned out since July 1, 1912:<br>Books bound..... 16,000<br>Maps mounted..... 250<br>Pamphlets completed, from 30,000 to 40,000; also routine work, such as punching, perforating, and cutting paper for different departments.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For extra pay of 1 enlisted man employed as watchman, at 35 cents per day (*acts Mar. 3, 1911, vol. 36, p. 1018; Mar. 4, 1913, vol. 37, pp. 858, 859, sec. 1*)..... | 191.63 | |
| For extra pay of 1 enlisted man employed as trumpeter at the cadet barracks, at 35 cents per day (*same acts*)..... | 159.69 | |
| For extra pay of 2 enlisted men in the department of philosophy, at 50 cents each per day (*same acts*)..... | 313.00 | |
| NOTE.—This is an old item, but the language is changed because as it appeared in last year's bill it is not strictly correct, inasmuch as it refers wholly to the observatory. Other similar items in the bill have no specific reference to the character of employment, and it will be much better to make the reading the same for all. The apparatus referred to is in the academic building and not in the observatory.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent, U. S. Military Academy.* | | |
| For extra pay of 2 enlisted men employed in the chemical department, at 50 cents each per day (*same acts*)..... | 313.00 | |
| For extra pay of 1 enlisted man employed in the department of drawing, at 50 cents per day (*same acts*)..... | 156.50 | |
| For extra pay of 1 enlisted man employed in the mathematical department, at 50 cents per day (*same acts*)..... | 156.50 | |
| For extra pay of 5 ordnance soldiers employed, 1 as draftsman in charge museum, 1 as machinist, 1 as clerk, 1 in the department of ordnance and gunnery, 1 as skilled attendant in the museum, and 1 employed as carpenter and painter, at 50 cents each per day (*same acts*)..... | 782.50 | |
| For extra pay of 1 noncommissioned officer in charge of Army service detachment mess (*same acts*)..... | 72.00 | |
| For extra pay of 7 enlisted men (cavalrymen) employed, 2 when performing especially skilled mechanical labor, 1 as saddler, 1 in charge of property and saddle equipment pertaining to riding and equitation other than military, 1 sergeant in charge of stables and horses, 1 clerk, and 1 in charge of new riding hall and property, contained therein (*same acts*)..... | 1,173.50 | |
| For extra pay of 13 enlisted men (cavalrymen), 2 teamsters, 9 laborers employed in keeping clean the equipment used by cadets in riding and equitation other than military, and 2 laborers for harrowing, sprinkling, and assisting in caring for the new riding hall, at 35 cents each per day (*same acts*)..... | 1,460.48 | |
| For extra pay of 1 enlisted man on duty in charge of engineer property and fatigue, at 50 cents per day (*same acts*)..... | 156.50 | |
| For extra pay of 4 enlisted men as assistants and attendants at the library, at 50 cents each per day (Sundays and holidays included) (increase $46 submitted) (*same acts*).. | 730.00 | |
| NOTE.—An increase of $46 is asked for to place the enlisted men in the library on the same footing as other enlisted men detailed on extra duty. These men are called upon to work Sundays and holidays in turn, and their services are absolutely necessary to conduct the routine business of the library, which is open daily from 8 a. m. to 9.30 p. m. and used by all the officers and cadets at the post.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For extra pay of 1 enlisted man as clerk in the department of practical military engineering and to the officer in charge of waterworks and works of construction at the Military Academy, at 50 cents per day (*same acts*)..... | 156.50 | |
| For extra pay of 8 enlisted men (artillerymen), 3 performing extra mechanical labor, 1 sergeant in charge of stables, horses, and mules, 1 enlisted man employed as clerk and stenographer to senior instructor of artillery tactics, and 3 enlisted men performing the duty of mechanics in the batteries, at 50 cents each per day (increase of $253.50 submitted) (*same acts*)..... | 1,304.00 | |
| NOTE.—This is an old item and is the same as appeared in the appropriation acts for the support of the academy for the years ending 1913 and 1914, except that the amount has been increased from $1,050.50, a difference of $253.50, which is necessary to pay the 50 cents per day to the three mechanics performing extra mechanical labor in the batteries. It will readily be seen that the amount heretofore appropriated is insufficient to pay all the mechanics on extra duty 50 cents per day, and the additional amount asked for is to give all these mechanics the same rate of pay. These mechanics are employed every day in the year, Sundays excepted, cleaning, repairing, and overhauling the guns, carriages, caissons, limbers, harness, material, and equipment pertaining to the four field batteries and coast artillery fire-control stations, as well as other work in connection with cadet field artillery target practice and cadet instruction which they are called upon to do.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For extra pay of 3 teamsters (artillerymen), at 35 cents each per day (*same acts*)..... | 383.25 | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Pay of Military Academy*—Continued. | | | |
| Extra pay to enlisted men—Continued. | | | |
| For extra pay of 8 laborers (artillerymen), employed in keeping clean the equipment used by cadets, at 35 cents each per day (*act Mar. 4, 1913, vol. 37, p. 859, sec. 1*).... | $876.40 | | |
| For extra pay of 2 enlisted men as messengers in the office of the adjutant, United States Military Academy, at 35 cents each per day (*acts Mar. 3, 1911, vol. 36, p. 1018; Mar. 4, 1913, vol. 37, p. 859, sec. 1*)..... | 219.10 | | |
| For extra pay of 3 enlisted men employed as clerks in the office of the quartermaster, and 1 as clerk in charge of clothing room in quartermaster's storehouse, at 50 cents each per day (*same acts*)..... | 678.00 | | |
| For extra pay of 1 enlisted man employed in the department of civil and military engineering, at 50 cents per day, including legal holidays (*same acts*)..... | 156.50 | | |
| NOTE.—The words "including legal holidays" are added because of a recent decision of the comptroller which deprived this man of his extra pay on these days.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For extra pay of 1 enlisted man employed as janitor and substitute teacher in the children's school, at 50 cents per day (*same acts*)..... | 156.50 | | |
| | | $11,292.55 | |
| Pay of civilians: | | | |
| For pay of 1 teacher of music (*acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019; Mar. 4, 1913, vol. 37, p. 859, sec. 1*)..... | 1,700.00 | | |
| For pay of 4 clerks in the office of the quartermaster, as follows: 1 at $1,500; 2 at $1,400 each; and 1 clerk and stenographer, at $1,200 (*same acts*)..... | 5,500.00 | | |
| For pay of 9 clerks and stenographers employed at headquarters, United States Military Academy, as follows: 1 chief clerk (increase $300 submitted) $1,800, 1 clerk at $1,500, 2 clerks at $1,400 each, 2 clerks at $1,200 each (increase $200 submitted), and 3 clerks at $1,000 each (total increase $500 submitted) (*same acts*)..... | 11,500.00 | | |
| NOTE.—These are all old items and have been carried in the Military Academy bill for years. I have increased the total amount of last year from $11,000 to $11,500 in order to increase the pay of 2 clerks, viz, the chief clerk from $1,500 to $1,800 and the clerk having supervision of the academic section of the office from $1,000 to $1,200. The chief clerk at headquarters, United States Military Academy, does not now receive the same pay as chief clerks at other military headquarters, although the duties of the position are just as responsible and, if anything, more exacting, as the work at the Military Academy embraces all that is done at any large headquarters, and in addition thereto the work incidental to the Military Academy proper. The chief clerks in the quartermaster's office and also of the treasurer's office and cadet store each receive $1,800 and it is only just that the chief clerk at headquarters, the principal office at the academy, should receive a salary commensurate with his duties. This increase was asked for by my predecessor in 1911 and 1912.<br>The other clerk for whom the increase of $200 is asked for is in charge of the academic section of the office. In this section, in addition to the class records of the cadets, is kept the permanent records of the academy so far as concerns the personal history of each cadet; all the academic board records and papers in connection with meetings and deliberations as well as the custody and mailing of the examination papers for candidates. The work of this clerk is largely of a confidential nature, and his pay is not at all commensurate with his duties and responsibilities. Other clerks in the office who are charged with supervision of divisions of the office receive at least $1,200, and I earnestly recommend that the salary of the clerk charged with this work be increased to $1,200 (to be immediately available), as his assistant in this division receives $1,000.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 1 clerk to treasurer (*same acts*)..... | 1,800.00 | | |
| For pay of 2 clerks and stenographers in the office of the commandant of cadets (increase of $1,400 submitted) (*same acts*)..... | 2,400.00 | | |
| NOTE.—The additional clerk asked for is made necessary by the increase of 150 in the size of the Corps of Cadets and the subsequent increase in the number of officers on duty in the department. The clerks in the office of the commandant of cadets handle all papers and records in connection with cadet reports, explanations, punishments, requisitions for supplies, marks, and standings in the course of tactics, permits, and requests for privileges and all orders and communications issued in connection with the administration and discipline of of the Corps of Cadets.<br>The work in the past has been performed by 1 civilian clerk and 2 enlisted men. This force is entirely inadequate to handle the work and keep up to date the records. The pay appropriated for the civilian clerk is insufficient to obtain a clerk with the abilities required for the purposes above stated.<br>In the administration of discipline and under the provisions of paragraph 139, Regulations, United States Military Academy, boards of officers are frequently appointed which require the services of a competent stenographer in the taking of many pages of testimony of a confidential nature. It has been necessary in the past to use the one stenographer allowed this department in so far as his work would permit and to frequently borrow from other departments the services of stenographers who are unfamiliar with the character of the work they are required to perform, this to the detriment of efficient work and to the inconvenience of both departments concerned.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 2 civilian instructors in French, to be employed under rules prescribed by the Secretary of War, at $2,000 each per annum (*same acts*)..... | 4,000.00 | | |
| For pay of 2 civilian instructors in Spanish, to be employed under rules prescribed by the Secretary of War, at $2,000 each per annum (*same acts*)..... | 4,000.00 | | |
| *Provided*, That hereafter the above-named civilian instructors shall have the same allowances with respect to quarters, fuel, and light as those of a second lieutenant. | | | |
| For pay of 2 expert civilian instructors in fencing, broadsword exercises, and other military gymnastics as may be required to perfect this part of the training of cadets (increase of $400 submitted) (*same acts*)..... | 3,400.00 | | |
| For pay of 1 professional civilian instructor in gymnastics, athletics, and swimming (increase of $200 submitted) (*same acts*)..... | 1,700.00 | | |
| *Provided*, That hereafter these 3 civilian instructors shall have the same allowances with respect to quarters, fuel, and light as those of a second lieutenant. | | | |
| NOTE.—The increase for these 3 instructors is recommended. They are all efficient and worthy of the increase asked for.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Pay of Military Academy*—Continued. | | |
| Pay of civilians—Continued. | | |
| For pay of 1 librarian (*acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1906, vol. 33, p. 853; May 11, 1908, vol. 32, p. 103, sec. 1; Mar. 3, 1911, vol. 36, p. 1019; Mar. 4, 1913, vol. 57, p. 829, sec. 1*) | $3,000.00 | |
| For pay of 1 assistant librarian (increase of $300 submitted) (*same acts*) | 1,500.00 | |
| NOTE.—An increase of $300 is asked for. The present incumbent was appointed librarian's assistant on May 18, 1913. He was engaged to do the duties of stenographer and typewriter, and this work has been done in the best possible manner. He has, moreover, learned French and German, etc., and has gradually mastered a large part of the special business of a librarian, so that the value of his services has been greatly increased. In particular he has systematized the business side of the library work (the purchase and binding of books, etc.) so as to fill the special needs of this library in an excellent manner. The position was changed from librarian's assistant to assistant librarian owing to the fact that the present incumbent was performing the duties of an assistant librarian. This position formerly paid $1,500 per year, and former incumbents have also been assigned quarters on the reservation, while the present incumbent resides in Highland Falls, N. Y. He could not be replaced for anything like the salary proposed.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For pay of custodian of gymnasium (*same acts*) | 1,200.00 | |
| For pay of 1 superintendent of gas works (*same acts*) | 1,500.00 | |
| For pay of engineer of heating and ventilating apparatus for the academic building, the cadet barracks, and office building, cadet hospital, chapel, and library (*same acts*) | 1,800.00 | |
| For pay of assistant engineer of same (*same acts*) | 1,000.00 | |
| For pay of 11 firemen (increase of $540 submitted) (*same acts*) | 8,460.00 | |
| NOTE.—This increase is submitted for the purpose of raising the salaries of the 7 firemen employed in the central heating and lighting plant to $800 per year each. The present rate of pay is $720 per year, or $2 per day. This is a lower rate of wages than is paid for the class of firemen that should be employed in this power plant. During the past year there have been a number of vacancies which were filled with great difficulty.—(*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.*) | | |
| For pay of 1 draftsman in the department of civil and military engineering (*acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019; Mar. 4, 1913, vol. 37, pp. 859, 860, sec. 1*) | 1,200.00 | |
| For pay of 1 mechanic and attendant skilled in the technical preparations necessary to chemical and electrical lectures and to the instruction in mineralogy and geology (*same acts*) | 1,200.00 | |
| For pay of mechanic assistant in the department of natural and experimental philosophy (*same acts*) | 1,000.00 | |
| For pay of 2 custodians, 1 for the east and 1 for the west academic buildings (increase of $1,000 submitted) (*same acts*) | 2,000.00 | |
| NOTE.—The change in wording of item and submitted increase is due to the fact that a custodian will be needed to look after the east academy building which is now about completed. His duties will be identical to those of the custodian of the west academy building who has been provided for in the annual appropriations from year to year.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent, U. S. Military Academy.* | | |
| For pay of 1 electrician (*same acts*) | 1,500.00 | |
| For pay of 1 chief plumber (*same acts*) | 1,500.00 | |
| For pay of 1 assistant plumber (*same acts*) | 900.00 | |
| For pay of 1 plumber's helper (*same acts*) | 600.00 | |
| For pay of 1 scavenger, at $60 per month (*same acts*) | 720.00 | |
| For pay of 1 chapel organist and choirmaster (increase of $500 submitted) (*same acts*) | 1,700.00 | |
| *Provided*, That hereafter the chapel organist and choirmaster shall have the same allowances with respect to quarters, fuel, and light as those of a second lieutenant. | | |
| NOTE.—The increase is strongly recommended. The incumbent is an efficient organist and choirmaster and the increase will give him a salary that is hardly commensurate with the duties performed. The foregoing proviso and this increase will place him on the same basis of pay and allowances as that of the teacher of music, who instructs and leads the Military Academy band.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent, U. S. Military Academy.* | | |
| For pay of superintendent of post cemetery (*same acts*) | 1,200.00 | |
| For pay of engineer and janitor for memorial hall (*same acts*) | 900.00 | |
| For pay of printer at headquarters, United States Military Academy (*same acts*) | 1,500.00 | |
| For pay of 1 assistant printer at headquarters, United States Military Academy (*same acts*) | 1,000.00 | |
| For pay of 1 janitress, memorial hall (*same acts*) | 600.00 | |
| For pay of 1 master mechanic (*same acts*) | 1,800.00 | |
| For pay of 1 attendant and skilled photographer in the department of drawing (*same acts*) | 1,200.00 | |
| For pay of 1 stenographer, typewriter, and attendant in charge of the library in the department of law, to be appointed by the Superintendent of the United States Military Academy (civil service rules not to apply) (*same acts*) | 840.00 | |
| For pay of 1 overseer of the waterworks (*same acts*) | 720.00 | |
| For pay of 1 engineer of steam, electric, and refrigerating apparatus for cadets' mess (increase of $60 submitted) (*same acts*) | 900.00 | |
| NOTE.—The present incumbent has displayed the greatest efficiency and interest in his work. He has designed and installed an improvement on the pasteurizing machine and numerous other articles which have resulted in increased economy and efficiency.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent, U. S. Military Academy.* | | |
| For pay of 1 copyist, stenographer, librarian, typewriter, and attendant in the department of modern languages, to be appointed by the Superintendent of the United States Military Academy (civil service rules not to apply) (*same acts*) | 840.00 | |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Pay of Military Academy*—Continued. | | | |
| Pay of civilians—Continued. | | | |
| For pay of 1 mechanic and attendant skilled in the operation necessary for the preparation of lectures and of material in the department of drawing (*acts Mar. 3, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 823; May 11, 1908, vol. 32, p. 108, sec. 1: Mar. 3, 1911, vol. 36, p. 1019; Mar. 4, 1913, vol. 37, pp. 859, 860, sec. 1*) | $720.00 | | |
| For pay of 1 janitor for bachelor officers' quarters (*same acts*) | 600.00 | | |
| For pay of 1 chief engineer of power plant (*same acts*) | 2,400.00 | | |
| For pay of 3 engineers of power plant (increase of $300 submitted) (*same acts*) | 3,900.00 | | |
| NOTE.—The increase is requested to increase the pay of these 3 engineers $100 each per year. They are employed in the central heating and lighting plant during the entire year. During the summer, when the work is not so heavy as in the winter, they do such repairing and overhauling as is practicable for them to do. They have to take eight-hour shifts and it is not practicable to give them the Saturday afternoons authorized by Executive orders during the summer months. The 3 men now employed in the plant are good, responsible men. They are obliged to live off the reservation, which adds largely to their expense of living.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 2 oilers for power plant (*same acts*) | 1,440.00 | | |
| For pay of 1 attendant in the department of philosophy for the handling of models and materials used in the instruction of cadets (*acts Mar. 2, 1901, vol. 31, p. 912; Mar. 13, 1905, vol. 33, p. 853; May 11, 1908, vol. 35, p. 108, sec. 1; Mar. 3, 1911, vol. 36, p. 1019; Mar. 4, 1913, vol. 37, p. 860, sec. 1*) | 480.00 | | |
| For pay of one copyist, typewriter, and attendant in the department of English and history, to be appointed by the superintendent of the United States Military Academy (civil-service rules not to apply) (*same acts*) | 840.00 | | |
| For pay of 1 bookbinder at headquarters, United States Military Academy (*same acts*) | 1,200.00 | | |
| For pay of 2 book sewers in bindery (*same acts*) | 960.00 | | |
| NOTE.—In last year's appropriations a mistake was made by the committee by inserting the words "one at $24 and one at $20 per month." These words should be omitted. They did not appear in the estimates as submitted.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 1 skilled pressman in the printing office, headquarters, United States Military Academy (*same acts*) | 1,000.00 | | |
| For pay of 1 charwoman (*same acts*) | 480.00 | | |
| For pay of 1 messenger for the superintendent of the United States Military Academy (*same acts*) | 720.00 | | |
| For pay of 1 skilled monotype operator who is also a job printer and capable of making up forms, to be selected and appointed by the superintendent of the United States Military Academy, to be exempt from examination under civil-service rules (*submitted*) | 1,000.00 | | |
| NOTE.—One of the operators of the monotype machine is a private in the Army service detachment. In addition to his pay as a private he receives 50 cents per day extra pay. He has had expert training at the Lanston Monotype school, and besides is a good printer, and as useful at the case as at the machine. With these qualifications he feels that he can do better in civil life and his term of service expires Feb. 8, 1914, and he has been offered a position in civil life. As I desire to hold him at the academy I strongly urge that provision be made for his employment as a civilian.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For pay of 1 stenographer and typewriter in the office of the disbursing officer, United States Military Academy (*submitted*) | 1,200.00 | | |
| | | $95,220.00 | |
| NOTE.—No provision has ever been made for a stenographer and typewriter for the office of the disbursing officer of the United States Military Academy. During the past several years the services of the stenographer employed under appropriation for the enlargement of the Military Academy have been largely used in the transaction of regular business pertaining to disbursements under regular Military Academy appropriations. As the funds for the enlargement of the academy are now about exhausted, the pay for services of this stenographer will no longer be available. A stenographer is absolutely necessary and essential to enable the officer to properly handle the great volume of correspondence and other work of a stenographic or typewritten character.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| All the money hereinbefore appropriated for the pay of the Military Academy shall be disbursed and accounted for by officers of the Quartermaster Corps as pay of the Military Academy and for that purpose shall constitute one fund. | | | |
| Total, pay of Military Academy | | 791,233.11 | $749,614.87 |

***Statement showing the difference in the amounts of items of estimate submitted by the United States Military Academy for the fiscal year ending June 30, 1915, and the amounts appropriated for like purpose for the fiscal year 1914.***

INCREASE ITEMS.

| Amount of decrease | 4,611.76 |
| Difference | 41,618.24 |

*Current and Ordinary Expenses, Military Academy*—

| | |
|---|---|
| For the expenses of the members of the Board of Visitors, or so much thereof as may be necessary (*act Mar. 4, 1913, vol. 37, pp. 860, 861, sec. 1*) | $1,000.00 |
| Contingencies for Superintendent of the Academy (*same act*) | 3,000.00 |
| Repairs and improvements, namely: Timber, planks, boards, joists, wall strips, laths, shingles, slate, tin, sheet lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster hair, sewer and drain pipe, blasting powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and for pay of architect, overseer, and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men (*same act*) | 40,000.00 |
| For fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, firebricks, clay, sand, and for repairs of steam-heating and coal-conveying apparatus, grates, stoves, heaters, ranges, furnaces, and mica (*same act*) | 45,000.00 |
| For gas pipes, gas and electric fixtures, electric lamps, telephone and lighting supplies, lamp-posts, gasometers and retorts, and annual repairs of the same (*same act*) | 6,500.00 |
| For fuel for cadets' mess hall, shops, and laundry (*same act*) | 10,000.00 |
| For postage and telegrams (*same act*) | 375.00 |
| For stationery, namely: Blank books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriters, typewriting supplies, office furniture, penholders, tape, desk knives, blotting pads, and rubber bands (*same act*) | 2,500.00 |
| For transportation of materials, discharged cadets, and for ferriages, for hire of camp sites for cadets on practice marches, for transportation of first class of cadets to and from Gettysburg battlefield, for transportation of first and second class cadets to and from Watervliet Arsenal and Sandy Hook Proving Ground, or other ordnance establishment; and for expenses of officers detailed to accompany cadets on these trips (increase of $250 submitted) (*same act*) | 3,850.00 |

NOTE.—This increase is for the purpose of providing for the hire of camp sites for cadets on practice marches. In the past it has been through the kindness of the owner of the property that this instruction could be given to cadets. Each year it becomes more difficult to obtain permission from property owners to camp on their lands. This has been possible only through changing the march to a new section of the country every two years. On account of the great number of wagons and animals with the command more or less damage is done, and there are some just claims for unavoidable damages by members of the command.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.*

| | |
|---|---|
| Printing: For printing and binding, type, materials for office, including repairs to motors and machinery, diplomas for graduates, annual registers, blanks and monthly reports to parents of cadets, and contingencies (*same act*) | 2,000.00 |
| For department of cavalry, artillery, and infantry tactics: | |
| Tanbark or other proper cover for riding hall, to be purchased in open market upon written order of the superintendent (decrease of $600 submitted) (*same act*) | 1,200.00 |

NOTE.—Sand and sawdust are now being used in the riding hall instead of tan bark, and it is believed that $1,200 will be sufficient.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Current and Ordinary Expenses, Military Academy*—Continued. | | |
| For department of cavalry, artillery, and infantry tactics—Continued. | | |
| For camp stools, camp and office furniture, and repairs to same; for doormats for cadet barracks, sinks, and guardhouse; for stationery, typewriting supplies and repairs, for use of instructor and assistant instructor of tactics; for books and maps, binding books, and mounting maps; for plumes, silk and worsted sashes for cadet officers and acting officers; for furniture, curtains, and rugs for cadet reception room (increase of $555 submitted) (*act Mar. 4, 1913, vol. 37, pp. 860, 861, sec. 1*) | $2,000.00 | |
| NOTE.—With the large increase in the Corps of Cadets, more camp stools for the use of visitors and cadets, and more furniture, curtains, and rugs for an additional visitors' reception room have been made necessary. For the same reason more rooms in cadet barracks have been occupied, requiring more doormats for barracks, sinks, and cadet headquarters. The increased size of the corps has necessitated the detail of more officers on duty in the department, requiring more stationery, typewriting supplies, books, maps, etc.<br>Much of the camp and office furniture now in use is in need of repair. The stationery and typewriting supplies are used for the preparation of reports, returns, and other official papers; recording letters sent and received, orders, references, and official communications, and in connection with the theoretical instruction of cadets in the course of tactics.<br>Books and maps include those necessary for reference and study by the instructor and assistant instructors of tactics.<br>The plumes are worn on dress hats by cadet officers and acting officers at all formations under arms. The silk sashes are worn by cadet officers, acting cadet officers, and noncommissioned staff officers, sergeants and color sergeants under arms or under side arms, such as at parades, reviews, guard mounting, and chapel formations, etc. Worsted sashes are worn with dress uniforms and overcoats on similar occasions.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| Gymnasium and athletic supplies: For repairs, new machines, athletic supplies, and fixtures for gymnasium; for foils, masks, belts, fencing gloves, fencing jackets, gaiters, sabers, and repairs; for repairs and improvements to dressing rooms, platform, and swimming tank (*same act*) | 3,500.00 | |
| For repairs to saddles, bridles, purchase of leather, curb chains, bits, stirrups, etc., and to keep the same in repair (*same act*) | 250.00 | |
| For the purchase of thread, wax, needles, for new blades, sharpening old blades, and spare parts and accessories for power clipping machine and saddler's sewing machine in Cavalry stables (*submitted*) | 150.00 | |
| NOTE.—This appropriation is necessary to render the machines of any use.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For riding hall: Providing material for hurdles, and upkeep of wings, head posts, etc.; installing apparatus for running at rings; purchase of a disk harrow for keeping footing in condition; lowering electric lights and providing reflectors for same; installing a power clipping machine in riding hall stables for animals stabled at riding hall (*submitted*) | 615.00 | |
| NOTE.—Since the new riding hall was completed (about Jan. 27, 1912), no equipment or furnishing has been provided for it except in a makeshift way. The largest and finest hall in the world requires a complete equipment. The lights are so high that it is not bright enough on the footing where the lights are required. Lowering and providing reflectors will accomplish the purpose. The power clipping machine is necessary for the proper care of ninety-odd animals stabled there permanently.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For purchase of carbons and for repairs and maintenance of searchlight for Coast Artillery night practice and for miscellaneous expenses connected with Coast Artillery fire-control stations (*act Mar. 4, 1913, vol. 37, p. 861, sec. 1*) | 125.00 | |
| For repair of mattresses, machines, and for replacing worn-out articles in gymnasium of Cavalry barracks (*same act*) | 100.00 | |
| For purchase of thread, wax, needles, for new blades, sharpening old blades, and for spare parts and accessories for power clipping machines and saddler's sewing machine in the Artillery stables (*same act*) | 100.00 | |
| For repairs to mattresses, machines, and for replacing worn-out articles in the drill hall and gymnasium of Artillery barracks, and for miscellaneous expenses connected therewith (*same act*) | 100.00 | |
| For one typewriting machine: *Provided*, That the old machine may be exchanged in part payment for new one (*submitted*) | 75.00 | |
| NOTE.—The above typewriting machine is asked for to replace an old machine belonging to the department of tactics and used by the senior assistant instructor of artillery tactics for over five years. The machine has been overhauled several times and is now in bad condition. It is believed that by turning this machine in to a typewriter company in part payment for a new one it will be in the interests of economy. This old typewriting machine should be replaced as soon as practicable.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For materials for preserving floors, rebronzing radiators, and for miscellaneous expenses for cleaning Artillery barracks and stables (*submitted*) | 75.00 | |
| NOTE.—These barracks and stables were built from appropriations for enlarging the Military Academy, and are very large and superior to any enlisted men's barracks in the service. A small sum should be provided annually for keeping the floors, radiators, brass and nickel work clean and in first-class condition.<br>After seeing the cadets' barracks visitors at West Point, military and civil, display interest in the barracks occupied by the enlisted men. To maintain these in consonance with their West Point surroundings, it is necessary to spend more time, labor, and material than in the ordinary barrack. With this in view, the above estimate is submitted.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Current and Ordinary Expenses, Military Academy*—Continued. | | |
| For department of cavalry, artillery, and infantry tactics—Continued. | | |
| For 100 new tent floors; and for repairing and painting sentry boxes, lamp-posts, tent rails, shower baths, and underground sinks, to be immediately available (*submitted*)..... | $2,500.00 | |
| NOTE.—Many of the old floors and platforms are badly decayed and should be replaced by new floors. These are the floors used in the tents during cadet camp for about 3 months every summer and are considered necessary for the health and comfort of cadets. The appropriation act for fiscal year 1913 carried $1,500 for the purpose of renewing tent floors. This was used to build 50 new tent floors, including 9 galvanized-iron legs, with flanges, under each floor, and the repair of a large number of other floors.<br>Of the above amount, $1,500 is estimated for 100 new tent floors to replace 100 floors now in bad condition and make minor repairs on other floors; $1,000 is estimated as necessary to do the other work required in cadet camp.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For department of civil and military engineering: | | |
| For models, maps, purchase and repair of instruments, apparatus, drawing boards, desks, chairs, shelves, and cases for books and instruments, textbooks, books of reference, and stationery for the use of instructors, and contingencies (*act Mar. 4, 1913, vol. 37, pp. 861, 863, sec. 1*)..... | 1,200.00 | |
| For department of natural and experimental philosophy: | | |
| Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy; books of reference, scientific periodicals, textbooks, stationery, materials, and repairs; and for repairs to the observatory buildings and repairs to clocks, and for contingent expenses not otherwise provided for (*same act*)..... | 1,850.00 | |
| For department of instruction in mathematics: | | |
| Textbooks, books of reference, binding, and stationery; for tables of logarithms; for rulers and triangles; for purchase of geometrical drawings and models; for cases for geometrical models; for desks, chairs, bookcases, and office fittings; and for contingencies (*same act*). | 725.00 | |
| For department of chemistry, mineralogy, and geology: | | |
| Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet metal, ores, photographic apparatus and materials; rough specimens, fossils, and for apparatus and materials to be used in the practical determination of mineralogical and geological specimens; pencils and paper for practical instruction in the same branches, and for gradual increase and improvement of the cabinet; for repairs and additions to electric, magnetic, pneumatic, thermic, and optical apparatus; for purchase of laboratory and power-room machinery and apparatus and installation of same; for models, maps, diagrams, books of reference, textbooks, and stationery for the use of instructors; and for contingent expenses not otherwise provided for (*same act*)..... | 2,500.00 | |
| For department of drawing: | | |
| Drawing material, instruments, and stationery for use of instructors; repairs to models and purchase of new models; desks, stretchers, drawing boards, racks, and stands; framing drawings; books and periodicals on art, architecture, topography, and technology; binding maps, books, and so forth; repairs to stereoptican and purchase of lantern slides; photographic apparatus and material; purchase of new instruments and repair of old ones, for use of cadets; and for contingent expenses (*same act*)..... | 1,530.00 | |
| For department of modern languages: | | |
| For stationery, textbooks, and books of reference for use of instructors, for repairs of books and apparatus and for office furniture, and for printing examination papers, and other necessary papers, and for contingencies (increase of $402 submitted) (*same act*)..... | 1,000.00 | |
| NOTE.—This estimate carries an increase over that of last year which proved insufficient, necessitating an allotment of $100 from the contingent fund of the Military Academy to make up the deficiency, growing out of the purchase of books, stationery, and appliances necessary for this department.<br>There will be under instruction in the fiscal year ending June 30, 1915, 326 cadets in Spanish and 185 in French, making a total of 511 cadets. This is a large increase over the number of students heretofore under instruction in this department, incurring increased expenditure for stationery, periodicals, books, and furniture which calls for an increase in the allotment made in past years. With the increase asked for, the expenditure per cadet amounts to $1.95 per year.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For department of law: | | |
| For stationery, textbooks, and books of reference for the use of instructors, maps, map fixtures, furniture, and for repairs to the same, for rebinding books and periodicals, and for contingencies (*same act*)..... | 350.00 | |
| For department of practical military engineering: | | |
| For models, books of reference, scientific periodicals and stationery; for purchase and repair of instruments, materials, and apparatus for use in instructing cadets in surveying, reconnoissance, signaling and field telegraphy, military field engineering, and field fortification; for photographic and lithographic apparatus and materials for field photography and map reproduction; tools and materials for maintenance of the batteries of the academy; transportation of field parties; for extra-duty pay of engineer soldiers at 50 cents per day each when employed as assistants in photographic laboratory or as special skilled mechanics in the department, and for contingent expenses not otherwise provided for (change in wording submitted) (*same act*)..... | 2,000.00 | |
| NOTE.—This is an old item in substance, but the language, as it appears in respective acts appropriating money for the support of the Military Academy during past years, has been somewhat abridged for the sake of convenience. The purposes for which this money is to be employed are set forth in detail in the item itself.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| C | | | |
| *urrent and Ordinary Expenses, Military Academy*—Continued. | | | |
| For department of ordnance and gunnery: | | | |
| For purchase, manufacture, and repair of instruments, models, machinery, and apparatus; for purchase of samples of arms and accouterments other than those supplied to the military service; for books of reference, textbooks, stationery, office furniture, and supplies; for services of skilled mechanic (civilian) employed in the department of ordnance and science of gunnery, and for contingencies (*act Mar. 4, 1913, vol. 37, pp. 861, 863, sec. 1*).. | $1,800.00 | | |
| For purchase of machines, tools, and material for practical instruction of cadets in wood and metal working (*same act*)..... | 2,000.00 | | |
| For department of military hygiene: | | | |
| For stationery, textbooks, and books of reference for use of instructors; for the preparation of plates, purchase of paper, and other expenses incidental to the printing of syllabuses of lectures on parts of the subject not covered by the regular textbooks; for the purchase of charts, photographs, and pictures for use in demonstration; for the purchase of instruments and models, for shelves and cases for books, instruments, and models and records; and for contingent expensee not otherwise provided for (*same act*)..... | 500.00 | | |
| For department of English and history: | | | |
| For purchase of stationery, textbooks, books of reference, office furniture, maps, map fixtures, and for repairs to same, for rebinding books and periodicals, and for contingent expenses not otherwise provided for (*same act*)..... | 850.00 | | |
| For a course of lectures for the more complete instruction of cadets (*same act*)..... | 1,200.00 | | |
| Total, current and ordinary expenses..... | | $142,520.00 | $138,678.00 |
| *Miscellaneous Items and Incidental Expenses, Military Academy*— | | | |
| For commercial periodicals, stationery, office furniture and supplies, and for binding orders, circulars, etc., for the office of the treasurer, United States Military Academy (*act Mar. 4, 1913, vol. 37, p. 863, sec. 1*)..... | 210.00 | | |
| For gas coal, oil, candles, lanterns, matches, chimneys and wicking, and electric lamps and supplies; and for operating the gas plant (change in wording submitted) (*same act*)..... | 10,000.00 | | |
| NOTE.—The wording of this appropriation has been changed to correspond with the demands made upon it. At present the appropriation is somewhat misleading, owing to the fact that many of the buildings mentioned therein are now lighted by electricity, while others, for which gas is supplied, are not enumerated. The suggested change will enable the appropriation to meet current requirements, and at the same time more clearly indicate the nature of its disbursement. The amount of the estimate is the same as was appropriated for this and previous years.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For water pipe, plumbing, and repairs (*same act*)..... | 6,000.00 | | |
| For material and labor for cleaning and policing public buildings (not quarters) (*same act*)..... | 3,500.00 | | |
| For supplies for recitation rooms not otherwise provided for and for renewing and repairing furniture in same (*same act*)..... | 600.00 | | |
| Increase and expense of library, namely: | | | |
| For purchase, preservation, care, storage, binding and repair of books, periodicals, pamphlets, maps, pictures, and manuscripts, for expense of making copies of military manuscripts in other libraries, and for contingent expenses not otherwise provided for, of which sum not to exceed $300 shall be available for payment to copyists and clerks for occasional miscellaneous work in aid of the regular work of the library; and the Superintendent U. S. Military Academy is hereby authorized to employ such temporary clerks from time to time as necessary; purchases to be made in open market on the written order of the superintendent (*same act*)..... | 7,500.00 | | |
| NOTE.—The wording of this item has been changed to provide for the employment of a copyist and clerk for necessary miscellaneous work in the library which is not sufficient for a permanent position, but which is needed from time to time and can not be made under the old wording of the appropriation. The amount asked for is the same.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For steel shelving, map drawers, pull-down screens for exhibiting maps and charts, large tables, chairs, skylight shades, cork floor matting, and other office furniture, with extra electric lighting for the new map room, its lobby and its basement, purchases to be made in open market on the written order of the superintendent, to be immediately available (*submitted*)..... | 2,500.00 | | |
| NOTE.—Last year $5,000 was asked for this purpose and but $2,500 authorized. It is now desired to complete the work which has progressed to the extent of the appropriation. In opening up old boxes of charts, some of which have remained unopened for two or three generations it is found that the library is possessed of a great quantity of charts, maps, and plates wholly unsuspected, many of which are very rare and extremely valuable, artistic, and beautiful, as well as of great value to the military student. They have never been accessible for study or illustration before. The additional funds asked are a necessity for the proper care and display of these maps and charts.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For contingent funds to be expended under the direction of the Academic Board: For instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for (*act Mar. 4, 1913, vol. 37, pp. 863, 864, sec. 1*)..... | 500.00 | | |
| *Provided*, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best. | | | |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Miscellaneous Items and Incidental Expenses, Military Academy*—Continued. | | | |
| Purchase of instruments for band and repairs to same: For purchase of reeds, pads, strings, and other materials necessary for brass, wood, wind, and string instruments; for purchase of music stands and other equipments; for purchase of music for military band and orchestra and for extra parts; and for contingent expenses not otherwise provided for; all to be purchased in open market on order of superintendent (*act Mar. 4, 1913, vol. 37, pp. 863, 864, sec. 1*) | $1,500.00 | | |
| Repairs and improvements to the laundry machinery and apparatus in the cadet laundry, and the purchase of new material, adding machine, tools, and so forth, to be expended without advertising (decrease of $1,650 submitted) (*same act*) | 1,800.00 | | |
| NOTE.—The amount asked for is the same as that appropriated for fiscal year 1913. It is a reduction of $1,650 from the amount appropriated for fiscal year 1914. The increase for that year was to provide for a dry room.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| Repair of cooking utensils, chairs, tables, and other furniture in the cadet mess, and the replacement of same, to be expended without advertising (*same act*) | 1,750.00 | | |
| For the policing of barracks and bathhouses (increase of $1,452.50 submitted) (*same act*) | 11,452.50 | | |
| NOTE.—To properly care for barracks it will require 17 policemen; they will be assigned to duty as follows: 9 men, 1 for every two divisions; 5 men, 1 for every four bathrooms and sinks; 1 man for policing north guardhouse and grounds around north barracks; 1 man for policing south guardhouse and grounds around south barracks; 1 man for night watchman and to look after electric-light system, electric-light bulbs, and turning electricity on and off—total, 17 men, at $50 per month for 12 months, $10,200.<br>These men are required to scrub all cadet rooms (346 rooms), halls of cadet barracks, stairways, etc., to dust and sweep hallways of barracks, 120 floors of halls and basements; to dust and scrub, mop out, and keep clean and in a sanitary condition at all times the baths, toilet, and dressing rooms of 19 divisions of cadet barracks; to dust, scrub out, and keep clean two cadet guardhouses, consisting of 19 rooms and halls and toilet rooms incident thereto—two cadet reception halls and three large assembly halls; to properly clean and police areas of cadet barracks and the walks in vicinity of same, sweeping them in dry weather and shoveling snow in winter; to shine all cadet shoes; to open and close doors of cadet barracks before and after drills and ceremonies; to act as watchmen in barracks during the absence of cadets at meals, etc.; to handle junk and pack and prepare same for shipment; to make minor repairs to barracks, lighting, and plumbing; to assist in packing and shipping property of cadets discharged, going on leave, and graduating.<br>According to the schedule of allotted work these men work throughout the year, Sundays and holidays included, on week days never less than seven and frequently eleven hours per day. At present these men are receiving $45 per month, which is a decidedly low and inadequate compensation for the work done and the character of the labor required as compared with the pay of similar labor in the vicinity. It is desired to increase the rate of pay to $50 per month with a view of holding the men now employed and keeping the same character of employees in the future. It is very necessary that these employees be of a trustworthy kind, since they have free access to cadet rooms and the entire barracks and have many temptations to theft and dealing in contraband goods for cadets.<br>The balance, $1,252.50, is required for brooms, soap, buckets, mops, and other cleaning materials necessary to maintain the proper sanitary and cleanly condition of the barracks.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For supplying light and plain furniture to cadets' barracks (*same act*) | 3,600.00 | | |
| For maintaining the children's school, the Superintendent of the Military Academy being authorized to employ the necessary teachers (*same act*) | 4,120.00 | | |
| For purchase and repair of fire-extinguishing apparatus (*same act*) | 1,000.00 | | |
| *Provided*, That section 3648, Revised Statutes, shall not apply to subscriptions for foreign, professional, and other newspapers and periodicals, to be paid for from any of the foregoing appropriations. | | | |
| *And provided further*, That so much of section 96 of the act approved Jan. 12, 1895, as requires envelopes for official use to be purchased under contracts made by the Postmaster General shall not apply to the purchase of envelopes from any of the foregoing appropriations. | | | |
| Total, miscellaneous items and incidental expenses | | $56,032.50 | $56,230.00 |
| *Buildings and Grounds, Military Academy*— | | | |
| For cases, materials, fittings, fixtures, and other appliances and repairs for ordnance museum in academy building (*act Mar. 4, 1913, vol. 37, p. 864, sec. 1*) | 1,500.00 | | |
| For repairs to ordnance laboratory and other buildings pertaining to the department of ordnance and gunnery, and materials for roads and walks, and for repairs to machinery and tools (*same act*) | 150.00 | | |
| For installation of steam heat and electric lights in ordnance barracks, and electric lights in storehouses at ordnance laboratory (*submitted*) | 1,000.00 | | |
| NOTE.—The ordnance barracks are now heated by stoves, while the machine shop is heated by a steam furnace located at a distance of less than 100 feet from the barracks. It is proposed to run pipes from this furnace to radiators in the barracks and thus avoid the danger from fire from stoves.<br>The use of electricity instead of gas for lighting would further reduce the danger from fire in the barracks and storehouses.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| For general repairs to the cadet laundry building, and for emergency incidental expenses about building, to be expended without advertising (*act Mar. 4, 1913, vol. 37, p. 864, sec. 1*) | 400.00 | | |
| For general incidental repairs and improvements to the cadet store building, including storerooms, office, tailor shops, and shoe sepairing shops (*same act*) | 500.00 | | |
| For repairs to cadet mess building (*submitted*) | 3,000.00 | | |
| NOTE.—Tin roofs, gutters, and downspouts, and exterior woodwork need extensive repairs and painting to protect interior and exterior of building. Metal ceilings in serving halls and in pot room, rusted out, need replacing. Tile and terrazzo floors throughout entire building need extensive repairs. Interior of kitchen, mess hall, serving halls, and basement needs painting to put interior in proper condition and to protect building. Minor repairs only have been made on this building since 1906, when the last appropriation was made for this purpose.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Buildings and Grounds, Military Academy*—Continued. | | |
| For materials and labor for repairs, alterations, and additions needed at the soldiers' hospital, as follows: | | |
| Purchase of suitable incandescent lights, droplights, tubing, mantles, etc.; for paraffin and turpentine for waxing floors; for brushes, paints, glass, putty, and for general repairs; for materials for rebronzing radiators; and for purchase of flowers, fruit trees, shrubs, plants, etc., for hospital grounds (*act Mar. 4, 1913, vol. 37, p. 864, sec. 1*)..... | $165.00 | |
| For improvements to the soldiers' hospital (***submitted***)..... | 3,545.00 | |
| NOTE.—The following shows the work desired and upon which the above estimate is based:<br>For enlarging annex lavatory to approximately 10 by 12 feet and remodeling it to contain one urinal, two stools, one shower bath, one bath tub, and three wash basins; shower bath to be inclosed on three sides, floor of room to be of small stones set with cement and polished, 8-inch base around walls to be of slate, marble, or tiling composition, wooden paneling of lower border of walls to be removed and replaced by plaster to match upper portion.<br>For putting eight 3 by 7 feet windows in passage leading from hospital to annex.<br>For reflooring kitchen and covering bricks around with cement.<br>For repairing brick floor in three stalls in stables.<br>For repairing cement floor in basement of annex.<br>For repairing steps to back porch of south ward and banisters and floor of porch.<br>For removing dark room used for eye and ear work from record office to laboratory.<br>For painting all woodwork of exterior of building and walls and ceiling of interior.<br>For painting picket fence along road from north to south end of grounds (one coat).—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For the repair and upkeep of quarters of the sergeant, first class, Hospital Corps, at the soldiers' hospital: | | |
| For miscellaneous minor repairs and general upkeepof quarters, etc. (*act Mar. 4, 1913, vol. 37, p. 864, sec. 1*)..... | 75.00 | |
| For waterworks: For the maintenance and operation of the filter beds, reservoirs, and pipe lines, including the tools, implements, and materials required therefor; for policing the grounds and repairing the roads in the vicinity of the reservoirs, filters, and intake dam, and for the enforcement of rules and regulations for the protection from contamination of the water supply (increase of $500 submitted) (*same act*)..... | 2,500.00 | |
| NOTE.—This item, in substantially the same form, has appeared annually for a great many years. The clause relative to the enforcement of sanitary rules and regulations is new matter.<br>The United States owns in fee but a very insignificant part of the catchment area, and exercises a nominal supervision over the rest by virtue of certain rules and regulations for the protection from contamination of the public water supply of West Point, enacted Sept. 5, 1907, by the State commissioner of health of the State of New York, under authority vested in him by laws of the State. The enforcement of these rules rests with the authorities at West Point. One section of the State laws provides, among other things, that before the authorities at West Point can enforce these rules they must make just and adequate compensation for any property taken or injured or for the removal of any building (stable, outhouse, or privy, etc.).<br>In the vicinity of the Forest of Dean Mine there are two highly insanitary privy vaults which should be removed, but in the absence of funds available for this purpose the authorities at West Point can not require their removal. There are likewise two labor camps located near the streams tributary to this water supply, and camping parties on the lakes and ponds are numerous. These and other causes constantly arising occasion insanitary conditions, which can be remedied as they occur at comparatively small cost.<br>The water-supply system includes an intake dam, 6 miles of 20-inch pipe line, several miles of 6-inch and 4-inch pipe lines, settling and storage reservoirs, and 4 filter beds with the usual auxiliaries.<br>The proper maintenance of this system, together with the maintenance of the roads and grounds in the vicinity of the various structures and on lands pertaining to the water supply, and necessary measures for sanitation will require the full amount asked for.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For repairs and necessary alterations and additions to the cadet hospital, as follows: | | |
| For materials for rebronzing radiators and piping; material for waxing and polishing floors; suitable incandescent lights, droplights, mantles, tubes; for carpets, furniture, and appliances; for repairs of damaged articles, and for miscellaneous expenses (*same act*)..... | 120.00 | |
| For improvements at the cadet hospital (***submitted***)..... | 5,235.00 | |
| NOTE.—This amount is required to cover the following items recommended by the surgeon:<br>For tiling floors and wainscoting walls of kitchen and cadet dining room, $1,800. These rooms have old, worn wood floors and plaster walls, which should be brought up to the modern standard already installed in the wards.<br>For flooring and wainscoting dispensary with tiling and paint (enamel), shelves and woodwork of same, $700.<br>The dispensary of the cadet hospital has a wood floor, now covered with linoleum, while the walls, counters, and shelving are of dark woods. As this room is a "show" place, visited by many strangers, it should conform to the rest of the hospital and to the best types in similar institutions.<br>For painting annexes and chimneys, cornice and gutters, $1,000.<br>The annexes are of red brick, the main building of gray granite. One annex has never been painted, while the other has a coat of paint much spotted and worn. This condition detracts much from the appearance of this otherwise handsome building.<br>For repair of terrazzo flooring in wards and operating room, $150. Numerous cracks, due to settling of the floor beams, have developed in the situations named.<br>For tiling floor and walls, and installing new plumbing, including hydrotherapeutic appliance, toilet room adjoining Ward McElderry, $1,500.<br>The installation of appliances for treatment of nervous cases among cadets by douches and special baths has long been desirable. Such cases frequently occur toward the close of the academic year.<br>For painting ceilings of squad-room toilet and one ward annex, $85.<br>These are stained and blackened by carbon from gas jets and ventilating shafts.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For purchase of flowers and shrubs for hospital grounds (*act Mar. 4, 1913, vol. 37, p. 865, sec. 1*)..... | 100.00 | |
| For the repair and upkeep of quarters of the sergeant, first class, Hospital Corps, at the cadet hospital (*submitted*)..... | 50.00 | |
| NOTE.—This amount is necessary to keep these quarters in repair. An appropriation of $30 was included in the act for fiscal year 1913, but none was granted for fiscal year 1914.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Buildings and Grounds, Military Academy*—Continued. | | |
| Repairs to cadet barracks: For repairing and renewing plastering; painting, and calcimining, repairs to woodwork, reflooring, rearranging rooms, increasing sinks, baths, and other incidental repairs to the building (increase of $5,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 865, sec. 1*). | $15,000.00 | |
| NOTE.—The interior of cadet barracks requires painting throughout each year during the absence of the Corps of Cadets in camp in order that same be in a clean and sanitary condition. This requires one coat of paint to the 346 cadet rooms, 96 hallways of barracks, 24 sets of toilet and store rooms, and 4 large assembly halls, as well as the 2 cadet guardhouses. Constant repairs to electric installation, plastering, calcimining, doors, windows, woodwork, plumbing, and roof of new cadet barracks are required throughout the year.<br>In addition to the above-named repairs, renewals, and painting that occur annually, it is essential that new woodwork be placed in old cadet barracks as follows: New floors in 172 cadet rooms, 42 hallways of cadet barracks, 2 large assembly halls, 210 doors to cadet rooms, 25 double doors to cadet barracks, 420 window sashes and casings, 16 large windows in assembly halls; and thorough overhauling of woodwork, such as door casings, baseboards, alcoves, gun racks, etc., in all cadet rooms and halls in old cadet barracks.<br>It is very necessary that this appropriation be increased for the purpose of permitting these renewals; the amount appropriated last year, $10,000, is insufficient for the ordinary repairs and upkeep of one building and does not permit of repairs to old barracks which are absolutely essential to preservation of the building and the health and comfort of cadets occupying the same.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For maintaining and improving the grounds of the post cemetery (*same act*) | 1,500.00 | |
| For continuing the construction of breast-high walls in dangerous places (*same act*) | 1,000.00 | |
| For broken stone and gravel for roads, and for repairing sidewalks, roads, paths, and bridges on the reservation (increase of $4,000 submitted) (*same act*) | 10,000.00 | |
| NOTE.—This increase was requested in the estimates for fiscal year 1913 and fiscal year 1914.<br>The roads on the reservation amount to a total of about 26.5 miles in length. The front roads about the post and other roads that are subject to heavy or constant traffic are macadamized; 11.9 miles of road are located within the limits of the post. Of this total length, 15.6 miles are in a very poor condition and should be rebuilt in a permanent manner; 3.9 miles are in fair condition, needing surfacing with tar binder; the remaining 7 miles are in good condition and need only ordinary maintenance. All of this road construction would amount to about $96,000, taking as the cost of the work $0.80 per square yard for new macadam, $0.30 per square yard for tar surfacing of existing macadam roads, and $0.10 per square yard for maintenance repairs of other roads.<br>The $10,000 is asked for with a view to maintaining the good roads and keeping them in good condition, and to reconstruct and resurface in a permanent manner some portions of the other roads where most needed.<br>With the appropriation of $6,000 it is possible to keep the roads cleaned and policed, gutters opened up, and make minor repairs. Both roads from the South Dock are in need of extensive repairs. These roads are in constant use, and owing to the steep grade (being 10 per cent in places) they deteriorate rapidly unless the surface is kept in good condition for shedding water. At present they both need a large amount of material in order to bring the center of the road up sufficiently to shed water in the gutters and avoid the wash down the center of the road.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For repair of boilers, engines, dynamos, motors, refrigerating and other machinery in the cadet mess, and the replacement of same, to be expended without advertising (*same act*) | 500.00 | |
| For quarters for two noncommissioned officers of the artillery detachment (*submitted*) | 8,000.00 | |
| NOTE.—To the interest and efficiency of cadet instruction, and to the general discipline of the artillery detachment, it is essential that quarters should be provided near the barracks for these noncomissioned officers. The duties of these men differ greatly from men holding like positions in the line of the Army, and only men of long experience and familiar with the routine of the work can fill the positions. Such men are hard to find, and all efforts should be made to hold good men when they are found. Past experiences have proven that married men are preferable for these positions, and as the men now holding these positions (first sergeant and quartermaster sergeant) are married and likely to fill the duties for years to come, it will be for the best interest of all concerned that no unnecessary hardships be worked on them. Their hours are very long, working from 10 to 14 hours daily, and unless they have reasonable comforts after the day's work their health will soon suffer, and the service will lose competent and efficient soldiers.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For grading and granolithic paving in area of the south cadet barracks, to be immediately available (*submitted*) | 2,500.00 | |
| NOTE.—This paving is necessary to provide proper space for section and other cadet formations in the south area similar to that in the area of the new north cadet barracks; all class formations are held in this area, and all punishment tours performed here, as well as many drills and ceremonies.<br>The present paving for the south cadet barracks, which should be replaced, is insufficient in extent to accommodate the increased number of cadets, and the concrete has cracked and sunk so that water collects upon a large portion of the surface of the paving and interferes with cadet formations during unfavorable weather. During heavy rainfalls the basements of first seven divisions of these barracks are frequently flooded on account of the poor drainage of the area and the fact that the retaining wall under the porch is old and cracked and falling into decay.<br>Grading is necessary in connection with this paving in order to conform to the surface levels fixed for the remainder of the area.<br>This pavement was asked for last year, as well as the year before, but no appropriation was made for the purpose.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For draining swamp near the observatory (*submitted*) | 1,000.00 | |
| NOTE.—This is a swampy depression upon the hill east of the observatory. It is a source of mosquito breeding. It is difficult to stop the breeding of mosquitoes in it with oil because of its marshy, boggy character, making it necessary to wade through marshy spaces to get at the many small bodies of standing water.<br>It is estimated that it will cost about $1,000 to blast a ditch through the surrounding rock and drain the pond.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |
| For plaster and other models, relief plans, and maps (pictures and views), to illustrate the facts of geology, photography, geography, hydrography, the processes and results of the useful (and fine) arts, of the art of war, fortifications, artillery, and the like, to be displayed on the walls of the buildings of the academy (for transportation of such material to West Point, and for wall and other cases for its preservation and display) (decrease of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 865, sec. 1*) | 2,000.00 | |
| NOTE.—It is believed that this reduction can now safely be made, as many of these models will be completed by the end of the current fiscal year.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Buildings and Grounds, Military Academy*—Continued. | | | |
| For carrying on the development of the general plan for improvements to roads and grounds on the military reservation of West Point, designed under contract by authority of the Secretary of War (*act Mar. 4, 1913, vol. 37, p. 865, sec. 1*) | $3,000.00 | | |
| For the care and maintenance of organ in the cadet chapel (increase of $100 submitted) (*same act*). | 250.00 | | |
| NOTE.—This large organ, like all others, requires tuning and minor repairs and adjusting about ten times a year. It is necessary to bring here experts in this work, at a cost averaging about $20 each trip, besides purchasing the material needed. There has always been a deficit in this allotment, which has been supplied from private funds.—*C. P. Townsley, Colonel, Coast Artillery Corps, Superintendent U. S. Military Academy.* | | | |
| Total, buildings and grounds | | $63,090.00 | $150,212.00 |
| Hereafter printing, binding, and blank books required for the use of the United States Military Academy may be done or procured elsewhere than at the Government Printing Office when in the opinion of the Secretary of War such work can be more advantageously done or procured locally, the cost thereof to be paid from the proper appropriation or appropriations made for the Military Academy (*submitted*). | | | |
| Total, Military Academy | | 1,052,875.61 | 1,094,734.87 |
| Total, Military Establishment, including buildings and grounds, Military Academy | | 106,000,634.26 | 95,335,880.38 |

|---|---|---|

## NAVAL ESTABLISHMENT.

### GENERAL EXPENSES.

NOTE.—In the following estimates for the Navy Department new matter has been indicated by means of *italics* and matter to be dropped has been inclosed in brackets [ ].

*Pay of the Navy—*

Pay and allowances prescribed by law of officers on sea duty and other duty; officers on waiting orders; officers on the retired list; clerks to paymasters at yards and stations, general storekeepers ashore and afloat, and receiving ships and other vessels; 2 clerks to general inspectors of the Pay Corps; 1 clerk to pay officer in charge of deserters' rolls; not exceeding 10 clerks to accounting officers at yards and stations; dental surgeon at Naval Academy: [*Provided*, That the President is hereby authorized, by and with the advice and consent of the Senate, to appoint the dentist now at the United States Naval Academy a dental surgeon in the Navy for duty at the United States Naval Academy, to have the corresponding rank, pay, and allowances as the senior dental surgeon now at the United States Military Academy: *And provided further*, That he shall not be eligible for retirement before he has reached the age of 70 years except for physical disability incurred in the line of duty;] *40 welfare secretaries, 20 at $2,000 each and 20 at $2,500 each, who, under the general direction of the chaplains, shall be the leaders in the religious, moral, and athletic welfare of the ships to which they may be assigned;* commutation of quarters for officers on shore not occupying public quarters, including boatswains, gunners, carpenters, sailmakers, machinists, pharmacists, and mates, naval constructors and assistant naval constructors; and also members of Nurse Corps (female); for hire of quarters for officers serving with troops where there are no public quarters belonging to the Government, and where there are not sufficient quarters possessed by the United States to accommodate them, or commutation of quarters not to exceed the amount which an officer would receive were he not serving with troops; pay of enlisted men on the retired list; extra pay to men reenlisting under honorable discharge; interest on deposits by men; pay of petty officers, seamen, landsmen, and apprentice seamen, including men in the engineer's force and men detailed for duty with Naval Militia, and for the Fish Commission, 48,000 men; and the number of enlisted men shall be exclusive of those undergoing imprisonment with sentence of dishonorable discharge from the service at expiration of such confinement; and as many machinists as the President may from time to time deem necessary to appoint, not to exceed 20 in any one year; and 3,500 apprentice seamen under training at training stations and on board training ships, at the pay prescribed by law; pay of the Nurse Corps; rent of quarters for members of the Nurse Corps (*act Mar. 4, 1913, vol. 37, pp. 891, 892, sec. 1*)..... | $40,050,724.00 | $39,264,662.00 |

NOTE.—The foregoing estimate is made up as follows:

| | |
|---|---|
| Pay of 3,976 officers on the active list now allowed by law | $10,558,644 |
| Commutation of quarters for officers | 500,000 |
| Allowances for heat and light | 225,000 |
| Pay of 900 midshipmen under instruction | 540,000 |
| Pay of 1,026 officers on the retired list | 3,099,433 |
| Pay and allowances of 48,000 petty officers, seamen, and other enlisted men | 22,465,873 |
| Pay of 3,500 apprentice seamen at training stations and on board ships | 742,637 |
| Pay of 423 enlisted men on the retired list | 359,127 |
| Payments upon reenlistment to petty officers and enlisted men holding honorable discharges | 964,812 |
| Pay of 1,000 enlisted men in prison | 353,930 |
| Payments to beneficiaries of officers and men | 75,000 |
| To pay interest on deposits by enlisted men, act of Feb. 9, 1899 | 34,568 |
| Pay of the Nurse Corps | 116,580 |
| Rent of quarters for members of the Nurse Corps | 15,120 |
| | 40,050,724 |

NOTE.—For detailed statement of officers, etc., of the Navy and statements of pay and allowances of officers and enlisted men, see Appendix G.

NOTE.—In connection with the statements hereinafter appearing following a general or lump-sum appropriation in excess of $250,000, which are submitted in pursuance of section 6 of the act approved Aug. 24, 1912 (37 Stat., 487), the following explanation is submitted:

It is necessary to establish certain general headings in order to differentiate between the expenditures for the Navy. These headings are "Labor," "Material," "Public bills," and "Miscellaneous."

"Labor" is for work performed at a navy yard where the employee is paid by the means of a pay roll and pay ticket.

"Material" is for material drawn from store for use, material purchased for store, or for supplies for ships which become a charge against the cost of commissioning.

"Public bills" may be for either services or materials which are applied direct to objects under an appropriation, services not being paid on a pay roll, and materials not being taken into store.

"Miscellaneous" is principally for outstanding contracts or requisitions which, after payment, would be located to either material or public bills; also for transfer of materials between appropriations; transfers or adjustments in stores, and miscellaneous expenditures made on pay rolls which can not be classified as either labor, material, or public bills, such as checkages for hospital fund, courts-martial sentences, travel allowances, losses in stores, etc. See also Appendix H.

*Pay, Miscellaneous—*

The Secretary of the Navy shall send to Congress at the beginning of its next regular session a complete schedule or list showing the amount of money of all pay under the provisions of this act and for all allowances for each grade of officers in the Navy, including retired officers, and for all officers included in this act and for all enlisted men so included.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Pay, Miscellaneous*—Continued. | | |
| For commissions and interest; transportation of funds; exchange; mileage to officers while traveling under orders in the United States, and for actual personal expenses of officers while traveling abroad under orders, and for traveling expenses of civilian employees, and for actual and necessary traveling expenses of midshipmen while proceeding from their homes to the Naval Academy for examination and appointment as midshipmen; for actual traveling expenses of female nurses; *actual expenses of officers while on shore patrol duty;* for rent of buildings and offices not in navy yards; including the rental of offices in the District of Columbia; expenses of courts-martial, prisoners and prisons, and courts of inquiry, boards of inspection, examining boards, with clerks' and witnesses' fees, and traveling expenses and costs; stationery and recording; *religious books;* expenses of purchasing paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; *all* newspapers *and periodicals for the naval service;* all advertising for the Navy Department and its bureaus (except advertising for recruits for the Bureau of Navigation); copying; care of library, including the purchase of books, photographs, prints, manuscripts, and periodicals; ferriage; tolls; cost of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress; recovery of valuables from shipwrecks; quarantine expenses; reports; professional investigation; cost of special instruction at home and abroad, [in] *including* maintenance of students and attachés, *and in reimbursement of civil officers or employees of the Government for their services and expenses incident to such special instruction in addition to their regular compensation;* information from abroad, and the collection and classification thereof; all charges pertaining to the Navy Department and its bureaus for ice for the cooling of drinking water on shore (except at naval hospitals), telephone rentals and tolls, telegrams, cablegrams, and postage, foreign and domestic, and post-office box rentals; and other necessary and incidental expenses: *Provided*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical inspection and messenger service in navy yards, naval stations, and purchasing pay offices for the fiscal year ending June 30, 1915, shall not exceed $280,000; in all, $1,000,000 (*act Mar. 4, 1913, vol. 37, p. 892, sec. 1*) | $1,000,000.00 | $1,000,000.00 |

NOTE.—The word "including" has been substituted for the word "in" in the foregoing language, pursuant to the decision of the Comptroller of the Treasury of Mar. 28, 1898 (4 Comp., 538), in which the belief was expressed that when the language of this appropriation was modified in the act of Sept. 7, 1888 (25 Stat., 458), the substitution of the word "in" for the word "including" was quite likely a clerical inadvertence, as the word "including" more clearly expressed the idea, and had been theretofore used.

NOTE.—The following statement is submitted in pursuance of sec. 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | $264,506.99 | $280,000.00 |
| Unclassified employees | 8,339.68 | 10,000.00 |
| Material | 77,883.06 | 80,000.00 |
| Public bills | 583,248.57 | 630,000.00 |
| Miscellaneous | 80,415.84 | ..... |
| Total | 1,014,394.14 | 1,000,000.00 |

NOTE.—For statements of the number of classified employees in the Navy Department proper at Washington and at navy yards and naval stations, paid from lump appropriations, and their pay for the fiscal year ended June 30, 1913, as required by the act of Mar. 3, 1909 (35 Stat., 755), see Appendix I.

*Contingent, Navy—*

For all emergencies and extraordinary expenses, exclusive of personal services in the Navy Department or any of its subordinate bureaus or offices at Washington, D. C., arising at home or abroad but impossible to be anticipated or classified, to be expended on the approval and authority of the Secretary of the Navy, and for such purposes as he may deem proper, $46,000: *Provided*, That the accounting officers of the Treasury are hereby authorized and directed to allow, in the settlement of accounts of disbursing officers involved, payments made under the appropriation "Contingent, Navy," to civilian employees appointed by the Navy Department for duty in and serving at naval stations maintained in the island possessions during the fiscal year [1914] *1915: Provided further, That the sum of $104,000, or so much thereof as may be necessary, be, and the same is hereby, appropriated, out of any money in the Treasury not otherwise appropriated, to be expended on the approval and authority of the Secretary of the Navy, for entertaining the officers and crews of foreign fleets which may be sent to attend and participate in the Panama-Pacific International Exposition in consequence of the invitation of the President of the United States, extended in pursuance of the authority contained in the joint resolution of Congress approved Feb. 15, 1911, and of the authority contained in the act making appropriations for the naval service for the fiscal year ending June 30, 1912, and for other purposes, approved Mar. 4, 1911, and for defraying such other expenses incident to the visit of the said foreign fleets as the Secretary of the Navy may deem proper, and the said sum shall be available until Nov. 15, 1915* (*act Mar. 4, 1913, vol. 37, p. 893, sec. 1*) | 150,000.00 | 46,000.00 |

*That the tolls that have been or may be prescribed by the President, in pursuance of the authority contained in the Panama Canal act, approved Aug. 24, 1912, to be levied by the Government of the United States for the use of the Panama Canal shall not be assessed against nor collected from any foreign vessel which may pass through the Panama Canal en route to or in returning from the Panama-Pacific International Exposition, provided such vessel has been sent by its Government to attend and participate in the said exposition in consequence of the invitation of the President of the United States, extended in pursuance of the authority contained in the joint resolution of Congress approved Feb. 15, 1911, and of the authority contained in the act making appropriations for the naval service for the fiscal year ending June 30, 1912, and for other purposes, approved Mar. 4, 1911.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Contingent, Navy*—Continued. | | |
| *The Secretary of the Navy is hereby authorized and empowered to define and establish suitable anchorage grounds in Hampton Roads, Va., and the adjacent waters for the combined fleets of the United States and foreign Governments, which may rendezvous there prior to proceeding to the Panama-Pacific International Exposition, to be held at the city and county of San Francisco, Cal., in the year 1915, as well as to define and establish suitable anchorage grounds in the Bay of San Francisco and the approaches and waters adjacent thereto during the continuance of the said Panama-Pacific International Exposition, and the Secretary of the Navy is hereby further authorized to make such rules and regulations regarding the movements of all vessels in all of the waters named as may be necessary in order to insure the proper and orderly conduct of such features as may be planned for the combined fleets and to provide for the safety of the vessels participating therein; and such rules and regulations when so issued and published shall have the force and effect of law.* | | |
| *Care of Lepers, Island of Guam*— | | |
| Naval Station, Island of Guam: Maintenance and care of lepers, special patients, and for other purposes, including cost of transfer of lepers from Guam to the island of Culion, in the Philippines, and their maintenance (*act Mar. 4, 1913, vol. 37, p. 893, sec. 1*) | $14,000.00 | $14,000.00 |
| BUREAU OF NAVIGATION. | | |
| *Transportation*— | | |
| For travel allowance of enlisted men discharged on account of expiration of enlistment; transportation of enlisted men and apprentice seamen at home and abroad, with subsistence and transfers en route, or cash in lieu thereof; transportation to their homes, if residents of the United States, of enlisted men and apprentice seamen discharged on medical survey, with subsistence and transfers en route, or cash in lieu thereof; transportation of sick or insane enlisted men and apprentice seamen to hospitals, with subsistence and transfers en route, or cash in lieu thereof; apprehension and delivery of deserters and stragglers, and for railway guides and other expenses incident to transportation (*act Mar. 4, 1913, vol. 37, p. 893, sec. 1*) | 850,000.00 | 825,000.00 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified | | |
| Unclassified | | |
| Material | $38.42 | $75.00 |
| Public bills | 774,295.73 | 849,925.00 |
| Miscellaneous | 66,293.96 | |
| Total | 840,628.11 | 850,000.00 |

| | | |
|---|---|---|
| *Recruiting*— | | |
| Expenses of recruiting for the naval service; rent of rendezvous and expenses of maintaining the same; advertising for and obtaining men and apprentice seamen; actual and necessary expenses in lieu of mileage to officers on duty with traveling recruiting parties [$130,000] *$150,000: Provided*, That no part of this appropriation shall be expended in recruiting seamen, ordinary seamen, or apprentice seamen, unless, in case of minors, a certificate of birth or a verified written statement by the parents, or either of them, or in case of their death a verified written statement by the legal guardian, be first furnished to the recruiting officer, showing applicant to be of age required by naval regulations, which shall be presented with the application for enlistment; except in cases where such certificate is unobtainable, enlistment may be made when the recruiting officer is convinced that oath of applicant as to age is credible; but when it is afterwards found, upon evidence satisfactory to the Navy Department, that recruit has sworn falsely as to age, and is under 18 years of age at time of enlistment, he shall, upon request of either parent, or, in case of their death, by the legal guardian, be released from service in the Navy, upon payment of full cost of first outfit, unless, in any given case, the Secretary, in his discretion, shall relieve said recruit of such payment: *Provided*, That authority is hereby granted to employ the services of an advertising agency in advertising for recruits under such terms and conditions as are most advantageous to the Government (*act Mar. 4, 1913, vol. 37, pp. 893, 894, sec. 1*) | 150,000.00 | 130,000.00 |
| *Contingent*— | | |
| Ferriage, continuous-service certificates, discharges, good-conduct badges, and medals for men and boys; purchase of gymnastic apparatus; transportation of effects of deceased officers and enlisted men of the Navy; books for training apprentice seamen and landsmen; maintenance of gunnery and other training classes; packing boxes and materials; and other contingent expenses and emergencies arising under cognizance of the Bureau of Navigation, unforeseen and impossible to classify (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | 15,000.00 | 15,000.00 |

NOTE.—In the event of the abolishment of the Bureau of Equipment, it is requested that the words "books, and models; stationery," be transferred to the appropriation "Contingent, navigation," and that the amount of this appropriation be increased by $3,200, in which case the appropriation "Contingent, navigation" will read as follows:

Ferriage, continuous-service certificates, discharges, good-conduct badges, and medals for men and boys; purchase of gymnastic apparatus; transportation of effects of deceased officers and enlisted men of the Navy; books for training apprentice seamen and landsmen; maintenance of gunnery and other training classes; packing boxes and materials; books, and models; stationery; and other contingent expenses and emergencies arising under cognizance of the Bureau of Navigation, unforeseen and impossible to classify, $18,200.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Gunnery Exercises*— | | |
| Prizes, trophies, and badges for excellence in gunnery exercises and target practice; for the establishment and maintenance of shooting galleries, target houses, targets, and ranges; for hiring established ranges, and for transportation of civilian assistants and equipment to and from ranges (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | $115,000.00 | $100,000.00 |
| *Steaming Exercises*— | | |
| Prizes, trophies, and badges for excellence in steaming exercises to be awarded to the ships in commission for general efficiency and for economy in coal consumption, under such rules as the Secretary of the Navy may formulate, and for the purpose of classifying, compiling, and publishing the results of the competition (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | 6,500.00 | 6,500.00 |
| *Aviation Experiments*— | | |
| For experimental work in the development of aviation for naval purposes (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | 10,000.00 | 10,000.00 |
| *Outfits on First Enlistment*— | | |
| Outfits for all enlisted men and apprentice seamen of the Navy on first enlistment, at not to exceed $60 each (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | 803,400.00 | 800,000.00 |
| *Maintenance of Naval Auxiliaries*— | | |
| Pay, transportation, shipping, and subsistence of civilian officers and crews of naval auxiliaries, and all expenses connected with naval auxiliaries employed in emergencies which can not be paid from other appropriations (*act Mar. 4, 1913, vol. 37, p. 894, sec. 1*) | 800,000.00 | 800,000.00 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified | | |
| Unclassified | | $585,000.00 |
| Material | $735,931.09 | 205,000.00 |
| Public bills | 7,566.95 | 10,000.00 |
| Miscellaneous | 807.66 | |
| Total | 744,305.70 | 800,000.00 |

NOTE.—In the event of the abolishment of the Bureau of Equipment it is requested that the following appropriations be included in the estimates of this bureau and inserted after "Maintenance of naval auxiliaries":

*Instruments and Supplies*—

Supplies for seamen's quarters; aviation outfits; and for the purchase of all other articles of equipage at home and abroad, and for the payment of labor in equipping vessels therewith and manufacture of such articles in the several navy yards; all pilotage and towage of ships of war; canal tolls, wharfage, dock and port charges, and other necessary incidental expenses of a similar nature; services and materials in repairing, correcting, adjusting, and testing compasses on shore and on board ship; nautical and astronomical instruments and repairs to same; libraries for ships of war, professional books and papers; *necessary equipment and supplies for welfare secretaries;* compasses, compass fittings, including binnacles, tripods, and other appendages of ship's compasses; logs and other appliances for measuring the ship's way, and leads and other appliances for sounding; photographs, photographic instruments, and materials, printing outfit and materials, $330,000.

*Ocean and Lake Surveys*—

Hydrographic surveys, including the pay of the necessary hydrographic surveyors, cartographic draftsmen and recorders, and for the purchase of nautical books, charts, and sailing directions, $90,000.

| | | |
|---|---|---|
| *Naval Training Station, California*— | | |
| Maintenance of naval training station, Yerba Buena Island, Cal., namely: Labor and material; buildings and wharves; general care, repairs, and improvements of grounds, buildings, and wharves; wharfage, ferriage, and street-car fare; purchase and maintenance of live stock, and attendance on same; wagons, carts, implements, and tools, and repairs to same; fire engines and extinguishers; gymnastic implements; models and other articles needed in instruction of apprentice seamen; printing outfit and materials, and maintenance of same; heating and lighting; stationery, books, and periodicals; fresh water, and washing; packing boxes and materials; and all other contingent expenses; maintenance of dispensary building; lectures and suitable entertainments for apprentice seamen; in all (*act Mar. 4, 1913, vol. 37, pp. 894, 895, sec. 1*) | 70,000.00 | 70,000.00 |
| *Naval Training Station, Rhode Island*— | | |
| Maintenance of naval training station, Coasters Harbor Island, R. I., namely: Labor and material; buildings and wharves; dredging channels; extending sea wall; repairs to causeway and sea wall; general care, repairs, and improvements of grounds, buildings, and wharves; wharfage, ferriage, and street-car fare; purchase and maintenance of live stock, and attendance on same; wagons, carts, implements, and tools, and repairs to same; fire engines and extinguishers; gymnastic implements; models and other articles needed in instruction of apprentice seamen; printing outfit and materials, and maintenance of same; heating and lighting; stationery, books, and periodicals; fresh water, and washing; packing boxes and materials; and all other contingent expenses; lectures and suitable entertainments for apprentice seamen; in all, $85,000: *Provided*, That the sum to be paid out of this appropriation under the direction of the Secretary of the Navy for clerical, drafting, inspection, and messenger service for the fiscal year ending June 30, 1915, shall not exceed $5,701.60 (*act Mar. 4, 1913, vol. 37, p. 895, sec. 1*) | 85,000.00 | 85,000.00 |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Equipment of Vessels*—Continued. articles of equipment at home and abroad, and for the payment of labor in equipping vessels and manufacture of equipment articles in the several navy yards; all pilotage and towage of ships of war; canal tolls, wharfage, dock and port charges, and other necessary incidental expenses of a similar nature; services and materials in repairing, correcting, adjusting, and testing compasses on shore and on board ship; nautical and astronomical instruments and repairs to same; libraries for ships of war, professional books and papers, *necessary equipment and supplies for welfare secretaries*, and drawings and engravings for signal books; naval signals and apparatus, namely, signals, lights, lanterns, rockets, and running lights; compass fittings, including binnacles, tripods, and other appendages of ship's compasses; logs and other appliances for measuring the ship's way, and leads and other appliances for sounding; lanterns and lamps and their appendages for general use on board ship for illuminating purposes, and oil and candles used in connection therewith; service and supplies for coast signal service, including the purchase of land as necessary sites for radio shore stations: *Provided*, That the sum to be paid out of this appropriation for the purchase of land for sites for radio shore stations shall not exceed $50,000; instruments and apparatus, supplies, and technical books and periodicals required to carry on experimental and research work in radiotelegraphy at the naval radio laboratory; bunting and other materials for making and repairing flags of all kinds; photographs, photographic instruments, and materials; musical instruments and music; installing, maintaining, and repairing interior and exterior signal communications and all electrical appliances of whatsoever nature on board naval vessels, except range finders, battle order and range transmitters and indicators, and motors and their controlling apparatus used to operate machinery belonging to other bureaus, $4,410,000: *Provided*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, and messenger service at the several navy yards, naval stations, and coaling stations for the fiscal year ending June 30, [1914] *1915*, shall not exceed $260,000: *Provided further*, That the total expenditures under this appropriation at the naval radio laboratory shall not exceed $5,000 (*act Mar. 4, 1913, vol. 37, pp. 897, 898, sec. 1*). | $4,410,000.00 | $4,550,000.00 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimate, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | $199,861.17 | $260,000.00 |
| Unclassified employees | 495,625.20 | 500,000.00 |
| Material | 2,829,323.90 | 3,500,000.00 |
| Public bills | 84,362.21 | 150,000.00 |
| Miscellaneous | 108,014.69 | ..... |
| Total | 3,717,187.17 | 4,410,000.00 |

*Battle Compasses*—

[For the purchase of battle compasses for ships of the Navy heretofore completed] (*act Mar. 4, 1913, vol. 37, p. 898, sec. 1*).

NOTE.—No estimate submitted.

*Coal and Transportation*—

Coal and other fuel for steamers' and ships' use, and other equipment purposes, including expenses of transportation, storage, and handling the same and for the general maintenance of naval coaling depots and coaling plants, water for all purposes on board naval vessels, including the expenses of transportation and storage of the same, $5,000,000 [$75,000 of said sum, or so much thereof as may be necessary, may be used for the survey and investigation by experimental tests of coal in Alaska for use on board ships of the United States Navy and for report upon coal and coal fields available for the production of coal for the use of ships of the United States Navy or any vessel of the United States] (*act Mar. 4, 1913, vol. 37, p. 898, sec. 1*). | 5,000,000.00 | 5,000,000.00 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimate, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | ..... | ..... |
| Unclassified employees | $262,126.31 | $300,000.00 |
| Material | 4,355,373.11 | 4,650,000.00 |
| Public bills | 47,296.78 | 50,000.00 |
| Miscellaneous | 21,449.81 | ..... |
| Total | 4,686,245.01 | 5,000,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Depots for Coal and Other Fuel—* | | |
| For additional fuel-oil storage at Melville, R. I., $20,000; additional fuel-oil storage at Norfolk, Va., $150,000; fuel-oil storage at San Diego, Cal., $50,000; steel coaling tower, San Diego, Cal., $45,000; fuel-oil storage at Puget Sound, Wash., $105,000; fuel-oil storage in vicinity of San Francisco Bay, Cal., $100,000; contingent, $30,000; in all, $500,000, to be available until expended (*act Mar. 4, 1913, vol. 37, p. 898, sec. 1*) | $500,000.00 | $500,000.00 |
| NOTE.—The Secretary of the Navy having been divested of the authority to establish depots for coal and other fuel through the repeal of sec. 1552, R. S., contained in the act approved Mar. 4, 1913 (37 Stat., p. 898), and Congress having elected in the said act to appropriate certain sums for specific objects, the appropriation "Depots for coal and other fuel" would now seem to more properly come under the cognizance of the Bureau of Yards and Docks as a "public works" appropriation, and accordingly the department has included estimates thereunder in the estimates for "Public works, Bureau of Yards and Docks," and recommends that the appropriation be so made. | | |
| *Contingent, Bureau of Equipment—* | | |
| Packing boxes and materials, books, and models; stationery; ferriage and emergencies arising under cognizance of the Bureau of Equipment unforeseen and impossible to classify (*act Mar. 4, 1913, vol. 37, p. 898, sec. 1*) | 10,000.00 | 10,000.00 |
| *Ocean and Lake Surveys—* | | |
| Hydrographic surveys, including the pay of the necessary hydrographic surveyors, cartographic draftsmen and recorders, and for the purchase of nautical books, charts, and sailing directions (*act Mar. 4, 1913, vol. 37, p. 898, sec. 1*) | 90,000.00 | 90,000.00 |
| [Proposed distribution of appropriations now under Bureau of Equipment.] | | |
| NOTE.—The following distribution of the appropriations under the Bureau of Equipment is proposed in the event of the abolishment of that bureau. While the wording of the text and of the items in the act approved Mar. 4, 1913, making appropriations under the Bureau of Equipment, is preserved, the arrangement is necessarily changed: | | |

| | Yards and Docks. | Navigation. | Construction and Repair. | Steam Engineering. | Supplies and Accounts. |
|---|---|---|---|---|---|
| EQUIPMENT OF VESSELS. | | | | | |
| For hemp, wire, iron, and other materials for the manufacture of cordage, anchors, cables, galleys, and chains; specifications for purchase thereof shall be so prepared as shall give fair and free competition; canvas for the manufacture of sails, awnings, hammocks, and other work; interior appliances and tools for manufacturing purposes in navy yards and naval stations; naval signals and apparatus other than electric, namely, signals, lights, lanterns, rockets, running lights; lanterns and lamps and their appendages for general use on board ship for illuminating purposes, and oil and candles used in connection therewith; bunting and other materials for making and repairing flags of all kinds; installing, maintaining, and repairing interior and exterior signal communications other than electric; rugs, carpets, curtains, and hangings on board naval vessels | | | $1,080,000 | | |
| Supplies for seamen's quarters; all pilotage and towage of ships of war; canal tolls, wharfage, dock and port charges, and other necessary incidental expenses of a similar nature; services and materials in repairing, correcting, adjusting, and testing compasses on shore and on board ship; nautical and astronomical instruments and repairs to same; libraries for ships of war, professional books and papers, *necessary equipment and supplies for welfare secretaries*, and drawings and engravings for signal books; compasses, compass fittings, including binnacles, tripods, and other appendages of ships' compasses; logs and other appliances for measuring the ship's way, and leads and other appliances for sounding; photographs, photographic instruments and materials; printing outfits and materials; aviation outfits | | $230,000 | | | |
| Interior appliances and tools for manufacturing purposes in navy yards and naval stations; electric naval signals and apparatus, namely, signals, lights, lanterns, running lights, lamps and their appendages for general use on board ship for illuminating purposes; service and supplies for coast signal service, including the purchase of land as necessary for sites for radio shore stations; instruments and apparatus, supplies, and technical books and periodicals required to carry on experimental and research work in radiotelegraphy at the naval radio laboratory; installing, maintaining, and repairing electric interior and exterior signal appliances and all electrical appliances of whatsoever nature, including submarine-signal apparatus on board naval vessels, except range finders, battle order and range transmitters and indicators, and motors and their controlling apparatus used to operate the machinery belonging to other bureaus | | | | $1,734,300 | |
| Stationery for commanding and navigating officers of ships, chaplains on shore and afloat, and for the use of courts-martial on board ship; purchase, repair, and exchange of typewriters for ships; the removal and transportation of ashes from ships of war; musical instruments and music; mess outfits; soap on board naval vessels; and athletic outfits | | | | | $260,000 |

BUREAU OF YARDS AND DOCKS.

*Maintenance, Bureau of Yards and Docks*—

For general maintenance of yards and docks, namely: For books, maps, models, and drawings; purchase and repair of fire engines; fire apparatus and plants; machinery; purchase and maintenance of horses and driving teams; carts, timber wheels, and all vehicles, including motor-propelled vehicles for freight-carrying purposes only for use in the navy yards; tools and repair of the same; stationery; furniture for Government houses and offices in navy yards and naval stations; coal and other fuel; candles, oil, and gas; attendance on light and power plants; cleaning and clearing up yards and care of buildings; attendance on fires, lights, fire engines, and fire apparatus and plants; incidental labor at navy yards; water tax, tolls, and ferriage; pay of watchmen in navy yards; awnings and packing boxes; and for pay of employees on leave: *Provided*, That the sum to be paid out of this appropriation under the direction of the Secretary of the Navy for clerical, inspection, drafting, messenger, and other classified work in the navy yards and naval stations for the fiscal year ending June 30, 1915, shall not exceed $425,000 (*act Mar. 4, 1913, vol. 37, p. 899, sec. 1*)..... $1,700,000.00 $1,500,000.00

NOTE.—The following statement is submitted in pursuance of section of the act approved Aug. 24, 1912.

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | $396,538.72 | $425,000.00 |
| Unclassified employees | 685,374.70 | 715,000.00 |
| Material | 341,242.34 | 490,000.00 |
| Public bills | 47,944.58 | 70,000.00 |
| Miscellaneous | 43,362.86 | ..... |
| Total | 1,514,463.20 | 1,700,000.00 |

*Contingent, Bureau of Yards and Docks*—

For contingent expenses [that may arise at navy yards and stations] *and minor extensions and improvements of public works at navy yards and stations* (*act Mar. 4, 1913, vol. 37, p. 899, sec. 1*)..... 50,000.00 30,000.00

NOTE.—Estimate for appropriation under this title is also included under "Public works, Bureau of Yards and Docks," owing to recommended change in the phraseology and scope of the appropriation. The need for a small appropriation which will permit of the carrying out of minor improvements and extensions to public works has been evident to the department for a number of years. Many small items of improvement to existing public works are required from time to time on comparatively short notice to meet the changing requirements of the fleet repair work. This has the effect of making this appropriation a public works appropriation, and consequently properly included under the head of "Public works, Bureau of Yards and Docks."

PUBLIC WORKS, BUREAU OF YARDS AND DOCKS.

*Navy Yard, Boston, Mass.*—

| | | | |
|---|---|---|---|
| Improvement of sanitation system, including wash rooms, lockers, and water-closets (*act Mar. 4, 1913, vol. 37, pp. 899, 900, sec. 1; submitted*) | $12,000.00 | | |
| Additional transportation facilities (*same act*) | 10,000.00 | | |
| | | 22,000.00 | 129,300.00 |
| *Navy Yard, New York, N. Y.*— | | | |
| Paving and grading, to continue (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 20,000.00 | | |
| Yard railroad, extension and equipment (*same act*) | 20,000.00 | | |
| Improvement of water front, to continue (*same act*) | 175,000.00 | | |
| Distributing systems, extensions, to continue, including separator receivers (*same act*) | 15,000.00 | | |
| Extend second floor mold loft (*same act*) | 8,500.00 | | |
| | | 238,500.00 | 270,000.00 |
| *Navy Yard, Philadelphia, Pa.*— | | | |
| Quay wall and piers (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 50,000.00 | | |
| Power plant improvement (to install rotary converters) (*same act*) | 15,000.00 | | |
| Building slips (*same act*) | 200,000.00 | | |
| | | 265,000.00 | 222,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Navy Yard, Washington, D. C.—* | | | |
| For extension of gun factory (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | $450,000.00 | | |
| Fireproof general storehouse (to cost $225,000) (*same act*) | 125,000.00 | | |
| | | $575,000.00 | $53,000.00 |
| *Navy Yard, Norfolk, Va.—* | | | |
| One hundred and fifty ton crane (limit of cost not exceeding $300,000) (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 200,000.00 | | |
| New dry dock (to cost $3,000,000) (*same act*) | 200,000.00 | | |
| | | 400,000.00 | 262,500.00 |
| *Navy Yard, Charleston, S. C.—* | | | |
| Toward torpedo berths (to cost not exceeding $300,000) (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 150,000.00 | | |
| Dredging, to continue (*same act*) | 10,000.00 | | |
| Sewer system, extensions (*same act*) | 5,000.00 | | |
| Conduit system, extensions, to continue (*same act*) | 5,000.00 | | |
| | | 170,000.00 | 159,000.00 |
| *Navy Yard, Mare Island, Cal.—* | | | |
| Reconstructing quay wall (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 20,000.00 | | |
| Modernizing electric-power and light-distributing systems (*same act*) | 10,000.00 | | |
| Improvement of hydraulics, Mare Island Straits, etc., in accordance with report submitted in House Document No. 1103, Sixtieth Congress, second session, and such modifications as may be made therein in pursuance of the authority contained in the act making appropriations to supply urgent deficiencies in appropriations for the fiscal year ending June 30, 1913, and for other purposes, approved Oct. 22, 1913 (limit of cost $507,000) to complete (*same act*) | 207,000.00 | | |
| Dredging and diking, to continue (*same act*) | 20,000.00 | | |
| | | 257,000.00 | 80,000.00 |
| *Navy Yard, Puget Sound, Wash.—* | | | |
| Toward shipfitters' shop, mold loft, and structural steel storage (limit of cost, $275,000) (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | | 155,000.00 | 246,000.00 |
| *Naval Station, Narragansett Bay, R. I.—* | | | |
| Water-front improvements (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | | 10,000.00 | 40,000.00 |
| *Naval Station, Pearl Harbor, Hawaii—* | | | |
| Water-front development (*act Mar. 4, 1913, vol. 37, p. 900, sec. 1; submitted*) | 100,000.00 | | |
| Torpedo-boat slips (*same act*) | 50,000.00 | | |
| Four officers' quarters (new) (*same act*) | 20,000.00 | | |
| | | 170,000.00 | 629,000.00 |
| *Buildings and Grounds, Naval Academy—* | | | |
| Toward the construction of wharf and approach (limit of cost, $125,000) (*act Mar. 4, 1913, vol. 37, p. 901, sec. 1; submitted*) | | 75,000.00 | 50,000.00 |
| *Naval Station, Guantanamo, Cuba—* | | | |
| Quarters for civilian employees (*submitted*) | 8,000.00 | | |
| Recreation building for enlisted men (*submitted*) | 30,000.00 | | |
| | | 38,000.00 | |
| *Naval Proving Ground, Indian Head, Md.—* | | | |
| Addition to facilities (*act Mar. 4, 1913, vol. 37, p. 901, sec. 1; submitted*) | 50,000.00 | | |
| Enlargement of naval proving ground for long-range firing; for purchase of land and toward improvement thereof, and provision of necessary buildings, bombproofs, and other equipment (*same act*) | 200,000.00 | | |
| Toward extension of powder factory (*same act*) | 500,000.00 | | |
| | | 750,000.00 | 44,000.00 |
| *Depots for Coal and other Fuel—* | | | |
| *For additional fuel-oil storage at Melville, R. I., $20,000; additional fuel-oil storage at Norfolk, Va., $150,000; fuel-oil storage at San Diego, Cal., $50,000; steel coaling tower at San Diego, Cal., $45,000; fuel-oil storage at Puget Sound, Wash., $105,000; fuel-oil storage in vicinity of San Francisco Bay, Cal., $100,000; contingent, $30,000; in all, $500,000, to be available until expended (act Mar. 4, 1913, vol. 37, p. 898, sec. 1).* | | | |
| NOTE.—The Secretary of the Navy having been divested of the authority to establish depots for coal and other fuel through the repeal of sec. 1552, R. S., contained in the act approved Mar. 4, 1913 (37 Stat., 898), and Congress having elected, in the said act, to appropriate certain sums for specific objects, the appropriation "Depots for coal and other fuel" would now seem to more properly come under the cognizance of the Bureau of Yards and Docks as a "public works" appropriation, and it is recommended that the appropriation be so made. | | | |
| *Naval Torpedo Station, Newport, R. I.—* | | | |
| One assembly shop (*act Mar. 4, 1913, vol. 37, p. 901, sec. 1; submitted*) | 100,000.00 | | |
| One torpedo storehouse (*same act*) | 85,000.00 | | |
| One machine shop | 75,000.00 | | |
| | | 260,000.00 | 30,000.00 |
| *Naval Disciplinary Barracks—* | | | |
| *For the extension and development of the detention system for reforming and disciplining enlisted men of the Navy and Marine Corps convicted by general courts-martial. This appropriation to be available for expenditure in such manner as the Secretary of the Navy may direct at the United States Naval Disciplinary Barracks, Port Royal, S. C., United States Naval Disciplinary Barracks, navy yard, Puget Sound, Wash., or at other places where disciplinary barracks may hereafter be established (submitted)* | | 200,000.00 | |
| *Contingent, Bureau Yards and Docks—* | | | |
| *For contingent expenses (that may arise at navy yards and stations) and minor extensions and improvements of public works at navy yards and stations, $50,000 (act Mar. 4, 1913, vol. 37, p. 899, sec. 1).* | | | |
| NOTE.—Formerly appropriated for under "Bureau of Yards and Docks." | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Repairs and Preservation at Navy Yards and Stations*— | | |
| For repairs and preservation at navy yards and stations (*act Mar. 4, 1913, vol. 37, p. 902, sec. 1*)..... | $1,000,000.00 | $800,000.00 |
| NOTE.—In the event of the abolishment of the Bureau of Equipment, the estimate submitted under the appropriation "Repairs and preservation at navy yards and stations" should be increased by the sum of $200,000, taken from the appropriation "Coal and transportation, 1915," to cover repairs to coaling depots and coaling plants at navy yards and stations, making the total estimate $1,200,000. | | |
| Total public works, navy yards, naval stations, naval proving grounds [and magazines], *naval disciplinary barracks*, and Naval Academy, $4,585,500; and the amounts herein appropriated for public works, except for repairs and preservation at navy yards and stations, shall be available until expended. | | |
| NOTE.—Should appropriations be made under "Public works, Bureau of Yards and Docks," for "Depots for coal and other fuel" and for "Contingent, Bureau of Yards and Docks," as recommended, the above summary should be modified by the addition, after the word "barracks," of the words "depots for coal and other fuel, contingent, Bureau of Yards and Docks," and the amount stated therein increased by $550,000, or to $5,135,500. | | |
| BUREAU OF MEDICINE AND SURGERY. | | |
| *Medical Department*— | | |
| For surgeons' necessaries for vessels in commission, navy yards, naval stations, Marine Corps, and for the civil establishment at the several naval hospitals, navy yards, naval medical supply depots, Naval Medical School, Washington, and Naval Academy, $510,000 (*act Mar. 4, 1913, vol. 37, p. 902, sec. 1*)..... | 510,000.00 | 510,000.00 |
| NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912: | | |

| Total | 424,494.09 | 510,000.00 |

| | | |
|---|---|---|
| *Contingent, Bureau of Medicine and Surgery*— | | |
| For tolls and ferriages; care, transportation, and burial of the dead; purchase of books and stationery, binding of medical records, unbound books, and pamphlets; hygienic and sanitary investigation and illustration; sanitary and hygienic instruction; purchase and repairs of wagons, automobile ambulances, and harness; purchase of and feed for horses and cows; trees, plants, garden tools, and seeds; incidental articles for the Naval Medical School and naval dispensary, Washington; rent of rooms for naval dispensary, Washington, D. C., not to exceed $1,200; naval medical supply depots, sick quarters at Naval Academy and marine barracks; washing for medical department at Naval Medical School and naval dispensary, Washington; naval medical supply depots, sick quarters at Naval Academy and marine barracks, dispensaries at navy yards and naval stations, and ships; and for minor repairs on buildings and grounds of the United States Naval Medical School and naval medical supply depots; for the care, maintenance, and treatment of the insane of the Navy and Marine Corps on the Pacific coast; for dental outfits and dental material, not to exceed $38,000, and all other necessary contingent expenses; in all, $142,000 (*act Mar. 4, 1913, vol. 37, p. 902, sec. 1*)..... | 142,000.00 | 142,000.00 |
| *Transportation of Remains*— | | |
| To enable the Secretary of the Navy, in his discretion, to cause to be transferred to their homes the remains of officers and enlisted men of the Navy and Marine Corps who die or are killed in action ashore or afloat, and also to enable the Secretary of the Navy, in his discretion, to cause to be transported to their homes the remains of civilian employees who die outside of the continental limits of the United States, $15,000: *Provided*, That the sum herein appropriated shall be available for payment for transportation of the remains of officers and men who have died while on duty at any time since Apr. 21, 1898, *and shall be available until used* (*act Mar. 4, 1913, vol. 37, pp. 902, 903, sec. 1*)..... | 15,000.00 | 15,000.00 |
| NOTE 1.—Under "Transportation of remains" the phrase "and shall be available until used" has been added to avoid complications in the payment of expenses of transportation authorized in one fiscal year and occurring in a subsequent fiscal year on account of unavoidable delays. | | |
| NOTE 2.—These estimates are based upon the present authorized personnel of the Navy and Marine Corps; should that be further increased by the act for 1915, corresponding increases must be made in each of the above appropriations. | | |
| BUREAU OF SUPPLIES AND ACCOUNTS. | | |
| *Provisions, Navy*— | | |
| For provisions and commuted rations for the seamen and marines, which commuted rations may be paid to caterers of messes, in case of death or desertion, upon orders of the commanding officers, commuted rations for officers on sea duty (other than commissioned officers of the line, Medical and Pay Corps, chaplains, chief boatswains, chief gunners, chief carpenters, chief machinists and chief sailmakers) and midshipmen, and commuted rations stopped on account of sick in hospital and credited *at the rate of 50 cents per ration* to the naval hospital | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Provisions, Navy*—Continued. fund; subsistence of officers and men unavoidably detained or absent from vessels to which attached under orders (during which subsistence rations to be stopped on board ship and no credit for commutation therefor to be given); and for subsistence of female nurses, and Navy and Marine Corps general courts-martial prisoners undergoing imprisonment with sentences of dishonorable discharge from the service at the expiration of such confinement: *Provided*, That the Secretary of the Navy is authorized to commute rations for such general courts-martial prisoners in such amounts as seem to him proper, which may vary in accordance with the location of the naval prison, but which shall in no case exceed 30 cents per diem for each ration so commuted; and for the purchase of United States Army emergency rations as required; to be available until the close of the fiscal year ending June 30, 1916 (*act Mar. 4, 1913, vol. 37, p. 903, sec. 1*) | $7,713,954.50 | $7,593,441.75 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act, approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | $484,908.99 | ..... |
| Unclassified employees | 702,483.91 | ..... |
| Material | 5,851,154.17 | $7,013,954.50 |
| Public bills | 579,583.45 | 700,000.00 |
| Miscellaneous | 701,422.46 | ..... |
| Total | 8,319,552.98 | 7,713,954.50 |

*Maintenance, Bureau of Supplies and Accounts*—
For fuel, books and blanks, stationery, interior fittings for general storehouses, pay offices and accounting offices in navy yards; coffee mills and repairs thereto; expenses of naval clothing factory and machinery for same; modernizing laboratory equipment and bringing same up to date; tolls, ferriages, yeoman's stores, safes, newspapers, and other incidental expenses; labor in general storehouses, paymasters' offices, and accounting offices in navy yards and naval stations, including naval stations maintained in island possessions under the control of the United States, and expenses in handling stores purchased and manufactured under general account of advances; *and reimbursement to appropriations of the Department of Agriculture of cost of inspection of meats and meat food products for the Navy Department: Provided*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for chemists and for clerical, inspection, and messenger service in the general storehouses, [and] paymasters' offices *and accounting offices* of the navy yards and naval stations for the fiscal year ending June 30, 1915, shall not exceed $598,000 (*act Mar. 4, 1913, vol. 37, p. 904, sec. 1*) | 1,649,487.25 | 1,470,000.00 |

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | ..... | $598,000.00 |
| Unclassified employees | ..... | 820,000.00 |
| Material | ..... | 200,000.00 |
| Public bills | ..... | 31,487.25 |
| Miscellaneous | ..... | ..... |
| Total | (1) | 1,649,487.25 |

[1] New appropriation. First made in the act of Mar. 4, 1913 (37 Stat., 904).

NOTE.—In the event of the abolishment of the Bureau of Equipment, the above estimate under "Maintenance, Bureau of Supplies and Accounts," should be increased to a total of $2,033,887.25 and the following substituted for the above text, viz:

*Maintenance, Bureau of Supplies and Accounts*—
For fuel; the removal and transportation of ashes from ships of war; books, blanks, and stationery, including stationery for commanding and navigating officers of ships, chaplains on shore and afloat, and for the use of courts-martial on board ship; purchase, repair and exchange of typewriters for ships; packing boxes and materials; interior fittings for general storehouses, pay offices, and accounting offices in navy yards; coffee mills and repairs thereto; expenses of naval clothing factory and machinery for the same; modernizing laboratory equipment and bringing the same up to date; purchase of articles of equipage at home and abroad under the cognizance of the Bureau of Supplies and Accounts, and for the payment of labor in equipping vessels therewith, and the manufacture of such articles in the several navy yards; musical instruments and music; mess outfits; soap on board naval vessels; athletic outfits; tolls, ferriages, yeomen's stores, safes, newspapers, and other incidental expenses; labor in general storehouses, paymasters' offices, and accounting offices in navy yards and naval stations, including naval stations maintained in island possessions under the control of the United States, and expenses in handling stores purchased and manufactured under "General account of advances;" *and reimbursement to appropriations of the Department of Agriculture of cost of inspection of meats and meat food products for the Navy Department: Provided*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for chemists and for clerical, inspection, and messenger service in the general storehouses, paymasters' offices, and accounting offices of the navy yards and naval stations for the fiscal year ending June 30, 1915, shall not exceed $643,000.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Freight, Bureau of Supplies and Accounts—* | | |
| All freight and express charges pertaining to the Navy Department and its bureaus, except the transportation of coal for the Bureau of Equipment (*act Mar. 4, 1913, vol. 37, p. 904, sec. 1*)..... | $525,000.00 | $425,000.00 |

NOTE.—In the event of the abolishment of the Bureau of Equipment, the words "Bureau of Supplies and Accounts" should be substituted for the words "Bureau of Equipment" in the foregoing appropriation.

NOTE.—The following statement is submitted in pursuance of section 6 of the act approved Aug. 24, 1912:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees..... | | |
| Unclassified employees..... | $7,286.08 | $10,000.00 |
| Material..... | | |
| Public bills..... | 321,934.63 | 515,000.00 |
| Miscellaneous..... | 314,263.83 | ..... |
| Total..... | 643,484.54 | 525,000.00 |

NOTE.—In the event of the abolishment of the Bureau of Equipment, it is requested that the following appropriation be included in the estimates of this bureau:

*Coal and Transportation—*

Coal and other fuel for steamers' and ships' use, including expenses of transportation, storage, and handling the same; maintenance and general operation of machinery of naval coaling depots and coaling plants; water for all purposes on board naval vessels; and ice for the cooling of water, including the expense of transportation and storage of both, $4,800,000.

BUREAU OF CONSTRUCTION AND REPAIR.

*Construction and Repair of Vessels—*

For preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; steam steerers, pneumatic steerers, steam capstans, steam windlasses, [aeroplanes] *aircraft*, and all other auxiliaries; labor in navy yards and on foreign stations; purchase of machinery and tools for use in shops; carrying on work of experimental model tank; designing naval vessels; construction and repair of yard craft, lighters, and barges; wear, tear, and repair of vessels afloat; general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses for vessels and navy yards, inspectors' offices, such as photographing, books, professional magazines, plans, stationery, and instruments for drafting room, and for pay of classified force under the bureau, $8,250,000: *Provided*, That no part of this sum shall be applied to the repair of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 10 per centum of the estimated cost, appraised in like manner, of a new ship of the same size and like material: *Provided further*, That no part of this sum shall be applied to the repair of any other ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers shall exceed 20 per centum of the estimated cost, appraised in like manner, of a new ship of the same size and like material: *Provided further*, That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: *Provided further*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, *watchmen* (*shipkeepers*) and messenger service in navy yards, naval stations, and offices of superintending naval constructors, for the fiscal year ending June 30, 1915, shall not exceed [$858,039] *$943,100.00: Provided, further, That the Secretary of the Navy is hereby authorized to enter into contract for the use by the Government of dry docks at Hunters Point, San Francisco, Cal., one of which docks shall be capable of docking the largest vessel that can be passed through the locks of the Panama Canal, for a period not to exceed six years from completion of such dock, at a compensation of not less than $50,000 per annum during said period of six years, the right of the Government to the use of said docks in time of war to be prior and paramount: Provided, That the construction of the large dock shall be undertaken immediately upon entering into this contract and shall be completed within 24 months thereafter: And provided further, That said contract shall provide for docking rates not in excess of commercial rates, and for such other conditions as may be prescribed by the Secretary of the Navy prior to entering into such contract* (*act Mar. 4, 1913, vol. 37, p. 904, sec. 1*)..... | 8,250,000.00 | 8,250,000.00 |

NOTE.—The following statement is submitted in pursuance of sec. 6 of the act approved Aug. 24, 1912:

| | Expenditures 1913. | Estimate 1915. |
|---|---|---|
| Labor: | | |
| Classified employees..... | $782,478.34 | $943,100.00 |
| Unclassified employees..... | 3,600,962.47 | 3,900,000.00 |
| Material..... | 2,991,926.88 | 3,106,900.00 |
| Public bills..... | 63,355.61 | 300,000.00 |
| Miscellaneous..... | 834,675.72 | ..... |
| Total..... | 8,273,399.02 | 8,250,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Construction and Repair of Vessels*—Continued. | | |
| NOTE.—In the event of the abolishment of the Bureau of Equipment the foregoing estimates under appropriation "Construction and repair of vessels, 1915," should be increased to a total of $9,790,400 and the following substituted for the preceding text, viz: For preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; steam steerers, pneumatic steerers, steam capstans, steam windlasses, [aeroplanes] *air craft*, and all other auxiliaries; labor in navy yards and on foreign stations; purchase of machinery and tools for use in shops; carrying on work of experimental model tank; designing naval vessels; construction and repair of yard craft, lighters, and barges; wear, tear, and repair of vessels afloat; general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses for vessels and navy-yards, inspectors' offices, such as photographing, books, professional magazines, plans, stationery, and instruments for drafting room, and for pay of classified force under the bureau; for hemp, wire, iron, and other materials for the manufacture of cordage, anchors, cables, galleys, and chains; specifications for purchase thereof shall be so prepared as shall give fair and free competition; canvas for the manufacture of sails, awnings, hammocks, and other work; interior appliances and tools for manufacturing purposes in navy yards and naval stations; and for the purchase of all other articles of equipage at home and abroad, and for the payment of labor in equipping vessels therewith and manufacture of such articles in the several navy yards; naval signals and apparatus, other than electric, namely, signals, lights, lanterns, rockets, running lights, lanterns and lamps and their appendages for general use on board ship for illuminating purposes, and oil and candles used in connection therewith; bunting and other materials for making and repairing flags of all kinds; for all permanent galley fittings and equipage; rugs, carpets, curtains, and hangings on board naval vessels, $9,790,400: *Provided*, That no part of this sum shall be applied to the repair of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 10 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: *Provided further*, That no part of this sum shall be applied to the repair of any other ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 20 per cent of the estimated cost, appraised in like manner, of a new ship of the same size and like material: *Provided further*, That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: *Provided further*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, *watchmen (ship keepers)*, and messenger service in navy yards, naval stations, and offices of superintending naval constructors for the fiscal year ending June 30, 1915, shall not exceed $958,100: *Provided further, That the Secretary of the Navy is hereby authorized to enter into contract for the use by the Government of dry docks at Hunters Point, San Francisco, California, one of which docks shall be capable of docking the largest vessel that can be passed through the locks of the Panama Canal, for a period not to exceed six years from completion of such dock, at a compensation of not less than $50,000 per annum during said period of six years, the right of the Government to the use of said docks in time of war to be prior and paramount: Provided, That the construction of the large dock shall be undertaken immediately upon entering into this contract and shall be completed within 24 months thereafter: And provided further, That said contract shall provide for docking rates not in excess of commercial rates, and for such other conditions as may be prescribed by the Secretary of the Navy prior to entering into such contract:* in all, construction and repair of vessels, 1915, $9,790,400. | | |
| NOTE.—The foregoing estimate under "Construction and repair of vessels, 1915," in case of the abolishment of he Bureau of Equipment, is exclusive of the $110,000 submitted for "Improvement of construction plants." | | |
| *Improvement of Construction Plants*— | | |
| For repairs and improvement of machinery and implements at plant at navy yard, Portsmouth, N. H. (*act Mar. 4, 1913, vol. 37, p. 905, sec. 1*) | $10,000.00 | $10,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Boston, Mass. (*same act*) | 10,000.00 | 20,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, New York, N. Y. (*same act*) | 20,000.00 | 20,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Philadelphia, Pa. (*same act*) | 15,000.00 | 15,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Norfolk, Va. (*same act*) | 15,000.00 | 15,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Charleston, S. C. (*same act*) | 15,000.00 | 10,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Mare Island, Cal. (*same act*) | 15,000.00 | 15,000.00 |
| For repairs and improvement of machinery and implements at plant at navy yard, Puget Sound, Wash. (*same act*) | 10,000.00 | 10,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| BUREAU OF STEAM ENGINEERING. | | | |
| *Steam Machinery*— | | | |
| For completion, repairing, and preservation of machinery and boilers of naval vessels, including the cost of new boilers; distilling, refrigerating, [aeroplane] *air craft* and auxiliary machinery; preservation of and small repairs to machinery and boilers in vessels in ordinary, receiving, and training vessels; repair and care of machinery of yard tugs and launches and for pay of classified force under the bureau | $4,090,000.00 | | |
| For purchase, handling, and preservation of all material and stores; purchase, fitting, repair, and preservation of machinery and tools in navy yards and stations, and running yard engines | 1,824,000.00 | | |
| For incidental expenses for Navy vessels, yards, the engineering experiment station, such as photographing, books, stationery, technical books, periodicals, engineering indices, and instruments | 6,000.00 | | |
| *Provided*, That the sum to be paid out of this appropriation, "Steam machinery," under the direction of the Secretary of the Navy, for clerical, drafting, inspection, and messenger service in navy yards, naval stations, and offices of United States inspectors of machinery and of engineering material, for the fiscal year ending June 30, 1915, shall not exceed $450,000. | | | |
| In all, steam machinery (*act Mar. 4, 1913, vol. 37, pp. 905, 906, sec. 1*) | | $5,920,000.00 | $6,006,000.00 |

NOTE.—Summary of expenditures during 1913 and of estimates for 1915:

| | Expenditures, 1913. | Estimates, 1915. |
|---|---|---|
| Labor: | | |
| Classified employees | $384,769.58 | $450,000.00 |
| Unclassified employees | 2,235,275.89 | 2,275,000.00 |
| Material | 2,806,635.40 | 3,100,000.00 |
| Public bills | 68,231.69 | 95,000.00 |
| Miscellaneous | 734,728.10 | |
| Total | 6,229,640.66 | 5,920,000.00 |

| | | | |
|---|---|---|---|
| *Engineering Experiment Station, Annapolis, Md.*— | | | |
| Experimental and research work: For original investigation and extended experimentation of naval appliances, and for the purchase of such machines and auxiliaries considered applicable for test and use in the naval service, and for maintenance of buildings and grounds (*act Mar. 4, 1913, vol. 37, p. 906, sec. 1*) | | 60,000.00 | 60,000.00 |
| Equipment of building: For extension of steam, air, and water lines, and electric circuits; for foundations for machinery; *for purchase and installation of additional testing instruments* [for alternating current generating set; for purchase and installation of additional condensing apparatus for steam turbines] (*same act*) | | 20,000.00 | 26,000.00 |

NOTE.—In the event of the abolishment of the Bureau of Equipment substitute the following text for the appropriation "Steam machinery" and change the title of the appropriation to "Engineering":

For repairs, preservation, and renewal of machinery, auxiliary machinery, and boilers of naval vessels, yard craft, ships' boats, and [aeroplanes] *air craft;* repairs, preservation, and renewal of electric interior and exterior signal communications and all electrical appliances of whatsoever nature on board naval vessels, except range finders, battle order and range transmitters and indicators, and motors and their controlling apparatus belonging to other bureaus; maintenance of coast signal service, including the purchase of land as necessary for sites for radio shore stations; equipage, supplies, and materials under the cognizance of the bureau required for the maintenance and operation of naval vessels, yard craft, ships' boats, and [aeroplanes] *air craft;* purchase, installation, repair, and preservation of machinery, tools, and appliances in navy yards and stations; pay of classified force under the bureau; incidental expenses for naval vessels, navy yards and stations, inspectors' offices, the engineering experiment station, such as photographing, technical books and periodicals, stationery, and instruments; instruments and apparatus, supplies, and technical books and periodicals necessary to carry on experimental and research work in radiotelegraphy at the naval radio laboratory:

*Provided*, That the sum to be paid out of this appropriation, under the direction of the Secretary of the Navy, for clerical, drafting, inspection, and messenger service in navy yards, naval stations, and offices of United States inspectors of machinery and engineering material for the fiscal year ending June 30, 1915, shall not exceed $650,000: *Provided further*, That the sum to be paid out of this appropriation for the purchase of land for sites for radio shore stations shall not exceed $50,000: *Provided further*, That the total expenditures under this appropriation at the naval radio laboratory shall not exceed $5,000.

In all, engineering, $8,082,000.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| NAVAL ACADEMY. | | |
| *Pay, Naval Academy—* | | |
| Pay of professors and others, Naval Academy: | | |
| [One professor as head of the department of physics, $3,600.] (*act Mar. 4, 1913, vol. 37, pp. 906, 907, sec. 1*). | | |
| One professor of mathematics, 1 of mechanical drawing, 1 of English, 1 of French, and 1 of Spanish, at $3,000 each (*same act*) | $15,000.00 | |
| Three professors, namely, 1 of English, 1 of French, and 1 of Spanish, at $2,640 each (*same act*) | 7,920.00 | |
| Five instructors, at $2,400 each (*same act*) | 12,000.00 | |
| Four instructors, at $2,160 each (*same act*) | 8,640.00 | |
| Ten instructors, at $1,800 each (*same act*) | 18,000.00 | |
| [That no part of any sum in this act appropriated shall be expended in the pay or allowances of any commissioned officer of the Navy detailed for duty as an instructor at the United States Naval Academy to perform duties which were performed by civilian instructors on Jan. 1, 1913.] (*same act*). | | |
| [The President is hereby authorized, by and with the advice and consent of the Senate. to appoint Nathaniel Matson Terry and William Woolsey Johnson professors in the corps of professors of mathematics in the Navy with the rank of lieutenant as extra numbers not in the line of promotion: *Provided*, That for pay and other purposes their services as instructors or professors at the United States Naval Academy previous to being commissioned shall count as service in the Navy: *Provided further*, That for the purpose of this act limitations as to age at the time of appointment shall not apply nor shall age constitute a claim for retirement, and nothing in this act shall operate to create a claim for back pay.] (*same act*). | | |
| [The President is hereby authorized to appoint, by and with the advice and consent of the Senate, A. J. Corbesier, a swordmaster at the United States Naval Academy, to be a first lieutenant in the United States Marine Corps as an extra number not in the line of promotion.] (*same act*). | | |
| One swordmaster, $1,600 (*same act*) | 1,600.00 | |
| One assistant, $1,200 (*same act*) | 1,200.00 | |
| Two assistants, at $1,000 each (*same act*) | 2,000.00 | |
| Two instructors in physical training, at $1,500 each (*same act*) | 3,000.00 | |
| One assistant instructor in physical training, $1,000 (*same act*) | 1,000.00 | |
| One instructor in gymnastics, $1,200 (*same act*) | 1,200.00 | |
| One assistant librarian, $2,160 (*same act*) | 2,160.00 | |
| One cataloguer, $1,200 (*same act*) | 1,200.00 | |
| Two shelf assistants, at $900 each (*same act*) | 1,800.00 | |
| One secretary of the Naval Academy, $2,400 (*same act*) | 2,400.00 | |
| Two clerks, at $1,500 each (*same act*) | 3,000.00 | |
| Four clerks, at $1,200 each (*same act*) | 4,800.00 | |
| Four clerks, at $1,000 each (*same act*) | 4,000.00 | |
| Four clerks, at $900 each (*same act*) | 3,600.00 | |
| Two clerks, at $840 each (*same act*) | 1,680.00 | |
| One draftsman, $1,200 (*same act*) | 1,200.00 | |
| One surveyor, $1,200 (*same act*) | 1,200.00 | |
| Services of organist at chapel, $300 (*same act*) | 300.00 | |
| One captain of the watch, $924 (*same act*) | 924.00 | |
| One second captain of the watch, $828 (*same act*) | 828.00 | |
| Twenty-two watchmen, at $732 each (*same act*) | 16,104.00 | |
| Three telephone switchboard operators, at $600 each (*same act*) | 1,800.00 | |
| In all, pay of professors and others, Naval Academy, [$122,156] $118,556. | | |
| Department of Ordnance and Gunnery: | | |
| One mechanic, $960 (*same act*) | 960.00 | |
| One at $750 (*same act*) | 750.00 | |
| One armorer, $660 (*same act*) | 660.00 | |
| One chief gunner's mate, $540 (*same act*) | 540.00 | |
| Three quarter gunners, at $480 each (*same act*) | 1,440.00 | |
| In all, $4,350. | | |
| Departments of Electrical Engineering and Physics: | | |

| *Pay, Marine Corps*—Continued. | | | |
| Pay of civil force—Continued. | | | |
| In the office of the assistant quartermaster, Philadelphia, Pa.— | | | |
| Chief clerk | $1,800.00 | | |
| Messenger | 840.00 | | |
| In the quartermaster's department, for duty where their services are required— | | | |
| Four clerks, at $1,400 each | 5,600.00 | | |
| In all, for pay of civil force | 35,711.28 | | |
| And the money herein specifically appropriated for pay of the Marine Corps shall be disbursed and accounted for in accordance with existing law as pay of the Marine Corps, and for that purpose shall constitute one fund (*act Mar. 4, 1913, vol. 37, pp. 908, 909, sec. 1*). | | | |
| In all, Pay, Marine Corps | | $4,353,296.78 | $4,503,296.78 |
| *Maintenance, Quartermaster's Department, Marine Corps*— | | | |
| Provisions, Marine Corps: For noncommissioned officers, musicians, and privates serving ashore; subsistence and lodging of enlisted men when traveling on duty, or cash in lieu thereof; commutation of rations to enlisted men regularly detailed as clerks and messengers; payment of board and lodging of applicants for enlistment while held under observation, recruits, and recruiting parties; transportation of provisions, and the employment of necessary labor connected therewith; *for ice machines and their maintenance where required for the health and comfort of the troops, and for cold storage;* ice for offices and preservation of rations, $890,000. No law shall be construed to entitle enlisted men on shore duty to any rations or commutation therefor other than such as are now or may hereafter be allowed enlisted men in the Army: *Provided, however*, That when it is impracticable or the expense is found greater to supply marines serving on shore duty in the island possessions and on foreign stations with the Army ration, such marines may be allowed the Navy ration or commutation therefor: *Provided*, That hereafter so much of this appropriation as may be necessary may be applied for the purchase, for sale to officers, enlisted men, and civilian employees, of such articles of subsistence stores as may from time to time be designated and under such regulations as may be prescribed by the Secretary of the Navy (*act Mar. 4, 1913, vol. 37, pp. 909–911, sec. 1*) | | 890,000.00 | 890,000.00 |
| Clothing, Marine Corps: For noncommissioned officers, musicians, and privates authorized by law, $620,063 (*same act*) | | 620,063.00 | 675,000.00 |
| Fuel, Marine Corps: For heat and light for the authorized allowance of quarters for officers and enlisted men, and other buildings and grounds pertaining to the Marine Corps; fuel, electricity, and oil for cooking, power, and other purposes; and sales to officers, $164,000. But in purchasing such articles preference shall be given to those produced in the United States, but which can be procured at the same price and quality (*same act*) | | 164,000.00 | 164,000.00 |
| Military stores, Marine Corps: Pay of chief armorer, at $4 per diem; 1 mechanic, at $3 per diem; 2 mechanics, at $2.50 each per diem; 1 chief electrician, at $4 per diem; and 1 assistant electrician, at $3.50 per diem; per diem of enlisted men employed on constant labor for periods of not less than 10 days; purchase of military equipments, such as rifles, revolvers, cartridge boxes, bayonet scabbards, haversacks, blanket bags, canteens, rifle slings, swords, drums, trumpets, flags, waist belts, waist plates, cartridge belts, spare parts for repairing rifles, machetes, purchase and repair of tents, field cots, field ovens, and stoves for tents; purchase and repair of instruments for bands; purchase of music and musical accessories; purchase and marking of prizes for excellence in gunnery and rifle practice; good-conduct badges; medals awarded to officers and enlisted men by the Government for conspicuous, gallant, and special service; incidental expenses of schools of application; construction, equipment, and maintenance of school, library, and amusement rooms and gymnasiums for enlisted men, and the purchase and repair of all articles of field sports for enlisted men; purchase and repair of signal equipment and stores; establishment and maintenance of targets and ranges, renting ranges, construction of buildings for temporary shelter and preservation of stores, and entrance fees in competitions; procuring, preserving, and handling ammunition and other necessary military supplies; in all, $307,737 (*same act*) | | 307,737.00 | 307,737.00 |
| Transportation and recruiting, Marine Corps: For transportation of troops, and of applicants for enlistment between recruiting stations and recruit depots or posts, including ferriage and transfers en route, or cash in lieu thereof; toilet kits for issue to recruits upon their first enlistment and the expense of the recruiting service, $317,000 (*same act*) | | 317,000.00 | 317,000.00 |
| Repairs of barracks, Marine Corps: Repairs and improvements to barracks, quarters, and other public buildings at posts and stations; for the renting, leasing, improvement, and erection of buildings in the District of Columbia, and at such other places as the public exigencies require; and for per diem to enlisted men employed under the direction of the quartermaster's department on the repair of barracks, quarters, and other public buildings on constant labor for periods of not less than 10 days, $140,000 (*same act*) | | 140,000.00 | 140,000.00 |
| Forage, Marine Corps: For forage in kind and stabling for public animals of the quartermaster's department and the authorized number of officers' horses, $22,200 (*same act*) | | 22,200.00 | 22,200.00 |
| Commutation of Quarters, Marine Corps: Commutation of quarters for officers serving with troops where there are no public quarters belonging to the Government, and where there are not sufficient quarters possessed by the United States to accommodate them; commutation of quarters for enlisted men employed as clerks and messengers in the offices of the commandant, adjutant and inspector, paymaster, and quartermaster, and the offices of the assistant adjutant and inspectors, assistant paymasters, assistant quartermasters, at $21 each per month, and for enlisted men employed as messengers in said offices, at $10 each per month, $79,000 (*same act*) | | 79,000.00 | 79,000.00 |

| **UNDER THE DEPARTMENT OF THE INTERIOR.** | | |
| INDIAN AFFAIRS. | | |
| GENERAL PROVISIONS. | | |
| ALLOTMENT WORK. | | |
| *Surveying and Allotting Indian Reservations (Reimbursable)*— | | |
| For the survey, resurvey, classification, appraisement, and allotment of lands in severalty under the provisions of the act of Feb. 8, 1887, entitled "An act to provide for the allotment of lands in severalty to Indians," and under any other act or acts providing for the survey and allotment of lands in severalty to Indians; and for the survey and subdivision of Indian reservations and lands to be allotted to Indians under authority of law, $225,000, to be repaid proportionately out of any Indian moneys held in trust or otherwise by the United States and available by law for such reimbursable purpose and to remain available until expended (*acts Feb. 8, 1887, vol. 24, p. 388, sec. 1; June 30, 1913, vol. 38, p. 77, sec. 1*)..... | $225,000.00 | $200,000.00 |
| GENERAL IRRIGATION APPROPRIATION. | | |
| *Irrigation, Indian Reservations*— | | |
| For the construction, repair, and maintenance of ditches, reservoirs, and dams, purchase and use of irrigation tools and appliances, water rights, ditches, lands necessary for canals, pipe lines, and reservoirs for Indian reservations and allotments, and for drainage and protection of irrigable lands from damage by floods or loss of water rights, including expenses of necessary surveys and investigations to determine the feasibility and estimated cost of new projects and power and reservoir sites on Indian reservations in accordance with the provisions of section 13 of the act of June 25, 1910, $335,000, to remain available until expended: *Provided*, That no part of this appropriation shall be expended on any irrigation system or reclamation project for which specific appropriation is made in this act or for which public funds are or may be available under any other act of Congress; for pay of one chief inspector of irrigation, who shall be a skilled irrigation engineer, $4,000; one assistant inspector of irrigation, who shall be a skilled irrigation engineer, $2,500; for traveling and incidental expenses of two inspectors of irrigation, including sleeping-car fare, and a per diem of $3 in lieu of subsistence when actually employed on duty in the field and away from designated headquarters, $4,200; in all, $345,700: *Provided also*, That not to exceed seven superintendents of irrigation, six of whom shall be skilled irrigation engineers and one competent to pass upon water rights, and one field cost accountant may be employed: *Provided further*, That the proceeds of sales of material utilized for temporary work and structures, and money refunded in connection with any irrigation system or reclamation project within the jurisdiction of the Indian Service shall be covered into the appropriation made therefor and be available for the purpose of the appropriation; and for lands irrigable under any such system or project the Secretary of the Interior may fix maintenance charges, which shall be paid as he may direct, such payments to be available for use in maintaining the project or system for which collected (*acts July 4, 1884, vol. 23, p. 94, sec. 1; June 30, 1913, vol. 38, p. 78, sec. 1*)..... | 345,700.00 | 345,700.00 |

TRANSPORTATION OF PUPILS.

| | | |
|---|---|---|
| *Indian School Transportation*— For collection and transportation of pupils to and from Indian and public schools, and for placing school pupils, with the consent of their parents, under the care and control of white families qualified to give them moral, industrial, and educational training, $82,000: *Provided*, That not to exceed $5,000 of this amount may be used in the transportation and placing of Indian youths in positions where a remunerative employment may be found for them in industrial pursuits. The provisions of this section shall also apply to native pupils of school age under 21 years of age brought from Alaska (*act June 30, 1913, vol. 38, p. 79, sec. 1*) | 82,000.00 | 82,000.00 |

PER CAPITA EXPENDITURE.

All moneys appropriated herein or hereafter for school purposes among the Indians may be expended, without restriction as to per capita expenditure, for the annual support and education of any one pupil in any school (*act June 30, 1913, vol. 38, p. 79, sec. 1*).

INDUSTRIAL WORK AND CARE OF TIMBER.

| | | |
|---|---|---|
| *Industrial Work and Care of Timber*— To conduct experiments on Indian school or agency farms designed to test the possibilities of soil and climate in the cultivation of trees, grains, vegetables, and fruits, for the purposes of preserving living and growing timber on Indian reservations and allotments, and to advise the Indians as to the proper care of forests; for the employment of suitable persons as matrons to teach Indian women and girls housekeeping and other household duties, and for furnishing necessary equipments and supplies and renting quarters for them where necessary; for the employment of practical farmers and stockmen, in addition to the agency and school farmers now employed; for furnishing necessary equipment and supplies for such farmers and stockmen; and to superintend and direct farming and stock raising among Indians, $500,000: *Provided*, That the foregoing shall not, as to timber, apply to the Menominee Indian Reservation in Wisconsin: *Provided further*, That not to exceed $5,000 of the amount herein appropriated may be used to conduct experiments on Indian school or agency farms to test the possibilities of soil and climate in the cultivation of trees, grains, vegetables, and fruits: *Provided also*, That the amounts paid to matrons, foresters, farmers, and stockmen herein provided for shall not be included within the limitation on salaries and compensation of employees contained in the act of August 24, 1912 (37 Stat., p. 520) (*act June 30, 1913, vol. 38, p. 79, sec. 1*) | 500,000.00 | 400,000.00 |

| DETERMINING HEIRS OF DECEASED INDIAN ALLOTTEES. | | |
| *Determining Heirs of Deceased Indian Allottees*— For the purpose of determining the heirs of deceased Indian allottees and other persons having any right, title, or interest in any trust or restricted allotment, or in any other estate or property held in trust by the United States, under regulations prescribed by the Secretary of the Interior, $100,000: *Provided*, That any officer or employee appointed or designated by the Secretary of the Interior or the Commissioner of Indian Affairs as special examiner in heirship cases shall have authority to administer oaths in investigations committed to him: *Provided further*, That hereafter upon the determination of the heirs of a deceased Indian by the Secretary of the Interior there shall be paid by such heirs or from the estate of such deceased Indian or deducted from the proceeds from the sale of the land of the deceased allottee or from any trust funds belonging to the estate of the decedent, the sum of $15, to cover the cost of determining the heirs to the estate of the said deceased allottee, which amount shall be accounted for and paid into the Treasury of the United States and a report made annually to Congress by the Secretary of the Interior on or before the first Monday in December of all moneys collected and deposited as herein directed (*act June 30, 1913, vol. 38, p. 80. sec. 1*) | $100,000.00 | $50,000.00 |
| ENCOURAGING INDUSTRY AMONG INDIANS. | | |
| *Encouraging Industry Among Indians (Reimbursable)*— For the purpose of encouraging industry among the Indians and to aid them in the culture of fruits, grains, and other crops, $100,000, or so much thereof as may be necessary, to be immediately available, which sum may be used for the purchase of animals, machinery, tools, implements, and other equipment necessary to enable Indians to become self-supporting: *Provided*, That said sum shall be expended under conditions to be prescribed by the Secretary of the Interior for its repayment to the United States on or before June 30, 1925, and all repayments to this fund made on or before June 30, 1924, are hereby reappropriated for the same purpose, as the original fund, and the entire fund, including such repayments, shall remain available until June 30, 1924, and all repayments to the fund hereby created which shall be made subsequent to June 30, 1924, shall be covered into the Treasury and shall not be withdrawn or applied except in consequence of a subsequent appropriation made by law (*act June 30, 1913, vol. 38, p. 80, sec. 1*) | 100,000.00 | 100,000.00 |
| *Relief of Mrs. Robert Leo Bowman*— That the Secretary of the Treasury is hereby authorized to pay, out of any moneys in the Treasury not otherwise appropriated, the sum of $5,000 to Mrs. Robert Leo Bowman, widow of Robert Leo Bowman, late deputy special officer for the suppression of the liquor traffic among Indians, who was killed while in the performance of his duty (*submitted*) | 5,000.00 | |
| *Relief of May Stanley*— The Secretary of the Treasury is hereby authorized and directed to pay, out of any moneys in the Treasury not otherwise appropriated, the sum of $5,000 to May Stanley, widow of Will H. Stanley, late superintendent of the Soboba Indian School in California, who lost his life in the discharge of his duty. Also to pay for medical and other necessary expenses, including funeral and administration expenses incurred in connection with the death of said Will H. Stanley and the shooting of Selso Serrano, Indian policeman, $1,000, or so much thereof as may be necessary (*submitted*) | 6,000.00 | |
| *Relief of Charles E. McChesney*— To pay Charles E. McChesney for salary and traveling and other necessary expenses incurred by him under instructions from the Commissioner of Indian Affairs (*submitted*) | 315.81 | |
| *Relief of Estate of George A. Miller*— To reimburse the widow of George A. Miller for expenses incurred by him in defense of a suit arising out of his operations as a special officer engaged in the suppression of the liquor traffic among Indians, $200, or so much thereof as may be necessary (*submitted*) | 200.00 | |
| *Payment to Omer D. Lewis, Lease Clerk, Flathead Agency, Mont.*— The Secretary of the Treasury is hereby authorized to pay to Omer D. Lewis, lease clerk at the Flathead Indian Agency, Mont., the sum of $2,573.25, for the purpose of reimbursing him for expenses incurred for hospital and doctor's fees paid and serious personal injuries received while aiding Federal officers engaged in suppressing the sale of liquor to Indians, the same to be immediately available (*submitted*) | 2,573.25 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Bridge across Gila River, Pima Reservation, Ariz.*— | | |
| To enable the Secretary of the Interior to make an investigation of conditions in the vicinity of Sacaton, Ariz., near what is known as Pima Crossing, with respect to the necessity of constructing for the use of the Indians a bridge across the Gila River, $1,000, or as much thereof as is necessary, and the Secretary of the Interior is hereby authorized and directed to cause plans, surveys, and reports to be made, together with an estimated limit of cost of said bridge and to submit his report thereon to Congress on the first Monday in December, 1914 (*submitted*) | $1,000.00 | |
| *Irrigation, Colorado River Reservation, Ariz. (Reimbursable)*— | | |
| For completion of the construction of necessary channels and laterals for the utilization of water in connection with the pumping plant for irrigation purposes on the Colorado River Indian Reservation, Ariz., as provided in the act of April 4, 1910 (36 Stat. L., p. 273), for the purpose of securing an appropriation of water for the irrigation of approximately 150,000 acres of land and for maintaining and operating the pumping plant, $17,000, reimbursable as provided in said act, and to remain available until expended (*acts Apr. 4, 1910, vol. 36, p. 275; June 30, 1913, vol. 38, p. 85, sec. 2*) | 17,000.00 | $25,000.00 |
| *Irrigation System, Papago Reservation, Ariz.*— | | |
| For enlarging the irrigation system for the irrigation of Indian lands, for protective works to prevent damage to irrigable lands by floods, and for development of domestic water supply on the Papago Indian Reservation in Arizona, in accordance with the plans and specifications submitted by the chief engineer in the Indian Service and approved by the Commissioner of Indian Affairs and the Secretary of the Interior, in conformity with a provision contained in section 1 of the Indian appropriation act for the fiscal year 1911, $50,000: *Provided*, That the total cost of this project shall not exceed $150,000 and to remain available until expended (*act Aug. 24, 1912, vol. 37, p. 522, sec. 2; submitted*) | 50,000.00 | |
| *Dike, Fort Mojave Reservation, Ariz.*— | | |
| For maintaining, strengthening, and raising the dike constructed to protect the irrigable lands on the Fort Mojave Reservation, Ariz., from damage by floods (*act Aug. 24, 1912, vol. 37, p. 523; sec. 2; submitted*) | 5,000.00 | |
| *Water Supply for Papago Indian Villages, Arizona*— | | |
| For improvement and sinking of wells, installation of pumping machinery, construction of tanks for domestic and stock water, and for the necessary structures for the development of a supply of water for domestic use for 8 Papago Indian villages in southern Arizona (*submitted*) | 35,600.00 | |
| *Fulfilling Treaties with Navajos, Schools, Arizona*— | | |
| To enable the Secretary of the Interior to carry into effect the provisions of the sixth article of the treaty of June 8, 1868, between the United States and the Navajo Nation or Tribe of Indians, proclaimed August 12, 1868, whereby the United States agrees to provide school facilities for the children of the Navajo Tribe of Indians, the sum of $100,000, or so much thereof as may be necessary, is hereby appropriated, out of any funds in the Treasury not otherwise appropriated, this amount to be in addition to any other funds available for that purpose. In carrying out the authority hereby conferred the said Secretary may expend said funds, in his discretion, in establishing or enlarging day schools or industrial schools, tribal habits and climatic conditions being considered, suitable for the education of said Indians (*acts June 1, 1868, vol. 15, p. 667; June 30, 1913, vol. 38, p. 86, sec. 2*) | 100,000.00 | 100,000.00 |
| *Schools for Papago Indians, Arizona*— | | |
| To enable the Secretary of the Interior to provide school facilities for the children of the Papago Tribe of Indians in Arizona, the sum of $50,000, or so much thereof as may be necessary, is hereby appropriated, out of any funds in the Treasury not otherwise appropriated, this amount to be in addition to any other funds available for that purpose (*submitted*) | 50,000.00 | |
| *Water Supply, Navajo Indians, Arizona*— | | |
| For continuing the development of a water supply for the Navajo Indians on the Navajo Reservation, $50,000, to be immediately available and to remain available until expended (*act June 30, 1913, vol. 38, p. 86, sec. 2*) | 50,000.00 | 15,000.00 |
| *Hospital for Pima and Other Indians, Arizona*— | | |
| For constructing, equipping, and maintaining a hospital on the Gila River Reservation, for the use and benefit of the Pima and such other Indians as the Commissioner of Indian Affairs may designate (*submitted*) | 25,000.00 | |
| *Purchase of Lands for Indians under Camp Verde School, Arizona*— | | |
| For the purchase of lands for the use and benefit of Indians under the jurisdiction of the superintendent of the Camp Verde Indian School, Ariz., $20,000, to be immediately available and to remain available until expended: *Provided*, That the lands purchased for said Indians shall be held in trust and be subject to the provisions of the general allotment act of Feb. 8, 1887 (24 Stat. L., p. 388), as amended (*submitted*) | 20,000.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Purchase of Implements, etc., for Indians on Colorado River and Yuma Reservations, Ariz. and Cal. (Reimbursable)*— | | |
| There is hereby appropriated the sum of $50,000, to be immediately available and to remain available until expended, and the Secretary of the Interior is authorized to use this money, or so much thereof as may be necessary, under such regulations as he may prescribe, for the promotion of civilization and self-support among the Indians residing and having tribal rights on the Colorado River and Yuma Reservations, the said sum to be expended in the purchase of seed, live stock, vehicles, harness, machinery, tools, implements, and other agricultural equipment; for the construction of houses for said Indians, and for such other purposes as the Secretary of the Interior may deem proper in promoting their civilization and self-support: *Provided*, That said sum shall be expended under conditions to be prescribed by the Secretary of the Interior for its repayment to the United States on or before June 30, 1925, and all repayments to this fund made on or before June 30, 1924, are hereby reappropriated for the same purpose as the original fund, and the entire fund, including such repayments, shall remain available until June 30, 1924; and all repayments to the fund hereby created which shall be made subsequent to June 30, 1924, shall be covered into the Treasury and shall not be withdrawn or applied except in consequence of a subsequent appropriation made by law (*submitted*) | $50,000.00 | |
| **CALIFORNIA.** | | |
| *Support of Indians in California*— | | |
| SEC. 3. For support and civilization of Indians in California, including pay of employees (*act June 30, 1913, vol. 38, p. 86, sec. 3*) | 50,000.00 | $57,000.00 |
| *Purchase of Lands, etc., for Indians in California*— | | |
| For the purchase of lands for the homeless Indians in California, including improvements thereon, for the use and occupancy of said Indians, $20,000, to be immediately available and to remain available until expended, said funds to be expended under such regulations and conditions as the Secretary of the Interior may prescribe (*submitted*) | 20,000.00 | |
| *Indian School, Riverside, Cal.*— | | |
| For support and education of 650 Indian pupils at the Sherman Institute, Riverside, Cal., and for pay of superintendent, $109,400; for central heating plant, $20,000; for general repairs and improvements, $20,000; in all, $149,400 (*act June 30, 1913, vol. 38, p. 86, sec. 3*) | 149,400.00 | 104,350.00 |
| *Irrigating Allotments, Yuma Reservation, Cal. and Ariz. (Reimbursable)*— | | |
| For reclamation and maintenance charge on Yuma allotments, $40,000, to be reimbursed from the sale of surplus lands or from other funds that may be available, in accordance with the provisions of the act of Mar. 3, 1911, (*act Mar. 3, 1911, vol. 36, p. 1063, sec. 4; June 30, 1913, vol. 38, p. 86, sec. 3*) | 40,000.00 | 40,000.00 |
| *Indian School, Fort Bidwell, Cal.*— | | |
| For support and education of 125 Indian pupils at the Fort Bidwell Indian School, Cal., and for repairs and improvements, $30,000: *Provided*, That the unexpended balances heretofore appropriated for this school are hereby reappropriated and made immediately available and shall remain available until expended (*act June 30, 1913, vol. 38, p. 86, sec. 3*) | 30,000.00 | 20,000.00 |
| *Indian School, Greenville, Cal.*— | | |
| For support and education of 100 Indian pupils at the Greenville Indian School, Cal., and for repairs and improvements (*act June 30, 1913, vol. 38, p. 86, sec. 3*) | 25,000.00 | 30,000.00 |
| **FLORIDA.** | | |
| *Support of Seminoles in Florida*— | | |
| SEC. 4. That the unexpended balance of the appropriation of $10,000 "for relief of distress among the Seminole Indians in Florida, and for purposes of their civilization," made in the Indian appropriation act approved Mar. 3, 1911, is hereby reappropriated and made available until expended (*acts Mar. 3, 1911, vol. 36, p. 1063, sec. 4; Aug. 24, 1912, vol. 37, p. 524, sec. 4; June 30, 1913, vol. 38, p. 86, sec. 4*). | | |
| **IDAHO.** | | |
| *Support of Indians of Fort Hall Reservation, Idaho*— | | |
| SEC. 5. For support and civilization of Indians on the Fort Hall Reservation in Idaho, including pay of employees (*act June 30, 1913, vol. 38, p. 87, sec. 5*) | 30,000.00 | 30,000.00 |
| *Maintenance and Operation, Fort Hall Irrigation System, Idaho*— | | |
| For maintenance and operation of the Fort Hall irrigation system, $40,000: *Provided*, That the use of so much water as may be necessary to supply for domestic, stock watering and irrigation purposes land allotted or to be allotted to Indians on the Fort Hall Reservation or set aside for administrative purposes within said reservation is hereby reserved, and the failure of any individual Indian or Indians to make beneficial use of such water shall not operate in any manner to defeat his or her right thereto. All laws or parts of laws in conflict herewith are hereby repealed (*act June 30, 1913, vol. 38, p. 87, sec. 5*) | 40,000.00 | 20,000.00 |
| *Support of Bannocks, Employees, Idaho*— | | |
| For fulfilling treaty stipulations with the Bannocks in Idaho: For pay of physician, teacher, carpenter, miller, engineer, farmer, and blacksmith (art. 10, treaty of July 3, 1868) (*acts July 3, 1868, vol. 15, p. 673, sec. 1; June 30, 1913, vol. 38, p. 87, sec. 5*) | 5,000.00 | 5,000.00 |
| *Support of Coeur d'Alenes, Idaho*— | | |
| For the Coeur d'Alenes, in Idaho: For pay of blacksmith, carpenter, and physician, and purchase of medicines (art. 11, agreement ratified Mar. 3, 1891) (*acts Mar. 3, 1891, vol. 26, p. 1029, sec. 19; June 30, 1913, vol. 38, p. 87, sec. 5*) | 3,000.00 | 3,000.00 |
| *Pay of Employees, Fort Lapwai Agency, Idaho*— | | |
| For pay of employees at the Nez Perce Agency (*act June 30, 1913, vol. 38, p. 87, sec. 5*) | 5,500.00 | 2,200.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Purchase of Implements, etc., for Indians on Shoshone Reservation, Wyo. (Reimbursable)*— | | |
| There is hereby appropriated the sum of $50,000, to be immediately available and to remain available until expended, and the Secretary of the Interior is authorized to use this money, or so much thereof as may be necessary, under such regulations as he may prescribe, for the promotion of civilization and self-support among the Indians residing and having tribal rights on the Shoshone Reservation, Wyo., the said sum to be expended in the purchase of live stock, seed, vehicles, harness, machinery, tools, implements, and other agricultural equipment; for the construction of houses for said Indians, and for such other purposes as the Secretary of the Interior may deem proper in promoting their civilization and self-support: *Provided*, That said sum shall be expended under conditions to be prescribed by the Secretary of the Interior for its repayment to the United States on or before June 30, 1925, and all repayments to this fund made on or before June 30, 1924, are hereby reappropriated for the same purpose as the original fund, and the entire fund, including such repayments shall remain available until June 30, 1924; and all repayments to the fund hereby created which shall be made subsequent to June 30, 1924, shall be covered into the Treasury and shall not be withdrawn or applied except in consequence of a subsequent appropriation made by law (*submitted*) | $50,000.00 | |
| *Irrigation System, Wind River Diminished Reservation, Wyo. (Reimbursable)*— | | |
| For continuing the work of constructing an irrigation system within the diminished Shoshone or Wind River Reservation, in Wyoming, including the maintenance and operation of completed canals, $25,000, reimbursable in accordance with the provisions of the act of Mar. 3, 1905, and to remain available until expended: *Provided*, That the use of so much water as may be necessary to supply for domestic, stock watering, and irrigation purposes land allotted or to be allotted to Indians on the Wind River Reservation or set aside for administrative purposes within said reservation is hereby reserved, and the failure of any individual Indian or Indians to make beneficial use of such water shall not operate in any manner to defeat his or her right thereto while said land is held in trust by the United States. All laws and parts of laws in conflict herewith are hereby repealed (*acts Mar. 3, 1905, vol. 33, p. 1048, sec. 4; June 30, 1913, vol. 38, p. 102, sec. 25*) | 25,000.00 | $50,000.00 |
| SEC. 26. Section 26 of the Indian appropriation act of June 30, 1913 (Public, No. 4), is hereby repealed (*act June 30, 1913, vol. 38, p. 103, sec. 26*). | | |

| *Ypsilanti, Mich., Post Office*— | | |
| For commencement of building under present limit (*acts June 25, 1910, vol. 36, p. 686, sec. 4; Mar. 4, 1911, vol. 36, p. 1385, sec. 1*) | 5,000.00 | |
| Total, public buildings, construction and sites | 5,956,583.94 | 12,402,700.00 |
| NOTE.—The amount appropriated for the year 1914, with relation solely to those items which have been continued in the estimates for 1915, was $4,354,500. The true amount appropriated for construction and sites for the year 1914 was $12,402,700, divided as follows:<br>Sundry civil act of June 23, 1913 ... $11,754,650<br>Deficiency act of Oct. 22, 1913 ... 634,050<br>Public act Dec. 19, 1912 ... 14,000<br>Total ... 12,402,700 | | |
| RENTS FOR TEMPORARY QUARTERS OF OFFICIALS MOVED FROM PUBLIC BUILDINGS WHICH ARE BEING EXTENDED AND REMODELED. | | |
| *Boston, Mass., Rent of Buildings*— | | |
| For expenses incident to the temporary removal of the force employed in the customhouse during the extension, remodeling, etc., of building, to be available until expended (*acts Aug. 26, 1912, vol. 37, p. 596, sec. 1; June 23, 1913, vol. 38, p. 5, sec. 1*) | 45,000.00 | 96,000.00 |
| *Harrisburg, Pa., Rent of Buildings*— | | |
| For rent of temporary quarters for the accommodation of Government officials, to be available until expended (*acts Aug. 24, 1912, vol. 37, p. 420, sec. 1; June 23, 1913, vol. 38, p. 9, sec. 1*) | 5,000.00 | 3,000.00 |
| Total, rent of buildings | 50,000.00 | 183,800.00 |
| NOTE.—The amount appropriated for the year 1914, with relation solely to those items which have been continued in the estimates for 1915, was $99,000. The true amount appropriated for rent of buildings for the year 1914 was $183,800, divided as follows:<br>Sundry civil act of June 23, 1913 ... $171,000<br>Deficiency act of Oct. 22, 1913 ... 12,800<br>Total ... 183,800 | | |
| MARINE HOSPITALS. | | |
| *New Orleans, La., Marine Hospital*— | | |
| For addition to surgeons' quarters (*submitted*) | 2,500.00 | |
| *Savannah, Ga., Marine Hospital*— | | |
| For glass inclosures for porches (*submitted*) | 8,500.00 | |
| Total, marine hospitals | 11,000.00 | 8,500.00 |
| NOTE.—There were no appropriations in 1914 on account of the two items above, but there was actually appropriated for marine hospitals for the year 1914 the sum of $8,500. | | |
| QUARANTINE STATIONS. | | |
| *Columbia River (Astoria, Oreg.), Quarantine Station*— | | |
| For detention barracks for steerage passengers and crews (*submitted*) | 15,000.00 | |
| *Honolulu, Hawaii, Quarantine Station*— | | |
| For kitchen for Oriental and European compounds (*submitted*) ... $1,200.00 | | |
| For dining room for European compounds (*submitted*) ... 2,000.00 | | |
| | 3,200.00 | |
| *New Orleans, La., Quarantine Station*— | | |
| For new wharf (*submitted*) | 12,000.00 | |
| *San Francisco, Cal., Quarantine Station*— | | |
| For reconstructing wharf (*submitted*) | 35,000.00 | 20,000.00 |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914 |
|---|---|---|---|
| *Savannah, Ga., Quarantine Station—* | | | |
| For piling clusters for mooring vessels of deep draft (*submitted*) | $10,000.00 | | |
| For dredging near station (Savannah) wharf (*submitted*) | 5,500.00 | | |
| For widening and strengthening quarantine wharf, constructing landing breakwater, etc. (*submitted*) | 5,500.00 | | |
| For detention quarters for crews of infected vessels (*submitted*) | 7,500.00 | | |
| | | $28,500.00 | |
| Total, quarantine stations | | 93,700.00 | $178,000.00 |
| NOTE.—The amount appropriated for the year 1914, with relation solely to those items which have been continued in the estimates for 1915, was $20,000. The true amount appropriated for quarantine stations for the year 1914 was $178,000, divided as follows: | | | |
| Sundry civil act of June 23, 1913 | $63,000 | | |
| Deficiency act of Oct. 22, 1913 | 115,000 | | |
| Total | 178,000 | | |
| Total, public buildings, construction and sites, rent of buildings, marine hospitals, and quarantine stations | | 6,111,283.94 | 12,773,000.00 |
| PUBLIC BUILDINGS—REPAIRS, EQUIPMENT, AND GENERAL EXPENSES. | | | |
| *Repairs and Preservation of Public Buildings—* | | | |
| Repairs and preservation of public buildings: For repairs and preservation of all completed and occupied public buildings and the grounds thereof under the control of the Treasury Department, and for wire partitions and fly screens therefor, Government wharves and piers under the control of the Treasury Department, together with the necessary dredging adjacent thereto; for the buildings and wharf at Sitka, Alaska; for care of vacant sites under the control of the Treasury Department, such as necessary fences, filling dangerous holes, cutting grass and weeds, and so forth, but not for any permanent improvements thereon; for installation and repair of mail chutes; for repairs and preservation of buildings within the District of Columbia not reserved by vendors on sites under the control of the Treasury Department acquired for public buildings: *Provided*, That hereafter in leasing buildings not reserved by vendors on sites acquired for the construction or enlargement of public buildings under the control of the Treasury Department outside the District of Columbia, the lessees shall be required to make all necessary repairs: *Provided further*, That of the sum herein appropriated not exceeding $100,000 may be used for marine hospitals and quarantine stations, including wire partitions and fly screens for same, and not exceeding $14,000 for the Treasury, Butler, and Winder Buildings at Washington, District of Columbia: *Provided further*, That this sum shall not be available for the payment of personal services except for work done by contract or for temporary job labor under exigency not exceeding at one time the sum of $100 at any one building, $745,000: *And provided further*, That the Secretary of the Treasury is hereby authorized, in his discretion, to lease the wharf and warehouse at Sitka, Alaska, subject to the requirement that the lessee shall make all necessary repairs to the same, or to dispose of said wharf and warehouse upon such terms and conditions as may be for the best interests of the United States (*act June 23, 1913, vol. 38, p. 15, sec. 1*) | | 745,000.00 | 675,000.00 |

NOTE.—It is estimated that an increase in this appropriation of $75,000 will be required for the fiscal year 1915, to meet the needs of the service. Of this sum, $5,000 has been transferred to the new appropriation which is submitted under the caption of "Lighting fixtures," leaving a net increase of $70,000 for the appropriation for "Repairs and preservation of public buildings."

The increase of $70,000 is due partly to the increasing number of completed buildings to be maintained in repair, partly to the increasing age of all previously completed buildings, partly to the inauguration of the parcel post, and partly to the necessity of providing for interior changes to meet the general increase in the postal business in many buildings for which extensions have not been authorized, or pending the construction of new buildings.

Recapitulation:

| | | |
|---|---|---|
| Appropriation, 1914 | $675,000 | |
| Estimated increase for 1915 | 75,000 | |
| | | $750,000 |
| Less amount transferred to appropriation submitted for "Lighting fixtures," 1915 | | 5,000 |
| Net estimate, 1915 | | 745,000 |

*Statement required by section 6, act approved Aug. 24, 1912.*

| | 1915 (contemplated). | 1913 (expended). |
|---|---|---|
| Repairs and preservation, including wire screens | $617,000.00 | $503,236.09 |
| Exterior lamp standards | | 4,000.00 |
| Marine hospitals and quarantine stations, including wire screens | 100,000.00 | 99,078.48 |
| Treasury, Butler, and Winder Buildings | 14,000.00 | 11,995.31 |
| Buildings and wharf at Sitka, Alaska | 1,000.00 | |
| Buildings not reserved by vendors on sites acquired for buildings | [1] 4,000.00 | 5,874.91 |
| Care of vacant sites | 4,000.00 | |
| Installation and repair of mail chutes | 5,000.00 | |
| Total | 745,000.00 | 624,184.79 |
| Appropriation, 1913 | | 625,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Mechanical Equipment of Public Buildings*— | | |
| Mechanical equipment of public buildings: For installation and repair of mechanical equipment in all completed and occupied public buildings under the control of the Treasury Department, including heating, hoisting, plumbing, gas piping, ventilating, vacuum cleaning, and refrigerating apparatus, electric-light plants, meters, interior pneumatic tube and intercommunicating telephone systems, conduit, wiring, call-bell and signal systems, central electric burglar-alarm devices, and for maintenance and repair of tower clocks; for installation and repair of mechanical equipment for any of the foregoing items in buildings within the District of Columbia not reserved by vendors on sites under the control of the Treasury Department acquired for public buildings: *Provided*, That hereafter in leasing buildings not reserved by vendors on sites acquired for the construction or enlargement of public buildings under the control of the Treasury Department, outside the District of Columbia, the lessees shall be required to make all necessary installations and repairs: *Provided further*, That of the sum herein appropriated for mechanical equipment of public buildings, not exceeding $40,000 may be used for marine hospitals and quarantine stations, and not exceeding $11,000 for the Treasury, Butler, and Winder Buildings at Washington, District of Columbia, and not exceeding $10,000 for the maintenance, changes in, and repairs of pneumatic-tube system between the appraisers' warehouse at Greenwich, Christopher, Washington, and Barrow Streets and the new customhouse in Bowling Green, Borough of Manhattan, in the city of New York, including repairs to the street pavement and subsurface necessarily incident to or resulting from such maintenance, changes, or repairs: *And provided further*, That this sum shall not be available for the payment of personal services except for work done by contract, or for temporary job labor under exigency not exceeding at one time the sum of $100 at any one building, $536,500 (*act June 23, 1913, vol. 38, p. 16, sec. 1*) | $536,500.00 | $440,000.00 |

NOTE.—On the basis of the expenditures for which this appropriation is available during the fiscal year 1914, there is submitted an increase of $10,000. For the fiscal year 1915, however, authority is asked for the installation of "central electric burglar-alarm devices," for which it is estimated that the additional sum of $86,500 is required.

Upon the completion of the installation of the proposed "central electric burglar-alarm devices," the subsequent cost of maintenance and repair will be nominal. It will, therefore, be possible to terminate the electric service protection charge heretofore provided for in the appropriation for "Electrical protection to vaults, public buildings."

It is the intention, during the fiscal year 1915, to continue the present policy of renewing worn-out and uneconomical apparatus in the older buildings. This, and the necessity of changing the mechanical installations in completed buildings to accommodate the general increase in the postal business, necessitates the increase of $10,000, which is submitted.

Recapitulation:

| | |
|---|---|
| Appropriation, 1914 | $440,000 |
| Increase submitted for 1915 | 10,000 |
| | 450,000 |
| Estimated cost of installing central electric burglar-alarm devices | 86,500 |
| Estimate, 1915 | 536,500 |

*Statement required by section 6, act approved Aug. 24, 1912.*

| Classes of expenditures. | 1915 (contemplated). | 1913 (expended). |
|---|---|---|
| Heating, hoisting, plumbing, gas piping, ventilating, and refrigerating apparatus, electric-light plants, vacuum-cleaning systems, interior pneumatic-tube, conduit, wiring, call-bell, and signal systems, and repairs to same | $388,000.00 | $397,067.73 |
| Central electric burglar alarm devices | 86,500.00 | ..... |
| Marine hospitals and quarantine stations | 40,000.00 | 32,551.93 |
| Treasury, Butler, and Winder Buildings | 11,000.00 | 8,980.09 |
| Pneumatic-tube service, New York | 10,000.00 | ..... |
| Buildings not reserved by vendors on sites acquired for buildings | [1] 1,000.00 | 1,261.59 |
| Total | 536,500.00 | 439,861.34 |
| Appropriation, 1913 | ..... | 440,000.00 |

[1] Estimated for use only in the District of Columbia.

| | | |
|---|---|---|
| *Vaults and Safes for Public Buildings*— | | |
| Vaults and safes for public buildings: For vaults and lock-box equipments and repairs thereto in all completed and occupied public buildings under the control of the Treasury Department, and for the necessary safe equipments and repairs thereto in all public buildings under the control of the Treasury Department, whether completed and occupied or in course of construction, exclusive of personal services, except for work done by contract, or for temporary job labor under exigency not exceeding at one time the sum of $50 at any one building, $110,000 (*act June 23, 1913, vol. 38, p. 16, sec. 1*) | 110,000.00 | 100,000.00 |

NOTE.—The increase of $10,000 submitted in the foregoing estimate is absolutely necessary to meet the needs of the public service. Additional new buildings, the large demands for additional safes in old buildings, the constant requirement in old buildings for additional lock boxes, due to increasing population in cities and towns, the establishment of the postal savings banks, and the increasing needs and requirements of the parcel post have all contributed to the increased expenditures properly chargeable to this fund.

| | | |
|---|---|---|
| *General Expenses of Public Buildings*— | | |
| General expenses of public buildings: To enable the Secretary of the Treasury to execute and give effect to the provisions of section 6 of the act of May 30, 1908 (35 Stat., p. 537, pt. 1): For additional salary of $1,000 for the Supervising Architect of the Treasury for the fiscal year 1915; for one architectural designer at $6,000 per annum for the fiscal year 1915 (act Mar. 4, 1913); for foremen draftsmen, architectural draftsmen, and apprentice draftsmen at rates of | | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914 |
|---|---|---|
| *General Expenses of Public Buildings*—Continued. | | |
| pay from $480 to $2,500 per annum; for structural engineers and draftsmen at rates of pay from $840 to $2,200 per annum; for mechanical, sanitary, electrical, heating and ventilating, and illuminating engineers and draftsmen, at rates of pay from $1,200 to $2,400 per annum; for computers and estimators, at rates of pay from $1,600 to $2,500 per annum, the expenditures under all the foregoing classes, for which a minimum and maximum rate of compensation is stated, not to exceed $168,450; for supervising superintendents, superintendents and junior superintendents of construction, and inspectors, at rates of pay from $1,600 to $2,900 per annum, not to exceed $278,960; for expenses of superintendents, including expenses of all inspectors and other officers and employees, on duty or detailed in connection with work on public buildings and the furnishing and equipment thereof, under orders from the Treasury Department; office rent and expenses of superintendents, including temporary stenographic and other assistance in the preparation of reports and the care of public property, etc.; advertising; office supplies, including drafting materials, specially prepared paper, typewriting machines, adding machines, and other mechanical labor-saving devices, and exchange of same; furniture, carpets, electric-light fixtures and office equipment; telephone service; not to exceed $6,000 for stationery; not to exceed $1,250 for books of reference, law books, technical periodicals and journals, subscriptions to which may be paid in advance; for contingencies of every kind and description, traveling expenses of site agents, recording deeds and other evidences of title, photographic instruments, chemicals, plates, and photographic materials, and such other articles and supplies and such minor and incidental expenses not enumerated, connected solely with work on public buildings, the acquisition of sites, and the administrative work connected with the annual appropriations under the Supervising Architect's office as the Secretary of the Treasury may deem necessary and specially order or approve, but not including heat, light, janitor service, awnings, curtains, or any expenses for the general maintenance of the Treasury Building, or surveys, plaster models, progress photographs, test-pit borings, or mill and shop inspections, $563,560 (*act June 23, 1913, vol. 38, p. 16, sec. 1*) | $563,560.00 | [1] $559,500.00 |

NOTE.—The estimate for the fiscal year 1915, as compared with the fiscal year 1914, shows an apparent increase of $38,560. The estimate, however, contains an actual increase of but $9,000. This latter amount is found necessary in order to provide the required additional technical assistance in connection with the increased number of completed buildings to be maintained and repaired.

This estimate provides for the continuation of the employment of an architectural designer, authorized in the public buildings act of March 4, 1913.

It is proposed to transfer to this appropriation the total amount appropriated for inspectors for the fiscal year 1914 in the legislative act. It is believed to be to the good of the service to have the salaries of these inspectors, who are essentially field employees, combined with the allotment for salaries of supervising superintendents, superintendents and junior superintendents of construction. This places all technical employees connected with the actual construction of buildings, or their maintenance and repair, in one appropriation and under the same allotment, and makes possible, for the inspectors, the same adjustment of salaries that is found necessary for other technical employees of a similar class.

The sum of $10,400 has been transferred from this estimate to the estimate for "Salaries" for the fiscal year 1915, in order that it may be available for clerical in lieu of technical services. It has been found that the clerical and administrative work in the Office of the Supervising Architect is not able to keep pace with the technical output, and the transfer is made in order to balance the two functions of the office without asking any increase for that purpose in the total of the two appropriations as approved for the fiscal year 1914. This transfer and the resulting decrease in the number of technical employees will somewhat reduce, in the fiscal year 1915, the number of the buildings which may be placed under contract.

The following recapitulation shows in tabulated form the adjustment of this appropriation as described above:

Recapitulation—

| | | |
|---|---|---|
| Appropriation, 1914 | $525,000 | |
| Actual increase (in the technical force) | 9,000 | |
| | | $534,000 |
| Amount transferred to "Salaries," 1915, and made available for clerical services | | 10,400 |
| | | 523,600 |
| Add inspectors, transferred from "Salaries," 1914 | | 33,960 |
| Add architectural designer | | 6,000 |
| Estimate, 1915 | | 563,560 |

*Statement of persons employed, required by section 6, act Aug. 24, 1912.*

[1] Includes Supervising Architect and architectural designer.

NOTE.—For list of persons employed and paid from the appropriation for "General expenses of public buildings," showing names, duties, rates of compensation, and amounts paid each under the separate captions specified by law, for the fiscal year ending June 30, 1913, prepared pursuant to act approved May 30, 1908 (35 Stat., 537), see Appendix J.

NOTE.—Report of rental collections on account of public buildings and sites—privileges and ground rents—under the control of the Treasury Department, outside of the District of Columbia, for the fiscal year ended June 30, 1913, prepared pursuant to acts approved June 6, 1902, and Mar. 3, 1903 (32 Stat., pt. 3, pp. 325 and 1213), will be found in Appendix K.

*Architectural Competitions, Public Buildings*—

Architectural competitions, public buildings: To enable the Secretary of the Treasury to make payment for architectural services under contracts entered into prior to the repeal of the act entitled "An act authorizing the Secretary of the Treasury to obtain plans and specifications for public buildings to be erected under the supervision of the Treasury Department, and providing for local supervision of the construction of the same," approved Feb. 20, 1893, including payment for the services from July 1, 1912, of the architect of the Hilo, Hawaii, building, specially selected under the provisions of the act approved Mar. 4, 1911, the unexpended balance of the appropriation for architectural competitions, public buildings, for the fiscal year ending June 30, 1913, or so much thereof as may be necessary, is hereby continued and made available for said purpose during the fiscal year 1915 (*act June 23, 1913, vol. 38, p. 17, sec. 1*).

NOTE.—It is believed that the unexpended balance of the appropriation will be sufficient to meet payments accruing for architectural services for the fiscal year ending June 30, 1915.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Incidental Expenses in the United States, Isthmian Canal*— | | |
| Second. For incidental expenses, including rents, cable and telegraph service, supplies, stationery and printing, and actual necessary traveling expenses in the United States (including rent of offices in the District of Columbia, not exceeding $12,000, text books and books of reference, $1,000, and additional compensation to the Auditor for the War Department for extra services in auditing accounts for the Panama Canal, $1,000) (*act June 25, 1913, vol. 38, p. 71, sec. 1*) | $66,500.00 | $63,000.00 |

NOTE.—The provision "including rent of the Panama Canal building in the District of Columbia" is stricken out and the clause "including rent of offices in the District of Columbia, not exceeding $12,000" inserted, so as to permit of the transfer of the office from its present building to any other office building in the District of Columbia, or to any other city in the United States if it is found advisable to remove a part or all of the office force from Washington when the permanent organization is established.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

| Items. | Estimates for 1915. | Expenditures for 1913. |
|---|---|---|
| Printing and binding | $25,000.00 | $28,545.33 |
| Telegraphs, telephones, and cables | 14,000.00 | 15,937.89 |
| Traveling expenses in the United States | 1,500.00 | 1,240.64 |
| Lighting, fuel, and power | 2,500.00 | 1,727.50 |
| Miscellaneous office supplies, stationery, incidental expenses, textbooks, and books of reference | 8,930.00 | 8,569.23 |
| Rent of buildings in the United States | 12,000.00 | 8,499.96 |
| Increase submitted, as United States Navy Department will, it is understood, give up lease to three upper floors of the building of which commission leases the lower floors. This would require the commission under its lease to take over entire building at rental stated or to move into other quarters. Latter course considered very undesirable during the period of completion of the canal. | | |
| Payment to Panama Railroad Co. for commission's share of expenses of assistant purchasing officer's office in New York, for rent, telephone, and miscellaneous supplies | 1,570.00 | 1,597.06 |
| This office purchases jointly for the commission and railroad. The amount estimated for is the proportion properly chargeable to incidental expenses of the total of $6,600 per annum which the commission, by resolution adopted at its one hundred and sixty-first meeting, has authorized to be paid for the services rendered, in lieu of paying one-third of all expenses, as authorized in the resolution of the commission of Nov. 9, 1905. | | |
| Additional compensation to Auditor for War Department | 1,000.00 | 1,000.00 |
| Total | 66,500.00 | 67,117.70 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Pay of Officers and Employees on Isthmus, Isthmian Canal—*<br>Third. For pay of members of the commission and officers and employees on the Isthmus, other than skilled and unskilled labor, including civil engineers, superintendents, instrumentmen, transitmen, levelmen, rodmen, draftsmen, timekeepers, mechanical and electrical engineers, quartermasters, clerks, accountants, stenographers, storekeepers, messengers, office boys, foremen and subforemen, wagon masters, watchmen, and stewards, including those temporarily detailed for duty away from the Isthmus, in the departments of construction and engineering, quartermaster's, subsistence, disbursements and examination of accounts, and for those employed in connection with the preservation of plans, drawings, and other records (*act June 23, 1913, vol. 38, p. 71, sec. 1*)..... | $2,414,000.00 | $2,725,000.00 |

NOTE.—The proviso limiting the compensation of the secretary of the commission to $5,000 is stricken out, as the provision did not originate with the commission.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

[1] This rating requested in place of filter operator. Chemists in charge of plants are required to be specially trained graduates in sanitary engineering and will be in supervisory charge of operation. Plants are operated by West Indian employees, called filter operators, under immediate direction of chemists.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Miscellaneous Material Purchases, etc., on Isthmus, Isthmian Canal—* | | |
| Fifth. For the purchase and delivery of material, supplies, and equipment, including cost of inspecting material and of paying traveling expenses incident thereto, whether on the Isthmus or elsewhere, and such other expenses not in the United States as the Commission deems necessary to best promote the construction of the Panama Canal, *and such expenses as are incurred in assembling, sorting, storing, repairing, and selling material, supplies, and equipment heretofore or hereafter purchased or acquired for the construction of the Panama Canal which are unserviceable or no longer needed, including the amount necessary to continue the construction of the 2 colliers provided for under the act approved June 23, 1913, subject to the limit of cost therein fixed*, and including the payment of damages caused to the owners of private lands or private property of any kind, by reason of the grants contained in the treaty between the United States and the Republic of Panama proclaimed Feb. 26, 1904, or by reason of the operations of the United States, its agents or employees, or by reason of the construction, maintenance, operation, sanitation, and protection of the said canal or of the works of sanitation and protection therein provided for, whether compromised by agreement between the claimant and the chairman of the commission or allowed by a joint commission, and the payment for land and land under water, as authorized in section 3 of the Panama Canal act, for the departments of construction and engineering, quartermaster's, subsistence, disbursements, and examination of accounts (*act June 25, 1913, vol. 38, p. 72, sec. 1*) | $10,459,000.00 | $5,000,000.00 |

NOTE.—Two additional provisions are submitted under this item, one authorizing the use of the appropriation for "such expenses as are incurred in assembling, sorting, storing, repairing, and selling material, supplies, and equipment heretofore or hereafter purchased or acquired for the construction of the Panama Canal which are unserviceable or no longer needed"; the other authorizing the use of the appropriation to "the amount necessary to continue the construction of the 2 colliers provided for under the act approved June 23, 1913, subject to the limit of cost therein fixed."

The purpose of the first provision in regard to paying the expenses in connection with the disposition of scrap or surplus material and equipment purchased or acquired for construction work is to specifically authorize the use of this particular appropriation for such expenses. No estimate for an appropriation is made for this purpose, however, as under section 3, below, it is provided that a sufficient portion of the receipts from the sale of such articles will be credited to the appropriation from which the expenses in connection with making the sale are paid. Expenses connected with the selling of material and equipment will be large, and it is essential that proper provision should be made for deducting such expenses from the collections and crediting the amount to the appropriation under which the expenses are incurred. The legislation submitted under this item and under section 3 are interrelated and provide a satisfactory method of handling the receipts and of paying all expenses.

The second provision is necessary for the purpose of authorizing the use of this appropriation if a sufficient amount was not retained from the appropriation approved June 23, 1913, to cover the cost of the colliers.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

| Description. | Estimate for 1915. | | | Expenditures during 1913. | | | Remarks. |
|---|---|---|---|---|---|---|---|
| | Quantity. | | Estimated cost. | Quantity. | | Estimated cost. | |
| | Total. | Unit. | | Total. | Unit. | | |
| AGA carbide and gas | | | $3,500.00 | | | | |
| Alum | | | | | | $4,875.00 | This statement does not include any material received on the large contracts for lock material, amounting to approximately $7,000,000. |

| Total | 725,000.00 | 791,095.56 |

Seventh. For the operation, maintenance. and extension of waterworks, sewers, and pavements in the cities of Panama and Colon, the necessary portion of such sums as shall be paid as water rentals or directly by the Government of Panama for such expenses (*act June 23, 1913, vol. 38, p. 72, sec. 1*).

NOTE.—The commission constructed waterworks, sewers, and pavements in the cities of Panama and Colon, for which expenses it is to be reimbursed within a certain period. The commission collects the water rental, and except for the portion necessary to operate the waterworks and maintain the pavements for a fixed period, applies such rentals to liquidate the cost of construction. The commission is under agreement to operate the waterworks and maintain the pavements, and it is to the interest of the United States Government in any case to do this work. The act of June 23, 1913, authorized under the three appropriation items for the department of civil administration the use of a sufficient portion of the amounts collected as water rentals to maintain the waterworks, sewers, and pavements in the cities of Panama and Colon. In the interests of economy, all municipal engineering work on the Isthmus, including the division of public works of the department of civil administration, which had handled the work in the cities of Panama and Colon, was consolidated in a division of municipal engineering under the department of construction and engineering. This division will operate the waterworks and maintain the sewers and pavements under the agreement with the Republic of Panama. The proposed legislation consolidates the three provisions contained in the act of June 23, 1913, into one indefinite appropriation of the amounts paid by the Republic of Panama, either directly or as water rentals, for the operation, maintenance, and extension of waterworks, sewers, and pavements. This wording was deemed necessary so that no question might arise as to the right of the commission to do the work of extending the systems in the cities of Panama and Colon, provided the Panamanian Government furnished the funds for such work.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act, approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

| | Estimate for 1915. | Expenditures for 1913. |
|---|---|---|
| Salaries and wages | $52,718.08 | $39,035.89 |
| Material and expenses | 63,625.00 | 49,596.41 |
| Total | 116,343.08 | 88,632.30 |

Increase due to larger area of pavements and increase in maintenance and repair charges.

*Pay of Officers and Employees, Canal Zone, Isthmian Canal—*

Eighth. For pay of the member of the commission in charge of the department of civil administration, of officers and employees, including foremen, subforemen, skilled and unskilled labor, watchmen, messengers, and storekeepers, of the departments of civil administration and law, including those necessarily and temporarily detailed for duty away from the Isthmus (*act June 23, 1913, vol. 38, p. 72, sec. 1*) | 528,870.00 | 500,000.00

NOTE.—The legislation submitted authorized payment to the regular officers of the departments of civil administration and law. There has been stricken out from these items the words "other than skilled and unskilled labor" and the insertion after subforemen of the words "skilled and unskilled labor," so that the entire personnel for the department of civil administration may be paid under this one item of the appropriation act. Previously there has been no estimate for skilled and unskilled labor for the department of civil administration except that attached to the division of public works, which has been transferred to the division of municipal engineering of the department of construction and engineering. As the force of laborers in any case will be small, if there are any at all, it seemed advisable to make the estimate for salaries and wages under one item of appropriation.

The provision in regard to using the water rentals to pay sewer expenses under this item was stricken out for the reason stated in the note under the seventh item.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act, approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Material and Expenses on Isthmus, Sanitary Department, Isthmian Canal—* | | |
| Twelfth. For material, supplies, equipment, construction and repairs of buildings, medical aid and support of the insane, and of indigent persons permanently disabled, while in line of duty and in the employ of the Isthmian Canal Commission, from earning a livelihood, and contingent expenses of the department of sanitation on the Isthmus, including the amount necessary for the construction of a quarantine station (*act June 23, 1913, vol. 38, p. 72, sec. 1*) | $520,000.00 | $300,000.00 |

NOTE.—Provision was made in the act of June 23, 1913, for the construction of a quarantine station to cost not exceeding $100,000. Due to the continuance of the large force of employees and the delay in the abandonment of the towns on the west side of the canal it was necessary to use the amount which might have been used for a quarantine station for the current expenses of the hospitals and for general sanitary work. A new estimate of $125,000 is therefore made for one quarantine station, as $100,000 is not sufficient to provide a station at any point heretofore considered.

NOTE.—In compliance with the requirements of section 5 of the sundry civil appropriation act, approved June 25, 1910 (36 Stat. L., 771), the following details as to the foregoing estimate are submitted:

## ISTHMIAN CANAL COMMISSION.

*Estimated requirements for material, supplies, and equipment for the Department of Sanitation, Appropriation Item No. 12, for the fiscal year ending June 30, 1915.*

| Items. | Estimate for 1915. | Expenditures for 1913. |
|---|---|---|
| Books, stationery, and printing supplies | $5,331.92 | $7,682.36 |
| Coal, fuel | 2,767.93 | 4,216.93 |
| Construction of buildings | [1] 183,669.49 | 1,169.49 |
| Corral service | 39,188.77 | 47,463.55 |
| Dairy and poultry supplies | 9,104.73 | 9,104.73 |
| Drugs, medicines, and miscellaneous hospital supplies | 47,103.22 | 68,400.09 |
| Electric lighting and current | 6,794.80 | 10,577.60 |
| Freight, local, Panama Railroad | 2,400.00 | 2,400.00 |
| Ice | 7,304.60 | 12,337.12 |
| Larvacide, materials for | 10,321.85 | 21,218.71 |
| Launch (quarantine) | ..... | 4,190.00 |
| Laundry supplies | 3,061.54 | 3,061.54 |
| Oil, fuel | 3,683.22 | 4,629.07 |
| Oil, mosquito | 9,248.59 | 20,204.30 |
| Passenger transportation, hospital cars and special trains for medical association | ..... | 1,402.00 |
| Repair of buildings | 11,031.38 | 15,202.92 |
| Street cleaning, etc., Panama | 10,000.00 | 10,000.00 |
| Subsistence supplies | 134,581.93 | 214,191.63 |
| Tools and machinery not included under other heads | 6,877.74 | 8,338.48 |
| Miscellaneous material, supplies and expenses | 20,188.65 | 40,079.39 |
| Services by construction divisions, zone sanitation | 25,319.50 | 91,877.98 |
| Services by quartermaster's department, zone sanitation | 38,699.65 | 109,918.59 |
| Miscellaneous repairs and services by other departments | 5,820.49 | 8,848.74 |
| Total | 582,500.00 | 716,065.22 |
| Less material to be used, and work to be done, for other departments and for individuals and companies | 62,500.00 | 141,280.57 |
| Net | 520,000.00 | 574,784.65 |

[1] Of the item for construction of buildings, $57,500 is for the construction of new dairy barns at Ancon Hospital farm and $125,000 is for new quarantine station.

The foregoing sums, so far as necessary, shall be available for the operation of the canal, for the permanent organization authorized to be established under the Panama Canal act, for dry docks, repair shops, yards, docks, wharves, warehouses, storehouses, and other necessary facilities and appurtenances for the purpose of providing coal and other materials, labor, repairs and supplies, for office buildings, quarters, and other necessary buildings, for the payment of claims arising out of injuries or deaths of employees, and for the consolidation and preservation of the files of papers and other records which have accumulated or may accumulate during the construction of the canal and needed or useful or having a permanent value or historical interest; in all, $23,775,155, the same to be immediately available and to continue available until expended: *Provided*, That all expenditures from the appropriations heretofore, herein, and hereafter made for the construction of the Panama Canal, including any portion of such appropriations which may be used for the construction of dry docks, repair shops, yards, docks, wharves, warehouses, storehouses, and other necessary facilities and appurtenances for the purpose of providing coal and other materials, labor, repairs, and supplies, for the construction of office buildings and quarters, and other necessary buildings, exclusive of fortifications *and colliers* and exclusive of the amount used for operating *and maintaining* the canal and for the permanent organization after the canal is opened for use and operation, shall be paid from or reimbursed to the Treasury of the United States out of the proceeds of the sale of bonds authorized in section 8 of the said act approved

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| June 28, 1902, and section 39 of the tariff act approved Aug. 5, 1909 (*act June 23, 1913, vol. 38, p. 73, sec. 1*). | | | |
| NOTE.—There has been added in the provision excluding from the amount to be charged against the bond issue the amount used for *maintaining the canal* as well as the amount used for *operating* it, also the amount expended for colliers. The act of June 23, 1913, authorized the expenditure of $2,000,000 for colliers. In making the estimate of 1908 for the construction of the canal and in fixing the limit of cost based upon that estimate this item was not included; therefore the amount should not be charged against the authorized bond issue. It should be excluded for the same reasons that the expenditures for fortifications are excluded. In making the estimate for the colliers specific request was made that the amount appropriated for the colliers be excluded from the general provision making all appropriations for the canal a charge against the authorized bond issue, but the matter appears to have been overlooked. (See the hearings on the estimates for the construction of the Panama Canal before the House Committee on Appropriations for the fiscal year 1914, pp. 199 and 282.) Request is again made that the item be excluded. | | | |
| Total, Isthmian Canal, exclusive of fortifications | | $23,775,155.00 | $16,265,393.00 |
| Except in cases of emergency, or conditions arising subsequent to and unforeseen at the time of *submitting the annual estimates to Congress*, and except for those employed in connection with the construction of permanent quarters, offices, and other necessary buildings, dry docks, repair shops, yards, docks, wharves, warehouses, storehouses, and other necessary facilities and appurtenances, for the purpose of providing coal and other materials, labor, repairs and supplies, and except for the permanent operating organization under which the compensation of the various positions is limited by section 4 of the Panama Canal act, there shall not be employed at any time during the fiscal year 1915 under any of the foregoing appropriations for the Panama Canal, any greater number of persons than are specified in the notes submitted respectively in connection with the estimates for each of said appropriations in the annual Book of Estimates for said year, nor shall there be paid to any of such persons during that fiscal year any greater rate of compensation than was authorized to be paid to persons occupying the same or like positions on the 1st day of July, 1913; and all employments made or compensation increased because of emergencies or conditions so arising shall be specifically set forth, with the reasons therefor, by the chairman of the commission in his report for the fiscal year 1915 (*act June 23, 1913, vol. 38, p. 73, sec. 1*). | | | |
| NOTE.—The limitation upon employing a greater number of persons than are specified in the notes submitted with the estimates "except in cases of emergency or conditions arising subsequent to and unforeseen at the time of *the passage of this act*" has been changed so as to fix the point of time to the time of "*submitting the annual estimates to Congress*," thus conforming to the following paragraph which relates to the use of a certain part of each appropriation interchangeably "in cases of emergencies arising subsequent to and unforeseen at the time of submitting the annual estimates to Congress." In view of the long time elapsing between the submission of the estimates and the time that the appropriation is made, many conditions might arise concerning which legislation could not be obtained and necessitating a greater number of persons than had been estimated for, and it is essential that no limitation should prevent the necessary force to do the work that is required. | | | |
| In cases of emergencies arising subsequent to and unforeseen at the time of submitting the annual estimates to Congress, 10 per cent. of the foregoing amounts shall be available interchangeably for expenditure on objects named; but not more than 10 per cent. shall be added to any one item of the appropriation. | | | |
| No part of the foregoing appropriations for the Panama Canal shall be applied to the payment of allowances for longevity service, or lay-over days other than such as may have accumulated under existing orders of the commission prior to July 1, 1909 (*act June 23, 1913, vol. 38, p. 73, sec. 1*). | | | |
| FORTIFICATIONS, PANAMA CANAL. | | | |
| For the following for fortifications and armament thereof for the Panama Canal, to be immediately available and to continue available until expended, namely: | | | |
| *Electric Light and Power Plants, Seacoast Fortifications, Canal Zone, Isthmian Canal*— | | | |
| For the purchase and installation of electric-light and power plants for the seacoast fortifications on the Canal Zone, $33,550 (*act June 23, 1913, vol. 38, p. 74, sec. 1*) | | 33,550.00 | 173,000.00 |
| *Field Fortifications, Canal Zone, Isthmian Canal*— | | | |
| For the construction of field fortifications, $194,350 (*act Aug. 24, 1912, vol. 37, p. 485, sec. 1*) | | 194,350.00 | |
| *Submarine Mine Structures, Canal Zone, Isthmian Canal*— | | | |
| For the construction of mining casemates, cable galleries, torpedo structures, cable tanks, and other structures necessary for the operation, preservation, and care of submarine mines and their accessories on the Canal Zone, $55,000 (*act Aug. 24, 1912, vol. 37, p. 485, sec. 1*) | | 55,000.00 | |
| *Buildings for Storage, Material for Temporary War Barracks and Obstacles, Canal Zone, Isthmian Canal*— | | | |
| For buildings and material, $71,375, as follows: | | | |
| 1. Margarita Island: | | | |
| 1 concrete storehouse | $5,000.00 | | |
| 10 buildings, at $900 | 9,000.00 | | |
| | | $14,000.00 | |
| 2. Tora Point: | | | |
| 1 concrete storehouse | 5,000.00 | | |
| 10 buildings, at $900 | 9,000.00 | | |
| | | 14,000.00 | |
| 3. Miraflores or Gatun: | | | |
| 1 storehouse | | 5,000.00 | |
| 4. Obstacles: | | | |
| 2,500 coils barbed wire, at $3 | 7,500.00 | | |
| 2,500 pounds staples, at 3 cents | 75.00 | | |
| | | 7,575.00 | |
| 5. Telephone line: | | | |
| Total length, 22 miles; unit cost, $1,400 (22 × $1,400) | | 30,800.00 | |
| (*Submitted*) | | 71,375.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Maintenance of Clearings and Trails, Canal Zone, Isthmian Canal—* | | | |
| For maintenance of clearings and trails, $45,450: | | | |
| Clearings, 4,370 acres, at $10 | $43,700.00 | | |
| Trails, 70 miles, at $25 | 1,750.00 | | |
| (*Submitted*) | | $45,450.00 | |
| *Armament of Fortifications, Isthmian Canal—* | | | |
| For the purchase, manufacture, and test of seacoast cannon for coast defense, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (*act June 23, 1913, vol. 38, p. 74, sec. 1*) | 6,000.00 | | |
| NOTE.—The amount estimated for this year is that required, with previous appropriations and estimate, to complete the armament now contemplated. The armament estimated for includes tools, inspection, etc., and is in accordance with the recommendations of the Panama Fortification Board.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For the purchase, manufacture, and test of ammunition for seacoast and land defense cannon, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals (*act June 23, 1913, vol. 38, p. 74, sec. 1*) | 733,000.00 | | |
| NOTE.—The amount estimated above, together with that appropriated and estimated previously, will provide approximately 78 per cent of the full allowance for the cannon provided.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |

## ARMAMENT OF FORTIFICATIONS, ISTHMIAN CANAL—H.

(Seacoast ammunition.)

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| For the alteration, maintenance, and installation of the seacoast artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work, and expenses of civilian mechanics, and extra-duty pay of enlisted men engaged thereon (*submitted*) | $41,825.00 | | |
| | | $780,825.00 | $1,575,000.00 |
| NOTE.—This estimate is for the installation of ten 6-inch guns on disappearing carriages; seven 14-inch guns on disappearing carriages; and twenty-eight 12-inch mortars and carriages; minor alterations; the cleaning and preserving materials; and the maneuvering material required in mounting guns and carriages.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *Submarine Mines, Isthmian Canal*— | | | |
| For the alteration, maintenance, and repair of submarine-mine matériel (*submitted*) | | 2,700.00 | |
| NOTE.—This is the amount estimated as required for the maintenance of the submarine-mine matériel installed or to be installed in connection with the fortifications of the Panama Canal.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *Provided*, That hereafter all appropriations herein made for armament of fortifications, Isthmian Canal, shall be available for the necessary expenses of printing, binding, and blank books, required in connection therewith: *And provided further*, That hereafter printing, binding, and blank books required for use outside of the District of Columbia in connection with such work may be done or procured elsewhere than at the Government Printing Office when, in the opinion of the Secretary of War, such work can be more advantageously done or procured locally (*submitted*). | | | |
| NOTE.—This legislation is desirable in view of the provisions of Senate bill 825, Sixty-third Congress, first session, entitled "A bill to amend, revise, and codify the laws relating to public printing and binding and the distribution of Government publications," to the effect that after the passage of that bill all public printing and binding shall be done at the Government Printing Office, and that "no appropriations other than those made specifically for printing and binding shall be used for such purposes."—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *Fire Control at Fortifications, Isthmian Canal*— | | | |
| For the construction of fire-control stations and the purchase and installation of accessories therefor (*act June 23, 1913, vol. 38, p. 74, sec. 1*) | | 100,000.00 | 200,000.00 |
| NOTE.—It was estimated that $400,000 would be required for the fire-control installation of the Isthmian Canal; $100,000 is requested to carry this work toward completion.—*E. M. Weaver, Brigadier General, Chief of Coast Artillery.* | | | |
| *Army Quarters, Storehouses, etc., Canal Zone*— | | | |
| For construction on the Panama Canal Zone, of barracks, quarters, storehouses, and other buildings necessary for accommodating the mobile Army and Coast Artillery troops to be stationed there, including water, sewer and lighting systems, roads, walks, etc., and for repairing and remodeling existing buildings to render them suitable for sheltering troops (*submitted*) | | 1,268,580.00 | |
| NOTE.—The above amount contemplates that the mobile Army troops and the Coast Artillery at Toro Point will be quartered in the present buildings on the Canal Zone by making such minor repairs and alterations therein as may be necessary to render them suitable for the purpose, and constructing the necessary gun sheds, wagon sheds, and stables for animals of the Cavalry, Field Artillery, and Quartermaster Corps; also providing the necessary permanent accommodations for 8 companies of Coast Artillery at Balboa Dump and 2 companies of Coast Artillery at Margarita Island. (Hire of labor and purchase of material, or job and contract.)—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | | |
| Total Fortifications, Isthmian Canal | | 2,551,830.00 | [1] 4,870,000.00 |

[1] Includes all appropriations made for fortifications and armament thereof for the Panama Canal in the sundry civil act of June 23, 1913.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

SEC. 2. That all funds collected by the government of the Canal Zone from rentals of public lands and buildings in the Canal Zone and the cities of Panama and Colon, and from the zone postal service, and from court fees and fines, and collected or raised by taxation in whatever form under the laws of the government of the Canal Zone, are hereby appropriated until and including June 30, 1915, as follows: The revenues derived from the postal service, to the maintenance of that service; the remaining revenues, including any balances unexpended in prior years, after setting aside a miscellaneous and contingent fund of not exceeding $10,000, to the maintenance of the public school system in the zone; to the construction and maintenance of public improvements within the zone; to the maintenance of the administrative districts; and for the expenses of the subdivisions of the Canal Zone after they are established under section 7 of the Panama Canal act; to the maintenance of Canal Zone charity patients in the hospitals of the Isthmian Canal Commission, and to the maintenance of administrative district prisoners: *Provided, That if the revenues of the Canal Zone government are not sufficient for the purposes herein specified, the necessary part of the amounts appropriated for the departments of civil administration and law under items 8 and 9 may be used therefor.* A detailed and classified statement of all receipts and expenditures without the duplication of items under this paragraph, shall be submitted to Congress after the close of the fiscal year 1915 (*act June 23, 1913, vol. 38, p. 74, sec. 1*).

NOTE.—The proviso added after the first sentence, reading: "*Provided*, That if the revenues of the Canal Zone government are not sufficient for the purposes herein specified, the necessary part of the amounts appropriated for the departments of civil administration and law under items 8 and 9 may be used therefor," is added because of the uncertainty of the sources of revenue for the Canal Zone government during the fiscal year 1915, and also because at the expiration of the present fiscal year the balances available for these purposes in the zone treasury will be practically exhausted. As the operation of the district courts and the schools, the maintenance of charity patients and district prisoners are now dependent upon these revenues, these essential functions of government should be provided for if the revenues should not be sufficient for that purpose.

NOTE.—Details of estimates and expenditures are as follows:

| SEC. 3. That *all moneys received after the 30th day of June, 1914*, by the Isthmian Canal Commission, or the governor of the Panama Canal, from any services rendered or materials and supplies furnished *to* employees *of the United States or of the Panama Railroad Company, to* the Panama Railroad Company, *to* the Canal Zone Government, *to* the Panama Government, and *to* other departments of the United States Government; from hotel and hospital supplies; and services from rentals, wharfage, and so forth; from labor, materials, and supplies, and other services furnished to vessels and to those unable to obtain similar labor, materials, supplies, and services elsewhere; *from the sale of scrap and other by-products of manufacturing and shop operations; from the sale of obsolete and unserviceable material, supplies, and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the canal and Canal Zone; and from exchanges of typewriting, adding, and other machines*, shall be credited to the appropriation from which payments for the materials, supplies, labor, or other services were originally made. Moneys heretofore or hereafter received from the sale of material, *supplies*, and equipment purchased or acquired for the construction of the Panama Canal, *after deducting all expenses of assembling, sorting, storing, repairing, and selling such material, supplies, and equipment, which deductions shall be credited to the appropriations from which such expenses are paid, and the moneys received* as a reimbursement for the expenditures incurred in constructing waterworks, sewers, and pavements in the cities of Panama and Colon, including interest on such expenditures, excluding payments on account of the expenses for maintenance of such waterworks, sewers, and pavements incurred under agreement with the Panama Government, and otherwise herein disposed of, shall be covered into the Treasury as miscellaneous receipts. After the canal is opened for use and operation the net profits accruing from the operations herein authorized shall annually be covered into the Treasury of the United States, as provided for the profits accruing from the business authorized in section 6 of the Panama Canal act (*act May 1, 1913, vol. 38, p. 2, sec. 1*).<br><br>NOTE.—For several years prior to the passage of the act of June 23, 1913, provision corresponding to section 3 of the estimates submitted herewith was contained in the sundry civil bill. Due to changes in wording to meet changed conditions, the section was stricken out on both the floor of the House and the Senate and carried in a separate bill, after the matter had been explained to the various committees of Congress interested. It is again submitted with the sundry civil bill in a slightly modified form to meet the conditions which are arising. Certain minor changes, namely, the addition of the word "to" before various classes to whom supplies are to be furnished, have been made on account of the criticism of the measure made upon the floor of the Senate. The other provisions are added to definitely and satisfactorily provide for the handling of all receipts from the sale of material, supplies, and equipment, both during the construction period and after the operating period commences. Authority is specifically requested for crediting to appropriations, in addition to the other items provided for, receipts from (first) the sale of obsolete and unserviceable supplies and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the canal and Canal Zone; (second), the sale of scrap and other by-products of manufacturing and shop operation; and (third) the exchanges of typewriting, adding, and other machines. The right to use the receipts from these sources is necessary if the canal operations are to be managed upon a business basis in the manner as provided in the Panama Canal act. It is possible that the accounting office of the Treasury would interpret the Panama Canal act so as to permit the use of the receipts from the sources mentioned in the manner herein provided. In order to avoid possibility of misunderstanding, this matter is covered in this provision, which is made permanent legislation, as it covers "all moneys received after the thirtieth day of June, nineteen hundred and fourteen, by the Isthmian Canal Commission or the governor of the Panama Canal." The section also authorizes the deduction of "all expenses of assembling, sorting, storing, repairing, and selling" the material, supplies, and equipment purchased and used for construction purposes from the moneys received from the sales of same and the crediting of the amounts deducted to the appropriation from which such expenses are paid. In the fifth item of the appropriation act authority is specifically given for the paying of expenses of this class, and the amounts will be large if the receipts from the sales are to aggregate anything like the amounts that should be received. Heavy expenses must be incurred for these purposes if the commission is to realize the amount that should be realized, and specific authority should be given to pay the expenses from the receipts and not make such expenses an additional charge against the cost of the construction of the canal. The act of June 8, 1896 (29 Stats., 268), authorizes the deduction of the cost of making sales from the gross receipts, but this act as it has heretofore been construed is not sufficiently broad to satisfactorily cover the conditions which will exist on the Isthmus in connection with the sale of the large amount of equipment that will be left after the canal has been completed. | | |
| That until the close of the fiscal year nineteen hundred and fifteen, when any material, supplies, and equipment heretofore or hereafter purchased or acquired for the construction of the Panama Canal is no longer needed, or is no longer serviceable, it may be sold in such manner as the President may direct, and without advertising in such classes of cases as may be authorized by him.<br><br>NOTE.—No change is made in the authority for selling the material, supplies, and equipment heretofore or hereafter purchased or acquired for the construction of the Panama Canal, except to make the provision effective during the fiscal year 1915. | | |
| Total Isthmian Canal..... | $26,326,985.00 | [1] $21,146,824.38 |

[1] Includes all appropriations made for construction and fortifications, and for relief of injured employees.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| FORTIFICATIONS AND OTHER WORKS OF DEFENSE. | | |
| UNDER THE ENGINEER DEPARTMENT. | | |
| *Gun and Mortar Batteries—* | | |
| For construction of gun and mortar batteries (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*).....$250,000.00 | | |
| NOTE.—This estimate is submitted to provide for the continuation of the construction of defenses regarded as desirable at present.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| For modernizing older emplacements (*same act*)..... 175,000.00 | | |
| | $425,000.00 | $125,000.00 |
| NOTE.—The funds estimated for are desired for adapting existing emplacements and appliances to a new form of projectile, and for modernizing a mortar battery.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Fire Control at Fortifications—* | | |
| For construction of fire-control stations and accessories, including purchase of lands and rights of way, and for the purchase and installation of necessary lines and means of electrical communication, including telephones, dial and other telegraphs, wiring, and all special instruments, apparatus, and materials, coast-signal apparatus, and salaries of electrical experts, engineers, and other necessary employees connected with the use of coast artillery; for the purchase, manufacture, and test of range finders, and other instruments for fire control at the fortifications, and the machinery necessary for their manufacture at the arsenals (*act June 6, 1912, vol. 37, p. 125, sec. 1; submitted*)..... | 25,000.00 | |
| NOTE.—This estimate is for the purchase of self-contained range-finding instruments.—*E. M. Weaver, Brigadier General, Chief of Coast Artillery.* | | |
| *Electrical Installations at Seacoast Fortifications—* | | |
| For installation and replacement of electric-light and power plants at seacoast fortifications (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 60,000.00 | 50,000.00 |
| NOTE.—This estimate is submitted to permit the procurement of equipment much needed for important forts.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Searchlights for Harbor Defenses—* | | |
| For purchase and installation of searchlights for the defenses of our most important harbors (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 200,000.00 | 100,000.00 |
| NOTE.—The above estimate is intended to provide for the procurement and installation of additional searchlight outfits, in accordance with the policy already adopted by the department.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Preservation and Repair of Fortifications—* | | |
| For the protection, preservation, and repair of fortifications for which there may be no special appropriation available (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 200,000.00 | 200,000.00 |
| *Plans for Fortifications—* | | |
| For preparation of plans for fortifications (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 5,000.00 | 5,000.00 |
| *Supplies for Seacoast Defenses—* | | |
| For the maintenance and repair of searchlights and electric-light and power equipment for seacoast fortifications, and for tools, electrical and other supplies and appliances to be used in their operation, including the purchase of reserve lights (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 40,000.00 | 40,000.00 |
| NOTE.—The language proposed above is intended to express more accurately the work for which the funds under this head are intended and to which they are now being applied. The wording recommended will not increase the work to which the funds will be applied, except that it is proposed to make the appropriation applicable to the purchase of reserve lights instead of asking a separate appropriation for that purpose, as has been done in prior years.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Sea Walls and Embankments—* | | |
| For construction of sea walls and embankments (*act June 6, 1912, vol. 37, p. 126, sec. 1; submitted*)..... | 40,000.00 | |
| NOTE.—This estimate is submitted to provide for sea walls for the protection of valuable reservations from inroads by the sea.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Preservation and Repair of Torpedo Structures—* | | |
| For preservation and repair of structures erected for the torpedo defense of the United States and for maintaining channels for access to torpedo wharves (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | 30,000.00 | 20,000.00 |
| NOTE.—In view of the large amount of repair and maintenance work at present needed on torpedo structures, including wharves, the amount of this estimate is required to maintain the structures in satisfactory condition. On account of the number of these structures which have been erected, former appropriations have proved inadequate to properly maintain them all.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Casemates, Galleries, etc., for Submarine Mines—* | | |
| For construction of mining casemates, cable galleries, torpedo storehouses, cable tanks, and other structures necessary for the operation, preservation, and care of submarine mines and their accessories, and for providing channels for access to torpedo wharves (*act Mar. 4, 1911, vol. 36, p. 1341, sec. 1; submitted*)..... | 35,000.00 | |
| NOTE.—This estimate is submitted to permit the erection of much-needed structures for mine defense. Provisions for maintaining channels for access to torpedo wharves so as to render them readily available for use of the mine planters were contained in the fortification appropriation act of June 6, 1912, in the appropriations for preservation and repair of torpedo structures; similar provision for such dredging, etc., as may be necessary to avoid much more expensive wharf construction work is recommended.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| UNDER THE CHIEF SIGNAL OFFICER. | | |
| ***Maintenance, Etc., Fire-Control Installations at Seacoast Defenses—*** | | |
| For operation and maintenance of fire-control installations at seacoast defenses (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | $180,000.00 | $180,000.00 |
| UNDER THE ORDNANCE DEPARTMENT. | | |
| ***Armament of Fortifications—*** | | |
| For the purchase, manufacture, and test of mountain, field, and siege cannon, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (*act Feb. 13, 1913, vol. 37, p. 671, sec. 1*)..... | $900,000.00 | |
| *Provided*, That the Chief of Ordnance, United States Army, is hereby authorized to enter into contracts or otherwise incur obligations for the purposes above mentioned not to exceed $300,000 in addition to the appropriations herein and heretofore made (*same act*). | | |

NOTE.—Estimated to procure 6 batteries of 3-inch mountain howitzers; 2 batteries of 4.7-inch howitzers; 2 ammunition batteries, 3-inch gun; and 1 ammunition battery, 4.7-inch gun; $300,000 of the amount of this estimate covers the contract authorization contained in the act of Feb. 13, 1913.

The supply of field artillery matériel is entirely inadequate at the present time. The total number of gun and howitzer batteries required by the approved project (both regular and militia) is 323. Of this number 188, or approximately 58 per cent, have been provided.

The estimated cost of the matériel remaining to be provided for the regular service is $6,042,722.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the purchase, manufacture, and test of ammunition for mountain, field, and siege cannon, including the necessary experiments in connection therewith and the machinery necessary for its manufacture at the arsenals (*act Feb. 15, 1913, vol. 37, p. 671, sec. 1*).....$3,000,000.00

NOTE.—This amount is needed in order to provide, within a more reasonable time, the amount of ammunition prescribed as the allowance for mobile artillery. The present supply is so limited as to be a matter of grave concern.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the purchase, manufacture, and test of seacoast cannon for coast defense, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (*act Feb. 15, 1913, vol. 37, p. 672, sec. 1*)..... $336,800.00

*Provided*, That the Chief of Ordnance, United States Army, is hereby authorized to enter into contracts or otherwise incur obligations for the purposes above mentioned not to exceed $300,000 in addition to the appropriations herein and heretofore made (*submitted*).

NOTE.—The amount estimated for above, taken in connection with the appropriations previously made, is intended to procure four 14-inch guns on disappearing carriages, complete; eight 12-inch mortars and carriages, complete; and four 3-inch guns mounted on barbette carriages.

This estimate covers the armament for the coast defenses of Los Angeles Harbor (San Pedro) in accordance with the report approved by the Secretary of War, referred to in Senate Document No. 656, Sixtieth Congress, second session. The amount asked for in this year's estimates is that which, taken in connection with the appropriation made in the act approved Feb. 13, 1913, will cover the estimated expenditures for one year.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

*Armament of Fortifications*—Continued.

For the purchase, manufacture, and test of ammunition for seacoast cannon, and for modernizing projectiles on hand, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals (*act Feb. 13, 1913, vol. 37, p. 672, sec. 1*)..... $400,000.00

NOTE.—The increase of $260,000 over the amount appropriated last year is needed in order to modernize projectiles on hand and to provide an adequate ammunition supply within a more reasonable time.—*William Crozier, Brigadier General, Chief of Ordnance.*

| Smokeless powder | 10,631.02 | | |
| Miscellaneous | 8,380.11 | Miscellaneous | 8,000.00 |
| Total material | 221,990.43 | Total material | 288,600.00 |
| Grand total | 353,345.69 | Grand total | 425,000.00 |

For the alteration and maintenance of the mobile artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work and the expenses of the mechanics engaged thereon (*act Feb. 13, 1913, vol. 37, p. 672, sec. 1*) ..... $55,000.00

NOTE.—Estimated for the alteration and maintenance of 77 batteries of 3-inch guns; 30 batteries of 2.95-inch mountain guns; 2 batteries of 3.8-inch field guns; 2 batteries of 3.8-inch howitzers; 11 batteries of 4.7-inch howitzers; 8 batteries of 6-inch howitzers; 15 batteries of 5-inch siege guns; and 15 batteries of 7-inch siege howitzers. The cost of this material, in round numbers, is approximately $10,374,000, so that the amount estimated for alteration and maintenance is about 0.54 of 1 per cent.

The amount estimated is $10,000 in excess of that appropriated for the fiscal year 1914. This increase is necessary in view of the fact that the amount of this matériel to be cared for has been largely increased within the last two years by completion of additional batteries.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the purchase, manufacture, and test of ammunition, subcaliber guns, and other accessories for mountain, field, and siege artillery practice, including the machinery necessary for their manufacture at the arsenals (*same act*) ..... 140,000.00

NOTE.—The increase of $10,000 over the amount appropriated for the fiscal year 1914 is to provide ammunition for the necessary instruction of officers of Field Artillery, Cavalry, and Infantry at the School of Fire at Fort Sill, Okla. The increase will permit the furnishing of approximately 1,300 additional rounds of ammunition. This would increase the allowance per student officer from approximately 70 rounds to approximately 100 rounds. The latter is considered a very moderate allowance.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the alteration of 3.2-inch batteries to rapid-fire field batteries, including sights, implements, equipments, and the materials and machinery necessary for alteration and manufacture at the arsenals (*same act*) ..... 250,000.00

NOTE.—Estimated for the conversion of seven 3.2-inch batteries to 3-inch. This estimate provides for the conversion of an equal number of 3.2-inch batteries to 3-inch batteries; new guns and carriages being provided and the ammunition vehicles being converted to carry 3-inch ammunition. In this way modern rapid-fire field guns and carriages are obtained, with ammunition vehicles of a serviceable, although not up-to-date, type, at much less cost than manufacturing entirely new material.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the alteration and maintenance of seacoast artillery, including the purchase and manufacture of machinery, tools, materials necessary for the work, and expenses of civilian mechanics and extra-duty pay of enlisted men engaged thereon (*same act*) ..... 300,000.00

NOTE.—The above estimate is for the alteration and maintenance of the seacoast artillery matériel in continental United States. The annual maintenance of the entire matériel costs approximately $170,000. The alteration and modernising of the earlier guns and carriages would cost a very considerable amount. Guns and carriages which were installed many years ago have not the efficiency of later designs. It is possible, however, to alter this matériel so as to make it almost as efficient as the artillery matériel of recent design. But little is included in this estimate for alteration work.—*William Crozier, Brigadier General, Chief of Ordnance.*

$5,806,800.00 | $2,693,000.00

PROVING GROUND, SANDY HOOK, N. J.

*Proving Ground, Sandy Hook, N. J.*—

For current expenses of the ordnance proving ground, Sandy Hook, N. J., comprising the maintenance of rail and water transportation, repairs, alterations, accessories, and service of employees incidental to testing and proving ordnance matériel, hire of assistants for the Ordnance Board, purchase of instruments and articles required for testing and experimental work, building and repairing butts and targets, clearing and grading ranges (*act Feb. 13, 1913, vol. 37, p. 672, sec. 1*)..... $56,200.00

NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the necessary expenses of officers while temporarily employed on ordnance duties at the proving ground and absent from their proper station, at the rate of $2.50 per diem while so employed, and the compensation of draftsmen while employed in the Army Ordnance Bureau on ordnance construction (*same act*)..... 18,700.00

$74,900.00 | $74,900.00

NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.*

SUBMARINE MINES.

*Submarine Mines*—

For the purchase of submarine mines and necessary appliances to operate them for closing the channels leading to our principal seaports, and for continuing torpedo experiments (*act Feb. 13, 1913, vol. 37, p. 672, sec. 1*)..... 225,000.00

NOTE.—This amount is necessary at this time for continuing the work of providing submarine-mine equipment for the most important harbors in the United States.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the maintenance of the submarine-mine matériel within the limits of continental United States, for the purchase of the necessary machinery, tools, and implements for the repair shop of the torpedo depot at Fort Totten, N. Y., for extra-duty pay to soldiers necessarily employed for periods not less than 10 days in connection with the issue, receipt, and care of submarine-mining matériel at the torpedo depot, and for torpedo-depot administration (*same act*)..... 68,000.00

293,000.00 | 118,000.00

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| BENICIA ARSENAL, CAL. | | | |
| *Replacing Ordnance and Ordnance Stores Destroyed by Fire, Benicia Arsenal, Cal.*— | | | |
| For replacing ordnance and ordnance stores destroyed by fire at the Benicia Arsenal, Benicia, Cal., on Oct. 18, 1912, the funds to be immediately available and to remain available until the close of the fiscal year ending June 30, 1916, as follows: | | | |
| For spare parts, tools, and accessories for mobile artillery (*submitted*) | $31,172.72 | | |
| For range-finding instruments for Field Artillery, their parts and accessories (*submitted*) (Armament of fortifications—B.) | 1,781.19 | | |
| For mobile artillery ammunition and its components (reserve) (*submitted*) (Armament of fortifications—C.) | 3,000.00 | | |
| For Seacoast Artillery ammunition and its components (reserve) (*submitted*) (Armament of fortifications—H.) | 10,000.00 | | |
| For Seacoast Artillery ammunition and its components (target practice) (*submitted*) | 16,855.13 | | |
| For articles for instruction purposes, Seacoast Artillery (*submitted*) | 3,188.08 | | |
| For reloading and cleaning outfits for Seacoast Artillery (*submitted*) | 1,300.70 | | |
| For pressure gauges, their parts and accessories, Seacoast Artillery (*submitted*) | 637.84 | | |
| For target material for Seacoast Artillery (*submitted*) (Armament of fortifications—K.) | 110.65 | | |
| For mobile artillery ammunition and its components (target practice) (*submitted*) | 6,827.80 | | |
| For target material for mobile artillery practice (*submitted*) (Armament of fortifications—N.) | 366.20 | | |
| For parts, tools, and accessories for seacoast guns and carriages (*submitted*) | 49,234.95 | | |
| For seacoast fire-control instruments, parts, and accessories (*submitted*) | 10,955.30 | | |
| For material for mechanical maneuvers (*submitted*) | 3,353.34 | | |
| For tools and supplies for ordnance repair shops (*submitted*) (Armament of fortifications—M.) | 2,446.59 | $141,230.49 | |

NOTE.—These stores are needed for current use and for the reserve of ordnance stores, already low in most instances, and their loss depletes that reserve to that extent. The department carries no fire insurance on its ordnance and ordnance stores and has no funds from which those lost could be replaced. A specific appropriation for the purpose is therefore necessary. The title of the appropriation from which the ordnance or ordnance stores were originally procured is given in parentheses after each item or group of items.—*William Crozier, Brigadier General, Chief of Ordnance.*

ENGINEER DEPARTMENT.

*Fortifications in Insular Possessions*—

For construction of seacoast batteries, as follows:

In the Philippine Islands (*act Feb. 15, 1913, vol. 37, p. 673, sec. 1*) ..... 300,000.00

NOTE.—This estimate is the unappropriated balance of the estimate submitted last year for this purpose. So far as can now be foreseen, the amount now requested will complete the defensive project for batteries in the Philippines.

*Number of persons employed throughout the fiscal year 1913, and paid exclusively from the appropriation for "Fortifications in insular possessions" (for seacoast batteries), and number intended to be employed and paid in fiscal year 1915, and the rate of compensation to each.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

***Fortifications in Insular Possessions***—Continued.

For construction of seacoast batteries—Continued.

*Classification of expenditures made in 1913 and contemplated for 1915.*

| | 1915 | 1913 |
|---|---|---|
| Compensation of persons referred to in preceding statement | $135,670.00 | $135,670.00 |
| Employees other than laborers charged to this appropriation for occasional periods (not included in preceding statement) | 25,000.00 | 24,132.67 |
| Laborers, employed occasional periods (not included in preceding statement) | 75,000.00 | 73,635.86 |
| All other expenditures | 264,330.00 | 328,396.42 |
| Total expenditures | [1] 500,000.00 | 561,834.95 |

[1] Anticipated balance on July 1, 1914, from funds now available ..... $200,000
Estimate herewith submitted ..... 300,000
500,000

NOTE.—It should be stated that the engineering construction work, especially on the seacoast fortifications in the Philippine Islands, present essentially different problems and conditions from a simple case of employment of office personnel in an administrative capacity, where conditions are practically constant. In general the conditions of the fortification work may be regarded as very irregular and dependent upon many factors. The work varies from month to month and from season to season, and the adverse meteorological effects of a tropical climate, such as typhoons, excessive rains, etc., cause much interruption thereto. A large number persons are employed irregularly from time to time under this appropriation during the course of a year.

For these reasons it is impracticable to list all individuals employed during the fiscal year 1913 and paid from this appropriation for periods varying from a few days to several months, and the persons listed above have accordingly been restricted to those employed throughout the fiscal year and paid exclusively from this appropriation.

The items covering proposed expenditures for the fiscal year 1915 are still more unreliable and problematical; these are mere approximations, and must be considered as subject to marked changes when the actual conditions of the work are known.—*William T. Rossell, Chief of Engineers, United States Army.*

For the maintenance and repair of searchlights and electric light and power equipment for seacoast fortifications and for tools, electrical, and other supplies, and appliances to be used in their operation at the following localities:

In the Hawaiian Islands (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*)..... $1,000.00
In the Philippine Islands (*same act*)..... 3,000.00

NOTE.—The large amount of costly machinery already installed and to be installed with available funds in the defenses in the insular possessions requires constant attention and a certain quantity of supplies to keep it in condition for effective use. The estimates submitted are to provide the necessary supplies and repairs.

The language proposed above is intended to express more accurately the work for which the funds under this head are intended and to which they are now being applied. The wording recommended will not increase the work to which the funds will be applied.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

For protection, preservation, and repair of fortifications at the following localities:

In the Hawaiian Islands (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*)..... 1,500.00
In the Philippine Islands (*same act*)..... 7,000.00

NOTE.—Subjected as the batteries in the insular possessions are to extreme moist heat and tropical rains, constant attention must be given to the iron work and to the earthen parapets to prevent injury by rusting and washing.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

For preservation and repair of structures erected for torpedo defense, and for maintaining channels for access to torpedo wharves, at the following localities:

In the Hawaiian Islands (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*)..... 2,000.00
In the Philippine Islands (*same act*)..... 1,000.00

NOTE.—The numerous structures erected for use in connection with the mine defenses in the insular possessions require constant attention to a greater degree than those in this country to prevent deterioration.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

*Classification of expenditures contemplated for 1915.*

[No funds available and no expenditures made in 1913.]

| | Estimate, 1915. | Expenditures, 1913. |
|---|---|---|
| Land, rights of way, etc. | $29,000 | |
| Equipment | 65,000 | |
| Personal services | 165,000 | |
| Materials, etc. | 198,000 | |
| Total | 457,000 | |

NOTE.—This estimate is submitted to provide for an essential element of the defenses.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

| | | | |
|---|---|---|---|
| For reserve equipment at the following localities: | | | |
| In the Hawaiian Islands (*submitted*) | 50,000.00 | | |
| In the Philippine Islands (*submitted*) | 100,000.00 | | |
| | | $922,500.00 | $899,369.00 |

NOTE.—This estimate is submitted to provide an adequate reserve of spare parts, etc., for the fortifications and their appliances, necessary on account of the remoteness of these fortifications from commercial sources of supply.—*Wm. T. Rossell, Chief of Engineers, United States Army.*

UNDER THE CHIEF SIGNAL OFFICER.

| | | | |
|---|---|---|---|
| *Maintenance, etc., Fire-Control Installations at Seacoast Defenses, Insular Possessions*— | | | |
| For operation and maintenance of fire-control installations at seacoast defenses (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*) | | 15,000.00 | 15,000.00 |

ORDNANCE DEPARTMENT.

| | | | |
|---|---|---|---|
| *Fortifications in Insular Possessions*— | | | |
| For the purchase, manufacture, and test of seacoast cannon for coast defenses, including their carriages, sights, implements, equipments, and the machinery necessary for their manufacture at the arsenals (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*) | 100,000.00 | | |

NOTE.—The amount estimated above, taken in connection with previous appropriations, covers the cost of twenty-four 12-inch mortars and carriages and four 14-inch guns on disappearing carriages. The necessity for this additional appropriation arises from the fact that certain modifications were found necessary after the proof firing of the first guns and carriages, which increased the cost beyond that given in the original estimates.—*William Crozier, Brigadier General, Chief of Ordnance.*

For the alteration and maintenance of the seacoast artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work, and expenses of the civilian mechanics, and extra-duty pay of enlisted men engaged thereon (*act Feb. 13, 1913, vol. 37, p. 673, sec. 1*)..... 40,469.00

NOTE.—Estimated for the alteration and maintenance of seacoast artillery in the insular possessions. The increase in the amount of this estimate over that appropriated for the fiscal year 1914, is due to the increase in the number of guns and carriages mounted from 87 to 105, for all of which funds for the alteration and maintenance must be provided.—*William Crozier, Brigadier General, Chief of Ordnance.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Fortifications in Insular Possessions*—Continued. | | | |
| For the mechanical supervision of the installation of seacoast artillery, including the purchase and manufacture of machinery, tools, and materials necessary for the work, and expenses of civilian mechanics, and extra-duty pay of enlisted men engaged thereon (*act Feb. 13, 1913, vol. 37, p. 674, sec. 1*)..... | $500.00 | | |
| | | $540,969.00 | $511,819.00 |
| NOTE.—Estimated for the installation of armament as follows: Two 6-inch guns on disappearing carriages, and two 3-inch guns on barbette carriages. The amount of the above estimate was included in that submitted for the fiscal year ending June 30, 1914—$4,600; but only $4,100 was appropriated, leaving a balance of $500 still required.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *Submarine Mines in Insular Possessions*— | | | |
| For the maintenance of the submarine mine matériel in the insular possessions (*act Feb. 13, 1913, vol. 37, p. 674, sec. 1*)..... | | 10,000.00 | 76,162.00 |
| NOTE.—The amount estimated is required for the maintenance of the submarine mine matériel in the insular possessions.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| That all material purchased under the provisions of this act shall be of American manufacture, except in cases when, in the judgment of the Secretary of War, it is to the manifest interest of the United States to make purchases in limited quantities abroad, which material shall be admitted free of duty (*same act*). | | | |
| Hereafter all appropriations for the construction, care, and maintenance of fortifications and other works of defense, supplies therefor, and the armament thereof, including mountain, field, and siege cannon, and ammunition; and the expenses connected with proving grounds, shall be available for the necessary expenses of printing, binding, and blank books required in connection therewith: *Provided*, That hereafter printing, binding, and blank books required for use outside of the District of Columbia in connection with such work may be done or procured elsewhere than at the Government Printing Office when in the opinion of the Secretary of War such work can be more advantageously done or procured locally (*submitted*). | | | |
| NOTE.—This legislation is desirable in view of the provisions of Senate bill 825, Sixty-third Congress, first session, introduced Apr. 12, 1913, entitled "To amend, revise, and codify the laws relating to the public printing and binding and the distribution of Government publications," to the effect that after the passage of that bill all public printing and binding shall be done at the Government Printing Office, and that "no appropriations other than those made specifically for printing and binding shall be used for such purposes.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| UNDER THE CHIEF OF COAST ARTILLERY. | | | |
| *Fire Control in Insular Possessions*— | | | |
| For construction of fire-control stations and accessories, including purchase of lands and rights of way, and for the purchase and installation of necessary lines and means of electrical communication, including telephones, dial and other telegraphs, wiring, and all special instruments, apparatus and materials, coast-signal apparatus, and salaries of electrical experts, engineers, and other necessary employees connected with the use of coast artillery; for the purchase, manufacture, and test of range finders and other instruments for fire control at the fortifications, and the machinery necessary for their manufacture at the arsenals (*act June 23, 1910, vol. 36, p. 599, sec. 1; submitted*)..... | | 55,000.00 | |
| NOTE.—This amount is necessary to complete the fire-control project in Manila Bay.—*E. M. Weaver, Brigadier General, Chief of Coast Artillery.* | | | |
| BOARD OF ORDNANCE AND FORTIFICATION. | | | |
| *Board of Ordnance and Fortification*— | | | |
| To enable the board to make all needful and proper purchases, experiments, and tests to ascertain, with a view to their utilization by the Government, the most effective guns, small arms, cartridges, projectiles, fuses, explosives, torpedoes, armor plates, and other implements and engines of war, and to purchase or cause to be manufactured, under authority of the Secretary of War, such guns, carriages, armor plates, and other war material as may, in the judgment of the board, be necessary in the proper discharge of the duty devolved upon it by the act approved Sept. 22, 1888; to pay the salary of the civilian member of the Board of Ordnance and Fortification provided by the act of Feb. 24, 1891, and for the necessary traveling expenses of said member when traveling on duty as contemplated in said act; for the payment of the necessary expenses of the board, including a per diem allowance to each officer detailed to serve thereon, when employed on duty away from his permanent station, of $2.50 a day; and for the test of experimental guns, carriages, and other devices procured in accordance with the recommendation of the Board of Ordnance and Fortification, $25,000, the expenditure of which shall be made by the several bureaus of the War Department heretofore having jurisdiction of the same, or by the board itself, as the Secretary of War may direct: *Provided*, That before any money shall be expended in the construction or test of any gun, gun carriage, ammunition, or implements under the supervision of the said board, the board shall be satisfied, after due inquiry, that the Government of the United States has a lawful right to use the inventions involved in the construction of such gun, gun carriage, ammunition, or implements, or that the construction or test is made at the request of a person either having such lawful right or authorized to convey the same to the Government (*act Feb. 13, 1913, vol. 37, p. 674, sec. 1*)..... | | 25,000.00 | 10,000.00 |
| NOTE.—During the past fiscal year the board has allotted over $30,000 for experimental purposes, and it is necessary to ask for the amount covered by the estimate in order that the board may have sufficient funds to carry on necessary experimental work which is contemplated.—*Leonard Wood, Major General, Chief of Staff.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| **ARSENALS.** | | |
| ORDNANCE DEPARTMENT. | | |
| *Augusta Arsenal, Augusta, Ga.*— | | |
| For increasing facilities for fire protection (*submitted*)..... | $8,100.00 | |
| NOTE.—Estimated to install automatic sprinkler systems in the storehouses of the arsenal, including the laying of approximately 2,600 feet of 6-inch water pipe, to replace an existing 4-inch pipe line, with the necessary valves fittings, etc., for the protection of the buildings and the valuable supplies and materials stored therein. The disastrous fire at the Benicia Arsenal, destroying the main storehouse at that place together with its contents to a value of over $1,000,000, emphasizes the necessity for adequate fire protection, especially in view of the fact that the Government carries no insurance on its buildings or their contents.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Benicia Arsenal, Benicia, Cal.*— | | |
| For placing the electric wiring on the arsenal reservation underground (*submitted*)..... | 8,000.00 | $21,000.00 |
| NOTE.—The present system of outside wiring is all carried on poles. The commercial line enters the arsenal reservation at the main gate, passes through a switch house, and runs to the shops where it is distributed. From this point 2,200-volt lines are carried over the reservation to transformers on poles. In many places the secondary lighting circuits and telephone wires are carried on the same poles and cross arms as the high-voltage wires. This is dangerous both to life and property, on account of the liability of the high-voltage wires coming in contact with the lighting and telephone wires during heavy winds, and thus throwing current at 2,200 volts into the buildings of the arsenal. The 2,200-volt line which supplies the arsenal runs for a distance of several miles at that voltage and is tapped at many places before reaching the arsenal. The voltage at which current is supplied to the arsenal is therefore irregular and is not satisfactory for power purposes in the shops. Considerations of safety to life and property, and also of appearance, make it desirable that, in the main part of the arsenal grounds, all high-voltage wires be removed from proximity to the low-voltage service and telephone wires, and placed in underground conduits. Power considerations make it desirable that the lines run to the edge of the reservation at as high a voltage as possible and enter by the shortest route. The system contemplated by the above estimate provides for these very desirable features.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Frankford Arsenal, Philadelphia, Pa.*— | | |
| For one high-explosive loading shop and its equipment (*submitted*)..... $32,000.00 | | |
| NOTE.—Estimated for the erection of a one-story fireproof building about 200 by 45 feet, providing space and arrangement of operations required for safeguarding the arsenal and its employees, and for localizing and minimizing the effects of accidents; also to provide facilities for keeping the output of this shop in balance with the other shops of the artillery ammunition department. The principal work of loading the projectiles is now being done in a cheap frame building, 24 by 100 feet, which was formerly constructed for only temporary storage purposes and presents constant danger from fire or accident due to the deposit of explosive dust on the walls. The capacity of the present building is, moreover, only about one-third of that required to balance its output with that of other shops, while involving the use of other buildings to perform part of the necessary operations, and thus entailing unwarranted expense in routing this work and moving materials, even for the present limited output. The proposed shop being specially designed for the purpose will enable the work to be done with the least hazard and at a material reduction in cost, and it is necessary to meet the output required by current appropriations for work allotted to the arsenal. The building is estimated to cost about $27,000 and the equipment, in addition to that now in use in the present building, about $5,000. This estimate is $2,000 more than that previously submitted, the additional amount being required for additional work developed in the manufacture of high-explosive shrapnel.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| For magazine protection (*submitted*)..... 6,000.00 | | |
| NOTE.—Estimated to provide earth embankments around an exposed brick magazine. This magazine is exposed on all sides except on the side next to the adjacent magazine, from which it is protected only by an embankment forming part of the continuous one about the latter magazine. It is essential for every magazine to be protected in this manner from the effects of any outside explosion and to minimize the effect of an explosion within the magazine itself upon its surroundings. The capacity of the magazine is about 250,000 pounds of smokeless powder or other explosives.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| For one artillery ammunition storehouse (*submitted*)..... 17,500.00 | | |
| NOTE.—Estimated for the erection of a fire-proof building about 120 by 45 feet for the disposal of component parts of artillery ammunition under manufacture. In the manufacture of artillery ammunition the manufacturing proper is separated distinctly from the assembling of the components so manufactured. It is not possible in the manufacturing and assembling operations to so route the work that all of the components will be ready for assembling as completed. From various causes the completion of one or more parts will be delayed, and experience has shown that for such situations a place must be provided where the parts that are completed can be stored until all necessary to a completed article can be sent to the assembling shop. At present the shops are largely used for this purpose. This situation can not longer prevail owing to the fact that the shops are now being equipped throughout with machinery, so that there is no room for storing components. It is most important also that explosive components shall be removed from the shops, away from the workmen, and yet be accessible for the purpose of assembling. The proposed building is to be erected adjoining the present artillery assembling shop so that the components can be readily delivered and directly to this shop. The building is necessary for economy of manufacture, but particularly for the safety of the workmen engaged in this hazardous work.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| For extension of metal storehouse (*submitted*)..... 13,500.00 | | |
| NOTE.—The object of this estimate is to provide additional storage room for materials for manufacturing purposes. The building known as the "metal storehouse" was appropriated for as a scrap storehouse, but it has been found absolutely necessary to use this building for storing sheet metal, cold-drawn steel, forged steel, artillery cartridge case disks, etc. Four-fifths of the building are really utilized for sheet metal and cartridge-case disks. As a result it has been necessary to store scrap in the open on the open platform, and only recently a successful bidder for furnishing cartridge metal was asked to store three carloads of scrap while awaiting an order to rework it into cartridge brass. Even after these three cars had been removed the situation was just as congested. The proposed extension would be 120 feet long and so extended that the building would occupy the entire front between Mellon and Baird Streets. The metal storehouse is one of the two most convenient storehouses at the arsenal for receiving heavy material by rail, and it is provided with a traveling crane so that it can be handled easily. It is a matter of regret that when the metal storehouse was originally constructed it was not made longer, but the great increase in the quantities of materials required in the manufacture of artillery ammunition had not been properly foreseen.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| For increasing facilities for fire protection, including the installation of a motor-driven pump and the construction of a building to contain the same (*submitted*)..... 19,000.00 | | |
| | 88,000.00 | |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Frankford Arsenal, Philadelphia, Pa.*—Continued. | | | |
| NOTE.—Estimated to provide a supply of water directly from the Delaware River to supplement the present insufficient supply of city water for fire purposes. The city supply is derived from two 6-inch connections with a main averaging about 50 pounds pressure, which is insufficient for fire purposes, and if used from the pipes would exhaust the supply to the power plant and reservoir. The reserve supply of water for fire purposes is contained in a reservoir of 300,000 gallons capacity, which is insufficient for combating a serious conflagration and inadequate for the protection of the valuable and expensive plant and buildings of the arsenal. The proposed installation includes a pump, with house, having a capacity of 4,000 gallons per minute, drawing from the Delaware River and forcing the water through a 12-inch main to the reservoir and water tower, or alternately, directly into the fire mains throughout the arsenal. In addition to fire purposes the water will be used in the boilers and in the washing machines in the shops.<br>Water is used in large quantities at the Frankford Arsenal for boilers and washing cartridge cases. The arsenal has been paying about $4,000 per year to the city for water used for manufacturing purposes, and it is stated by the city authorities that the rate will be increased 50 per cent. After considering all expenses, including maintenance and depreciation, it is conservatively estimated that this installation, besides offering adequate fire protection, would result in a saving of water rent of about $2,500 annually, or 15 per cent of the original cost.<br>The drawing of water from the Delaware River for boiler purposes and for fire protection has been resorted to by many large concerns similarly located on the river, such as Henry Disston & Sons, Quaker City Rubber Works, Dill & Collins, Philadelphia Electric Co., and League Island Navy Yard.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *New York Arsenal, Governors Island, New York Harbor*—<br>Repair of wharf (*submitted*) | | $8,500.00 | |
| NOTE.—The main body of the wharf at the New York Arsenal is a masonry structure. Due to certain changes which have been made in the vicinity, certain currents have been deflected and increased in such a manner as to partially undermine this structure, and it is now in process of tipping over into the river. It is necessary to repair it promptly or the wharf will be lost.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| *Rock Island Arsenal, Rock Island, Ill.*—<br>For increasing facilities for fire protection (*submitted*) | $8,222.00 | | |
| NOTE.—Estimated to replace certain 4-inch water pipe which has been in the ground since the water system was first established, about 1876, by new 8-inch pipe, into which the double pump pressure of the fire pumps could be put for fire purposes, affording a sufficient volume of water. The present 4-inch pipe is quite useless for fire purposes, being so old and leaky that it will not stand high pressure, and besides it could not supply an adequate volume of water. As a result the row of officers' quarters, the stable, and adjacent buildings are at present without adequate water supply for fire-protection purposes.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For road repairs (*submitted*) | 6,000.00 | | |
| NOTE.—The main roads of the arsenal are of macadam made of soft limestone quarried on the island. The increasing use of motor vehicles, with their destructive action on the roads, has brought these roads to a condition where extensive repairs are required. In some cases the entire top surface is worn off and the roads worn down to several inches of the foundation. It is proposed to replace these roads with taroid and granite chips on a foundation of rock, which will not only put them in keeping with the remainder of the grounds but will result in a considerable annual saving for repairs and sprinkling; the expense for the latter varies from $1,000 to $1,700 per year, depending upon the season.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For a system of semaphore signals for the protection of the draw span of the bridge (*submitted*) | 3,600.00 | | |
| NOTE.—The present signal system for the draw of the bridge is worn out and of an obsolete type, not worth replacing in kind. The signals as now arranged govern the movement of trains on two tracks, which is contrary to good practice, and the signals can not be seen by an approaching train to as good advantage as a semaphore signal. It is proposed to install a new system of semaphore signals which will give trains better protection for the draw span, because of better arrangement of circuit controllers and because of interlocking features to be connected with the control for motive power moving the bridge. With the proposed plan a positive check will be provided indicating the correct operation of the signals. The replacement of the present obsolete system of signals by the system proposed is necessary for the proper protection of the traveling public.<br>The Rock Island Bridge was constructed and is operated and maintained by the Government, but the Rock Island Railroad Co. using this bridge was required to pay one-half the cost of construction, and has since been required to pay one-half of the cost of operation and maintenance of the bridge, such payments being deposited in the Treasury of the United States to the credit of the fund "Miscellaneous receipts." The railroad company will be required to pay one-half of the cost of installing the new semaphore system herein estimated for, and has expressed its willingness to do so.<br>The annual appropriation of $18,000 made for the operation and maintenance of the bridge will not permit of the expenditure of the amount stated for the purpose of this estimate.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For painting the Rock Island Bridge (*submitted*) | 8,500.00 | | |
| NOTE.—This bridge was last painted in 1909-10. Due regard to economy, with a view to proper preservation of this structure, requires that it should be painted at this time. The general practice of railroad companies is to paint their bridges every fourth year. The appropriation asked for above, if made, will leave a five-year interval in the repainting of this particular bridge, which connects the Rock Island Arsenal with the city of Davenport, Iowa.<br>The annual appropriation of $18,000 for the maintenance and operation of the bridge is not sufficient to meet this extraordinary expense.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For replacing sidewalks and repainting all metal work of the bridge between the Rock Island Arsenal and the city of Rock Island, Ill. (*submitted*) | 5,500.00 | | |
| NOTE.—Estimated to replace with creosoted wood the present wooden sidewalk, which is worn out, and to paint, for preservation, all metal work of this structure. A portion of the metal work is only accessible for painting when the sidewalk has been removed. All of the metal work requires repainting, having been last painted in 1907.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |
| For repairing the foundations and walls of shop H (*submitted*) | 65,000.00 | | |
| | | 96,822.00 | $250,000.00 |
| NOTE.—The walls of this building are cracked in several places, due to defective foundations. These defects are becoming more pronounced each year. The east wall of the building, and particularly the southeast portico, is now unsafe. At present the building is only partly available for storage purposes, and is not safe for shop purposes. The estimate provides for tearing down and rebuilding such portions of the walls as may be necessary and for putting secure foundations under other parts that show signs of giving way.—*William Crozier, Brigadier General, Chief of Ordnance.* | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Rock Island Power Plant, Rock Island, Ill.*— | | |
| For maintenance and operation of power plant (*act June 23, 1913, vol. 38, p. 29, sec. 1*)..... | $12,500.00 | $12,500.00 |
| NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Rock Island Bridge, Rock Island, Ill.*— | | |
| For operating and care and preservation of Rock Island bridges and viaduct; and for maintenance and repair of the arsenal street connecting the bridges (*act June 23, 1913, vol. 38, p. 29, sec. 1*)..... | 18,000.00 | 18,000.00 |
| NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Watertown Arsenal, Watertown, Mass.*— | | |
| For replacing wooden roof on smith shop by a steel structure, including the necessary repairs and alterations to the building (*submitted*)..... | 40,000.00 | |
| NOTE.—The wooden roof on the smith shop is in bad condition and it is proposed to replace it by a modern steel structure, raising the walls of the building so as to give an interior height sufficient to accommodate a modern forging press of proper capacity, and at the same time make the necessary repairs to the old walls, remove the old chimney, etc.<br>This is in continuation of a general project for the modernization of the smith shop at the Watertown Arsenal. One of the principal objects is to improve the facilities for manufacture of steel gun forgings at this arsenal to include guns of from 3-inch to 6-inch caliber, and compete with the private steel works for needed supplies of such forgings. An appropriation of $10,000 for a fuel-oil burning plant was appropriated by the sundry civil act approved May 4, 1911. After the amount now estimated for shall have been appropriated, there will still be required to complete the project (for installation of electric, hand-power, and jib cranes) approximately $13,304.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Testing Machines, Watertown Arsenal, Mass.*— | | |
| For the necessary professional and skilled labor, purchase of materials, tools, and appliances for operating the testing machines, for investigative test and tests of material in connection with the manufacturing work of the Ordnance Department, and for instruments and materials for operating the chemical laboratory in connection therewith, and for maintenance of the establishment (*act June 23, 1913, vol. 38, p. 29, sec. 1*)..... | 15,000.00 | 15,000.00 |
| NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Watervliet Arsenal, West Troy, N. Y.*— | | |
| For increasing facilities for fire protection, including one motor-driven pump and house to contain same (*submitted*)..... | 20,300.00 | |
| NOTE.—Estimated to install automatic sprinkler systems in the storehouses and shops not already so provided; for the installation of a modern fire-alarm system to replace the present open-circuit district messenger system, which is unreliable and does not conform to underwriter requirements, and for the procurement and installation of a motor-driven fire pump of proper capacity and the erection of a fireproof building to contain this pump. The present fire pumps of the arsenal are located in the dynamo room in the lower shop, and the occurrence of a fire in their vicinity would cripple the water supply. The proposed pump would be arranged to take water directly from the river or canal and discharge either into the existing water tanks or directly into the fire mains.<br>The carpenter shop at the arsenal has already been provided with an automatic sprinkler system procured out of the general appropriation made this department, but the entire project is beyond the capacity of this appropriation and requires a specific appropriation for the purpose.<br>As the Government carries no insurance on its buildings or their valuable contents, it is essential that all possible safeguards against fire loss be provided.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Repairs of Arsenals*— | | |
| For repairs and improvements at arsenals, and to meet such unforeseen expenditures as accidents or other contingencies during the year may render necessary, including $125,000, or so much thereof as may be necessary, for machinery for manufacturing purposes in the arsenals (*act June 23, 1913, vol. 38, p. 29, sec. 1*)..... | 290,000.00 | 290,000.00 |
| NOTE.—This is the amount annually appropriated for this purpose.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Provided*, That the appropriations herein made for armories and arsenals are available for such printing, binding, and blank books as may be necessary in putting in effect the objects of the appropriations: *And provided further*, That hereafter printing, binding, and blank books required for use outside of the District of Columbia in connection with the appropriations herein made for armories and arsenals may be done or procured elsewhere than at the Government Printing Office when, in the opinion of the Secretary of War, such work can be more advantageously done or procured locally, the cost thereof to be paid from the proper appropriations (*submitted*). | | |
| NOTE—This legislation is desirable in view of the provision contained in Senate bill 825, Sixty-third Congress, first session, introduced Apr. 12, 1913, entitled "To amend, revise, and codify the laws relating to the public printing and binding and the distribution of Government publications," to the effect that "no appropriations other than those made specifically for printing and binding shall be used for such purposes" and requiring all public printing and binding to be done at the Government Printing Office.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| *Provided*, That the legislation contained in the act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1914 (act June 23, 1913—Public No. 3, p. 24), providing for the erection and operation of a central heating and power plant, is hereby amended so that the building known as the "Ordnance Annex," in the city of Washington, shall be furnished with heat, light, and power, in the same way as indicated in that legislation for the other Government buildings therein enumerated (*submitted*). | | |
| NOTE.—The amendment of the legislation, if enacted, as recommended above is necessary in order to provide heat, light, and power for the Ordnance Annex, located in rear of the Windsor Building. This annex is used for the storage of blanks and stationery, which is received and issued to the various ordnance establishments throughout the country and to the Army from that place, and for the storage of records to which more or less reference is continually had. The carpenter shop is also located in this building.—*William Crozier, Brigadier General, Chief of Ordnance.* | | |
| Total, arsenals | $605,222.00 | $610,500.00 |
| MILITARY POSTS AND MISCELLANEOUS. | | |
| QUARTERMASTER CORPS. | | |
| *Military Posts*— For the construction and enlargement at military posts of such buildings as in the judgment of the Secretary of War may be necessary, including the installation therein of plumbing and of heating and lighting apparatus; but no part of this sum shall be used for the purchase of land, for construction of buildings at Coast Artillery posts, nor for the establishment of any military prison: *Provided*, That $892,000 of this sum, or so much thereof as may be necessary, may be used in the construction of barracks, quarters, and other buildings for accommodating headquarters and two battalions of Infantry at Fort Shafter, Hawaii; and barrack accommodations for one regiment of Infantry at Schofield Barracks, Hawaii, including the necessary water, sewer, and lighting systems, roads, walks, etc. (*act June 23, 1913, vol. 38, p. 29, sec. 1*) | 920,000.00 | 140,000.00 |
| NOTE.—With the funds estimated for the following construction is contemplated: | | |
| Plattsburg Barracks, N. Y.: Barrack for Quartermaster Corps detachment and machine-gun platoon | $28,000 | |
| Fort Shafter, Hawaii: | | |
| 2 battalion barracks, at $96,000 | $192,000 | |
| 1 building for administration purposes, post exchange, guardhouse, barrack and mess for band, machine-gun platoon, mounted detachment, and scouts | 80,000 | |
| 28 line officers' quarters, at $5,000 | 140,000 | |
| 6 noncommissioned officers' quarters, at $2,500 | 15,000 | |
| 1 stable | 6,000 | |
| 1 wagon shed | 4,000 | |
| Water supply | 25,000 | |
| Sewer system | 5,000 | |
| Roads | 8,000 | |
| Walks | 4,000 | |
| | 479,000 | |
| Schofield Barracks, Hawaii: | | |
| Barracks, building for administration purposes, post exchange, guardhouse, barracks and mess for band, machine-gun platoon, mounted detachment and scouts, etc., for 1 regiment of Infantry | 368,000 | |
| For sewage disposal plant, and for water and sewer connections to buildings | 45,000 | |
| Total | 920,000 | |
| There were no expenditures made during the fiscal year 1913 from appropriation "Military posts."—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |
| *Barracks and Quarters, Seacoast Defenses*— For the construction and enlargement of barracks and quarters for the Coast Artillery and of other buildings in connection with the adopted project for seacoast defenses, including the installation therein of plumbing and of heating and lighting apparatus, to be expended as in the judgment of the Secretary of War may be necessary: *Provided*, That no part of this sum shall be used for the construction of officers' quarters to cost in excess of the limits established in the sundry civil appropriation act approved May 27, 1908 (*act June 23, 1913, vol. 38, p. 29, sec. 1*) | 41,937.00 | 115,078.00 |
| NOTE.—With the amount estimated for it is contemplated to do the following new construction work: | | |
| Fort Baker, Cal., oil house | $205 | |
| Fort Caswell, N. C., addition to fire apparatus house | 596 | |
| Fort Flagler, Wash., mess building with kitchen, etc | 6,700 | |
| Fort Hancock, N. J.: | | |
| Shelter for saw mill | 2,236 | |
| Addition to quartermaster stable | 1,500 | |
| Fort Monroe, Va., addition to quartermaster stable | 2,000 | |
| Fort Pickens, Fla., one oil house | 1,200 | |
| Fort Screven, Ga., one double set noncommissioned officers' quarters | 7,000 | |
| Fort Stevens, Oreg., one double set officers' quarters | 12,000 | |
| Fort Warren, Mass., addition to barrack | 8,000 | |
| Fort Wool, Va., landing platform | 500 | |
| Total | 41,937 | |
| —*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Sewerage System, Fort Monroe, Va.*— | | |
| Wharf, roads, and sewer: For repair and maintenance of wharf, including all necessary labor and material therefor, fuel for waiting rooms, and water, brooms, and shovels, $1,400; repairs to apron of wharf, including all necessary labor and material therefor, $4,155; wharfinger, $900; four laborers, $1,920; in all, $8,375; for one-third of said sum, to be supplied by the United States, $2,791.66. | | |
| Repairs and operation of roads, pavements, streets, lights, and general police: For rakes, shovels, and brooms; repairs to roadway, pavements, macadam, and asphalt block; repairs to street crossings; repairs to street drains, $2,170; 6 laborers cleaning roads, at $480 each; in all, $5,050; for two-thirds of said sum, to be supplied by the United States, $3,366.66. | | |
| Maintenance of sewer system: For waste, oil, and boiler repairs, sewer pipe, cement, brick, and supplies, $1,900; 2 engineers, at $1,200 each; 2 laborers, at $500 each; in all, $5,300; for two-thirds of said sum to be supplied by the United States, $3,533.34 (*act June 23, 1913, vol. 38, pp. 29, 30, sec. 1*) | $9,691.66 | $9,291.66 |
| *Seacoast Defenses, Philippine Islands and Hawaii*— | | |
| For continuing the construction of the necessary accommodations for the Seacoast Artillery in the Philippine Islands and Hawaii (*act June 23, 1913, vol. 38, p. 30, sec. 1*) | 951,632.44 | 200,000.00 |
| NOTE.—The increase of $751,632.44 over the amount appropriated for the current fiscal year is due to the necessity for construction of quarters, etc., for the Coast Artillery garrisons in the Philippine and Hawaiian Islands. With the $951,632.44 now estimated for, the following work is contemplated: | | |
| Philippine Islands: For completion of accommodations for 10 companies of Coast Artillery at Fort Mills, P. I. $244,032.44 | | |
| Hawaiian Islands: | | |
| For construction of accommodations for 4 companies of Coast Artillery at Fort Kamehameha 531,200.00 | | |
| For construction of accommodations for 1 company of Coast Artillery at Fort De Russy 176,400.00 | | |
| Total 951,632.44 | | |
| —*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |

| | Estimate for 1915. | | Cost for 1913. |
|---|---|---|---|
| For continuing the construction of the necessary accommodations for the Seacoast Artillery in the Philippine Islands and Hawaii (job and contract) | $951,632.44 | For continuing the construction of the necessary accommodations for the Seacoast Artillery in the Philippine Islands (job and contract) | $255,043.11 |

| | | |
|---|---|---|
| *Cavalry Post, Territory of Hawaii*— | | |
| For the construction of officers' quarters, barracks, storehouses, etc., necessary for the enlargement of the present post to accommodate a regiment of Cavalry (*act June 23, 1913, vol. 38, p. 30, sec. 1*) | 154,000.00 | 350,000.00 |
| *Land, Remount Depot, Front Royal, Va.*— | | |
| For the acquisition by purchase or condemnation of the church lot lying within the limits of the Front Royal remount depot, Front Royal, Va., containing three-fourths of an acre, more or less, and upon which is located an old church, $150; and for the purchase from G. C. Jenkins and wife of seven-tenths of an acre of land, $1 (*submitted*) | 151.00 | |
| NOTE.—The church lot was originally a part of the Elijah Weekley tract which was recently purchased by the Government, at which time because of necessary action by court and church officials it was not possible to procure a deed. The abstract of title has since been passed upon by the Attorney General who has approved the same. The object in purchasing the seven-tenths of an acre from G. C. Jenkins is that the United States may be enabled to place the exterior fence of the Front Royal remount depot in such position as to remove it from the bed of Happy Creek and bring that particular portion of the said creek within the reservation. Submitted by the direction of the Secretary of War.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |
| ENGINEER DEPARTMENT. | | |
| *Buildings, Engineer School and Post, Washington, D. C.*— | | |
| For continuing construction of buildings for Engineer School and Post at Washington Barracks, D. C., to be immediately available and remain available until expended (*acts June 30, 1902, vol. 32, p. 519, sec. 1; Mar. 2, 1907, vol. 34, p. 1175, sec. 1; July 25, 1912, vol. 37, p. 233, sec. 11; submitted*) | 50,000.00 | |
| The estimate submitted is to cover the cost of the following: | | |
| 2. Trade School Building (procurement of materials; work to be done by enlisted labor) $8,000 | | |
| 3. Completion of west barracks 40,000 | | |
| 8. Store sheds for wood, coal, and lumber 2,000 | | |
| Total 50,000 | | |
| *Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| *Military Structures, Philippine Islands*— | | |
| For continuing the construction and installation of the necessary accommodations and equipment for storage, electric power, and water supply for the Army in the Philippine Islands, to be immediately available and to remain available until expended (*submitted*) | 154,000.00 | |
| NOTE.—This estimate is submitted to enable the Engineer Department to complete the construction of a pumping plant and electric power plant and storehouses, for which funds already applied thereto from various appropriations are insufficient.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| Total Military Posts and Miscellaneous | 2,281,412.10 | 814,369.66 |
| Total Public Works (Military) | 12,011,033.59 | 6,543,119.66 |

| **MILITARY PARKS, ETC.** | | |
| **SECRETARY'S OFFICE.** | | |
| *Chickamauga and Chattanooga National Park—* | | |
| For continuing the establishment of the Chickamauga and Chattanooga National Park; for the compensation and expenses of three civilian commissioners, maps, surveys, clerical, and other assistance, including $300 for necessary clerical labor under direction of the chairman of the commission, office expenses, printing, binding, and blank books, and all other necessary expenses; foundations for State monuments; mowing; historical tablets, iron and bronze; iron gun carriages; for roads and their maintenance; the purchase of small tracts of lands heretofore authorized by law; in all (*acts Aug. 19, 1890, vol. 26, p. 333, secs. 1–11; June 23, 1913, vol. 38, p. 32, sec. 1*) | $57,060.00 | $57,060.00 |
| NOTE.—The estimated expenditures of the Chickamauga and Chattanooga National Park Commission for the fiscal year ending June 30, 1915, are as follows: | | |
| 1. Labor for maintenance of roads and bridges | $13,000 | |
| 2. Material for maintenance of roads and bridges | 8,000 | |
| 3. Field work in park and its approaches | 6,560 | |
| 4. Monuments, tablets, markers, and guide boards | 1,064 | |
| 5. Iron gun carriages | 800 | |
| 6. Repair of buildings | 800 | |
| 7. Repair of fences | 500 | |
| 8. Forage | 900 | |
| 9. Painters' supplies | 290 | |
| 10. Draftman's supplies | 50 | |
| 11. Stationery and printing | 100 | |
| 12. Machinery, hardware, tools, etc | 500 | |
| 13. Mileage and traveling expenses | 360 | |
| 14. Park transportation, care of | 500 | |
| 15. Incidentals and contingencies | 1,056 | |
| 16. Salaries of commissioners | 10,800 | |
| 17. Superintendent of park | 2,400 | |
| 18. Assistant secretary of commission | 2,000 | |
| 19. Assistant in historical work | 1,800 | |
| 20. Clerk (bookkeeper) | 1,080 | |
| 21. Clerk (stenographer and typewriter) | 840 | |
| 22. Mounted guardians (2; 1 at $900 and 1 at $720) | 1,620 | |
| 23. Stonemason and carpenter | 1,320 | |
| 24. Clerical assistance under direction of chairman | 300 | |
| 25. Stableman | 420 | |
| | 57,060 | |
| —*C. H. Grosvenor, Chairman of Commission.* | | |
| *Shiloh National Military Park—* | | |
| For continuing the work of establishing a national military park on the battle field of Shiloh, Tenn.; for the compensation of 3 civilian commissioners; and the secretary; assistant superintendent; clerical and other services; labor; historical tablets; maps and surveys; roads; purchase and transportation of supplies and materials; printing, binding, and blank books; office and other necessary expenses (*acts Dec. 27, 1894, vol. 28, p. 597, secs. 1–8; Mar. 2, 1895, vol. 28, p. 946, sec. 1; June 23, 1913, vol. 38, p. 32, sec. 1*) | 27,000.00 | 27,000.00 |
| NOTE.—The estimated expenditures of the Shiloh National Military Park Commission for the fiscal year ending June 30, 1915, are itemized and classified as follows: | | |
| Salaries: | | |
| 3 commissioners, at $3,000 | $9,000 | |
| 1 secretary | 3,000 | |
| 1 assistant superintendent | 1,200 | |
| 1 foreman of masons | 1,000 | |
| 1 range rider | 960 | |
| 1 clerk | 900 | |
| Labor, including clerical and other services | 8,000 | |
| Books, stationery, etc | 150 | |
| Printing | 150 | |
| Replacement and repairs | 1,000 | |
| Illuminating gas | 40 | |
| Forage | 800 | |
| Telephone | 72 | |
| Incidentals | 728 | |
| Total | 27,000 | |
| —*D. W. Reed, Chairman Shiloh National Military Park.* | | |
| *Gettysburg National Park—* | | |
| For continuing the work of establishing the national park at Gettysburg, Pa.; for the acquisition of lands, surveys, and maps; constructing, improving, and maintaining avenues, roads, and bridges thereon; making fences and gates; marking the lines of battle with tablets and guns, each tablet bearing a brief legend giving historic facts, and compiled without censure and without praise; preserving the features of the battlefield and the monuments thereon; providing for a suitable office for the commissioners in Gettysburg; compensation of three civilian commissioners, clerical and other services, expenses, and labor; the purchase and preparation of tablets and gun carriages and placing them in position; printing, binding, and blank books; and all other expenses incidental to the foregoing (*acts Feb. 11, 1895, vol. 28, p. 651, secs. 1–9; June 23, 1913, vol. 38, p. 32, sec. 1*) | 50,000.00 | 54,000.00 |

| Stationery, etc | 140 | |
| Freight and express charges | 70 | |
| Drugs, paints, and oils | 500 | |
| Equipment of stable, horseshoeing | 180 | |
| Forage for horses | 160 | |
| Other stable service | 300 | |
| Light, heat, ice, etc., for office | 115 | |
| Books, binding, typewriting for office | 500 | |
| Incidental expenses | 765 | |
| Total | 50,000 | |
| —*John P. Nicholson, Chairman.* | | |
| *Vicksburg National Military Park*— For continuing the work of establishing the Vicksburg National Military Park; for the compensation of three civilian commissioners; for clerical and other services, labor, iron gun carriages, the mounting of siege guns, memorials, monuments, markers, and historical tablets giving historical facts, compiled without praise and without censure; maps, surveys, roads, bridges, restoration of earthworks, purchase of lands, purchase and transportation of supplies and materials; printing, binding, and blank books, and other necessary expenses (*acts Feb. 21, 1899, vol. 30, pp. 841–843, sec. 8; June 23, 1913, vol. 38, p. 32, sec. 1*) | $44,000.00 | $44,000.00 |
| NOTE.—The estimated expenditures of the Vicksburg National Military Park Commission for the fiscal year ending June 30, 1915, are as follows: | | |
| Salaries of three civilian commissioners | $10,800 | |
| Salary of clerk ($2,100) and engineer ($2,100) | 4,200 | |
| Pay of messenger, foremen, artisans, laborers, and teams | 18,000 | |
| Rent of office ($720) and traveling expenses ($480) | 1,200 | |
| Books, stationery, and other office expenses | 500 | |
| Acquisition of land ($100) and incidentals ($100) | 200 | |
| Tablets and guideboards | 100 | |
| Construction of roads, maintenance of roads and bridges, and foundations of all kinds, wholly under other items. | | |
| Cement, crushed stone, gravel, and sand | 1,000 | |
| Lumber, hardware, paint, and tools for laborers | 1,000 | |
| Memorial bronze portraits and granite pedestals | 7,000 | |
| | 44,000 | |
| —*Wm. T. Rigby, Chairman, Vicksburg National Park Commission.* | | |
| UNDER ENGINEER DEPARTMENT. | | |
| *Improvement of Yellowstone National Park*— For maintenance and repair of improvements, in Yellowstone National Park, and for printing, binding, and blank books, including not to exceed $7,500 for maintenance of the road in the forest reserve leading out of the park from the east boundary, and not to exceed $2,500 for maintenance of the road in the forest reserves leading out of the park from the south boundary, to be expended by and under the direction of the Secretary of War, to be immediately available and to remain available until expended: *Provided*, That no portion of this appropriation shall be expended for the removal of snow from any of the roads for the purposes of opening them in advance of the time when they will be cleared by seasonal changes (*act June 23, 1913, vol. 38, p. 33, sec. 1*) | $150,000.00 | |
| NOTE.—This estimate includes certain items in the nature of extraordinary repairs which should be made at once. The funds available for maintenance during the six years ending June 30, 1912, proved entirely inadequate for maintenance and much damage was done the road system through lack of necessary work. At the present time an expenditure of $150,000 in excess of the amount required for ordinary maintenance would be required to restore the roads to their original condition. This would require a single appropriation of over $250,000 for maintenance. As some of the work can be delayed without damage to the roads it is not included in this estimate, which will allow the expenditure of approximately $50,000 toward restoration of the road system. A number of bridges on the belt line are wooden structures built 19 and 20 years ago. These should at once be replaced by steel or concrete structures.<br>The estimate has been reduced to those things believed absolutely essential to the work, and it is all for emergency work. An expenditure of any less sum will leave certain necessary work undone and require larger expenditures for the same work in future years. An appropriation of $250,000 for maintenance could be spent to advantage, but is not absolutely necessary.<br>The provision that the appropriation be made immediately available and remain available until expended is necessary to the efficient prosecution of the work. The working season in the park is short and uncertain, and specific items of necessary repair work included in the estimate may not be completed during the fiscal year 1915 on account of climatic conditions. Under fiscal year appropriations that work would be delayed until the fiscal year 1917 in case it were reestimated and inserted in the regular annual estimate.<br>Senate bill 4239, Sixty-second Congress, which passed the Senate, contained a provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "Printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Improvement of Yellowstone National Park*—Continued. | | | |
| For widening and improving the surface of roads and for building bridges and culverts from the belt line road to the western border; from the Thumb Station to the southern border, and from the Lake Hotel Station to the eastern border, all within Yellowstone National Park, to make such roads suitable and safe for animal-drawn and motor-propelled vehicles, and for printing, binding, and blank books, to be immediately available, and to remain available until expended (*act June 25, 1913, vol. 38, p. 33, sec. 1*) | $100,000.00 | | |
| NOTE.—The total estimated cost of widening and improving surface of roads in Yellowstone National Park, including retaining and guard walls, bridges, and culverts, to permit the use of motor-propelled vehicles, as given in the report of Capt. C. H. Knight, Corps of Engineers, May 27, 1912, printed in Senate Document No. 871, Sixty-second Congress, second session, was $2,264,670. The estimate for the work on the west, south, and east approaches within the park was as follows: | | | |
| West approach | $190,700 | | |
| South approach | 48,000 | | |
| East approach | 112,000 | | |
| | $340,700 | | |
| Appropriations have been made as follows: | | | |
| Sundry civil act, Aug. 24, 1912 | 77,000 | | |
| Sundry civil act, June 23, 1913 | 75,000 | | |
| | 152,000 | | |
| Remainder to be appropriated for work on the west, south, and east approaches within the park | 188,700 | | |
| The estimate has been reduced to the amount considered essential to continuing the work at the present rate of progress. Larger appropriations up to the limit of the sum required to complete the project could be economically expended. On account of climatic conditions and the short and variable character of the working seasons, the appropriation should be made immediately available and remain available until expended. Senate bill 4239, Sixty-second Congress, which passed the Senate, contained a provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law, it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "Printing, binding, and blank books" have been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | | |
| For widening and improving the surface of roads and for building bridges and culverts, in the forest reserve leading out of the park from the east boundary, to make such roads suitable and safe for animal-drawn and motor-propelled vehicles, including printing, binding, and blank books (*submitted*) | 30,000.00 | | |
| | | $280,000.00 | $200,000.00 |
| NOTE.—The road in the forest reserve, leading out of the park from the east boundary, is a part of the park road system. It was built and is maintained as a part of that system. It is open to automobile traffic, and is used by the transportation company bringing tourists into the park from Cody, Wyo., but it is in poor condition for such traffic. It should be improved at the same time with the road within the park in order that it may be in good condition when those roads are opened for traffic by automobiles. Its improvement for use by automobiles will require a total expenditure of $56,000, $30,000 of which should be expended during the fiscal year 1915. The estimate given in the report of Capt. C. H. Knight, Corps of Engineers, May 27, 1912, for roads in Yellowstone National Park, printed in Senate Document 871, Sixty-second Congress, second session, treats the entire eastern approach, including the section in question in the forest reserve, and the section within the park proper, as one road. The expenditure of the funds asked for in this estimate will be made in accordance with the plans outlined in that document. Senate bill 4239, Sixty-second Congress, which passed the Senate, contained a provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "Printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | | |
| *Improvement of Crater Lake National Park*— | | | |
| For continuation of the construction of a wagon road and the necessary bridges through Crater Lake National Park, Oreg., together with a system of tanks and water-supply pipes to provide for sprinkling, in accordance with the recommendations contained in the report of the War Department, published as House Document No. 328, Sixty-second Congress, second session, and for printing, binding, and blank books, to be expended under the direction of the Secretary of War, to be immediately available, and to remain available until expended (*act June 25, 1913, vol. 38, p. 33, sec. 1*) | | 100,000.00 | 75,000.00 |
| NOTE.—The total cost of the proposed system of roads and trails in Crater Lake National Park, together with a system of tanks and water-supply pipes to provide for sprinkling, as given in the estimate published in House Document No. 328, Sixty-second Congress, second session, is $707,000. The report published in that document recommended an initial appropriation of $100,000 to provide plant, shelter, and camp buildings and stores in addition to a working fund. The sundry civil act approved Aug. 24, 1912, provided an initial appropriation of $50,000, and the sundry civil act approved June 23, 1913, appropriated $75,000 for continuing the construction. From the point of view of this office as much of the work as possible should be completed prior to the San Francisco Exposition of 1915, in order to give good and convenient access to the lake for the tourists who will probably visit the park during that exposition. Efforts to that end are being made. The sections laid out for work will afford, with the funds available and with those asked for in this estimate, the maximum accessibility for the money, to the sights of the park, and will give tourists access to the lake rim, to Anna and Sand Creek Canyons, and to the Pinnacles. This appropriation will be the last that will be in time for any effective work prior to the opening of the exposition. The season for work in Crater Lake Park is very short, and in order to take advantage of climatic conditions and to conduct the work economically with the rate of progress desirable the appropriation should be immediately available and remain available until expended. Senate bill 4239, Sixty-second Congress, which passed the Senate, contained the provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditures. For that reason "Printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | | |

| **BUILDINGS AND GROUNDS IN AND AROUND WASHINGTON.** | | |
| **ENGINEER DEPARTMENT.** | | |
| *Improvement and Care of Public Grounds, District of Columbia.*— | | |
| For improvement and maintenance of grounds south of Executive Mansion (*act June 23, 1913, vol. 38, p. 33, 34, sec. 1*) | $4,000.00 | |
| For ordinary care of greenhouses and nursery (*same act*) | 2,000.00 | |
| For repair and reconstruction of the greenhouses at the nursery (*same act*) | 3,000.00 | |
| For ordinary care of Lafayette Park (*same act*) | 2,000.00 | |
| For ordinary care of Franklin Park (*same act*) | 1,500.00 | |
| For improvement and ordinary care of Lincoln Park (*same act*) | 2,000.00 | |
| For care and improvement of Monument Grounds and annex (*same act*) | 7,000.00 | |
| For improvement, care, and maintenance of Garfield Park (*same act*) | 2,500.00 | |
| For construction and repair of post-and-chain fences, repair of high iron fences, constructing stone coping about reservations, painting watchmen's lodges, iron fences, vases, lamps, and lamp-posts; repairing and extending water pipes, and purchase of apparatus for cleaning them; hose, manure, and hauling the same; removing snow and ice; purchase and repair of seats and tools; trees, tree and plant stakes, labels, lime, whitewashing, and stock for nursery, flower pots, twine, baskets, wire, splints, and moss, to be purchased by contract or otherwise, as the Secretary of War may determine; care, construction, and repair of fountains; abating nuisances; cleaning statues and repairing pedestals (*same act*) | 18,550.00 | |
| For improvement, care, and maintenance of various reservations, including purchase, maintenance, and driving of horse and vehicle for official use of the officer in charge of public buildings and grounds, and of other necessary vehicles for official use (*same act*) | 30,000.00 | |
| And all public spaces resulting from the filling of canals in the original city of Washington not now under the jurisdiction of the Chief of Engineers of the United States Army, except such portions as are included in the navy yard or in actual use as roadways and sidewalks, are hereby placed under the jurisdiction of the Chief of Engineers of the United States Army and shall be laid out as reservations as a part of the park system of the District of Columbia: *Provided*, That in addition to the provision made by section 4 of the act approved July 1, 1898, the Chief of Engineers of the United States Army shall have authority to grant permission to the municipal authorities of the District of Columbia or to any of the executive departments to occupy temporarily spaces derived from original canal locations when required by public necessity or convenience. (See explanation No. 1). | | |
| For improvement, care, and maintenance of Smithsonian grounds (*same act*) | 3,000.00 | |
| For improvement and maintenance of Judiciary Park (*same act*) | 2,500.00 | |
| For laying cement and other walks in various reservations (*same act*) | 2,000.00 | |
| For broken-stone road covering for parks (*same act*) | 3,500.00 | |
| For curbing, coping, and flagging for park roads and walks (*same act*) | 2,000.00 | |
| For care and maintenance of Potomac Park (*same act*) | 15,000.00 | |
| *Provided*, That Potomac Park is hereby made a part of the park system of the District of Columbia under the exclusive charge and control of the Chief of Engineers of the United States Army, and subject to the provisions of section 6 of the act approved July 1, 1898. (See explanation No. 2.) | | |
| For grading, soiling, seeding, and planting that portion of Potomac Park west of the railroad embankment and constructing roads, paths, and shelters (see explanation No. 3) (*same act*). | 35,000.00 | |
| For oiling or otherwise treating macadam roads (*same act*) | 4,000.00 | |
| Toward the construction of a permanent road around the entire river and harbor front of the portion of Potomac Park east of the railroad embankment (*same act*) | 25,000.00 | |
| For continuing the improvement of Montrose Park, and for its care and maintenance (*same act*) | 5,000.00 | |
| For care and improvement of the portion of Potomac Park east of the railroad embankment (*same act*) | 10,000.00 | |
| And the Chief of Engineers is authorized hereafter to permit, at his discretion, boat clubs, athletic associations, and other organizations or persons to erect, maintain, and occupy clubhouses, stands, lunch rooms, and similar structures in the portion of Potomac Park east of the railroad embankment, to improve and occupy limited areas of the park adjacent to said structures, and to provide and maintain landing and mooring facilities along the water front, said permits to be granted only when the Chief of Engineers is convinced that they will encourage or assist in the enjoyment of healthful outdoor sports or amusements; all such permits to be revokable at will by the Chief of Engineers and to be conditioned upon the payment of such periodical rates of compensation for the use of the ground occupied as may be fixed by him: *Provided, however*, That the said structures and facilities shall be located, built, and altered only in accordance with such plans and specifications as may be approved by the Chief of Engineers, and that the Chief of Engineers may make and enforce such regulations for the maintenance, occupation, and use of said structures and facilities as he may deem proper. (See explanation No. 4.) | | |
| For placing and maintaining special portions of the parks in condition for outdoor sports (see explanation No. 5) (*submitted*) | 10,000.00 | |
| For erecting, equipping, and maintaining a field house in East Potomac Park (see explanation No. 6) (*submitted*) | 15,000.00 | |
| For laying water mains for the water supply of that portion of Potomac Park east of the railroad embankment (see explanation No. 7) (*submitted*) | 10,000.00 | |
| For commencing the improvement of Meridian Hill Park in accordance with plans prepared in the office of Public Buildings and Grounds, and for its care and maintenance (see explanation No. 8) (*submitted*) | 25,000.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| NOTE.—The necessity for the additional items submitted in the above estimates for the next fiscal year, not included in the appropriations made for the current year, and for the increase in the estimates for certain items over the appropriations made therefor for the current year, is explained in the statement following. | | |
| EXPLANATION OF ESTIMATES FOR APPROPRIATIONS FOR PUBLIC BUILDINGS AND GROUNDS, WASHINGTON, D. C., FOR FISCAL YEAR ENDING JUNE 30, 1915. | | |
| (1) There are a number of parcels of land in Washington belonging to the Government formed by the filling in of the bed of the old Washington City canal and its branches. Some of this land is actually used for streets; several portions have been occupied by the District of Columbia for property and storage yards, while others are unoccupied. It is believed that the interests of the United States should be protected by adopting the provision stated, which will settle definitely the question of jurisdiction.<br>(2) Under the law Potomac Park is under the charge of the Secretary of War, but has never been specifically included in the park system of the District of Columbia. It is most desirable that this be done.<br>(3) A large part of the grading and planting of west Potomac Park has been completed, and the work of improvement that is now most urgently needed to make the park available for the use of the public is the opening of roads and paths through the newly graded section and the building of simple shelters.<br>(4) The proposed proviso is recommended in order to increase the usefulness of the eastern portion of Potomac Park below the railroad embankment and to encourage healthful outdoor sports among the people.<br>(5) Twelve baseball diamonds are now open to the public in the Ellipse, Monument Grounds, and Potomac Park, but they are not in the best of condition, and there is urgent demand for more. Grounds have been set aside for the playing of tennis, golf, croquet, etc., but need to be properly graded and laid out. Two polo fields are kept in fair condition at the expense of the players, but need improvements.<br>(6) This house is to contain lockers, shower baths, and toilet facilities for men and women and is to be for the use of the public, so that every facility may be afforded them for indulging in outdoor sports.<br>(7) These mains should be put in as soon as possible, so that the excavations will not have to be made after the improvements are in.<br>(8) Meridian Hill Park was acquired in 1912 at a cost of $490,000; $2,500 was appropriated in act of June 23, 1913, for the preparation of plans for its improvement, but no money has so far been appropriated for the improvement.<br>(9) The construction of these roadways consists of thin layers of asphalt binder and topping on an old gravel road bed. This reconstruction proved satisfactory until the new Union Station was opened, when the traffic through the park increased fully 200 per cent. The roadways are already showing the effect of this traffic and will soon need to be reconstructed. When this is done an asphalt pavement with a 6-inch concrete base should be put in and a sidewalk constructed on one side of the roadway at the same time.<br>(10) An estimate of $3,000 is submitted for constructing fountains in the public parks. Fountains are one of the most necessary and attractive adjuncts of parks in a city with the intensely hot summer climate of Washington. There are far too few now, and the number has barely increased at all in recent years, in spite of the growth of its population.<br>(11) On May 9, 1912, the site of the old high-service reservoir in Georgetown was, by authority of the Secretary of War, transferred to this office by the officer in charge of the Washington Aqueduct, as it was no longer needed in connection with the city's water supply. It is desired to make this reservation a part of the park system under the Chief of Engineers, and to improve it for the use of the public.<br>(12) The location of the Barry Statue in the west side of this park, the new lodge erected in the east side, and the duplication of walks in the present system which does not properly take care of the travel through the park, make a change of design necessary.<br>(13) This is to take the place of the present portable unsightly building furnished by the Playgrounds Association.<br>(14) In the early part of next spring (1914) it is expected to have a permanent road completed along the river front of east Potomac Park for a distance of over 8,000 feet. This road will be much used, and it is important that it be lighted as soon as possible. Between 65 and 70 lights will be needed and will cost about $1,500 a year to maintain. The appropriation should, therefore, be increased by this amount.<br>(15) It is thought desirable that the Washington Monument should be open to the public on Sundays. A special appropriation is considered necessary for that purpose.<br>(16) Senate bill 4239, Sixty-second Congress, which passed the Senate, contained a provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law, it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| GRANT MEMORIAL COMMISSION. | | |
| *Memorial to Gen. Ulysses S. Grant*—<br>For continuing work for the erection of the memorial to Gen. Ulysses S. Grant, and for each and every purpose connected therewith, to be available until expended (*acts Feb. 23, 1901, vol. 31, p. 803, secs. 1–4; June 23, 1913, vol. 38, p. 35, sec. 1*) | $23,000.00 | $25,000.00 |
| NOTE.—The commission created by the act of Congress approved February 23, 1901 (31 Stats., p. 803), to select a site and procure designs for a memorial to Gen. Ulysses S. Grant, was, by the act approved June 28, 1902 (32 Stats., pt. 1, p. 460), authorized to enter into contract for the completion of the memorial for a sum not to exceed $240,000. This act appropriated $50,000 to commence the work and by subsequent acts $167,000 has been appropriated as follows: Sundry civil act of June 30, 1906, $40,000; urgent deficiency act of February 9, 1909, $25,000; sundry civil act, March 4, 1909, $42,000; sundry civil act of June 25, 1910, $35,000, and sundry civil act of June 23, 1913, $25,000. The unexpended balance of these appropriations amounts to $71,019.01, and as the contractors are, under the terms of their contract, called upon to complete the memorial by August, 1914, it is necessary that the balance of the $240,000 remaining, namely $23,000, be appropriated at the coming session of Congress to make payments which will become due under the terms of the contract—*Grenville M. Dodge, President Society of the Army of the Tennessee, Chairman Grant Memorial Commission.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Improving Grays River, Wash.*— | | |
| For maintenance (*act Mar. 4, 1913, vol. 37, p. 820, sec. 1*) | $500.00 | $500.00 |
| *Improving Skagit River, Wash.*— | | |
| For maintenance (*act Mar. 4, 1913, vol. 37, p. 820, sec. 1*) | 10,000.00 | 10,000.00 |
| *Improving Puget Sound, Wash.*— | | |
| For maintenance of improvement of Puget Sound and its tributary waters (*act Mar. 4, 1913, vol. 37, p. 820, sec. 1*) | 25,000.00 | 25,000.00 |
| *Improving Harbor at Hilo, Hawaii*— | | |
| Continuing improvement (*act July 25, 1912, vol. 37, p. 222, sec. 1*) | 100,000.00 | |
| *Improving Harbor at Honolulu, Hawaii*— | | |
| Continuing improvement and for maintenance (*act Mar. 4, 1913, vol. 37, p. 820, sec. 1*) | 125,000.00 | 225,000.00 |
| *Examinations, Surveys, and Contingencies of Rivers and Harbors*— | | |
| For examinations, surveys, and contingencies of rivers and harbors, for which there may be no special appropriation submitted (*act Mar. 4, 1913, vol. 37, p. 821, sec. 2*) | 250,000.00 | 250,000.00 |
| Total for rivers and harbors (exclusive of continuing-contract works) | 34,266,395.00 | [1] 41,073,094.00 |
| NOTE.—The items of the above estimates for rivers and harbors are fully explained in the Annual Report of the Chief of Engineers, United States Army, for the fiscal year ending June 30, 1913.—*Dan C. Kingman, Chief of Engineers, U. S. Army.* | | |
| NOTE.—For statement of buildings in the District of Columbia rented by the Engineer Department, United States Army, in connection with the improvement of rivers and harbors, during the fiscal year ending June 30, 1913, reported as required by the act of July 16, 1892 (27 Stat., p. 199), as amended by section 3 of the act of May 1, 1913 (38 Stat., p. 3, sec. 3), see Appendix B. | | |
| Hereafter all appropriations for the construction, preservation, maintenance, or repair of works of river and harbor improvement, and for examinations, surveys, and contingencies of rivers and harbors, and the permanent annual specific and indefinite appropriations for "Removing obstructions in Mississippi, Atchafalaya, and Old Rivers," "Operating snag and dredge boats on Upper Mississippi, Illinois, and Minnesota Rivers," "Maintenance of South Pass Channel, Mississippi River." "Operating snag boats on the Ohio River." "Examinations and surveys at South Pass, Mississippi River," "Gauging waters of the Mississippi River and its tributaries," "Permanent International Commission of Congresses of Navigation," "Operating and care of canals and other works of navigation," and "Removing sunken vessels and other craft obstructing or endangering navigation" shall be available for printing, binding, and blank books needed in connection with the work contemplated by said appropriations; and hereafter printing, binding, and blank books required for use outside of the District of Columbia in connection with the work contemplated by these appropriations shall not be required to be done or procured at the Government Printing Office when in the opinion of the Secretary of War such work can be advantageously done or procured elsewhere. | | |
| Total for rivers and harbors (including continuing contract work) | 41,483,895.00 | 51,118,889.00 |
| Total public works (civil) | 42,453,945.00 | 51,943,939.00 |
| Total public works under War Department | 54,464,978.59 | 58,487,058.66 |
| Total public works under War Department, including the Isthmian Canal | 80,791,963.59 | 79,633,883.04 |
| UNDER THE DEPARTMENT OF THE INTERIOR. | | |
| PUBLIC BUILDINGS. | | |
| *Repairs of Buildings, Department of the Interior*— | | |
| For repairs of Interior Department and Pension Buildings, and of the Old Post Office Department Building, occupied by the Interior Department, including preservation and repair of steam heating and electric lighting plants, and elevators, $30,000, of which sum not exceeding $7,500 may be expended for day labor, except for work done by contract (*act June 23, 1913, vol. 38, p. 43, sec. 1*) | 30,000.00 | 36,500.00 |
| NOTE.—It is recommended that the sum of $7,500, authorized to be expended for day labor, be increased to $10,000. The present limitation does not permit the employment of the force needed during the entire year. | | |
| *Repairs and Improvements, Patent Office Building*— | | |
| For labor and material for special repairs and improvements to the Patent Office Building, to be immediately available (*act June 23, 1913, vol. 38, p. 44, sec. 1; submitted*) | 43,090.00 | 12,550.00 |
| *Memorandum as to proposed expenditure of the amount estimated for in the above item.* | | |
| New skylights (see note 1) $20,000<br>Electric wiring (see note 2) 13,600<br>Concrete floors in basement (see note 3) 3,300<br>New water mains in basement (see note 4) 550<br>New toilet rooms (see note 4) 5,640<br>43,090 | | |
| NOTE 1.— UNITED STATES PATENT OFFICE BUILDING, *Washington, D. C., August 6, 1913.* | | |
| Judge JAMES I. PARKER, *Chief Clerk, Department of the Interior.* | | |
| SIR: In compliance with your request and directions of the Supervising Architect, Treasury Department, I have completed an inspection of the skylight construction of the United States Patent Office Building, this city, and submit the following report: | | |

[1] Total of the amount carried by the river and harbor act of Mar. 4, 1913.

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

*Repairs and Improvements, Patent Office Building*—Continued.

The skylights were installed about 30 years ago, to the best of my knowledge, and there is about 16,000 superficial feet in three large units and several small units. Structurally the skylights are a built-up double-deck putty type with ridge ventilator. The glass is one-half inch thick, resting directly on the steel frame, although a hemp cushion is provided, and all joints between glass and metal are filled with plastic cement and putty for the purpose of making the skylight water-tight. The steel frame is so constructed, but not adequately, to provide for the drainage of condensation. The practice of using plastic cement and putty to make a water-tight skylight is obsolete. This feature should be cared for mechanically, which is now done in the form of steel ribs and sheet-metal puttyless structures. Will also advise that in no case should structural steel be used for drainage purposes. As no definite provisions were originally made to care for the condensation, an improvised method was later adopted but is not satisfactory. The ridge ventilating scheme is also obsolete and not adequate for the purpose for which intended. There are about 220 broken lights in the construction that can hardly be replaced, owing to the faulty design, without possibly rendering the construction less water-tight.

A modern puttyless skylight can readily be built upon the present steel frame, with adequate storm-proof ventilators, at an approximate price, including removal of old skylight, of $1.25 per square foot, or $20,000. Such a course is recommended, as it can hardly be expected to obtain a water-tight job by repairing, and the expense of continually repairing in the future will materially increase.

Respectfully,

IRVING D. PORTER,
*Inspector of Public Buildings.*

NOTE 2.—Electric wiring: The item of $13,600 for electric wiring is required to wire the basement, first and third floors, and the galleries of the Patent Office Building, according to the most approved method, known as the concealed conduit system, with proper switch and fuse control. The second floor has been recently rewired, and it is now desired to complete the work in order to protect the building and the invaluable records it contains from damage or destruction by fire.

NOTE 3.—Concrete floors in basement: The present floors in the basement corridors are constructed of stone slabs which have become broken in many places, rendering it practically impossible to keep the floors clean. Concrete floors would be much better from a sanitary standpoint and much cheaper to clean than any other form of construction.

NOTE 4.—The need for new water mains is very urgent, the old pipes being so corroded as to expose the building to constant danger of damage from leakage. Six toilet rooms, in addition to the five recently installed, are urgently needed to save the time of employees.

*Repairs, Pension Office Building*—

For labor and material for special repairs and improvements to the Pension Office Building, to be immediately available (*submitted*)..... $25,380.00

*Memorandum as to proposed expenditure of the amount estimated for in the above item.*

| | |
|---|---|
| Removal of 236 first, second, and third story windows and installation of double-hung windows | $9,000 |
| Removal of 100 clerestory windows and installation of new metal operating windows | 4,000 |
| Renewal of 14 large windows | 2,500 |
| Renewal of 44 gable windows | 880 |
| Electric wiring | 9,000 |
| Total | 25,380 |

NOTE.—The need for the reconstruction of the windows of the Pension Office Building is set forth in a report datd Aug. 5, 1913, submitted by Irving D. Porter, inspector of buildings, Treasury Department, who made a careful inspection of the building to ascertain the extent of damage caused by the severe storm of July 30, 1913. The inspector said:

"*First, second, and third story windows.*—The windows of these stories are of the casement type, and while architecturally correct in design are impracticable for large office-building purposes. A large portion of the woodwork of these windows has decayed and shrunken to such an extent that they admit the cold air in winter. For ventilating and other practical purposes the double-hung type of window is superior, and it is proposed, in lieu of repairing the present, to install this type at an estimated cost of $9,000. The architectural appearance of the building will not be jeopardized, providing the new windows are properly designed.

"*Small casement, clerestory windows.*—One hundred small windows in the clerestory swing out and serve to ventilate the major portion of the entire building. The sash are opened and closed individually, hooked in place with antiquated iron hooks on the outside of the building, making it necessary to walk on the main roof to operate the same. This method is rather obsolete, impracticable, and dangerous. It is proposed to install new metal windows with wired glass, and the sash operated in gangs by one operation. The estimate is $4,000.

"*Large court and gable windows.*—Owing to the damage done by the recent storm and otherwise decayed woodwork, it is necessary to replace the larger portion of these windows, and on account of the great size it is considered essential to replace these frames and sash of metal construction with wired glass to resist the elements and eliminate the danger. The estimated cost is $2,500 for 14 large windows and $880 for the 44 gable windows."

Electric wiring: The basement and fourth floors have been rewired, and it now remains for the first, second, and third floors to be put in like condition to have the building safely equipped for electricity. The existing wires on these three floors are incased in wooden molding. The main cables running along the corridors are in bad condition, the insulation having become hard and brittle and liable to cause a short circuit at any time.

*Repairs and Improvements, Old Post Office Department Building*—

For labor and material for special repairs and improvements to the old Post Office Department Building, to be immediately available (*act June 23, 1913, vol. 38, p. 44, sec. 1; submitted*)..... 6,025.00 $14,000.00

*Memorandum as to proposed expenditure of amount estimated for in the above item.*

Replacing slate floors with wood floors:

| | |
|---|---|
| 60,000 feet clear heart, edge grain Georgia pine flooring, and 1,000 feet 2 by 4 inches by 18 feet Georgia pine, for 90 rooms | $4,355 |
| Labor for laying | 1,080 |
| Varnishing | 590 |
| Total | 6,025 |

NOTE.—The old slate floors in the old Post Office Department Building are very rough and hard to clean, cold in winter, and require a covering of linoleum, which almost equals the cost of hardwood and is not nearly so durable. Wood floors are more comfortable for the occupants of the rooms, present a better appearance, and are more sanitary than slate floors.

*Renewal of Cables, etc., in Connecting the Pension Office Building with the Central Heating, Lighting, and Power Plant in Old Post Office Department Building*—

For labor and material, including electric cables, insulating hanger blocks, and switchboard instruments, necessary to the renewal of cables and other material required in connecting the Pension Office Building with the central heating, lighting, and power plant in the courtyard of the Old Post Office Department Building, together with a new conduit on F Street NW., with necessary manholes and sewer connections, authority being hereby granted to open such street for the above-mentioned purpose, to be immediately available (*submitted*)..... 12,500.00

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Renewal of Cables, etc., in Connecting the Pension Office Building with the Central Heating, Lighting, and Power Plant in Old Post Office Department Building*—Continued. | | |
| *Memorandum of proposed expenditure of amount estimated.* | | |
| 3,200 feet 400,000 circular mils lead-covered cables ..... $1,600 | | |
| 3,200 feet 400,000 circular mils lead-covered cables ..... 1,600 | | |
| 3,200 feet 600,000 circular mils ..... 2,240 | | |
| 1,600 feet No. 12 duplex lead-covered wires ..... 100 | | |
| Switchboard panel, apparatus, etc., Pension Building ..... 200 | | |
| Switches, circuit breakers, and switchboard connections, Old Post Office Department Building ..... 230 | | |
| Cable insulators, hangers, bolts, etc., both buildings ..... 200 | | |
| 1,250 feet 6-way conduit (laid) ..... 2,500 | | |
| 6 manhole and sewer connections (built) ..... 750 | | |
| Manhole cable hangers ..... 80 | | |
| Cost of materials ..... 9,500 | | |
| Cost of labor ..... 3,000 | | |
| Total ..... 12,500 | | |
| NOTE.—The present conduit and cables connecting the central heating, lighting, and power plant of this department with the Pension Office Building have been installed for 12 years, and owing to electrolysis and the usual deterioration of paper-insulated cables, this installation is in a very poor condition. Since then the load to be carried has greatly increased owing to the need for additional lighting for the Pension Office Building, due to the joint occupancy of it by the Pension Office, the Office of Indian Affairs, and the consolidated pension agency force; also for additional power required to operate the various labor-saving machines in use in the agency to expedite the business thereof. There is no breakdown connection to the Pension Office Building, and there is a chance at any time that these cables, upon which the Pension Office Building is dependent for light and motive power for elevators, may cease to operate; and the power cables connecting the Pension Office Building, now installed in the heating ducts, should be removed and new cables should be installed in the contemplated new duct line. | | |
| An inspection of these cables was made on July 12, 1913, by a representative of the Bureau of Standards, Department of Commerce. The report thereon states, "* * * The test values given above show that the insulation resistance of the cable is approximately 1 per cent of what it should be in the case of a cable in perfect condition, which indicates that marked deterioration of the cable insulation has occurred * * *." A copy of the letter of the Secretary of Commerce, reporting on this cable, follows. | | |
| DEPARTMENT OF COMMERCE, OFFICE OF THE SECRETARY, *Washington, July 19, 1913.* | | |
| SIR: In accordance with your letter dated July 2, requesting a representative of the Bureau of Standards to make an inspection of certain electric cables belonging to the Interior Department, a representative of the Bureau of Standards made the inspection desired on July 12, in company with your Mr. Gibson. The resistance of the cable in question was tested on both the positive and negative side and was found to have the following values: Positive cable between insulated copper cable and water pipe, 1.8 megohms; negative cable between insulated copper cable and water pipe, 1.4 megohms. | | |
| This cable is a 600,000 circular mils, 220-volt General Electric cable provided with varnished cambric insulation. It extends from the power plant in the Old Post Office Building to the Pension Office, a distance of about 1,600 feet, and is laid in conduit along with steam pipes. The values of resistance found, while not indicating a condition of immediate danger to the cable, are nevertheless so low as to indicate that there has been material deterioration in the cable insulation. Although this cable runs in a duct containing a steam line, we understand that there was no steam on this line at the time of making the test, and that there had not been for some weeks, so that the temperature of the cable at the time of the test was about normal. At ordinary temperatures the resistance of a cable of this character should exceed 50 megohms per mile, and since the cable in question is only about one-third of a mile in length its insulation resistance should be in the neighborhood of 150 megohms or higher, provided the insulation has not deteriorated materially since the cable was installed. The test values given above show that the insulation resistance of the cable is approximately 1 per cent of what it should be in the case of a cable in perfect condition, which indicates that marked deterioration of the cable insulation has occurred. This is undoubtedly due in large part at least to the fact that it is so located as to be continually subject to high temperatures throughout a large part of the year. | | |
| While we do not regard the present condition of the cable as indicating immediate danger of breakdown, we would recommend that the cable be watched closely and retested from time to time, and, if possible, precautions should be taken for so laying the cable as to avoid the high temperatures to which it has been subjected in the past, owing to the presence of the adjoining steam line. However, if the cable is to be removed and placed in a separate conduit we would advise the purchase of a new cable, since the condition of the insulation of this old cable is such that the process of removal and drawing into a new conduit would in all probability result in failure of the insulation. | | |
| Respectfully, WILLIAM C. REDFIELD, *Secretary.* | | |
| The SECRETARY OF THE INTERIOR. | | |
| *Capitol Building and Repairs*— | | |
| For work at Capitol and for general repairs thereof, including flags for the east and west fronts of the center of the Capitol and for Senate and House Office Buildings; flagstaffs, halyards, and tackle, wages of mechanics and laborers, purchase, maintenance, and driving of office vehicle, and not exceeding $100 for the purchase of technical and necessary reference books and city directory, $30,000 (*act June 23, 1913, vol. 38, p. 44, sec. 1*) ..... | $30,000.00 | $30,000.00 |
| *Repairs of Paintings in the Capitol*— | | |
| For continuing the work of cleaning and repairing works of art in the Capitol, including repairs to frames, under the direction of the Joint Committee on the Library, $1,500 (*act June 23, 1913, vol. 38, p. 44, sec. 1*) ..... | 1,500.00 | 1,500.00 |
| *Improving the Capitol Grounds*— | | |
| For the care and improvement of the grounds surrounding the Capitol, Senate and House Office Buildings, pay of 1 clerk, mechanics, gardeners, for fertilizers, repairs to pavements, walks, and roadways, $30,000 (*act June 23, 1913, vol. 38, p. 44, sec. 1*) ..... | 30,000.00 | 30,000.00 |
| *Engine House, Senate and House Stables*— | | |
| For repairs and improvements to steam fire-engine house, and Senate and House stables, and for repairs to and paving of floors and courtyards of same, including personal services, $1,500; this and the three foregoing sums may, in the discretion of the Secretary of the Interior, be expended for purchase of articles without reference to section 4 of the act approved June 17, 1910, concerning purchases for executive departments (*act June 23, 1913, vol. 38, p. 44, sec. 1*) ..... | 1,500.00 | 1,500.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Buildings and Grounds, Government Hospital for the Insane—* | | | |
| For the buildings and grounds of the Government Hospital for the Insane, as follows: | | | |
| For general repairs and improvements, $55,000 (*act June 23, 1913, vol. 38, p. 50, sec. 1*)... | $55,000.00 | | |
| For roadways, grading, and walks, $5,000 (*same act*)..... | 5,000.00 | | |
| | | $60,000.00 | $60,000.00 |
| Additional land: The Secretary of the Interior is hereby authorized and directed to acquire by purchase, condemnation, or otherwise, additional land in the District of Columbia for the use of the Government Hospital for the Insane, for which purpose said Secretary is authorized to expend a sum not exceeding $50,000, which sum is hereby appropriated out of any moneys in the Treasury not otherwise appropriated, and to remain available until expended. If such condemnation proceedings are deemed necessary, they shall be in accordance with the provisions of the act of Congress approved July 1, 1898, providing a site for an addition to the Government Printing Office Building (Stat. L., vol. 30, pp. 648 to 650, inclusive); and for the purpose of such acquisition the Secretary of the Interior shall have and exercise all the powers conferred upon the Public Printer in said act (*submitted*)..... | | 50,000.00 | |
| NOTE.—If this institution is materially to increase over its present size the requirement for additional land is imperative. This can easily be appreciated when attention is called to the fact that the hospital has not now enough land for its purposes. It would seem to go without saying, also, that if additional land is to be acquired it should be purchased at the earliest possible date. The neighborhood of the hospital is becoming more and more thickly settled as years go by, and the price of land is progressively increasing. Every year that an opportunity to secure additional land is put off means that more money will have to be paid for that land. (See next item.) | | | |
| For additional building for female patients, $100 000, to be available until used (*submitted*)..... | | 100,000.00 | |
| NOTE.—The female portion of the hospital is not only filled, but in some sections is beginning to be crowded. A new building for women will be needed in the very near future.<br>It is highly desirable for the extension of the female portion of the hospital that the land immediately adjoining the reservation at the south end and on the west side of Nichols Avenue should be acquired. This is practically the only direction in which the extension of the female part of the institution can take place. | | | |
| Power, heating, and lighting plant: The unexpended balance of the appropriation of $60,000 made by the sundry civil appropriation act approved Mar. 4, 1911 (36, Stat. L., p. 1422), for completing the power, heating, and lighting plant, remodeling the electric layout, substituting electrically driven for steam driven machinery, and for other purposes incident thereto, payable from money in the Treasury which has accrued to the Government Hospital for the Insane from pensions under the act of Feb. 20, 1905, is hereby reappropriated and made available for expenditure for said purposes and to remain available until expended (*submitted*). | | | |
| *Buildings, Columbia Institution for the Deaf—* | | | |
| For the removal of the college women's dormitory and the construction, equipment, and furnishing of a new dormitory to replace it, including necessary repairs, or replacement, of walks, or grading of grounds adjacent to said dormitory, $85,000: *Provided*, That not more than $3,000 of the above amount may be used for erecting or renting temporary quarters for the use of those usually housed in said dormitory (*act June 23, 1913, vol. 38, p. 50, sec. 1; submitted*). | 85,000.00 | | |
| For special repairs and improvements, lighting, heating, and power system (*same act*)..... | 21,000.00 | | |
| | | 106,000.00 | |
| Total, Public Works under Interior Department..... | | 495,995.00 | 186,050.00 |
| UNDER THE DEPARTMENT OF COMMERCE. | | | |
| LIGHTHOUSES, BEACONS, FOG SIGNALS, LIGHT VESSELS, AND OTHER WORKS UNDER THE LIGHTHOUSE SERVICE. | | | |
| Works immediately necessary for the best interests of navigation. These items have all been authorized by Congress. | | | |
| *No. 1. Staten Island, N. Y., Lighthouse Depot—* | | | |
| To erect a carpenter shop at the general lighthouse depot, Tompkinsville, Staten Island, N. Y. (*act Mar. 4, 1913, vol. 37, p. 1017, sec. 1*)..... | | 23,000.00 | |
| NOTE.—The carpenter shop at this depot is an old wooden building, badly constructed, and is a menace in case of fire. It should be taken down and a new two-story fireproof building erected in its place, the upper floor to be used as carpenter shop and lower floor for mill and boat shop. | | | |
| *Detailed estimate.* | | | |
| Removing old building and preparing site..... | $1,200 | | |
| Foundation..... | 900 | | |
| Building..... | 18,000 | | |
| Reinstalling machinery..... | 2,900 | | |
| Total..... | 23,000 | | |
| *No. 2. Monhegan Island, Me., Light Vessel—* | | | |
| To erect and equip a light vessel to be placed near Monhegan Island, entrance to Penobscot Bay, Me. (*act Mar. 4, 1913, vol. 37, p. 1017, sec. 1*)..... | | 125,000.00 | |
| NOTE.—This light vessel was authorized by the act of Congress approved Mar. 4, 1913 (37 Stat., 1017). | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 3. Guantanamo, Cuba—* For dwelling for keepers of the lights in Guantanamo Bay, Cuba, and improving the lighting (*act July 27, 1912, vol. 37, p. 239, sec. 1*) | $14,000.00 | |

NOTE.—The act of July 27, 1912 (37 Stat., 239), authorized the construction of these works, but no appropriation was made therefor. The dwelling at this station was destroyed during the late insurrection, and since the occupation of Guantanamo by the United States the keepers have been compelled to live in a wooden shack with only three rooms to house three keepers. The lights in charge of these three keepers are widely separated. With the installation of acetylene lights as proposed, the service of one keeper may be dispensed with.

*Detailed estimate.*

| | |
|---|---|
| Dwelling for two keepers | $8,000 |
| 2 acetylene lights at Fisherman Point | 2,800 |
| 2 acetylene lights at Hicacal Beach | 2,800 |
| Contingencies | 400 |
| Total | 14,000 |

GROUP NO. 1.

Works urgently necessary for the safety of navigation and for the preservation of existing structures or equipment, for the full utilization of other public improvements, or for the completion of projects already commenced:

*No. 1. Lighthouse Tender, General Service—* For constructing and equipping a lighthouse tender for general service, and the amount authorized for this purpose by the act approved Mar. 4, 1913 (37 Stats., 1017), is hereby increased by the sum of $75,000 (*act Mar. 4, 1913, vol. 37, p. 1017, sec. 1*) | 325,000.00 | |

NOTE.—On May 20, 1912, the lighthouse tender Armeria struck a rock off Cape Hinchinbrook, Alaska, and was totally lost. This tender was the largest in the Lighthouse Service and the only one regularly assigned for service in Alaskan waters. The loss of this tender has seriously crippled the available tender force and a new tender should take its place as soon as possible. The lighthouse work is constantly increasing on account of the increase of shipping and demand for aids to navigation. It is proposed to use the new tender for general lighthouse service as required, and also for the purpose of transporting supplies to the Pribilof Islands in Bering Sea for use in the Alaska sealing industry and for use in Alaskan waters in connection with the work of other branches of the Government, as far as may be desirable and practicable. A large seaworthy vessel is essential for this work because the vessel must carry supplies to distant points and must be able to make voyages of considerable length across portions of the North Pacific Ocean. The vessel must be of slightly greater draft and carrying capacity than the tender Armeria, which was lost, in order to transport the necessary quantities of coal, supplies, and construction materials. It is important that the proposed vessel should be so designed as to be protected against loss.

For the past three years and also this year the department has been compelled to charter an appropriate vessel to carry supplies to the Pribilof Islands for the use of the native inhabitants there who are wards of the Government, and bring back sealskins. The charter of a suitable vessel, exclusive of the coal used on the vessel, amounts to $150 a day, and including coal has caused an annual charge on appropriations of this department of from $20,000 to $23,000 per annum.

If the lighthouse tender authorized to be constructed under the act of Mar. 4, 1913, above referred to, can be enlarged so as to provide the cargo space necessary to carry the supplies, which enlargement can be made if the amount to be expended for the tender is increased by $75,000, that vessel could be used for the purpose of transporting the supplies to the islands at a considerable saving to the Government.

Calculating the increased cost of operating a larger vessel over the cost of operation of the vessel originally proposed to be constructed, which it is estimated will be about $7,000 per annum, there remains a net saving of approximately $13,000 per annum, or 17 per cent on the investment of $75,000 necessary to carry out this plan. However, the larger tender will not be used during the entire year, and probably a saving of $2,000 per annum will be made in operating costs during the time the tender is laid up during the winter months. This will increase the profit to the Government on the investment of the additional $75,000 to approximately 20 per cent. Since the department has been administering the fur-seal service on the Pribilof Islands there has been but one vessel on the Pacific coast which was available for charter for the taking of the supplies to the islands. Should the vessel receive an annual charter or get a charter at more favorable terms during the time the department would have to use it, difficulty might be experienced in engaging a suitable vessel, or the department might be compelled to expend for charter a sum in excess of the amount which could be spared under the limited appropriations made for the Alaskan service.

Another very potent argument in favor of providing a governmental vessel for the purpose of transporting the supplies to the native inhabitants is that during the entire time the shipment of supplies and the return of the fur sealskins would be under the direct control of the United States Government.

The vessel, if constructed now, would be able to take care of the growth in the Lighthouse Service for some years to come, and could render valuable service in connection with the work of this department in Alaska, which necessarily will increase in volume for several years, especially under the closed requirements of the existing treaty referring to the fur-seal herds on the Pribilof Islands in Alaska.

*Cost of charter of steamer Homer for use in transporting supplies to the fur-seal islands.*

| Year. | Charter. | | |
|---|---|---|---|
| | Day rate. | Days. | Amount. |
| 1910 | $142.50 | 104½ | $14,877.55 |
| 1911 | 142.50 | 117 | 16,567.75 |
| 1912 | 150.00 | 133 | 20,025.00 |

*Detailed estimate.*

Navy tugs built on Pacific coast under 10-hour day cost $198.35 per ton and two new revenue cutters built under 8-hour law cost $215.51 per ton. On account of the additional hull required for cargo space, without any appreciable increase in machinery, it is believed the cost of the proposed vessel may be estimated at $150 per ton. The maximum displacement of the Armeria was about 1,800 tons, which in the proposed vessel is to be increased to about 2,000 tons.

| | |
|---|---|
| 2,000 tons, at $150 | $300,000 |
| Wireless outfit | 5,000 |
| Machine-shop outfit | 5,000 |
| Derrick | 9,000 |
| Windlass | 6,000 |
| Total | 325,000 |

The act of Mar. 4, 1913 (Public, No. 453), authorized the construction of a tender for general service at $250,000, but a more seaworthy vessel with greater carrying capacity, as explained above, is now deemed necessary for the desired service. No appropriation for this object has as yet been made.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 2. Point Vincente, Cal., Light Station*— For establishing a light and fog-signal station at Point Vincente, Cal. (*submitted*) | $80,000.00 | |
| NOTE.—Point Vincente is the most prominent point of the California shore line between Point Loma and Point Conception, a distance of 220 nautical miles. Practically all steamer traffic on the Pacific coast south of San Francisco, both domestic and foreign, passes this point. Point Fermin Lighthouse, 6¼ miles to the southeastward, is cut off from steamers approaching on the usual courses from the northward until within 4 miles of Point Vincente, by that point itself. This leaves an unlighted gap of 32 nautical miles on the usual courses of coasting vessels between Point Hueneme Light Station and Point Fermin Light Station. Freight and passenger traffic is very heavy along this part of the coast and will be materially increased with the opening of the Panama Canal. Point Vincente is a bold rocky point, and practically no warning can be had by the lead in approaching it in foggy weather, as the 100-fathom curve lies within one-half mile of the shore. The importance of this point is increased by the fact that it is a point of change of course for all passing traffic. Petitions dated Sept. 21, 1907, Sept. 3, 1909, and Oct. 28, 1909, signed by masters and shipowners, requested that a light and fog signal be established at this point. It is proposed to establish a flashing light, at an elevation of 170 feet, and a first-class compressed air fog signal. | | |
| *Detailed estimate.* | | |
| Tower, including site and water supply | $31,000 | |
| Illuminating apparatus | 5,500 | |
| Fog-signal apparatus and building | 9,800 | |
| Dwelling for three keepers | 19,000 | |
| Outbuildings, fences, oil storage, piping, etc | 7,000 | |
| Contingencies | 7,700 | |
| Total | 80,000 | |
| *No. 3. Florida Reefs, Fla., Aids to Navigation*— For establishing additional lighted aids for Florida Reefs, and repairs and improvements to existing aids (*submitted*) | 75,000.00 | |
| NOTE.—On account of the unusually difficult and dangerous conditions encountered by vessels navigating near the Florida Reefs, especially by vessels bound into the Gulf of Mexico, which pass close to the reef to avoid the adverse Gulf Stream current, additional lighted aids are urgently needed. A very large commerce is carried on through the Straits of Florida, and numerous strandings and wrecks, involving large losses, have occurred in the past, several within the last year. These reefs, owing to their nature, are a grave danger to navigation. They rise steeply from the deep channel of the Straits of Florida, and the lead is, therefore, of little assistance. They lie far from shore, and at night the mariner must rely almost entirely upon artificial aids to guide him clear. It is, therefore, proposed to provide four intermediate lighted aids to be located about midway between present lights, which it is believed would greatly decrease the present dangers of navigation in that vicinity. | | |
| *Detailed estimate.* | | |
| Skeleton towers in place, Molasses Reef and Pacific Reef, with iron pile foundations | $50,000 | |
| Illuminating apparatus for Molasses Reef and Pacific Reef | 10,000 | |
| Gas buoys for Coffins Patches and Looe Key | 10,000 | |
| Repairs and improvements to existing aids | 5,000 | |
| Total | 75,000 | |
| *No. 4. Hudson River, N. Y., Aids to Navigation*— For improving the aids to navigation and establishing new aids on the Hudson River, N. Y. (*submitted*) | 85,000.00 | |
| NOTE.—The lighting on the river is obsolete and many of the existing aids are in poor condition from age and so constructed that it is impossible to keep them in operation when the ice commences to move, and as navigation is frequently open for a month in fall of year under these conditions, it is a great inconvenience and danger to navigation. Many complaints have been received from pilots and officials of Hudson River steame s, and correspondence with them has indicated a number of points at which improvements or new aids are considered necessary. With the large amount of traffic on this river and the size of passenger steamers navigating it at night, it is believed that a modern system of flashing lights, on concrete foundations so as to resist ice damage, would be of great assistance to navigation. It is proposed to improve existing aids at Staats Point, Lamphere Dock, Four Mile Point, West Flats, and Con Hook, by providing brighter and flashing lights, to increase candle power and provide fog-bell at Jeffreys Hook, to rebuild decayed foundations and provide new towers and brighter lights at Bear Island, Cow Island, Nine Mile Tree, Roha Hook, Five Hook Island, New Baltimore, Fitchs Wharf, Percy Reach, Catskill West Flats, Livingston Creek, Upper Coal Beds, and Esopus Island, to rebuild tower and fog-bell house and improve the light at West Point, and to establish new lights at Van Wies Point, Barrytown Bluffs, Magazine Point, and Anthonys Nose; improving in all 19 existing lights and establishing 4 new lights. The cost of providing and moving suitable construction plant has also been included. | | |
| *Detailed estimate.* | | |
| Improving Staats Point, etc., 5 lights, at $2,500 | $12,500 | |
| Improving Jeffreys Hook with fog bell | 5,500 | |
| Rebuilding and improving Bear Island, etc., 12 lights, at $3,000 | 36,000 | |
| Rebuilding and improving West Point | 6,000 | |
| Establishing Van Wies Point, etc., 4 lights, at $4,000 | 16,000 | |
| Contingencies | 9,000 | |
| Total | 85,000 | |
| *No. 5. Mississippi River, La., Aids to Navigation*— For improving the aids to navigation and establishing new aids on the Mississippi River, below New Orleans, La. (*submitted*) | 50,000.00 | |
| NOTE.—It is proposed to establish about 22 acetylene lens lantern lights on skeleton steel towers, to take the place of the inefficient oil post lantern lights now shown from wooden posts. Vessels traverse the river drawing 28 feet of water. The commerce of the river is large and important. From Jan. 1 to Dec. 31, 1912, 3,195 coastwise and foreign-bound vessels, with a tonnage of approximately 6,700,000, entered the port of New Orleans. The imports and incoming coastwise shipments during 1912 were valued at approximately $94,000,000, and the exports and outgoing shipments approximately $206,000,000, making a total value of $300,000,000. | | |
| *Detailed estimate.* | | |
| 22 ramps and foundations | $12,000 | |
| 22 steel towers, 30 feet high | 9,000 | |
| 22 illuminating outfits | 25,000 | |
| Contingencies | 4,000 | |
| Total | 50,000 | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 6. Conneaut, Ohio, Aids to Navigation—* | | |
| For a light and fog signal and improving the present aids to navigation in Conneaut Harbor, Ohio (*submitted*) | $63,500.00 | |
| NOTE.—Extensive improvements to enlarge this harbor, involving the construction of new breakwaters and pierheads, and the removal of the breakwater pierhead upon which the present Conneaut Harbor front range light and fog signal is situated, have been authorized and the construction of the breakwaters is in progress. It is probable that the pierhead will be completed early next season. The harbor improvement will necessitate rearrangement of the aids to navigation and it is proposed to build a suitable structure for the main light on the pierhead, the light to be an oil vapor flashing light and the present fog bell, which is inadequate, to be replaced with a modern compressed-air siren. The commerce of Conneaut Harbor is extensive. The annual number of vessels entering and departing is about 3,000, representing a total registered tonnage of approximately 9,000,000. | | |
| *Detailed estimate.* | | |
| Concrete base | $20,000 | |
| Riprap | 8,000 | |
| Superstructure | 20,000 | |
| Illuminating apparatus | 4,000 | |
| Fog-signal apparatus | 8,000 | |
| Boats, piping, etc | 3,500 | |
| Total | 63,500 | |
| *No. 7. Kellett Bluff, Wash., Light Station—* | | |
| For establishing a light and fog signal station at or near Kellett Bluff, Henry Island, Wash. (*submitted*) | 40,000.00 | |
| NOTE.—The greater part of the commerce between Puget Sound and Alaska, and between Cape Flattery and points on the Gulf of Georgia, will be benefited by the establishment of a light and fog signal station at this point. Vessels proceeding to the northward through Haro Strait in a fog keep close in to the west shore of San Juan Island, the water being deep, and judge of their position by the echo of the whistle from the precipitous shore of the island until they reach Mosquito Pass and Open Bay, where the uncertain currents are apt to cause them to lose their reckoning. Several large vessels have been ashore in the vicinity of Kellett Bluff and casualites have been avoided merely through fortunate circumstances attending the grounding of the vessels. Approaching Kellett Bluff from the northward, it is important to the mariner that he verify his position in that vicinity in order to avoid the danger of running aground on the bluff, as well as to enable him to shape his course for proceeding to the southward. A flashing light and a reed horn fog signal are recommended. There is a reservation of land for lighthouse purposes at Kellett Bluff. | | |
| *Detailed estimate.* | | |
| Fog signal building and tower | $12,000 | |
| Dwellings for two keepers | 13,000 | |
| Illuminating apparatus | 1,000 | |
| Fog signal apparatus | 4,000 | |
| One derrick and hoisting engine | 1,000 | |
| Oil house, outbuildings, boats, walks, etc | 5,400 | |
| Contingencies | 3,600 | |
| Total | 40,000 | |
| *No. 8. St. Johns River, Fla., Aids to Navigation—* | | |
| For improving the aids to navigation and establishing new aids on the St. Johns River, Fla., below Jacksonville (*submitted*) | 66,000.00 | |
| NOTE.—The present project of the United States Engineers calls for a 30-foot low-water channel from the sea to Jacksonville, and is expected to be completed by July 1, 1915. The increased depth in this river means that vessels of increased size will use this port. It will, moreover, be more than ever necessary to follow the dredged channels closely. The present post lights along the edges of the channels, already a source of much trouble and expense on account of damage by collision, if retained would have to be moved even closer to the channels and into depths of water in which it would prove impracticable to maintain them. The present post lantern lights are confusing, by reason of their low intensity and fixed characteristic and the large number of them necessarily visible at one time. The amount of commerce on this river is large and increasing and fully warrants any reasonable expenditure to establish an efficient system of lighted aids. It is proposed to establish 36 range lights, 14 post lights, and 21 buoys to mark this tortuous channel properly. | | |
| *Detailed estimate.* | | |
| Foundations for 36 range lights | $14,400 | |
| Towers for same | 3,600 | |
| Illuminating apparatus | 22,000 | |
| 14 post light structures | 1,400 | |
| 16 gas buoys and appendages | 21,600 | |
| 5 nun buoys and appendages | 1,000 | |
| Contingencies | 2,000 | |
| Total | 66,000 | |
| *No. 9. Woods Hole, Mass., Lighthouse Depot—* | | |
| For improvements at Woods Hole Lighthouse Depot, Mass. (*submitted*) | 50,000.00 | |
| NOTE.—This depot is well located and protected in all weathers, but the work is badly handicapped by there not being a sufficient depth of water for tenders and deep-draft light vessels. It is recommended that the channel and basin around the wharf be dredged to a depth of 17 feet at low water, and it is also recommended that a brick storehouse 35 by 80 feet, two stories high, with a half-pitch roof be built to replace the wooden one, which is not at all adapted for the business, and not large enough to accommodate the stock on hand in proper manner. Under present conditions, the tender Anemone requires a supply of buoys on the Fish Commission dock and on the wharf at New Bedford, thus having the supplies located in three different places. The Azalea is required to tend and wait on the Anemone when anything is required from the depot's stock. This operation seriously interferes with carrying on the work properly. The dock at the Fish Commission is in a very dilapidated condition, and it is only a matter of a short time when the Anemone will not be able to dock there or keep a working supply of buoys and appendages. The front of the wharf has already been taken away and the remainder will not last for any great length of time. | | |
| *Detailed estimate.* | | |
| Dredging channel | $35,000 | |
| Building storehouse | 15,000 | |
| Total | 50,000 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 10. Fighting Island Channel, Mich., Aids to Navigation—* For improving aids to navigation and establishing new aids in the Fighting Island Channel, Detroit River, Mich. (*submitted*) | $25,000.00 | |
| NOTE.—The project for improvement of the lower Detroit River, contained in House Document No. 17, 62d Congress, 1st session, for which an appropriation was made in the river and harbor act of Mar. 4, 1913, is now in course of execution. This contemplates a straight channel after leaving the Grassy Island North Channel Range to the turn on to the Grosse Isle South Charnel Range, a distance of some 5 miles. This will eliminate the necessity of both Mamajuda Range and Grassy Island South Channel Range, and necessitate the moving of both Ecorse Range at the north end and Grosse Island North Channel Range at the south, to proper sailing lines in the new channel. The preferred scheme of lighting would be the establishment of separate ranges for up and down bound vessels, and of two or more side lights at about the present locations, on the west side of Grassy Island South and Mamajuda Ranges. | | |
| *Detailed estimate.* | | |
| Establishing new range lights | $15,000 | |
| Moving present range lights | 5,000 | |
| Establishing side channel lights | 5,000 | |
| Total | 25,000 | |
| *No. 11. Coquille River, Oreg., Aids to Navigation—* For improvement of aids to navigation at or near the entrance to Coquille River, Oreg. (*submitted*) | 4,000.00 | |
| NOTE.—Maritime interests have petitioned for the removal of the station to a more advantageous locality. In its present location the light is of no great benefit to navigation, and the fog signal would serve its purpose better if on the other side of the river at or near the end of the south jetty. The station is on a point of land which is being encroached upon by the Coquille River. It is proposed to establish an occulting electric light and a fog bell operated by an electric motor at or near the end of the south jetty. A cottage for the keeper will be built near the inner end of the jetty, on land formed by accretion since the construction of the jetty, or on a War Department reservation near by. | | |
| *Detailed estimate.* | | |
| Fog-signal building and tower | $300 | |
| Dwelling for keeper | 2,000 | |
| Illuminating apparatus | 150 | |
| Fog-signal apparatus | 600 | |
| Electric wiring and poles | 750 | |
| Contingencies | 200 | |
| Total | 4,000 | |
| *No. 12. Manhattan, Ohio, Range Lights—* For improving the Manhattan Range Lights, Toledo, Ohio (*submitted*) | 15,000.00 | |
| NOTE.—These range lights marking the axis of the Maumee Bay straigh. channel leading to Toledo should be clearly visible after passing the Maumee Bay range lights for a distance of about 5 miles. The present lights are too low and are frequently obscured by smoke. They are also sometimes blanketed by vessels mooring in the lagoon. These lights should therefore be raised in order to give greater efficiency. The present wooden towers are not structurally adapted for raising, and it is proposed to replace them with steel towers. | | |
| *Detailed estimate.* | | |
| 2 steel towers, metal work | $10,000 | |
| Foundations | 2,000 | |
| Erection, painting, installation | 1,500 | |
| Contingencies | 1,500 | |
| Total | 15,000 | |
| *No. 13. Pearl Harbor, Hawaii, Aids to Navigation—* For establishing aids to navigation in Pearl Harbor, Hawaii (*submitted*) | 80,000.00 | |
| NOTE.—In view of the fact that the Government has authorized the establishment of a naval station at this point, it is important that the channels and entrance be properly marked: this is rendered more important by the set of the current, which is usually across the channel in the approach, and also on account of the prevailing northeasterly winds. The necessary aids to navigation should be available at the completion of the harbor improvements. It is proposed to establish 9 lighted and 9 unlighted beacons, also 2 gas buoys at the entrance. The Secretary of the Navy by letter of Aug. 12, 1913, requested favorable consideration for the establishment of suitable aids to navigation in Pearl Harbor. | | |
| *Detailed estimate.* | | |
| 2 gas lighted buoys | $10,000 | |
| 4 lighted beacons in exposed waters, at $5,600 | 22,400 | |
| 5 lighted beacons in unexposed waters, at $3,500 | 17,500 | |
| 2 unlighted beacons in exposed waters, at $4,000 | 8,000 | |
| 7 unlighted beacons in unexposed waters, at $2,100 | 14,700 | |
| Contingencies | 7,400 | |
| Total | 80,000 | |
| *No. 14. Alaska, Aids to Navigation—* For the establishment of aids to navigation and improvement of existing aids in Alaska (*submitted*) | 60,000.00 | |
| NOTE.—The appropriation of $60,000 made Mar. 4, 1911 (36 Stat., 1431), for this purpose is practically exhausted. Many requests have been received for aids to navigation. Aids should be established in the near future on the west coast of Prince of Wales Island, Peril Strait, Neval and Olga Straits, Sitka Harbor, and numerous other places which at the present time are without aids. Thirty or more lighted aids, depending on the size and location, may be established for the sum recommended. | | |

| Tower, including site ..... $2,000<br>Illuminating apparatus ..... 1,500<br>Total ..... 3,500 | | |
| *No. 17. Lighthouse Tenders, General Service—* The Secretary of Commerce is hereby authorized, in his discretion, to use the appropriation of $200,000 for a tender for the first lighthouse district and elsewhere made by the acts of May 27, 1908 (35 Stats., p. 331), and Mar. 4, 1909 (35 Stats., p. 970), as modified by the act of July 27, 1912 (37 Stats., p. 238), for the construction of two or more tenders for general service (*submitted*). | | |
| NOTE.—The act of July 27, 1912 (37 Stats., p. 970), authorized the use of the appropriation of $200,000 for a tender for the first lighthouse district and elsewhere, made by the acts of May 27, 1908 (35 Stats., p. 331), and Mar. 4, 1909 (35 Stats., p. 970), for the construction of two tenders. It is now thought that additional small tenders may be constructed out of this appropriation, and authority is requested to extend the use of the appropriation for the construction of two or more tenders for general service. | | |
| GROUP NO. 2. | | |
| Works considered essential for the immediate needs of navigation, and for the efficient equipment of the Lighthouse Service: | | |
| *No. 18. Detroit, Mich., Lighthouse Depot—* For improvements at Detroit Lighthouse Depot, Mich. (*submitted*) | 29,000.00 | |
| NOTE.—The following improvements are needed:<br>*Oil house.*—The arrangements for storage of oil at this depot are very inadequate and unsatisfactory, and oil is stored in one wing of the basement of the main storehouse. The capacity is, however, insufficient, making it necessary to store large quantities of oil in the depot yard exposed to possible damage or total destruction by fire owing to the proximity of a varnish works. Furthermore, the handling of oil would be greatly facilitated, as the new structure could be so located as to handle the oil directly from the cars.<br>*Addition to lamp shop.*—The present lamp shop is greatly overcrowded owing to the increasing number of lighted buoys and other aids in the district, necessitating a greater and increasing quantity of parts returned for repair. Spare parts can not be accommodated, but must be stored in the main storehouse, inconveniently located for the work. It is necessary to do a great deal of blacksmith repair work to moorings of buoys, etc., at the depot during the closed season of navigation, and this work must now be done in the open part of the buoy shed under very severe weather conditions during the winter or at times delayed until the severe storms are over.<br>*Storehouse for cement and lime.*—Owing to the large amount of construction and repair work necessary in this district a considerable quantity of cement and lime must be kept on hand. A small building for this storage should be provided.<br>*Reconstruction of wharf.*—The wharf here has undergone for many years only such repair as necessary to render it serviceable. It is an old wooden structure on cast iron columns standing on piles cut off about a foot below water level. It should be rebuilt and extended out to the pier line to give additional capacity.<br>*Paving Mount Elliott Avenue.*—The efficiency of the depot suffers somewhat from the fact that it lies at the foot of an unpaved street, so that delivery by team is difficult during the late fall, winter, and early spring. The estimated cost is $9,000, of which the United States should pay one-half. | | |
| *Detailed estimate.* | | |
| Oil house ..... $4,000<br>Addition to lamp shop ..... 5,000<br>Cement and lime storage ..... 2,000<br>Reconstruction of wharf ..... 12,000<br>Paving Mount Elliott Avenue ..... 4,500<br>Contingencies ..... 1,500<br>Total ..... 29,000 | | |
| *No. 19. Staten Island, N. Y., Lighthouse Depot—* For improvement of the offices and laboratory at the general lighthouse depot, Tompkinsville, Staten Island, N. Y. (*submitted*) | 21,000.00 | |
| NOTE.—The present office quarters and laboratory at the general depot, Tompkinsville, N. Y., are located in four detached buildings, giving rise to delay and confusion in the orderly handling of work, as well as causing unnecessary expense of heating and other maintenance items. It is proposed to construct an addition which will join three of the present buildings, and make it possible to use the space so gained for the improvement of the laboratory, which is now located in the fourth building. This building is poorly adapted for laboratory purposes, but can be put to good use as a storehouse, which is also needed on account of the growth of the service. | | |
| *Detailed estimate.* | | |
| Altering old buildings ..... $4,500<br>Foundation ..... 1,500<br>Walls, rough floors, and roof ..... 8,000<br>Interior finish, etc ..... 5,000<br>Contingencies ..... 2,000<br>Total ..... 21,000 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 20. Eighth Lighthouse District, Tender and Barge—* | | |
| For constructing, or purchasing, and equipping a small tender and barge for eighth lighthouse district, Texas and Louisiana (*submitted*) | $17,000.00 | |
| NOTE.—The tender for the eighth lighthouse district, Texas and Louisiana, which should be a motor launch about 65 feet long, and barge to be equipped with derrick pile driver, neither to exceed 3 feet draft, are absolutely necessary for establishing and maintaining lights and daymarks along the intercoastal canals and other shallow waters of the eighth lighthouse district. That portion of the canal from Galveston, Tex., to Corpus Christi, Tex., has been completed by the War Department, and in the next year or two the canal will be open to the Mississippi River. | | |
| *Detailed estimate.* | | |
| Motor launch | $12,000 | |
| Pile-driver derrick barge | 5,000 | |
| Total | 17,000 | |
| *No. 21. Huron, Ohio, Aids to Navigation—* | | |
| For establishing aids to navigation at Huron Harbor, Ohio (*act June 17, 1910, vol. 36, p. 536, sec. 1; submitted*) | 4,500.00 | |
| NOTE.—The act of June 17, 1910, authorized the establishment of range lights at Huron Harbor, at a cost not to exceed $3,000, but no appropriation for that object has been made. The erection of a rear range light to serve with the present Huron Light will accomplish the desired object, but provision should also be made for a fog bell at the front light. The commerce of Huron Harbor is important, consisting principally of ore and fish incoming and coal outgoing. Over 300 vessels, with a registered tonnage of over 640,000, enter the harbor annually, with a cargo valuation of approximately $3,000,000. | | |
| *Detailed estimate.* | | |
| Tower | $1,500 | |
| Illuminating apparatus | 1,800 | |
| Fog-signal apparatus | 1,200 | |
| Total | 4,500 | |
| *No. 22. Hawaiian Islands, Lighthouse Depot—* | | |
| For the construction and equipment of a lighthouse depot for the nineteenth lighthouse district (*submitted*) | 90,000.00 | |
| NOTE.—The greatest need in this district is an adequate lighthouse depot. At present the stores are kept in two small, overcrowded, leaky storerooms on the Channel Wharf, Honolulu, where they are in danger of fire on account of proximity to fishing sampans, which are careless in the handling of gasoline. The heavy stores are kept in a large room adjoining the storage rooms occupied as a depot on Channel Wharf, lately vacated by the Territory because of the condemnation of the wharf.<br>Buoys are kept, some on Channel Wharf and some on Naval Wharf No. 1. The heavier buoys can not be kept on the Channel Wharf on account of its dilapidated condition and when placed on the Naval Dock are exposed to the weather and are frequently covered with coal when warships are coaling. In assembling materials for any construction work it has been the custom to collect them at the Channel Wharf and if there is any considerable amount that wharf becomes filled up, necessitating the removal of the material on account of inconvenience to other users. Hence the lack of a depot results in much inefficiency in collecting materials as well as inconvenience and annoyance. The fact that the temporary wharf and storehouse are in a bad state of repair, having been condemned about a year ago, makes the situation very uncertain and unsatisfactory. Application for the transfer of Naval Wharf No. 3 and of a piece of land (1.2 acres) contiguous to this wharf has been made to the Navy Department. It is proposed to erect adequate buildings and improvements on this site for lighthouse depot purposes. | | |
| *Detailed estimate.* | | |
| Repairs and enlargement of wharf | $30,000 | |
| General storehouse | 28,000 | |
| Repair plant equipment | 10,000 | |
| Carbide and oil house | 2,000 | |
| Office building | 10,000 | |
| Improvement of grounds, including walks, fences, etc | 2,000 | |
| Contingencies | 8,000 | |
| Total | 90,000 | |
| *No. 23. Point Borinquen, P. R., Light Station—* | | |
| For the removal and rebuilding on another site of the light station and dwelling at or near Point Borinquen, P. R. (*submitted*) | 85,000.00 | |
| NOTE.—The present Point Borinquen Lighthouse is improperly located at the foot of a bluff 230 feet high, which obscures the light in the northeasterly direction. To the southward plantations of high trees obscure the light in its most desirable direction, the harbor of Aguadilla. The present tower is in bad state of repair, the top part being considered unsafe and the foundation insecure. At the present time the light is inadequate, and with the opening of the Panama Canal it will be quite insufficient, as it will then become a most important landfall light.<br>In addition to the light, and in connection with it, it is proposed to install a wireless station which will send automatically the wireless name of the station, which will give vessels an opportunity to locate their position when distant from the shore. | | |
| *Detailed estimate.* | | |
| Tower, including site | $30,000 | |
| Dwelling for three keepers | 20,000 | |
| Illuminating apparatus | 7,000 | |
| Power-house and wireless outfit | 4,500 | |
| Outbuildings, piping, etc | 8,000 | |
| Roads and grounds | 7,000 | |
| Contingencies | 8,500 | |
| Total | 85,000 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 24. Light Keepers' Dwellings*— For light keepers' dwellings and appurtenant structures, including sites therefor, within the limit of cost fixed by act approved Feb. 26, 1907 (*act Feb. 26, 1907, vol. 34, p. 996, sec. 3; submitted*) | $75,000.00 | |
| NOTE.—The appropriations made Mar. 4, 1907 (34 Stats., 1319), and May 27, 1908 (35 Stats., 334), of $75,000 each are now exhausted, but dwellings at a number of stations are yet needed, among which may be stated: Amelia Island, Fla.; Ano Nuevo Island, Cal.; Buffalo Breakwater, N. Y.; Charlotte, N. Y.; Dry Tortugas, Fla.; Frankport, Mich.; Oswego Breakwater, N. Y.; Piedras Blancas, Cal.; Point Hueneme, Cal.; Point Montara, Cal.; Point Sur, Cal.; Port San Juan, P. R.; Sand Island, Ala.; Tawas, Mich.; Toledo Harbor, Ohio; Two Harbors, Minn. | | |
| *Detailed estimate.* | | |
| 16 dwellings, at $4,500 | $72,000 | |
| Contingencies | 3,000 | |
| Total | 75,000 | |
| *No. 25. Fairport, Ohio, Aids to Navigation*— For improving the aids to navigation at Fairport Harbor, Ohio (*submitted*) | 30,000.00 | |
| NOTE.—The completion of the west breakwater pierhead necessitates a rearrangement of the aids to navigation at this harbor. It is proposed to discontinue the present main light on the bluff and to construct the new light on the pierhead. The west breakwater and pierhead have been completed, and on the east side the breakwater has been built up to the water line throughout its length, and the pierhead crib has been placed. The annual number of vessels entering and departing is about 1,300, representing a total registered tonnage of approximately 3,000,000. | | |
| *Detailed estimate.* | | |
| Structure | $20,000 | |
| Illuminating apparatus | 6,500 | |
| Boats, piping, etc | 3,500 | |
| Total | 30,000 | |
| *No. 26. Sand Hills, Mich., Light Station*— For establishing a light station and fog signal at or near Sand Hills, Mich. (*submitted*) | 75,000.00 | |
| NOTE.—A light and fog signal station at Sand Hills, about 4 miles west of Eagle River, Keweenaw Peninsula, Lake Superior, would be of great service to vessels bound east from the western portion of Lake Superior in warning vessels from the dangerous reefs off the coast. It is reported that 10 vessels stranded on these reefs in recent years, with known losses of over $1,000,000. | | |
| *Detailed estimate.* | | |
| Tower | $30,000 | |
| Fog signal | 12,000 | |
| Quarters for three keepers | 15,000 | |
| Outbuildings, dock, boat, etc | 10,000 | |
| Contingencies | 8,000 | |
| Total | 75,000 | |
| *No. 27. Manitowoc Breakwater, Wis., Light Station*— For improving the light and fog-signal station at Manitowoc North Breakwater, Wis. (*submitted*) | 25,000.00 | |
| NOTE.—The present frame building with corrugated iron covering with very small wooden lantern (not large enough to admit a man) stands on the outer end of the North Breakwater, which is of stone-filled timber construction. The building is old and in poor condition. The timber sills supporting building are badly rotted. The other timber work is deteriorating. Covering plates are rusting and breaking away at bottom. Cement floor is cracked and the building itself is shaky, due to movement and settlement of pier and to the fact that the building has been moved twice. It is liable to destruction in its exposed position and should be replaced at an early date with a steel building on a concrete base. It is proposed to install electric-driven air compressor, obtaining current from the city, with oil engine reserve drive, and to provide a brighter light. | | |
| *Detailed estimate.* | | |
| New fog-signal building with lantern | $12,000 | |
| Fog-signal apparatus | 9,000 | |
| Illuminating apparatus | 1,500 | |
| Contingencies | 2,500 | |
| Total | 25,000 | |
| GROUP NO. 3. | | |
| Works considered essential for the needs of navigation and the equipment of the Lighthouse Service, and which it is recommended be undertaken as resources permit, are submitted with estimates of cost. (These items have been selected from a much larger number of recommendations submitted by the inspectors of the lighthouse districts and others.) | | |
| *No. 28. Tampa Bay, Fla., Aids to Navigation*— For establishing and improving aids to navigation in Tampa Bay, Fla. (*submitted*) | $12,000.00 | |
| NOTE.—Tampa is an important seaport with a large and growing commerce by sea. Owing to shallow water in Tampa Bay deep draft vessels can reach the city from the Gulf only by means of several comparatively narrow dredged cuts. Provision has already been made for lighting all of the important cuts excepting cut D, for which lights should be provided as soon as practicable, as large vessels must pass through this cut in order to reach Port Tampa. | | |
| *Detailed estimate.* | | |
| Concrete foundation | $2,000 | |
| Metal work towers | 5,000 | |
| Illuminating apparatus | 4,000 | |
| Contingencies | 1,000 | |
| Total | 12,000 | |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 29. Sturgeon Bay, Wis., Aids to Navigation—* | | |
| For establishing and improving the aids to navigation in Sturgeon Bay, Wis. (*submitted*)..... | $12,100.00 | |
| NOTE.—The present aids to navigation for entering Sturgeon Bay from Green Bay do not mark the proper channels since improvements have been made in the latter. To provide for safe navigation in this vicinity, it is proposed to erect two structural steel towers, equipped with acetylene illuminating apparatus, located on Hills Point, forming a range for entering Sturgeon Bay, and to construct a small crib foundation, erecting a structural steel tower on same, and equipping it with acetylene illuminating apparatus near Powells Point, eastward of Hills Point, in the vicinity of Black Spar Buoy No. 5. The two Dunlap Reef Range Lights in Sturgeon Bay may be discontinued when these lights have been placed in commission, as they do not mark the best water. | | |
| *Detailed estimate.* | | |
| Two Towers, Hills Point..... $2,200 | | |
| Tower on crib foundation, Powells Point..... 4,000 | | |
| Illuminating equipment..... 4,800 | | |
| Contingencies..... 1,100 | | |
| Total..... 12,100 | | |
| *No. 30, Keweenaw Waterway, Michigan, Aids to Navigation—* | | |
| For establishing and improving aids to navigation at or near the entrance to Keweenaw Waterway Harbor of Refuge, Portage River, Mich. (*submitted*)..... | 110,000.00 | |
| NOTE.—The improvements by the War Department are now in progress and will probably be carried through to completion at an early date. Steps should be taken as soon as possible by the Lighthouse Service looking to the proper lighting of the entrance under the new conditions. It is recommended that a light and fog signal be erected on a separate foundation on the outer end of the breakwater, and that six nonattended lights be established to mark the harbor, and, as the work will necessitate changes at the locality that present range lights Nos. 1 and 2 be rebuilt and provided with gas appliances. The Portage River (Main) light may be discontinued on the completion of this project, and the dwelling retained as shore station for one keeper. | | |
| *Detailed estimate.* | | |
| Foundation and concrete base for tower..... $43,000 | | |
| Superstructure..... 21,000 | | |
| Illuminating and fog-signal apparatus..... 9,000 | | |
| Establishing six minor lights..... 24,000 | | |
| Rebuilding lights Nos. 1 and 2..... 6,000 | | |
| Contingencies..... 4,000 | | |
| Total..... 110,000 | | |
| *No. 31, Milwaukee, Wis., Lighthouse Depot—* | | |
| For the purchase or improvement of a site, the construction of a wharf and buildings, and the necessary equipment for a lighthouse depot, Milwaukee, Wis., and proceeds from sale of present depot, shall be available for purposes of this appropriation (*submitted*)..... | 200,000.00 | |
| NOTE.—The present depot at Milwaukee is practically surrounded by coal yards except on the water front, and the nuisance from the coal dust makes it impossible to keep either stores or machinery in good condition. Consideration has been given to obtaining a new site which will avoid this trouble, which it is believed should be located farther up the Kinnickinnic River. Milwaukee is considered to be the logical point for the location of the principal depot of the twelfth lighthouse district, Lake Michigan and Green Bay, on account of being the leading lake port in the district in point of commerce. | | |
| *Detailed estimate.* | | |
| Purchase or improvement of site..... $85,000 | | |
| Storehouse..... 60,000 | | |
| Wharves and revetments..... 50,000 | | |
| Buoy platform, pavements, and walks..... 15,000 | | |
| Oil house, fencing, and transfer of equipment..... 10,000 | | |
| Keeper's dwelling..... 7,000 | | |
| Contingencies..... 23,000 | | |
| 250,000 | | |
| Estimated proceeds present depot..... 50,000 | | |
| Total..... 200,000 | | |
| *No. 32. Alaska Lighthouse Depot—.* | | |
| For the purchase of a site for a lighthouse depot and the necessary equipment so far as funds may permit for the Sixteenth Lighthouse District (*submitted*)..... | 40,000.00 | |
| NOTE.—There is no lighthouse depot in Alaska, and the work of the lighthouse service is considerably handicapped by the lack of such facilities. Temporary quarters are now rented at $325 per month, which would be unnecessary if proper facilities were owned by the Government. It is not intended at this time to erect office quarters, etc., for which further arrangements in other Federal buildings may be made in the future. | | |
| *Detailed estimate.* | | |
| Purchase of site..... $20,500 | | |
| Repairs, equipment, dock, etc..... 19,500 | | |
| Total..... 40,000 | | |
| *No. 33. Point Pinos, Cal., Light Station—* | | |
| For improving Point Pinos Light Station, Cal. (*submitted*)..... | 29,000.00 | |
| NOTE.—Improvements to the combined tower and dwelling at this station are required to keep them in a serviceable condition. Fog is of frequent occurrence at this point, and a first-class compressed air signal, together with quarters for two additional keepers are urgently required. Traffic into Monterey Harbor is steadily increasing, and a number of large oil-carrying steamers now run regularly to this port where oil is piped from the oil fields in the interior of the State. | | |
| *Detailed estimate.* | | |
| Fog-signal building..... $3,000 | | |
| Fog-signal apparatus..... 7,000 | | |
| Dwellings for two keepers..... 12,000 | | |
| Improvements to present station..... 4,500 | | |
| Contingencies..... 2,500 | | |
| Total..... 29,000 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *No. 34. Kauhola Point, Hawaii, Light Station—*<br>For improving the light station at Kauhola Point, Hawaii (*submitted*) ..... $15,000.00 | | |
| NOTE.—Owing to the importance of this station, located near the northern point of the Island of Hawaii, steps have been taken to change the present lens-lantern light to a converted flashing fourth-order lens. To support this lantern and lens and to complete the improvement of this station, a new tower is necessary. | | |
| *Detailed estimate.* | | |
| 75-foot cast-iron tower ..... $10,000<br>Erection at site complete ..... 3,600<br>Contingencies ..... 1,400<br>Total ..... 15,000 | | |
| *No. 35. Goat Island, Cal., Lighthouse Depot—*<br>For repairs and improvements to Goat Island lighthouse depot, near San Francisco, Cal. (*submitted*) ..... 43,000.00 | | |
| NOTE.—This depot occupies a small area gained by cutting down the steep bluff at the southeast point of Goat Island in San Francisco Bay and filling in along the shore line with the material thus secured. This area and that afforded by the present wharf is now inadequate to afford a proper disposition of the property required to be stored there. This is the only depot in the district. An additional area should be filled in with excavated material to afford room for new storehouses and additional room for storing buoys. The present storehouses are merely wooden sheds, old and poorly constructed. The present wharf should be extended to afford room for working two tenders alongside at the same time, and to permit landing and loading supplies without having to shift material already stored on the wharf. The quarters provided for the depot force are old and insanitary in arrangement and location. New quarters should be provided on higher ground and the site of the present quarters utilized for the needs of the depot proper. | | |
| *Detailed estimate.* | | |
| Retaining wall and fill ..... $5,000<br>Storehouse, reenforced concrete ..... 18,000<br>Wharf, additional, on iron piles ..... 12,000<br>Dwelling ..... 8,000<br>Total ..... 43,000 | | |
| *No. 36. Santa Barbara, Cal., Light Station—*<br>For improving Santa Barbara light station, Cal. (*submitted*) ..... 29,000.00 | | |
| NOTE.—The station is old and the tower is too small to accommodate the revolving lens now installed in it. The tower stands one-eighth of a mile back from the point of the shore line and the light is partly obscured by trees on other properties. A new tower is required to be built farther out on the point. Coasting vessels bound north keep close inshore to avoid the prevailing northwesterly wind and sea, and a fog signal should be established here with quarters for two additional keepers. An improvement has been made in changing the light from fixed to occulting, and an increase of intensity. The fog signal, as well as other improvements, is necessary, and a new light tower, to render the aids efficient. | | |
| *Detailed estimate.* | | |
| Tower, lantern, and fog-signal building ..... $8,000<br>Fog-signal apparatus ..... 7,000<br>Additional quarters ..... 7,000<br>Improvements to present station ..... 4,500<br>Contingencies ..... 2,500<br>Total ..... 29,000 | | |
| *No. 37. Hilo, Hawaii, Aids to Navigation—*<br>For establishing and improving aids to navigation at Hilo, Hawaii (*submitted*) ..... 19,000.00 | | |
| NOTE.—Hilo is the second port of importance in the Hawaiian Islands, and it is probable that the opening of the Panama Canal will greatly increase its shipping. The present lighting is inadequate. It is proposed to establish, (1) an acetylene light in place of the present lens lantern at Alia Point, the entrance to Hilo Bay; (2) a combination gas and whistling buoy in place of the Blonde Reef whistling buoy, with lanterns and attachments; (3) an acetylene light on the end of the Hilo Breakwater when completed. | | |
| *Detailed estimate.* | | |
| Alia Point light ..... $11,000<br>Combination gas and whistling buoy ..... 5,000<br>Hilo Breakwater light ..... 3,000<br>Total ..... 19,000 | | |
| *No. 38. Portage Lake, Mich., Aids to Navigation—*<br>For establishing a light and fog signal station upon a new site and improving aids to navigation at Portage Lake Ship Canals, Mich. (*submitted*) ..... 100,000.00 | | |
| NOTE.—The War Department intends to remove the breakwater, and it is therefore necessary to rebuild the light and fog signal on a new site. The new light and fog signal should be established on a pier at the outer entrance, where it would be of the best service to vessels making the harbor. The construction of the station proposed will require considerable time to complete, and this project should have consideration for that reason. | | |
| *Detailed estimate.* | | |
| Dredging, piling, and cribwork ..... $15,000<br>Stone filling and riprap work ..... 10,000<br>Concrete base with metal flashing ..... 30,000<br>Superstructure ..... 30,000<br>Fog signal and lighting equipment ..... 9,000<br>Contingencies ..... 6,000<br>Total ..... 100,000 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *No. 39. Ram Island, Me., Light—* | | | |
| For establishing a light on Ram Island, Lower Kennebec River, Me. (*submitted*) | $3,100.00 | | |
| NOTE.—The need of this light has several times been expressed by petition. Ram Island is about 5½ miles below Bath, Me.; it is a low island in the middle of the river, with a string of half-tide ledges making off on the easterly side. There is a passage on either side, and at some stages of the tide a 5-knot current exists, from which several accidents have occurred. About 300,000 tons of freight and 175,000 passengers are transported past this island annually, not including the many pleasure craft and small boats which frequent the river. It is proposed to establish an acetylene light on or near the easterly side of Ram Island. | | | |
| *Detailed estimate.* | | | |
| Light structure, including site | $1,600 | | |
| Illuminating apparatus | 1,300 | | |
| Contingencies | 200 | | |
| Total | 3,100 | | |
| *No. 40. Cape Kumukahi, Hawaii, Light Station—* | | | |
| For establishing a light at or near Cape Kumukahi, Hawaii (*submitted*) | 24,000.00 | | |
| NOTE.—Cape Kumukahi is the easternmost cape of Hawaii. There is at present no landfall light for vessels bound to Hilo from the Panama Canal or from the southeast. It is a difficult point to round when sailing from Hilo to the south point or vice versa. A light on this point would be a great improvement to the lighting of the islands. The country in this vicinity is barren, undulating lava rock. An acetylene light is recommended with a focal plane height of about 150 feet, which would be visible about 20 miles. Landing from seaward at the cape is impossible at most times, and the only practicable method of supplying this station would be by railroad from Hilo to Kapoho, and then by wagon road 3 miles to the cape, 1½ miles of which would have to be constructed over the rock. | | | |
| *Detailed estimate.* | | | |
| Road | $6,500 | | |
| Tower, including site and right of way | 11,500 | | |
| Illuminating apparatus | 4,000 | | |
| Contingencies | 2,000 | | |
| Total | 24,000 | | |
| *No. 41. Henderson Point, Me., Light Station—* | | | |
| For establishing a light and fog signal at or near Henderson Point, Piscataqua River, Portsmouth Harbor, Me. (*submitted*) | 3,800.00 | | |
| NOTE.—The need of this aid has several times been expressed by petition. It is often very difficult to locate Henderson Point at night and in thick weather; the channel is narrow and there is a strong tide at this point, where the course changes. The commercial statistics for Portsmouth Harbor indicate about 5,600 vessels arriving and departing annually, transporting about 610,000 tons of freight. It is proposed to establish an acetylene light with fog bell. | | | |
| *Detailed estimate.* | | | |
| Structures, including sites | $1,800 | | |
| Illuminating and fog signal apparatus | 2,000 | | |
| Total | 3,800 | | |
| *No. 42. Port Real, Porto Rico, Light Station—* | | | |
| For establishing a light station at or near Port Real, Porto Rico (*submitted*) | 34,000.00 | | |
| NOTE.—The lighthouse at Port Ferro, on the South Coast of Vieques or Crab Island, is one of the primary seacoast lights of the Porto Rican system. The light tower and the keepers' dwelling attached to it are built on top of a rocky promontory undermined for some time by the sea waves, and the whole structure, already dangerously cracked, is in danger of collapsing. It is urgent to rebuild a lighthouse at or near this point, as this is an important aid to the navigation from St. Thomas to Cuba and other West Indies Islands and the Carribean Sea. A light in this vicinity is necessary for navigation, and it is proposed to dismantle the present Port Ferro Light Station and to erect a new light station at Port Real, about 3 miles westward, where the aid will be more useful and on better ground than on its present location at Port Ferro, as Port Real is the most important and the best anchorage around Vieques Island. The present apparatus at Port Ferro is to be used for this new station. | | | |
| *Detailed estimate.* | | | |
| Tower and dwellings for 2 keepers | $25,000 | | |
| Illuminating apparatus on hand at Port Ferro | ..... | | |
| Outbuilding and piping | 1,000 | | |
| Purchase of site | 2,000 | | |
| Roads and grounds | 2,000 | | |
| Contingencies | 4,000 | | |
| Total | 34,000 | | |
| *No. 43. Nine Mile Point, Mich., Light Station—* | | | |
| For establishing a light and fog signal station at or near Nine Mile Point, Mich. (*submitted*) | 50,000.00 | | |
| NOTE.—When Forty Mile Point Light Station was established it was placed on the site designated Forty Mile Point on the county survey charts. Sailing masters expected the station to be placed at Nine Mile Point, near the entrance to the Straits of Mackinac, but which was not so called officially then. While Nine Mile Point is within the visibility of Spectacle Reef and Poe Reef Light Vessel lights, a fog signal would be of especially great service in thick and foggy weather and during seasons when forest fires prevail. Not less than 9 strandings occurred here between 1903 and 1909. In the event of establishing this station, Forty Mile Point could be made a minor light. | | | |
| *Detailed estimate.* | | | |
| Tower | $15,000 | | |
| Illuminating apparatus | 2,000 | | |
| Fog signal building and apparatus | 9,000 | | |
| Dwellings for 3 keepers | 15,000 | | |
| Outbuildings, boathouse, fences, etc | 6,000 | | |
| Contingencies | 3,000 | | |
| Total | 50,000 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *No. 44. Ludington, Mich., Light Station—* | | | |
| For establishing a light and fog signal station at Ludington, Mich. (*submitted*) | $61,000.00 | | |
| NOTE.—The present location of the fog signal station on the end of south pier subjects vessels to danger of striking the breakwater. The commerce of Ludington, which includes important car ferry lines across Lake Michigan, is more important than any other port on the east shore of Lake Michigan, and as this port is most inadequately lighted now, this improvement is considered well warranted. It is proposed to establish a main light on the outer end of the south breakwater, with fog signal apparatus consisting of electrically-driven air compressor and siren with oil engine reserve drive, and to discontinue the present steam fog signal in old wooden structure. | | | |
| *Detailed estimate.* | | | |
| Foundation crib and concrete pier | $30,000 | | |
| Steel fog signal building | 15,000 | | |
| Illuminating apparatus | 2,000 | | |
| Fog signal apparatus | 9,000 | | |
| Contingencies | 5,000 | | |
| Total | 61,000 | | |
| | 785,000.00 | | |
| Total, lighthouses, beacons, fog signals, etc | | $1,635,500.00 | |
| BUREAU OF STANDARDS. | | | |
| *Chemical Laboratory—* | | | |
| Toward the construction of a suitable fireproof chemical laboratory, to provide additional space, to cost not exceeding $200,000 under a contract which is hereby authorized therefor, to be available until expended (*submitted*) | | 50,000.00 | |
| NOTE.—The bureau is in urgent need of a suitable chemical laboratory. This work is at present carried on in the fourth floor of the physical building. Nearly every branch of the Bureau's work involves chemistry in one form or another, and the bureau's facilities for chemical work have been entirely inadequate for the past two or three years. Furthermore, chemical work more than any other requires laboratories, equipment, and facilities peculiar to it, such as special plumbing, hoods, ducts, and other special equipment. | | | |
| *Testing Machine, Bureau of Standards—* | | | |
| To enable the Secretary of Commerce to procure for the Bureau of Standards a large testing machine of fine quality for transverse loads on built-up beams, bridge girders, etc., of various lengths up to 64 feet or more between bearings, and depths of 20 feet or more, with the necessary scale for all loads up to 4,000,000 pounds, at a cost not exceeding $400,000, the contract for which is hereby authorized, and for which the sum of $100,000 is hereby appropriated, to be available until expended (*submitted*) | | 100,000.00 | |
| *Site for Testing Laboratory—* | | | |
| For the purchase of a suitable site to be selected by the Secretary of Commerce, conveniently located near an industrial center and with transportation facilities, for the purpose of establishing a testing laboratory for the Bureau of Standards, there is hereby appropriated the sum of $50,000, to be available until expended (*submitted*) | | 50,000.00 | |
| *Fireproof Building for Testing Laboratory—* | | | |
| For the erection of a suitable fireproof building, at the site selected by the Secretary of Commerce, for the testing laboratory for the Bureau of Standards, contract for which is hereby authorized at a cost not exceeding $250,000, is hereby appropriated the sum of $75,000, to be available until expended (*submitted*) | | 75,000.00 | |
| Total public works, Bureau of Standards | | 275,000.00 | |
| Total public works, under Department of Commerce | | 1,910,500.00 | |
| UNDER THE DEPARTMENT OF LABOR. | | | |
| BUREAU OF IMMIGRATION AND NATURALIZATION. | | | |
| IMMIGRANT STATIONS. | | | |
| *Immigrant Station, Ellis Island, New York Harbor—* | | | |
| For completion of additional story on baggage and dormitory building and metal and masonry projection on northerly side of said building, under original limit of cost, $200,000 (*act Aug. 24, 1912, vol. 37, p. 475, sec. 1; submitted*) | $200,000.00 | | |
| For furnishings and equipments for additional story on baggage and dormitory building, including beds, benches, and miscellaneous furniture, $30,000 (*act June 23, 1913, vol. 38, p. 65, sec. 1; submitted*) | 30,000.00 | | |
| For construction of additional story on restaurant building, $80,000 (*same act*) | 80,000.00 | | |
| For construction of another section of concrete granite-faced seawall under original limit of cost, $150,000 (*same act*) | 150,000.00 | | |
| For increase of boiler plant in main power house, $40,000 (*same act*) | 40,000.00 | | |
| For concrete walks, including filling and incidentals, over crib work on northerly side of basin, No. 1 island, $20,000 (*same act*) | 20,000.00 | | |
| For dredging, $25,000 (*same act*) | 25,000.00 | | |
| For covered way connecting No. 2 and No. 3 islands (both hospital islands), $60,000 (*same act*) | 60,000.00 | | |
| For filling and grading No. 3 island and installing concrete walks, $5,000 (*same act*) | 5,000.00 | | |
| For extension of fire-alarm system to hospital islands, $4,000 (*same act*) | 4,000.00 | | |
| For salt-water service lines to contagious disease hospital, $4,500 (*same act*) | 4,500.00 | | |
| | | 618,500.00 | $184,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, reference to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

*Immigrant Station, Ellis Island, New York Harbor*—Continued.

*Explanatory notes on foregoing estimate.*

For completion of additional story on baggage and dormitory building, etc., $200,000.

NOTE.—The limit of cost for this improvement was fixed by the act approved Aug. 24, 1912, at $350,000, of which $150,000 was appropriated with authority to enter into contracts for the entire work up to the limit of cost as indicated. Such contracts have been executed and the construction work is under way, subject to appropriation of the additional amount for which estimate is submitted.

For furnishings and equipments for additional story on baggage and dormitory building, etc., $30,000.

NOTE.—No provision has been made for furnishing additional story on this large building, which consists of dormitories accommodating 1,214 beds costing approximately $23 each. The inclosed porches, which will be used for recreation by the detained immigrants, to be furnished with benches that will cost approximately $2,500.

For construction of additional story on restaurant building, $80,000.

NOTE.—It is intended that these additional quarters shall be used for the detention of aliens who arrive as cabin passengers. There are still no such quarters, though a great many cabin passengers are detained. We are compelled to quarter them in rooms attached to the immigrant quarters, in which are three tier beds. Complaints which are in some instances well founded are frequently received, although we are doing the best we can for such passengers under present conditions. Many ineligible aliens now arrive as cabin passengers, and the Government should certainly furnish suitable accommodations for those detained. It will be necessary to expend a portion of the sum requested in removing the existing hip roof on the building referred to and to have a flat roof with recreation space on top. The quarters will be divided into many rooms so that the passengers may be separated, so far as possible at least, by races. This will necessarily call for a greater amount of plumbing work and better interior finish than provided in the quarters furnished steerage passengers. The request made in 1912 for this appropriation gave details as to the size and cost of construction. The additional story will contain approximately 200,000 cubic feet, and the estimated cost is 40 cents per cubic foot, making the total requested.

For construction of another section of concrete granite-faced sea wall, etc., $150,000.

NOTE.—This section will be constructed on the southerly side of the ferry slip and along easterly end of island No. 2. The cribwork along this section is at present in very poor condition and in several places shows a distinct movement into the slip. Work there must be started as quickly as possible.

The following is the estimate upon which this request is based:

| | |
|---|---|
| 100 feet of shallow sea wall, at $60 per linear foot | $6,000 |
| 885 feet of deep sea wall, at $150 per linear foot | 132,750 |
| Back fill between line of old cribwork and new sea wall, at $0.50 per cubic yard | 6,250 |
| Engineering and contingencies | 5,000 |
| Total | 150,000 |

For increase of boiler plant in main power house, $40,000.

NOTE.—This station has been gradually added to for several years past, necessitating the increased consumption of steam for heating and lighting purposes. There are still four 125 horsepower units in our power house. They were installed in 1899, and aside from the absolute necessity of having increased power, these units are approaching the end of their usefulness. It is the purpose to supplant them with three 500 horsepower units of a type that has proved economical and efficient since the power house was in part reequipped about three years ago. If the changes indicated are made we will save 1,000 additional horsepower. During the winter of 1911-12, $10,000 worth of coal was consumed in excess of what should have been required, due largely to the necessity of forcing the present plant beyond its capacity. Although last winter was comparatively mild, there were days when the present plant was inadequate to meet the burden placed upon it of properly heating the buildings here. Before the changes now asked for could be made we will have still larger quarters to take care of, as a $350,000 addition to the dormitory building has been already authorized. These quarters will contain 842,000 cubic feet of additional space to heat, light, and supply with water.

For concrete walks, including filling and incidentals, over cribwork on northerly side of basin, No. 1 island, $20,000.

NOTE.—This will include the removal of a portion of the old timber supports and additional back fill between new sea wall and old crib. The space along this dock is the most used landing space at Ellis Island. It is approximately 800 feet long by 35 feet wide. As indicated in previous correspondence, we will use the ashes from the power house and ferryboat for some of this back fill, but the amount named is required for the additional fill and the concrete walks. These walks will be subjected to especially hard usage, much baggage will be trucked over them, and they must be of better construction than ordinary walks.

For dredging, $25,000.

NOTE.—What was said in reference to this in request made for appropriations in 1912 is now repeated.

The conditions prevailing in New York Harbor, where the bottom is largely soft mud and silt, coupled with the great quantities of solid matter deposited by sewers and by the flow of the Hudson River, necessitate our dredging with growing frequency in order to insure proper access to the three islands and maintain our channels and slips.

The estimated quantities of this dredging now necessary are as follows:

| | Cubic yards. |
|---|---|
| In ferry basin between No. 1 and No. 2 islands | 20,000 |
| Main channel at Ellis Island | 24,000 |
| East end of islands No. 2 and No. 3 | 9,000 |
| Basin between No. 2 and No. 3 islands | 20,000 |
| Northeast channel | 24,000 |
| Ferry coal dock | 9,000 |
| Total | 106,000 |

It is estimated that this work can be done at 13 cents per cubic yard, making the cost thereof $14,000.

It is also necessary to enlarge the basin on northeast front of No. 1 island at the dock whence immigrants are taken to the railroads. This berth is now dredged at a depth of 12 feet over an area approximately 350 by 600 feet. The proposed enlargement will give an additional width to this basin of 135 feet.

The handling of business at the present time often necessitates the presence in this basin of three barges, two passenger steamers, and a tug. The congestion resulting is dangerous, and can be obviated only by the enlargement of this basin to the extent indicated. To secure the enlargement in question will require the removal of approximately 6,000 cubic yards of soft material at 13 cents per cubic yard ($780), and 9,875 cubic yards of hard material at $1 per cubic yard ($9,875), a total for this dredging of $10,655.

Since the time indicated conditions have become worse than then described. At low tide the transfer boats or tugs handling them and our ferryboat have frequently scraped bottom. This matter can not be put off for another year without the probability of much damage to our floating equipment.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Immigrant Station, Ellis Island, New York Harbor*—Continued. | | |
| For covered way connecting No. 2 and No. 3 islands (both hospital islands), $60,000. | | |
| NOTE.—These islands are at present connected by an uncovered trestle bridge or pile gangway about 400 feet long. Sick immigrants are almost daily carried from one island to the other, and in wintertime this is done only with undue exposure and danger to life. Even during the hot weather of the summer exposure in transit is undesirable and often dangerous. The hospitals on island No. 3 are for cases of contagious disease. A large percentage of the inmates are children. Their parents or relatives wish to see them from time to time and are permitted to do so. During the stormy winter months it is actually dangerous at times to attempt to cross this uncovered passageway, which is exposed to the full blast of the wind and spray from the waves. The present structure is almost rotting. The decking must be replaced at once. Furthermore, the present water-main and electric tie lines are carried on this bridge. It is obvious that a stable structure which will give adequate protection from the weather to those who must be transported across it, should be installed here without delay. Estimate is based upon the following details: | | |
| Total length, 400 feet; width, 10 feet; height, 15 feet. | | |
| Distance to have concrete piles in water, 225 feet. | | |
| Test borings, concrete piles, beams, braces, etc..... $36,000 | | |
| Covered part, 60,000 cubic feet, at $0.40..... 24,000 | | |
| Total..... 60,000 | | |
| 4,000 square feet area. | | |
| For filling and grading No. 3 island and installing concrete walks, $5,000. | | |
| NOTE.—This island is used exclusively for contagious diseases. But a portion of the ground has been graded. Many depressions exist between the respective buildings. They present not only an unsightly appearance, but collect water and form an excellent breeding place for mosquitoes. It is a well-established fact that mosquitoes are carriers of disease, and even though the doors and windows of the contagious-disease group are screened, it is not proper that these mosquito-breeding places should be permitted to exist or the grounds surrounding the hospital present the unsightly appearance that exists here. The following are the details upon which estimate is based: | | |
| Furnishing and grading loam, 1,000 yards at $2.30..... $2,300 | | |
| Furnishing and grading fill, 1,000 yards at $0.75..... 750 | | |
| Grading fill belonging to the Government, 600 yards at $0.50..... 300 | | |
| Furnishing and laying cinders, 850 yards at $0.50..... 425 | | |
| Laying 4,900 square feet cement walks, at $0.25..... 1,225 | | |
| Total..... 5,000 | | |
| For extension of fire-alarm system to hospital islands, $4,000. | | |
| NOTE.—Seven additional alarm boxes are required on island No. 2 to make the system adequate. Island No. 3 is at present without a fire-alarm system. It will require 16 boxes. The estimate is based upon the cost of the system heretofore installed in the main building. | | |
| For salt-water service lines to contagious-disease hospital, $4,000. | | |
| NOTE.—It is, of course, necessary to have an adequate water supply in the hospitals for use in case of fire, and the salt water can also be used for flushing purposes. By using salt water for the latter purpose in the main building we have been able to reduce our fresh-water bills by approximately one-half. A similar saving could without doubt be effected on island No. 3 by the installation of the necessary connections with the salt-water pumps in the power plant on island No. 1. Seventeen buildings of the contagious disease hospital group are equipped with the necessary fixtures for this purpose, but this is of no advantage until they are connected with the salt-water pumps. | | |
| *Immigrant Station, New Orleans, La.*— | | |
| For the purchase, by condemnation or otherwise, of additional land to complete the boundaries of the station reservation, and also filling, fencing, paving, and incidental work connected with diverting public road around station and inclosing the reservation, $51,000 (*submitted*)..... | $51,000.00 | |
| NOTE.—The buildings of the immigration station at New Orleans are completed and occupied, but the site is only sufficient for immediate needs and is so limited in area as to allow encroachment by private owners of adjacent land. The levee abutting the property on the front is about to be broadened so as to force the public road back upon the Government reservation, and provision should be made for permanently locating this road in the rear of the station and securing title to the land necessary to square the boundaries of the reservation. It is estimated that the land will cost $36,000, and the sum of $15,000 will be needed to divert the road, fence and fill the property, and for incidental items. | | |
| *Immigrant Station, Galveston, Tex.*— | | |
| For construction of bulkhead around station reservation, including filling, grading, and incidental work, $45,500 (*submitted*)..... | $45,500.00 | |
| For extension of wharf and constructing cover over same, $25,000 (*submitted*)..... | 25,000.00 | |
| For purchase or construction of a ferryboat, $25,000 (*submitted*)..... | 25,000.00 | |
| For concrete reenforcement of piling under station building and concrete wall around boiler house, $11,500 (*submitted*)..... | 11,500.00 | |
| | 107,000.00 | |
| NOTE.—The station at Galveston is located upon an island, unprotected from storms and liable to submersion at high tide. The land should be surrounded by an appropriate bulkhead and filled to grade level. The present small wharf is inadequate and, being wholly uncovered, affords no protection from the weather. No ferryboat is at present available, and the station is therefore without adequate means of communication with the mainland. The building is constructed upon piling, which should be reenforced with concrete before filling operations begin, and the boiler house must be surrounded by a wall before the fill is in place. | | |

| **UNDER THE POST OFFICE DEPARTMENT.** | | |
| OUT OF THE POSTAL REVENUES. | | |
| *Postal Service—* | | |
| Office of the Postmaster General: | | |
| For rent of suitable buildings for the use of the Post Office Department, including the mail-bag repair shop, lock repair shop, and the division of supplies (*act Mar. 4, 1913, vol. 37, pp. 791, 792, sec. 1*) | $34,400.00 | $34,400.00 |
| For gas, electric power and light, and the repair of machinery (*same act*) | 5,000.00 | 5,000.00 |
| For salaries of post-office inspectors: For salaries of 15 inspectors in charge of divisions, at $3,000 each; 30 inspectors, at $2,400 each; 20 inspectors, at $2,250 each; 20 inspectors, at $2,000 each; 30 inspectors, at $2,100 each; 30 inspectors, at $1,900 each; 90 inspectors, at $1,800 each; 60 inspectors, at $1,700 each; 60 inspectors, at $1,600 each; 165 inspectors, at $1,500 each; in all (*same act*) | 779,500.00 | 704,450.00 |
| For per diem allowance of inspectors in the field while actually traveling on official business away from their homes, their official domiciles, and their headquarters, at a rate to be fixed by the Postmaster General, not to exceed $3 per day (*same act*) | 261,400.00 | 261,400.00 |
| *Provided*, That the Postmaster General may, in his discretion, allow inspectors per diem while temporarily located at any place on business away from their homes or their designated domiciles for a period not exceeding 20 consecutive days at any one place, and make rules and regulations governing the foregoing provisions relating to per diem: *And provided further*, That no per diem shall be paid to inspectors receiving annual salaries of $2,000 or more, except the 30 inspectors receiving $2,100 each. | | |
| For compensation to clerks at division headquarters: Fifteen, at $1,800 each; 15, at $1,600 each; 20, at $1,400 each; 30 at $1,200 each; 10, at $1,000 each; and 10, at $900 each; in all (*same act*) | 134,000.00 | 99,000.00 |
| For traveling expenses of inspectors without per diem allowance, inspectors in charge, and the chief post-office inspector, and expenses incurred by inspectors not covered by per diem allowance, unusual and extraordinary expenses necessarily incurred for maintenance by inspectors over and above per diem allowance while traveling on official business in connection with the postal service of Alaska, and for the traveling expenses of 4 clerks performing stenographic and clerical assistance to post-office inspectors in the investigation of important fraud cases (*same act*) | 48,750.00 | 41,400.00 |
| For livery hire incurred by inspectors not covered by their per diem allowance, including livery hire in connection with the installation and inspection of rural routes (*same act*) | 45,000.00 | 45,000.00 |
| For necessary miscellaneous expenses at division headquarters (*same act*) | 7,500.00 | 7,500.00 |
| For payment of rewards for the detection, arrest, and conviction of post-office burglars, robbers, and highway mail robbers, $7,350, to be immediately available for the payment of deficiencies in the years 1909 and 1912 (*same act*) | 32,350.00 | 15,000.00 |
| *Provided*, That of the amount herein appropriated not to exceed $5,000 may be expended, in the discretion of the Postmaster General, for the purpose of securing information concerning violations of the postal laws and for services and information looking toward the apprehension of criminals. | | |
| NOTE.—The following three items are submitted under the bureau of the Third Assistant Postmaster General: Supplies, postal savings system; miscellaneous items, postal savings system; travel expenses, etc., postal savings system. | | |
| For travel and miscellaneous expenses in the postal service, office of the Postmaster General (*same act*) | 1,000.00 | 1,000.00 |
| Total $1,348,900 | | |
| Office of the First Assistant Postmaster General: | | |
| For compensation to postmasters (an increase of $500,000 submitted) (*act of Mar. 4, 1913, vol. 37, p. 792, sec. 1*) | 30,750,000.00 | 30,250,000.00 |
| For compensation to assistant postmasters at first and second class post offices (an increase of $125,000) (*same act*) | 3,200,000.00 | 3,075,000.00 |
| 5, at not exceeding $4,000 each.<br>42, at not exceeding $3,000 each (4 additional submitted).<br>10, at not exceeding $2,500 each (3 additional submitted).<br>5, at not exceeding $2,000 each (a decrease of 1 submitted).<br>16, at not exceeding $1,900 each.<br>45, at not exceeding $1,800 each (5 additional submitted).<br>95, at not exceeding $1,700 each (10 additional submitted).<br>150, at not exceeding $1,600 each (15 additional submitted).<br>180, at not exceeding $1,500 each (20 additional submitted).<br>150, at not exceeding $1,400 each (6 additional submitted).<br>350, at not exceeding $1,300 each (9 additional submitted).<br>560, at not exceeding $1,200 each (32 additional submitted).<br>525, at not exceeding $1,100 each (45 additional submitted).<br>300, at not exceeding $1,000 each (76 additional submitted).<br>130, at not exceeding $900 each (a decrease of 20 submitted).<br>100, at not exceeding $800 each (a decrease of 50 submitted).<br>And the appointment and assignment of assistant postmasters hereunder shall be so made during the fiscal year as not to involve a greater aggregate expenditure than this sum. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Postal Service*—Continued. | | |
| Office of the First Assistant Postmaster General—Continued. | | |
| For pay of substitutes for letter carriers absent with pay, and of auxiliary and temporary letter carriers at offices where city delivery is already established (an increase of $690,000 submitted) (*act of Mar. 4, 1913, vol. 37, p. 792, sec. 1*) | $2,975,000.00 | $2,285,000.00 |
| For pay of letter carriers, substitute and auxiliary letter carriers at offices where City Delivery Service is established during the year (an increase of $25,000 submitted) (*same act*) | 100,000.00 | 75,000.00 |
| For horse-hire allowance, the hiring of drivers, and the rental of vehicles (an increase of $770,000 submitted) (*same act*) | 2,300,000.00 | 1,530,000.00 |
| For car fare and bicycle allowance (an increase of $50,000 submitted) (*same act*) | 525,000.00 | 475,000.00 |
| For street car collection service (*same act*) | 10,000.00 | 10,000.00 |
| For Detroit River postal service (*same act*) | 6,500.00 | 6,500.00 |
| For incidental expenses of the City Delivery Service, including freight and drayage on equipment, furniture, and supplies, and erecting, painting, and repairing letter and package boxes and posts, repairing clocks and other equipment, and for the purchase and exchange of time recorders and maps (an increase of $50,000 submitted) (*same act*) | 100,000.00 | 50,000.00 |
| For car fare for special-delivery messengers in emergency cases (*same act*) | 13,000.00 | 13,000.00 |
| For fees to special-delivery messengers (an increase of $425,000 submitted) (*same act*) | 2,225,000.00 | 1,800,000.00 |
| For experimental village delivery service in towns and villages having post offices of the second or third class that are not by law now entitled to free-delivery service (no estimate submitted) (*same act*) | | 150,000.00 |
| For travel and miscellaneous expenses in the postal service, Office of the First Assistant Postmaster General (*same act*) | 1,000.00 | 1,000.00 |
| Total | $137,285,100 | |
| Office of the Second Assistant Postmaster General: | | |
| For inland transportation by star routes in Alaska (*act Mar. 4, 1913, vol. 37, p. 796-799, sec. 1*) | 295,000.00 | 450,000.00 |
| *Provided*, That out of this appropriation the Postmaster General is authorized to provide difficult or emergency mail service in Alaska, including the establishment and equipment of relay stations, in such manner as he may think advisable without advertising therefor. | | |
| For inland transportation by steamboat or other power-boat routes (*same act*) | 1,045,000.00 | 910,000.00 |
| For mail messenger service (*same act*) | 1,990,000.00 | 1,900,000.00 |
| For the transmission of mail by pneumatic tubes or other similar devices (*same act*) | 966,800.00 | 962,200.00 |
| For regulation, screen, or other wagon service (*same act*) | 2,667,000.00 | 2,000,000.00 |
| *Provided, That out of this appropriation the Postmaster General is authorized, in his discretion, to use such amount thereof as may be necessary for the purchase and maintenance of wagons or automobiles for and the operation of an experimental combined screen-wagon and city collection and delivery service.* | | |
| The following five items transferred to Bureau of Fourth Assistant Postmaster General: | | |
| For mail bags, metal for mail-bag attachments, cord fasteners, label cases, and material necessary for manufacture and repairing of equipment, and for incidental expenses pertaining thereto. | | |
| For compensation to labor employed in the mail-bag repair shop at Washington, D. C., and Chicago, Ill. | | |
| For rent, light, fuel, electric power, and incidental expenses pertaining to the maintenance of a subworkshop for the repair of mail equipment at Chicago, Ill. | | |
| For mail locks and keys, chains, tools, machinery, and material necessary for manufacturing and repairing same, and for incidental expenses pertaining thereto; also for making in the mail lock repair shop such metal attachments as may be needed for use in the manufacture and repair of mail equipment. | | |
| For compensation to labor employed in the mail-lock repair shop at Washington, D. C. | | |
| For inland transportation by railroad routes (*same act*) | 56,115,000.00 | 51,500,000.00 |
| *Provided*, That no part of this appropriation shall be paid for carrying the mail over the bridge across the Mississippi River at St. Louis, Mo., other than upon a mileage basis: *But provided further*, That the Postmaster General may, in his discretion, pay within the present law a fair and reasonable price for the special transfer and terminal service at the Union Station at East St. Louis, Ill., and at the Union Station at St. Louis, Mo., including the use, lighting, and heating of the mail building and transfer service at St. Louis, Mo., provided the amount so paid shall not exceed $35,000. | | |
| For pay of freight or expressage on postal cards, stamped envelopes, newspaper wrappers, and empty mail bags (*same act*) | 510,000.00 | 500,000.00 |
| *And the Postmaster General in cases of emergency, between October first and April first of any year may hereafter return to the mails empty mail bags theretofore withdrawn therefrom as required by law, and for such times may pay for their railroad transportation out of the appropriation for inland transportation by railroad routes at not exceeding the rate per pound per mile as shown by the last adjustment for mail service on the route over which they may be carried, and pay for necessary cartage out of the appropriation for freight or expressage.* | | |
| For railway post-office car service (*same act*) | 5,436,000.00 | 5,000,000.00 |
| *Provided*, That no part of this amount shall be paid for the use of any car which is not sound in material and construction, and which is not equipped with sanitary drinking-water containers and toilet facilities, nor unless such car is regularly and thoroughly cleaned. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Postal Service*—Continued. | | |
| Railway Mail Service: | | |
| For 15 division superintendents, at $3,000 each; 4 assistant superintendents, at $2,200 each; 15 assistant division superintendents, at $2,000 each; 118 chief clerks, at not exceeding $2,000 each; 355 clerks, grade 10, at not exceeding $1,800 each; 1,239 clerks, grade 9, at not exceeding $1,700 each; 836 clerks, grade 8, at not exceeding $1,600 each; 3,932 clerks, grade 7, at not exceeding $1,500 each; 3,708 clerks, grade 6, at not exceeding $1,400 each; 3,039 clerks, grade 5, at not exceeding $1,300 each; 2,597 clerks, grade 4, at not exceeding $1,200 each; 872 clerks, grade 3, at not exceeding $1,100 each; 3,592 clerks, grade 2, at not exceeding $1,000 each; 2,603 clerks, grade 1, at not exceeding $900 each; in all (*act Mar. 4, 1913, vol. 37, pp. 796–799, sec. 1*) | $28,501,140.00 | $24,969,990.00 |
| And the appointment and assignment of clerks hereunder shall be so made during the fiscal year as not to involve a greater aggregate expenditure than this sum; and to enable the Postmaster General to reclassify the salaries of railway postal clerks and make necessary appointments and promotions he may exceed the number of clerks in such of the grades as may be necessary: *Provided*, That the number of clerks in the aggregate as herein authorized be not exceeded. | | |
| For travel allowances to railway postal clerks, acting railway postal clerks, and substitute railway postal clerks, including substitute railway postal clerks for railway postal clerks granted leave with pay on account of sickness (*same act*) | 1,534,500.00 | 1,465,030.00 |
| For temporary clerk hire for emergency service (*same act*) | 67,500.00 | 67,500.00 |
| For substitutes for clerks on vacation (*same act*) | 143,900.00 | 85,000.00 |
| For acting clerks in place of clerks or substitutes injured while on duty, who shall be granted leave of absence with full pay during the period of disability, but not exceeding one year, then at the rate of 50 per cent of the clerk's annual salary for the period of disability exceeding one year, but not exceeding 12 months additional, and to enable the Postmaster General to pay the sum of $2,000, which shall be exempt from payment of debts of the deceased, to the legal representatives of any railway postal clerk, substitute railway postal clerk, *supervisory official of the Railway Mail Service*, or post-office inspector who shall be killed while on duty or who, being injured while on duty, shall die within one year thereafter as the result of such injury (*same act*) | 134,500.00 | 130,000.00 |
| For actual and necessary expenses, general superintendent and assistant general superintendent, division superintendents, assistant division superintendents, and chief clerks, Railway Mail Service, and railway postal clerks, while actually traveling on business of the Post Office Department and away from their several designated headquarters (*same act*) | 55,200.00 | 80,000.00 |
| For rent, light, *heat*, fuel, telegraph, miscellaneous and office expenses, schedules of mail trains, telephone service, and badges for railway postal clerks, including rental of offices for division headquarters, and chief clerks, Railway Mail Service, in Washington, D. C., *and rental of space for terminal railway post offices for the distribution of mails when the furnishing of space for such distribution can not under the Postal Laws and Regulations properly be required of railroad companies without additional compensation, and for equipment and miscellaneous items necessary and incidental to terminal railway post offices* (*same act*) | 490,000.00 | 80,000.00 |
| *Provided, That the Postmaster General may hereafter make leases for terminal railway post offices for terms not exceeding 10 years.* | | |
| For per diem allowance of four assistant superintendents while actually traveling on official business away from their home, their official domicile, and their headquarters, at a rate to be fixed by the Postmaster General, not to exceed $3 per day, and for their necessary official expenses not covered by their per diem allowance, not exceeding $700; in all (*same act*) | 3,607.00 | 4,531.00 |
| For inland transportation of mail by electric and cable cars (*same act*) | 756,000.00 | 847,400.00 |
| *Provided*, That the rate of compensation to be paid per mile shall not exceed the rate now paid to companies performing such service, except that the Postmaster General, in cases where the quantity of mail is large and the number of exchange points numerous, may, in his discretion, authorize payment for closed-pouch service at a rate per mile not to exceed one-third above the rate per mile now paid for closed-pouch service, and for mail cars and apartments carrying the mails, not to exceed the rate of 1 cent per linear foot per car-mile of travel: *Provided further*, That the rates for electric-car service on routes over 20 miles in length outside of cities shall not exceed the rates paid for service on steam railroads: *Provided, however*, That not to exceed $15,000 of the sum hereby appropriated may be expended, in the discretion of the Postmaster General, where unusual conditions exist or where such service will be more expeditious and efficient and at no greater cost than otherwise, and not to exceed $100,000 of this appropriation may be expended for regulation, screen, or motor-screen wagon service which may be authorized in lieu of electric or cable car service. | | |
| *For experimental aerial mail service by aeroplane or other devices (submitted)* | 50,000.00 | |
| *And the Postmaster General is authorized to provide such service, in his discretion, without advertisement therefor.* | | |
| For transportation of foreign mails (*act of Mar. 4, 1913, vol. 37, p. 799, sec. 1*) | 4,078,000.00 | 3,900,000.00 |
| *Provided*, That the Postmaster General shall be authorized to expend such sums as may be necessary, not exceeding $116,000, to cover the cost to the United States of maintaining sea-post service on steamships conveying the mails, and not exceeding $87,900 for transferring the foreign mail from incoming steamships in New York Bay to the steamship and railway piers, for transferring the foreign mail from incoming steamships in San Francisco Bay to the piers, and for transferring the foreign mail from incoming steamships at Honolulu from quarantine to the piers; also for transferring the mail from steamships performing service under contract for transporting United States mail. | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Postal Service*—Continued. | | |
| Office of the Fourth Assistant Postmaster General—Continued. | | |
| The following item transferred from the legislative appropriation bill: For miscellaneous expenses in the Division of *Supplies* in the preparation and publication of post-route maps and rural-delivery maps or blue prints, including tracing for photolithographic reproduction, $30,000. And the Postmaster General may authorize the sale to the public of post-route maps and rural-delivery maps or blue prints at the cost of printing and 10 per cent thereof added, the proceeds of such sales to be used as a further appropriation for the preparation and publication of post-route maps and rural-delivery maps or blue prints. Of this amount $100 may be expended in the purchase of atlases and geographical and technical works needed in the Division of *Supplies* (*act of Mar. 4, 1913, vol. 37, p. 781, sec. 1*) | $30,000.00 | |
| NOTE.—The amount appropriated in the legislative appropriation act for 1914 for this item was $26,000. | | |
| The following is a portion of an item transferred from the office of the First Assistant Postmaster General: For miscellaneous items necessary and incidental to post offices of the first and second class (except labor incident to cleaning post offices, telephone rental, water rental, laundering and towel service, drayage, and miscellaneous service items) (*act of Mar. 4, 1913, vol. 37, p. 795, sec. 1*) | 100,000.00 | $82,000.00 |
| The following item transferred from the office of the First Assistant Postmaster General: For rental and purchase of canceling machines, including cost of power in rented buildings, motors, repairs to motors, and miscellaneous expenses of installation and operation, $300,000: *Provided*, That hereafter no contract shall be made for any canceling machine for more than $270 per annum, including repairs on said machines, and that all contracts entered into shall be let after having advertised for bids and shall be awarded on the basis of cheapness and efficiency (*same act*) | 300,000.00 | 300,000.00 |
| The following item transferred from the office of the Second Assistant Postmaster General: For mail bags, metal for mail-bag attachments, cord fasteners, label cases, and material necessary for manufacture and repairing of equipment, and for incidental expenses pertaining thereto, $463,000: *Provided*, That out of this appropriation the Postmaster General is authorized to use so much of the sum, not exceeding $5,000, as may be deemed necessary for the purchase of material and the manufacture in the mail-bag repair shop of such small quantities of distinctive equipments as may be required by other executive departments, and for service in Alaska, Porto Rico, Philippine Islands, Hawaii, or other island possessions, and for such special equipment for testing and for other purposes in connection with the reduction in the weight of mail equipment (*act of Mar. 4, 1913, vol. 37, p. 796, sec. 1*) | 463,000.00 | 355,500.00 |
| The following item, transferred from the Office of the Second Assistant Postmaster General: For compensation to labor employed in the mail-bag repair shop at Washington, D. C. (*act of Mar. 4, 1913, vol. 37, p. 797, sec. 1*) | 108,300.00 | 108,300.00 |
| The following item, transferred from the Office of the Second Assistant Postmaster General: For rent, light, fuel, electric power, and incidental expenses pertaining to the maintenance of a subworkshop for the repair of mail equipment at Chicago, Ill. (no estimate) (*same act*) | ..... | 2,400.00 |
| The following item, transferred from the Office of the Second Assistant Postmaster General: For mail locks and keys, chains, tools, machinery, and material necessary for manufacturing and repairing same, and for incidental expenses pertaining thereto; also for making in the mail-lock repair shop such metal attachments as may be needed for use in the manufacture and repair of mail equipment (*same act*) | 15,000.00 | 15,000.00 |
| The following item, transferred from the Office of the Second Assistant Postmaster General: For compensation to labor employed in the mail-lock repair shop at Washington, D. C. (*same act*) | 40,100.00 | 38,000.00 |
| For inland transportation by star routes (excepting service in Alaska), including temporary service to newly established offices, $8,675,000: *Provided*, That no part of this appropriation shall be expended for continuance of any star-route service the patronage of which shall be served entirely by the extension of Rural Delivery Service, nor shall any of said sum be expended for the establishment of new star-route service for a patronage which is already entirely served by Rural Delivery Service (*act of Mar. 4, 1913, vol. 37, p. 800, sec. 1*) | 8,675,000.00 | 7,105,000.00 |
| For pay of letter carriers, substitutes for carriers on annual leave, clerks in charge of substations, and tolls and ferriage, Rural Delivery Service, $48,650,000: *Provided*, That not to exceed $20,000 of the amount hereby appropriated may be used for compensation of clerks in charge of substations (*same act*) | 48,650,000.00 | 47,500,000.00 |
| For travel and miscellaneous expenses in the postal service, Office of the Fourth Assistant Postmaster General (*same act*) | 1,000.00 | 1,000.00 |
| Total ..... $59,682,420 | | |
| Total, Postal Service | 306,953,117.00 | 285,441,271.00 |

| 644 | 521 | Skilled laborers, at 25 cents each per hour | 326,146.00 |
| 306 | 289 | Unskilled laborers, at 25 cents each per hour | 180,914.00 |
| 182 | 168 | Folders (pieceworkers), average 25 cents each per hour | 105,168.00 |
| 26 | 20 | Messenger boys, at 15 cents each per hour | 7,512.00 |
| 3,636 | 3,604 | Total | 3,848,167.96 |

| | | |
|---|---|---|
| Total estimated wages | | $3,848,167.96 |
| Less estimated for holidays | $200,000.00 | |
| Less estimated for leaves of absence | 330,000.00 | |
| | | 530,000.00 |
| | | 3,318,167.96 |

| Items. | Estimated expenditures, 1914, allotment work. | Disbursed fiscal year 1913, allotment and repay work. |
|---|---|---|
| Salaries and wages | $3,318,167.96 | $3,630,507.12 |
| Paper | 1,250,000.00 | 1,186,506.23 |
| Material and supplies | 475,000.00 | 451,853.67 |
| Machinery | 100,000.00 | 17,191.99 |
| Lithographing and engraving | 125,000.00 | 138,989.66 |
| Total | 5,268,167.96 | [1] 5,425,048.67 |

[1] The appropriation for public printing and binding, 1913, including a deficiency appropriation of $280,100, was $4,532,980. But the appropriation was reimbursed by the sum of $1,043,142.83 from appropriations not under the control of the Public Printer for repay work.

It is recommended that hereafter job compositors be paid at the rate of 55 cents per hour. This will make an increased expenditure for the present force of $8,012.80 per annum.

| OFFICE OF SUPERINTENDENT OF DOCUMENTS. | | | |
| *Salaries, Office of Superintendent of Documents*— | | | |
| Superintendent (*acts Jan. 12, 1895, vol. 28, p. 610, sec. 61; June 23, 1913, vol. 38, p. 70, sec. 1*). | $3,500.00 | | |
| Assistant superintendent (*acts Mar. 4, 1909, vol. 35, p. 1020, sec. 1; June 23, 1913, vol. 38, p. 70, sec. 1*) | 2,500.00 | | |
| Two clerks of class 4 (*acts Jan. 12, 1895, vol. 28, p. 611, sec. 66; June 23, 1913, vol. 38, p. 70, sec. 1*). | 3,600.00 | | |
| Three clerks of class 3 (*same acts*) | 4,800.00 | | |
| Four clerks of class 2 (*same acts*) | 5,600.00 | | |
| Eight clerks of class 1 (*same acts*) | 9,600.00 | | |
| Eight clerks, at $1,000 each (*same acts*) | 8,000.00 | | |
| Six clerks, at $900 each (*same acts*) | 5,400.00 | | |
| Ten clerks, at $720 each (*same acts*) | 7,200.00 | | |
| Cataloguer in charge (*same acts*) | 1,800.00 | | |
| Two cataloguers, at $1,500 each (*same acts*) | 3,000.00 | | |
| Three cataloguers, at $1,200 each (*same acts*) | 3,600.00 | | |
| One cataloguer (*same acts*) | 1,100.00 | | |
| Seven cataloguers, at $1,000 each (*same acts*) | 7,000.00 | | |
| Three cataloguers, at $900 each (*same acts*) | 2,700.00 | | |
| Cashier (*same acts*) | 1,600.00 | | |
| Librarian (*same acts*) | 1,500.00 | | |
| Shipper in charge (*same acts*) | 1,400.00 | | |
| Stockkeeper (*same acts*) | 1,100.00 | | |
| Three stockkeepers, at $1,000 each (*same acts*) | 3,000.00 | | |
| Five stockkeepers, at $900 each (*same acts*) | 4,500.00 | | |
| Two stockkeepers, at $720 each (*same acts*) | 1,440.00 | | |
| Two assistant messengers, at $720 each (*same acts*) | 1,440.00 | | |
| Three mailers, at $840 each (*same acts*) | 2,520.00 | | |
| Janitress (*same acts*) | 626.00 | | |
| Two folders, at $626 each (*same acts*) | 1,252.00 | | |
| Eleven laborers, at $626 each (*same acts*) | 6,886.00 | | |
| Five messenger boys, at $420 each (*same acts*) | 2,100.00 | | |
| | | $98,764.00 | $98,764.00 |
| *General Expenses, Office of Superintendent of Documents*— | | | |
| For furniture and fixtures, typewriters, carpets, labor-saving machines and accessories, time stamps, adding and numbering machines, awnings, curtains, books of reference, directories, books, miscellaneous office and desk supplies; paper; twine, glue, envelopes, postage, car tickets, soap, toilet paper, towels, disinfectants, and ice; drayage, express, freight, telephone and telegraph service; repairs to building, elevators, and machinery; preserving sanitary condition of building, light, heat, and power; stationery and office printing, including blanks, price lists, and bibliographies, $30,000; for catalogues and indexes, not exceeding $16,000; for binding reserve remainders, and for supplying books to depository libraries, $90,000; in all, $136,000 (*acts Jan. 12, 1895, vol. 28, p. 611, sec. 66; June 23, 1913, vol. 38, p. 70, sec. 1*) | | 136,000.00 | 140,000.00 |
| NOTE.—Reduction of $4,000 in this appropriation. It is recommended that the three amounts specified above be consolidated, in order that there may be flexibility in the appropriation, and thus avoid a deficiency. | | | |
| *Distribution of Public Documents*— | | | |
| For the work of addressing, wrapping, mailing, or otherwise dispatching Government publications for public distribution and for the equipment, materials, and supplies used in the work, as provided in chapter 358, section 8, of the act of Aug. 23, 1912: | | | |
| Order clerk (*act June 23, 1913, vol. 38, pp. 70, 71, sec. 1*) | 1,000.00 | | |
| Two clerks, at $900 each (*same act*) | 1,800.00 | | |
| Seven clerks, at $720 each (*same act*) | 5,040.00 | | |
| Helper (*same act*) | 870.00 | | |
| Three helpers, at $750 each (*same act*) | 2,250.00 | | |
| Forty-one skilled laborers, at $626 each (*same act*) | 25,666.00 | | |
| Ten unskilled laborers, at $626 each (*same act*) | 6,260.00 | | |
| Eleven messenger boys, at $500 each (*same act*) | 5,500.00 | | |
| Eleven messenger boys, at $375 each (*same act*) | 4,125.00 | | |
| For labor necessary to handle the current periodicals (*same act*) | 16,000.00 | | |
| | | 68,511.00 | 68,511.00 |
| For equipment, materials, and supplies (*same act*) | | 15,000.00 | 15,000.00 |
| NOTE.—It is recommended that the two appropriations "Salaries, office of Superintendent of Documents" and "Salaries for the distribution of public documents" be combined in one appropriation, and that the two appropriations "General expense, office of Superintendent of Documents" and "Equipment, material, and supplies for the distribution of public documents" be combined in one appropriation. Combining the appropriations is more desirable for the purpose of accounting, operating, and handling, and will tend to economy in the management of this department. | | | |

| Mail-carrying system | | 30,000.00 | | |
| Total under Public Printer | | 6,340,682.96 | | |

## PUBLIC PRINTING AND BINDING.

The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several executive departments, under the provisions of section 2, act of May 8, 1872 (Rev. Stat., p. 720, sec. 3661), and section 2 of sundry civil act of June 30, 1906 (34 Stat., p. 762):

STATE DEPARTMENT.

*Printing and Binding*—

Printing and binding, to be executed under the direction of the Public Printer ..... $45,000.00

TREASURY DEPARTMENT.

*Printing and Binding*—

Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department ..... 360,000.00

WAR DEPARTMENT.

*Printing and Binding*—

For printing and binding for the War Department, its bureaus and offices: *Provided*, That the sum of $3,000, or so much thereof as may be necessary, may be used for the publication, from time to time, of bulletins prepared under the direction of the Surgeon General of the Army, for the instruction of medical officers, when approved by the Secretary of War ..... 190,000.00

NAVY DEPARTMENT.

*Printing and Binding*—

For the Navy Department $145,000, including not exceeding $25,000 for the Hydrographic Office ..... 145,000.00

INTERIOR DEPARTMENT.

*Printing and Binding*—

For the Interior Department, including not exceeding $45,000 for the Civil Service Commission, and not exceeding $25,000 for the publication of the Annual Report of the Commissioner of Education ..... 295,000.00

NOTE.—It is recommended that the allotment of the Civil Service Commission be made a separate item. The Interior Department does not exercise any administrative control over that body.

Increase (for the Civil Service Commission) (*submitted*) ..... 10,000.00

NOTE.—The Civil Service Commission makes the following report concerning the necessity for this increase:

"The printing fund will require an increase of $10,000 during the fiscal year 1915. This amount will be necessary to meet the new conditions incident to the increase in the number of competitive positions from 236,061 to 297,067, principally due to the classification of the navy yard service and of additional fourth-class postmasters. The passage of the eight-in-ten hour law for the post office service caused an increase in force at many offices, thereby necessitating the holding of many additional examinations, and the consequent printing of more

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| INTERIOR DEPARTMENT—continued. | | |
| application forms, instructions to applicants, and examination questions. The establishment of the Parcel Post System resulted in a large number of inquiries in regard to that system, necessitating the preparation of matter giving proper instructions, and also resulted in an increased force at several post offices and in the Railway Mail Service, thereby necessitating the amount of printing, as stated above, under the eight-in-ten hour law.<br>"The commission completely exhausted its appropriation of $40,000 during the fiscal year 1913, and considerable of its printing which should have been delivered prior to June 30, 1913, was held up for lack of funds, and completed in and charged to the current year, thereby causing a running deficit from year to year which must be met eventually by an increase in the appropriation.<br>"Notwithstanding the amount charged to the current year from the fiscal year 1913, the commission was compelled to call on both the Post Office and Navy Departments for printing to the value of $2,500, and turned out itself on the flexotype duplicator a considerable amount of printing which otherwise would have been charged to the printing fund.<br>"The constant growth of the work of the commission, both at its home office and the various field offices, together with the new work being inaugurated under the Division of Efficiency, warrants the commission in asking that its full estimate of $55,000 be granted by Congress." | | |
| PATENT OFFICE. | | |
| *Printing and Binding—*<br>For the Patent Office, as follows: For printing the weekly issue of patents, designs, trade-marks, and labels, exclusive of illustrations; [for printing and binding the monthly volumes of patents;] and for printing, engraving illustrations, and binding the Official Gazette, including weekly, monthly, bimonthly, and annual indexes | $440,000.00 | |
| NOTE.—Omit words in brackets. This publication discontinued by act of Aug. 24, 1912 (37 Stat., 481.) | | |
| GEOLOGICAL SURVEY. | | |
| *Printing and Binding—*<br>Engraving, printing, and binding for the United States Geological Survey, namely: For engraving the illustrations necessary for the Annual Report of the Director, and for the monographs, professional papers, bulletins, water-supply papers, and the report on mineral resources, and for printing and binding the same publications, of which sum not more than $45,000 may be used for engraving | 175,000.00 | |
| SMITHSONIAN INSTITUTION. | | |
| *Printing and Binding—*<br>For the Smithsonian Institution, for printing and binding the annual reports of the Board of Regents, with general appendixes, $10,000; under the Smithsonian Institution, for the annual reports of the National Museum, with general appendixes, and for printing labels and blanks, and for the bulletins and proceedings of the National Museum, the editions of which shall not exceed 4,000 copies, and binding, in half morocco, or material not more expensive, scientific books and pamphlets presented to or acquired by the National Museum library, $50,000; for the annual reports and bulletins of the Bureau of American Ethnology, and for miscellaneous printing and binding for the bureau, including the binding in half morocco, or in material not more expensive, of scientific books and pamphlets acquired by the bureau library, $21,000; for miscellaneous printing and binding for the International Exchanges, $200; the International Catalogue of Scientific Literature, $100; the National Zoological Park, $200; for miscellaneous printing and binding for the Astrophysical Observatory, $200; and for the annual report of the American Historical Association, $7,000; in all | 88,700.00 | |
| DEPARTMENT OF JUSTICE. | | |
| *Printing and Binding—*<br>Printing and binding for the Department of Justice, to be executed under the direction of the Public Printer | 41,000.00 | |
| For the Supreme Court of the United States; and the printing for the Supreme Court shall be done by the printer it may employ, unless it shall otherwise order | 15,000.00 | |
| For the Supreme Court of the District of Columbia | 1,500.00 | |
| Printing and binding for the United States Court of Customs Appeals, to be executed under the direction of the Public Printer | 1,500.00 | |
| Printing and binding for the Court of Claims, to be executed under the direction of the Public Printer | 25,000.00 | |
| POST OFFICE DEPARTMENT. | | |
| *Printing and Binding—*<br>Printing and binding for the Post Office Department, exclusive of the money-order office, to be executed under the direction of the Public Printer | 290,000.00 | |
| DEPARTMENT OF AGRICULTURE. | | |
| *Printing and Binding—*<br>For the Department of Agriculture, including scientific and technical papers setting forth the results of work conducted under the act of Mar. 2, 1887 (24 Stat. L., p. 440), and the act of Mar. 16, 1906 (34 Stat. L., p. 63), which may be approved by the Secretary of Agriculture, and also including not to exceed $137,500 for Farmers' Bulletins, which shall be adapted to the interests of the people of the different sections of the country, an equal proportion of four-fifths of which shall be delivered to or sent out under the addressed franks furnished by Senators, Representatives, and Delegates in Congress, as they shall direct | 515,000.00 | |
| NOTE.—An increase of $25,000 is submitted and urgently recommended. Last year the publication work of the department was seriously interrupted on account of insufficient funds. Sixty-two manuscripts could not be published and other important work could not be ordered, with the result that the people were deprived of information acquired by law for their use. The language in the above item for the current year specifically setting aside $47,000 for the Weather Bureau has been omitted as it is believed to be unnecessary. The printing for the Weather Bureau will be paid for out of the general fund of the department the same as the printing for all of its other branches. | | |

| Add total for "Persons" | 1,372,615.00 | 1,318,796.75 |
| Grand total under "Pay of crews, etc." | 2,226,050.00 | 1,926,768.15 |

An outlay of upward of $500,000 is urgently needed for the construction of lifeboats and surfboats with power and for the rebuilding, repair, and improvement of stations. There are requests on file which should be granted for 33 lifeboats and 42 surfboats. To construct 12 of the former and 20 of the latter, based on prices previously paid, will require $125,000. The expense of the construction work needed at stations, based upon the estimates and recommendations of the officers of the service, now on file, will exceed $400,000.

*Establishing Life-Saving Stations*—

Establishing new life-saving stations and lifeboat stations on the sea and lake coasts of the United States, authorized by law to be available until expended (*acts June 18, 1878, vol. 20, p. 163, sec. 1; May 4, 1882, vol. 22, p. 55, secs. 1–11; June 19, 1886, vol. 24, p. 84, sec. 1; June 23, 1913, vol. 38, p. 19, sec. 1*) ..... $25,000.00 $20,000.00

Total Life-Saving Service ..... 2,557,750.00 2,332,700.00

NOTE.—The act of Aug. 24, 1912, provides for the establishment of four new stations. Efforts are being made to obtain suitable sites for these stations by donation or purchase. There is a balance of something less than $37,000 on hand under the appropriation for the establishment of new life-saving stations. The additional amount of $25,000 requested in this estimate would provide a sum of nearly $62,000, which it is thought will be required under ordinary conditions for the construction of suitable buildings and accessories for these stations.

REVENUE-CUTTER SERVICE.

*Revenue-Cutter Service*—

For expenses of the Revenue-Cutter Service: For pay and allowances of captain commandant and officers of that rank, senior captains, captains, lieutenants, engineer in chief and officers of that rank, captains of engineers, lieutenants of engineers, two constructors, not exceeding 14 cadets and cadet engineers, who are hereby authorized, 2 civilian instructors, and pilots employed, and rations for pilots; for pay of warrant and petty officers, ships' writers, buglers, seamen, oilers, firemen, coal heavers, water tenders, stewards, cooks, and boys, and for rations for the same; for allowance for clothing for enlisted men; for fuel for vessels, and outfits for the same; ship chandlery and engineers' stores for the same; actual traveling expenses or mileage, in the discretion of the Secretary of the Treasury, for officers traveling on duty under orders from the Treasury Department; commutation of quarters; for maintenance of vessels in the protection of the seal fisheries in Bering Sea and the other waters of Alaska, and the enforcement of the provisions of law in Alaska; for maintenance of vessels in enforcing the provisions of the acts relating to the anchorage of vessels in the ports of New York and Chicago, and in the Kennebec River, and the movements and anchorage of vessels in St. Marys River; for temporary leases and improvement of property for revenue-cutter purposes; not exceeding $5,000 for the improvement of the depot for the service at Arundel Cove, Md.; not exceeding $150 for medals for excellence in marksmanship; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and all other necessary miscellaneous expenses which are not included under special heads, $2,363,000: *Provided*, That hereafter ration supplies may be purchased by the cabin, wardroom, and warrant officers' messes and payment therefor made in cash to the commissary officer; the prices to be charged for such supplies shall not be less than the invoice prices, and the cash received from such sales shall be accounted for on the ration return and may be expended for the general mess (*R. S., p. 534, sec. 2749; p. 534, sec. 2754; acts Feb. 6, 1893, vol. 27, p. 431, secs. 1–2; Aug. 18, 1894, vol. 28, p. 378, sec. 1; Mar. 6, 1896, vol. 29, p. 54, secs. 1–3; Mar. 3, 1899, vol. 30, p. 1081, sec. 1; June 6, 1900, vol. 31, p. 682, secs. 1–3; Apr. 12, 1902, vol. 32, p. 100, secs. 1–10; Feb. 27, 1906, vol. 34, p. 30, sec. 1; Apr. 26, 1906, vol. 34, p. 136, sec. 1; May 26, 1906, vol. 34, p. 200, secs. 1–6; June 23, 1906, vol. 34, p. 452, secs. 1–6; Apr. 16, 1908, vol. 35, p. 61, secs. 1–14; May 11, 1908, vol. 35, p. 102, secs. 1–8; Mar. 4, 1911, vol. 36, pp. 1388, 1389, sec. 1; Aug. 24, 1912, vol. 37, p. 429, sec. 1; June 23, 1913, vol. 38, p. 19, sec. 1*) ..... 2,363,000.00 2,300,000.00

NOTE.—The estimates for the service in detail, as required by the act of Mar. 2, 1889 (25 Stat., p. 907), will be found following. The sum of $2,442,559.44 will be needed if the appropriations are to be made for each object in detail.

| | |
|---|---|
| For pay of officers (active, retired, and retired waiting-orders list) | $836,286.00 |
| Pay of warrant officers and enlisted men (regular pay, longevity pay, clothing allowance, and waiting-orders list) | 892,473.44 |
| Rations of crews | 165,000.00 |
| Pay of pilots and instructors employed | 3,800.00 |
| Commuted rations of warrant and petty officers and others | 50,000.00 |
| Commutation of quarters | 18,000.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Prevention of Epidemics*— | | |
| To enable the President of the United States, in case only of threatened or actual epidemic of cholera, typhus fever, yellow fever, smallpox, bubonic plague, Chinese plague or black death, or trachoma, to aid State and local boards, or otherwise, in his discretion, in preventing and suppressing the spread of the same, and in such emergency in the execution of any quarantine laws which may be then in force, $200,000: *Provided*, That a detailed report of the expenditures hereunder shall annually hereafter be submitted to Congress (*act June 23, 1913, vol. 38, p. 24, sec. 1*) | $200,000.00 | $200,000.00 |
| *Quarantine Service*— | | |
| For the maintenance and ordinary expenses, exclusive of pay of officers and employees, of quarantine stations at Eastport and Portland, Me.; Providence, R. I.; Perth Amboy, N. J.; Delaware Breakwater, Reedy Island, and the Delaware Bay and River; Alexandria, Va.; Cape Charles and supplemental station thereto; Cape Fear, Newbern, and Washington, N. C.; Georgetown, Charleston, Beaufort, and Port Royal, S. C.; Savannah; South Atlantic; Brunswick; Cumberland Sound; St. Johns River; Biscayne Bay; Key West; Boca Grande; Tampa Bay; Port Inglis; Cedar Key; Puntarasa; St. Georges Sound (East and West Pass); St. Joseph; St. Andrews and Pensacola, Fla.; Mobile; New Orleans and supplemental stations thereto; Pascagoula; Gulf; Gulfport, Galveston, Laredo, Eagle Pass, and El Paso, Tex.; San Diego, San Pedro, and adjoining ports, Santa Barbara, San Francisco, Monterey, and Port Harford, Cal.; Fort Bragg, Eureka, Columbia River, Florence, Newport, Coos Bay, and Gardner, Oreg.; Port Townsend and supplemental stations thereto; quarantine system of Alaska; quarantine system of the Hawaiian Islands, including the leprosy hospital, and the quarantine system of Porto Rico, and including not exceeding $500 for printing on account of the quarantine service at times when the exigencies of that service require immediate action (*act June 23, 1913, vol. 38, p. 24, sec. 1*) | 155,000.00 | 155,000.00 |
| *Expenses, Collecting Information of the Prevalence of Disease*— | | |
| For collecting information of the occurrence of epidemics and the prevalence of disease throughout the United States, including the pay of special collaborators, compilers, or agents, and all other expenses attached thereto (*acts Feb. 15, 1893, vol. 27, p. 450, secs. 4–5; Aug. 14, 1912, vol. 37, p. 309, sec. 1*) | 16,000.00 | |
| *Field Investigations of Public Health Matters*— | | |
| For investigations of diseases of man and conditions influencing the propagation and spread thereof, including sanitation and sewage, and the pollution of navigable streams and lakes of the United States, including personal service (*act June 23, 1913, vol. 38, p. 25, sec. 1*) | 200,000.00 | 200,000.00 |
| *Interstate Quarantine Service*— | | |
| For cooperation with State and municipal health authorities in the prevention of the spread of contagious and infectious diseases in interstate traffic (*act June 23, 1913, vol. 38, p. 25, sec. 1*) | 15,000.00 | 15,000.00 |
| Total under Public Health Service | 2,627,461.00 | 2,389,746.00 |
| MISCELLANEOUS OBJECTS. | | |
| *Paper for Internal-Revenue Stamps*— | | |
| For paper for internal-revenue stamps, including freight (*R. S., p. 53, sec. 321; act June 23, 1913, vol. 38, p. 20, sec. 1*) | 90,000.00 | 80,000.00 |
| NOTE.—The increase of $10,000 is to provide primarily for the increase in business requiring a greater number of stamps. The appropriation for 1913 was $80,000, which was practically all expended. The appropriation for 1914 is also $80,000, which it is now believed is insufficient by at least $5,000, which will be requested in an estimate for a deficiency appropriation. For 1913 the contract price for paper was 4½ cents a pound. For 1914 the contract price is 4½ cents a pound. The increase in quantity of stamps used in 1913 over 1912 was about 3 per cent. If the same ratio of gain obtains in 1914 over 1913 and the contract price for 1915 should be not more than from 4½ to 4½ cents a pound, it is believed that $90,000 should be sufficient for 1915. | | |
| *Refunding Internal-Revenue Collections*— | | |
| To enable the Secretary of the Treasury to refund money covered into Treasury as internal-revenue collections under the provisions of the act approved May 27, 1908 (*acts May 27, 1908, vol. 35, p. 325, sec. 1; June 23, 1913, vol. 38, p. 20, sec. 1*) | 50,000.00 | 50,000.00 |
| *Punishment for Violation of Internal-Revenue Laws*— | | |
| For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws or conniving at the same, including payments for information and detection of such violations, $200,000, and the Commissioner of Internal Revenue shall make a detailed statement to Congress once in each year as to how he has expended this sum (*R. S., p. 686, sec. 3643; act June 23, 1913, vol. 38, p. 20, sec. 1*) | 200,000.00 | 150,000.00 |
| NOTE.—The increase of $50,000 is to provide for greater activity in detecting and punishing frauds against the revenues. Illicit distilling in many sections of the country is increasing, and to cope with the matter in an effective way more help must be provided, and the more stills and distilleries that are captured and destroyed, and the more cases of convictions, the more money is needed for informers' fees. | | |
| *Contingent Expenses, Independent Treasury*— | | |
| Contingent expenses, Independent Treasury: For contingent expenses under the requirements of section 3653 of the Revised Statutes of the United States, for the collection, safe-keeping, transfer, and disbursement of the public money, for transportation of notes, bonds, and other securities of the United States, for salaries of special agents, and for actual expenses of examiners detailed to examine the books, accounts, and money on hand at the several subtreasuries and depositories, including national banks acting as depositories under the requirements of section 3649 of the Revised Statutes of the United States, also including examinations of cash accounts at mints and for payment of cost of insurance on shipments of money by registered mail when necessary (*R. S., p. 718, sec. 3649; R. S., p. 719, sec. 3653; act June 23, 1913, vol. 38, p. 20, sec. 1*) | 185,000.00 | 150,000.00 |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Recoinage of Gold Coins—* | | | |
| Recoinage of gold coins: For recoinage of light-weight gold coins in the Treasury, to be expended under the direction of the Secretary of the Treasury, as required by section 3512 of the Revised Statutes of the United States (*R. S., p. 696, sec. 3512; act June 23, 1913, vol. 38, p. 21, sec. 1*)..... | | $3,000.00 | $5,000.00 |
| *Recoinage of Minor Coins—* | | | |
| Recoinage of minor coins: To enable the Secretary of the Treasury to continue the recoinage of worn and uncurrent minor coins of the United States now in the Treasury or hereafter received, and to reimburse the Treasurer of the United States for the difference between the nominal or face value of such coin and the amount the same will produce in new coin, $10,000, together with the unexpended balance of the appropriation for this purpose for the fiscal year 1913 (*acts June 25, 1910, vol. 36, p. 714, sec. 1; June 23, 1913, vol. 38, p. 21, sec. 1*)..... | | 10,000.00 | 7,500.00 |
| NOTE.—The unexpended balance of the appropriation for "Recoinage of minor coins" for the fiscal year 1913 is $4,329.64, and arises in the following manner: The deficiency act of Mar. 4, 1913, provided an additional sum of $5,000 for recoinage of minor coins for the fiscal year 1913, which was not all used because there was no appropriation at that time available for the transportation of the coins from the subtreasury to the mint for recoinage. | | | |
| *Maintenance, Paper Money Laundry Machines—* | | | |
| For all miscellaneous expenses in connection with the installation and maintenance of money laundry machines, including repairs and the purchase of supplies, for machines at Washington, D. C., and in the various subtreasury offices (*act Mar. 4, 1913, vol. 37, pp. 755, 760, 761, sec. 1*)..... | | 9,000.00 | 1,300.00 |
| *Distinctive Paper for United States Securities—* | | | |
| Distinctive paper for United States securities, 84,000,000 sheets, including transportation, traveling, mill, laundry, and other necessary expenses (*act June 23, 1913, vol. 38, p. 21, sec. 1*). | $408,240.00 | | |
| Allowance, in lieu of actual expenses, to officer detailed from Treasury Department, $50 per month, when actually on duty, for 10 months (*same act*)..... | 500.00 | | |
| Three registers, for 10 months, at $1,230 each per annum (in lieu of 1 register and 2 assistant registers; no increase) (*same act*)..... | 3,075.00 | | |
| Five counters, for 10 months, at $720 each per annum (*same act*)..... | 3,000.00 | | |
| Five watchmen, for 10 months (*same act*)..... | 3,150.00 | | |
| One skilled laborer, for 10 months, at $840 (*same act*)..... | 700.00 | | |
| | | 418,665.00 | 367,425.00 |
| *Expenses of National Currency—* | | | |
| For 14,700,000 sheets of distinctive paper for national-bank currency, including transportation, traveling, mill, laundry, and other necessary expenses (*act June 23, 1913, vol. 38, p. 21, sec. 1*)..... | 71,442.00 | | |
| Allowance, in lieu of actual expenses, to officer detailed from Treasury Department, $50 per month, when actually on duty, for 2 months (*same act*)..... | 100.00 | | |
| Three registers, for 2 months, at $1,230 each per annum (in lieu of 1 register and 2 assistant registers; no increase) (*same act*)..... | 615.00 | | |
| Five counters, for 2 months, at $720 each per annum (*same act*)..... | 600.00 | | |
| Five watchmen, for 2 months (*same act*)..... | 630.00 | | |
| One skilled laborer, for 2 months, at $840 per annum (*same act*)..... | 140.00 | | |
| | | 73,527.00 | 66,345.00 |
| NOTE.—For both of the above appropriations it is proposed to substitute "allowance" for "expenses" of officer detailed from the Treasury Department in order to comply with accounting requirement that receipted bills be furnished for actual expenses incurred, a matter of difficulty where the officer detailed establishes his family in residence at the mill during his term of detail. | | | |
| *Custody of Dies, Rolls, and Plates—* | | | |
| For pay of custodian of dies, rolls, and plates used at the Bureau of Engraving and Printing for the printing of Government securities, viz: | | | |
| One custodian (increase of $1,000 submitted) (*act June 23, 1913, vol. 38, p. 21, sec. 1*).... | 3,000.00 | | |
| One subcustodian (in lieu of one custodian at $1,800, increase of $200 submitted) (*same act*).. | 2,000.00 | | |
| One clerk and distributor of stock (in lieu of 1 distributor of stock at $1,600) (*same act*).... | 1,600.00 | | |
| Two distributors of stock (in lieu of 1 distributor of stock at $1,400 and 1 at $1,200; increase of $200) (*same act*)..... | 2,800.00 | | |
| | | 9,400.00 | 8,000.00 |
| NOTE.—Reduced estimates for this office were submitted by the department for the fiscal year 1913 at the suggestion of a committee and before their report had received the department's consideration. The report was subsequently disapproved and the department forwarded to the Congress revised estimates. The present organization imposed is not suitable to conditions in the new bureau building where one vault rather than two as at present will be operated, and the force now estimated for is believed to be the proper one to conduct the work, and the salaries not excessive for the duties and responsibilities imposed. | | | |
| *Special Witness of Destruction of United States Securities—* | | | |
| Pay of the representative of the public on the committee to witness the destruction by maceration of Government securities, at $5 per day while actually employed, estimated at 313 days (*act June 23, 1913, vol. 38, p. 21, sec. 1*)..... | | 1,565.00 | 1,565.00 |

Digitized by Google

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Operating Force for Public Buildings*— For operating force for public buildings: For such personal services as the Secretary of the Treasury may deem necessary in connection with the care, maintenance, and repair of all public buildings under the control of the Treasury Department (except as hereinafter provided), together with the grounds thereof and the equipment and furnishings therein, including assistant custodians, janitors, watchmen, laborers, and charwomen; engineers, firemen, elevator conductors, coal passers, electricians, dynamo tenders, lampists, and wiremen; and for the mechanical labor force in connection with said buildings, including carpenters, plumbers, steam fitters, machinists, and painters; but in no case shall the rates of compensation for such mechanical labor force be in excess of the rates current at the time and in the place where such services are employed, $2,700,000: *Provided*, That the foregoing appropriation shall be available for use in connection with all public buildings under the control of the Treasury Department, including the customhouse at Washington, D. C., but not including any other public building within the District of Columbia, and exclusive of marine hospitals, quarantine stations, mints, branch mints, and assay offices (*act June 23, 1913, vol. 38, p. 21, sec. 1*)..... | $2,700.000.00 | $2,575,000.00 |

NOTE.—The increase of $125,000 in the estimate above submitted, for the force required in the operation and maintenance of public buildings under the control of the Treasury Department, is rendered necessary by the additional buildings to be placed in commission during the fiscal year ending June 30, 1915.

The words "and of sites for public buildings," which appeared in the 1914 act, have been eliminated from the paragraph, as provision for the care of such sites, etc., is submitted under the caption "Repairs and preservation of public buildings." It is believed that the care of vacant sites is more germane to the objects for which the latter appropriation is available than is the appropriation for "Operating force."

*Statement of persons employed, required by section 6, act Aug. 24, 1912.*

| Designation. | Compensation. | Number. | |

***Electric Protection to Vaults, Public Buildings***—

Electric protection to vaults, public buildings: For continuation of electric service protection to vaults for the following public buildings under the control of the Treasury Department, pending the installation of the central electric burglar-alarm devices provided for in the appropriation for "Mechanical equipment of public buildings": Boston, Mass., post office and subtreasury; Cincinnati, Ohio, post office and customhouse; Louisville, Ky., courthouse, post office, etc.; Milwaukee, Wis., post office, courthouse, and customhouse; Minneapolis, Minn., post office, etc.; New Orleans, La., customhouse and post office; Omaha, Nebr., courthouse, customhouse, and post office; Pittsburgh, Pa., courthouse and post office; San Francisco, Cal., mint; St. Louis, Mo., customhouse and post office; St. Paul, Minn., post office, courthouse, and customhouse; New Orleans, La., mint; Peoria, Ill., post office and courthouse; San Francisco, Cal., subtreasury (old), $3,622.50, or so much thereof as may be necessary: *Provided*, That upon the completion of the installation of the central electric burglar-alarm devices in the foregoing buildings, provided for in the appropriation for "Mechanical equipment of public buildings" for the fiscal year 1915, the electric service protection provided for herein shall cease (*act June 23, 1913, vol. 38, p. 16, sec. 1*)..... $3,622.50 $19,200.00

NOTE.—Pending the purchase of the present equipment, or substitution of new vault linings, etc., and the installation of the department's own system of central electric burglar-alarm devices, etc., it will be necessary to continue the electric service system in the buildings named for a period of at least three months, so as not to leave them without any protection at all. It is with this object in view that the above estimate of $3,622.50 has been submitted.

In this case the buildings are listed, partly to avoid reference to an act 10 years old, and partly because buildings not mentioned in the original act have been added, and some of those mentioned in the original act have been dropped.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Furniture and Repairs of same for Public Buildings*— | | |
| Furniture and repairs of furniture: For furniture, carpets and other floor coverings, and repairs of same, for all public buildings under the control of the Treasury Department, whether completed and occupied or in the course of construction, exclusive of marine hospitals, quarantine stations, mints, branch mints, and assay offices, exclusive of personal services, except for work done by contract or for temporary job labor under exigency not exceeding at one time the sum of $100 at any one building, $825,000. And all furniture now owned by the United States in other public buildings and in buildings rented by the United States shall be used, so far as practicable, whether it corresponds with the present regulation plan for furniture or not (*act June 23, 1913, vol. 38, p. 22, sec. 1*) | $825,000.00 | $900,000.00 |

NOTE.—The appropriation under this caption for the fiscal year 1914 was available, among other items, for the purchase of gas and electric lighting fixtures. For the fiscal year 1915, the latter are included in a new appropriation, which is submitted under the caption of "Lighting fixtures." There has been transferred to this new appropriation the sum of $175,000, which would otherwise have been included in the estimate for "Furniture" for the fiscal year 1915.

On the basis of the items for which the appropriation for "Furniture" is available in the fiscal year 1914, it is estimated that for the fiscal year 1915 the appropriation should be increased from $900,000 to $1,000,000 to meet the needs of new buildings to be completed and occupied during the fiscal year ending June 30, 1915, and also to supply the necessary new and additional equipment in occupied buildings due to the establishment of the parcel-post system, the extension of the postal-savings system, and changes in methods of conducting the postal business recently inaugurated by the Post Office Department. From the total estimate of $1,000,000, the sum of $175,000 has been transferred to the appropriation for "Lighting fixtures."

RECAPITULATION.

| | | |
|---|---|---|
| Appropriation, 1914 | $900,000 | |
| Normal increase to meet increased demands | 100,000 | |
| | | $1,000,000 |
| Amount transferred to appropriation for "Lighting fixtures" | | 175,000 |
| Estimate for "Furniture" for 1915, as submitted | | 825,000 |

*Statement required by section 6, act Aug. 24, 1912.*

| Classes of Expenditures. | 1915 (contemplated). | 1913 (expended). |
|---|---|---|
| OLD BUILDINGS. | | |
| Furniture and repairs | $363,000.00 | $271,544.29 |
| Carpets and linoleum | 28,000.00 | 22,518.89 |
| Lighting fixtures | | 46,424.61 |

| Furniture and repairs | 378,000.00 | 280,148.55 |
| Carpets and linoleum | 25,000.00 | 20,641.87 |
| Lighting fixtures | | 129,121.27 |
| Exigency and miscellaneous | 15,000.00 | 12,000.00 |
| Total, new buildings | 418,000.00 | 441,911.69 |
| Total, both old and new buildings | 825,000.00 | 795,285.54 |
| Appropriation, 1913 | | 800,000.00 |

*Lighting Fixtures for Public Buildings*—

Lighting fixtures for public buildings: For purchase and installation of exterior and interior lighting fixtures, for repairs of same, and for renewals of parts and fittings, including lamps, shades, globes, reflectors, burners, mantels, chimneys, carbons, etc., for all public buildings under the control of the Treasury Department and the grounds thereof, exclusive of marine hospitals, quarantine stations, mints, branch mints and assay offices, and exclusive of personal services, except for work done by contract or for temporary job labor under exigency not exceeding at one time the sum of $50 at any one building, $300,000 (*submitted*) ..... 300,000.00

NOTE.—This new appropriation is submitted in order to simplify certain administrative processes in the Office of the Supervising Architect.

At present the lighting fixtures in the interior of buildings are payable from the annual appropriation for "Furniture and repairs of same." The lamp standards and brackets for exterior use in lighting the entrances to buildings are paid from the special appropriations for the buildings on the theory that they are not, strictly speaking, lighting fixtures. The repairs to the exterior lamp standards and brackets and the installation of new exterior lamp standards and brackets have been paid from the annual appropriation for "Repairs and preservation," because of the fact that this appropriation is available for the repair and preservation of all portions of the work originally paid for from the special appropriation, while all supplies for lighting fixtures (such as shades, globes, reflectors, etc.) have been paid from the appropriation for "Operating supplies."

The above method of charging fixtures and supplies for same to three different annual appropriations, as well as to the numerous special appropriations, has resulted in a great deal of confusion and uncertainty. This entails unnecessary correspondence and unnecessary duplication of vouchers, as no two items chargeable to different appropriations may be incorporated in the same voucher.

In order to simplify the procedure, and because the amount now necessarily expended each year for lighting fixtures and supplies has reached a considerable sum, it is recommended that the new appropriation herewith submitted, to be known as "Lighting fixtures for public buildings," be created.

It will be seen from the recapitulation which follows that for the fiscal year 1915 all of the amounts estimated for lighting fixtures have been transferred from various annual appropriations with the exception of $20,000, which would otherwise have been expended from various special appropriations.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| ***Lighting Fixtures for Public Buildings***—Continued. | | |
| RECAPITULATION. | | |
| Transferred from estimate for furniture ..... $175,000<br>Transferred from estimate for repairs ..... 5,000<br>Transferred from estimate for operating supplies ..... 100,000<br>Amount otherwise expended from special appropriations ..... 20,000<br>Estimate, 1915 ..... 300,000 | | |
| ***Operating Supplies for Public Buildings***— | | |
| Operating supplies for public buildings: For fuel, steam, light, water, ice, electric current for lighting and power purposes, telephone service for custodian forces; removal of ashes and rubbish, snow, and ice; cutting grass and weeds, washing towels, and for miscellaneous items for the use of the custodian forces in the care and maintenance of completed and occupied public buildings and the grounds thereof under the control of the Treasury Department; and in the care and maintenance of the equipment and furnishing of such buildings; and for miscellaneous supplies, tools, and appliances required in the operation (not embracing repairs) of the mechanical equipment, including heating, plumbing, hoisting, gas piping, ventilating, vacuum-cleaning, and refrigerating apparatus, electric-light plants, meters, interior pneumatic-tube and intercommunicating telephone systems, conduit, wiring, call-bell, and signal systems, and central electric burglar-alarm devices in such buildings, including the customhouse at Washington, D. C., but excluding any other public buildings under the control of the Treasury Department within the District of Columbia, and excluding also marine hospitals and quarantine stations, mints, branch mints, and assay offices, and personal services, except for work done by contract or for temporary job labor under exigency not exceeding at any one time the sum of $100 at any one building, $1,650,000. And the appropriation herein made for gas shall include the rental and use of gas governors, when ordered by the Secretary of the Treasury in writing: *Provided*, That no sum shall be paid as rental for such gas governors greater than 35 per cent of the actual value of the gas saved thereby, which saving shall be determined by such tests as the Secretary of the Treasury shall direct.<br>During the fiscal year 1915 the Secretary of the Treasury is authorized, out of the appropriations "Operating supplies for public buildings" and "Operating force for public buildings," to furnish steam for the operation of pneumatic tubes of the postal service, as heretofore, and to pay employees in the production of said steam, as heretofore, the proceeds derived from the sale of said steam to be credited to said appropriations in proportion to the amounts expended therefrom (*act June 25, 1913, vol. 38, p. 22, sec. 1*) ..... | $1,650,000.00 | $1,600,000.00 |

NOTE.—The words "lighting supplies," which appeared in the 1914 act, have been dropped out, as provision for supplies of this character has been made in a new appropriation which is submitted under the caption "Lighting fixtures for public buildings." For these supplies it is estimated that $100,000 will be required for the fiscal year ending June 30, 1915.

After eliminating all lighting-fixture supplies from the appropriation for "Operating supplies," it is found that the appropriation for the fiscal year 1914 should be increased $50,000 to furnish the necessary miscellaneous supplies, for which this appropriation remains available, for the new buildings and extensions to be completed during the fiscal year ending June 30, 1915.

Compared with the same appropriation for the fiscal year 1914, the actual increase in the estimate is $150,000.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Ground Rent, Federal Building Site, Salamanca, N. Y.*— | | |
| Ground rent, Federal building site, Salamanca, N. Y.: For annual ground rent of the Federal building site at Salamanca, N. Y., on account of Indian leases, due and payable on Feb. 19 of each year, in advance, to the Treasurer of the Seneca Nation of Indians, beginning Feb. 19, 1915, and expiring Feb. 19, 1991 (*acts Sept. 30, 1890, vol. 26, p. 558, sec. 1; May 30, 1908, vol. 35, p. 535, sec. 5*) | $7.50 | |
| NOTE.—The deed conveying to the United States the Federal building site at Salamanca, N. Y., contains a condition that the Government shall pay a ground rent of $7.50 per annum until Feb. 19, 1991, on account of Indian leases affecting the lands embraced in said site. Provision has been made for this charge in the foregoing estimate, and will be continued in subsequent estimates. Acceptance of title to the site, under the condition named, was authorized by Congress. | | |
| *Land and Other Property of the United States*— | | |
| Lands and other property of the United States: For custody, care, protection, and expenses of sales of lands and other property of the United States, acquired and held under sections 3749 and 3750, Revised Statutes, and the examination of titles, recording of deeds, advertising, and auctioneer's fees, in connection therewith (*act June 25, 1913, vol. 38, p. 25, sec. 1*) | 300.00 | $300.00 |
| NOTE.—The changes made in the phraseology of the foregoing paragraph, as compared with the language of the 1914 act, are for the purpose of confining the appropriation strictly within the limitations for which it was originally provided. The former phraseology contained authority apparently identical with that contained in a portion of the appropriation for "General expenses of public buildings." | | |
| *Suppressing Counterfeiting and other Crimes*— | | |
| For expenses incurred under the authority or with the approval of the Secretary of the Treasury, in detecting, arresting, and delivering into the custody of the United States marshal having jurisdiction, dealers and pretended dealers in counterfeit money, and persons engaged in counterfeiting Treasury notes, bonds, national-bank notes, and other securities of the United States and of foreign Governments, as well as the coins of the United States and of foreign Governments, and other felonies committed against the laws of the United States, relating to the pay and bounty laws, and for no other purpose whatever, except in the protection of the person of the President and of the person chosen to be President of the United States, which protection is hereafter authorized, $150,000: *Provided*, That no part of this amount be used in defraying the expenses of any person subpœnaed by the United States courts to attend any trial before a United States court or preliminary examination before any United States commissioner, which expenses shall be paid from the appropriation for "Fees of witnesses, United States courts" (*acts June 11, 1862, vol. 12, p. 533, sec. 5; Mar. 3, 1863, vol. 12, p. 713, sec. 8; June 23, 1913, vol. 38, p. 23, sec. 1*) | 150,000.00 | 135,000.00 |
| NOTE.—The Chief of the Secret Service states that it is absolutely necessary to have the increase of $15,000 to meet the urgent needs of the service. | | |
| *Collecting the Revenue from Customs*— | | |
| To defray the expenses of collecting the revenue from customs, $10,250,000. And the provisions of the act of Mar. 3, 1879 (20 Stats., p. 386), as amended by the act of Apr. 27, 1904 (33 Stats., p. 396), authorizing the Secretary of the Treasury to expend out of the appropriation for defraying the expenses of collecting the revenue from customs such amount as he may deem necessary, not exceeding $150,000 per annum, for the detection and prevention of frauds upon the customs revenue, are hereby further amended so as to increase the amount to be so expended for the fiscal year 1915 to $200,000 (*act June 23, 1913, vol. 38, p. 23, sec. 1*) | 10,250,000.00 | 10,150,000.00 |

| NOTE.—In explanation of the following estimates for the Smithsonian Institution and National Museum, see Appendix N. | | | |
| *International Exchanges, Smithsonian Institution—* | | | |
| For expenses of the system of international exchanges between the United States and foreign countries, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employees, and the purchase of necessary books and periodicals (*act June 23, 1913, vol. 38, p. 26, sec. 1*) | | 32,000.00 | 32,000.00 |
| *American Ethnology, Smithsonian Institution—* | | | |
| For continuing ethnological researches among the American Indians and the natives of Hawaii, including the excavation and preservation of archeologic remains, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employees and the purchase of necessary books and periodicals, including payment in advance for subscriptions (*act June 23, 1913, vol. 38, p. 26, sec. 1*) | | 65,850.00 | 42,000.00 |
| *International Catalogue of Scientific Literature, Smithsonian Institution—* | | | |
| For the cooperation of the United States in the work of the International Catalogue of Scientific Literature, including the preparation of a classified index catalogue of American scientific publications for incorporation in the international catalogue, the expense of clerk hire, the purchase of necessary books and periodicals, and other necessary incidental expenses, the same to be expended under the direction of the Smithsonian Institution (*act June 23, 1913, vol. 38, p. 26, sec. 1*) | | 7,500.00 | 7,500.00 |
| *Astrophysical Observatory, Smithsonian Institution—* | | | |
| For maintenance of the Astrophysical Observatory, under the direction of the Smithsonian Institution, including salaries of assistants, the purchase of necessary books and periodicals, including payment in advance for subscriptions, apparatus, making necessary observations in high altitudes, repairs and alterations of buildings, and miscellaneous expenses (*act June 23, 1913, vol. 38, p. 27, sec. 1*) | $14,000.00 | | |
| For equipping the tower telescope of the Astrophysical Observatory on Mount Wilson, Cal., including necessary incidental expenses, to be immediately available (*submitted*) | 2,000.00 | | |
| | | 16,000.00 | 13,000.00 |
| *Bookstacks for Government Bureau Libraries, Smithsonian Institution—* | | | |
| For completing the replacing of wooden shelving and galleries with fireproof bookstacks in the main hall of the Smithsonian Building for the libraries of the Government bureaus under the direction of the Smithsonian Institution, including heating and lighting apparatus, carrier, repairs to the floor, columns, walls, and windows, and all other necessary expenses, to be immediately available (*act June 23, 1913, vol. 38, p. 27, sec. 1*) | | 25,000.00 | 15,000.00 |
| *Repairs, Smithsonian Building—* | | | |
| For pointing up masonry, and other necessary repairs, to the exterior of the Smithsonian Building (*submitted*) | | 16,000.00 | |
| *Aeronautical Investigations, Smithsonian Institution—* | | | |
| For the continuation of aeronautical investigations under the direction of the Smithsonian Institution (*submitted*) | | 50,000.00 | |
| *Furniture and Fixtures, National Museum—* | | | |
| For cases, furniture, fixtures, and appliances required for the exhibition and safe-keeping of the collections of the National Museum, including salaries or compensation of all necessary employees (*act June 23, 1913, vol. 38, p. 27, sec. 1*) | | 25,000.00 | 50,000.00 |
| *Heating and Lighting, National Museum—* | | | |
| For expense of heating, lighting, electrical, telegraphic, and telephonic service for the National Museum (*act June 23, 1913, vol. 38, p. 27, sec. 1*) | | 50,000.00 | 50,000.00 |
| *Preservation of Collections, National Museum—* | | | |
| For continuing the preservation, exhibition, and increase of the collections from the surveying and exploring expeditions of the Government, and from other sources, including salaries or compensation of all necessary employees, and all other necessary expenses, $320,000, of which sum $5,500 may be used for necessary drawings and illustrations for publications of the National Museum (*act June 23, 1913, vol. 38, p. 27, sec. 1*) | | 320,000.00 | 300,000.00 |

To enable the Interstate Commerce Commission to keep informed regarding and to enforce compliance with acts to promote the safety of employees and travelers upon railroads, including the employment of inspectors (*acts Mar. 2, 1893, vol. 27, p. 531, secs. 1–3; Mar. 2, 1903, vol. 32, p. 943, secs. 1–3; Feb. 23, 1905, vol. 33, p. 743, secs. 1–3; Mar. 4, 1907, vol. 34, p. 1312, sec. 1; May 27, 1908, vol. 35, p. 324, sec. 1; Mar. 4, 1909, vol. 35, p. 965, sec. 1; June 25, 1910, vol. 36, p. 719, sec. 1; Mar. 4, 1911, vol. 36, p. 1397, sec. 1; Aug. 24, 1912, vol. 37, p. 437, sec. 1; June 23, 1913, vol. 38, p. 28, sec. 1*)..... $150,000.00 $150,000.00

For the payment of all authorized expenditures under the provisions of the act of February 17, 1911, "To promote the safety of employees and travelers upon railroads by compelling common carriers engaged in interstate commerce to equip their locomotives with safe and suitable boilers and appurtenances thereto," including such stenographic and clerical help to the chief inspector and his two assistants as the Interstate Commerce Commission may deem necessary and allowances in lieu of subsistence while away from official headquarters to persons whose traveling expenses are authorized by said act to be paid at not to exceed $4 per day (*acts Feb. 17, 1911, vol. 36, p. 913, secs. 1–10; Mar. 4, 1911, vol. 36, p. 1397, sec. 1; Aug. 24, 1912, vol. 37, p. 437, sec. 1; June 23, 1913, vol. 38, p. 28, sec. 1*)..... 220,000.00 220,000.00

To enable the Interstate Commerce Commission to carry out the objects of the act entitled "An act to amend an act entitled 'An act to regulate commerce,' approved Feb. 4, 1887, and all acts amendatory thereof by providing for a valuation of the several classes of property of carriers subject thereto and securing information concerning their stocks, bonds, and other securities," approved Mar. 1, 1913, of which sum not exceeding $15,000 may be expended for rent of buildings in the District of Columbia (*act Mar. 1, 1913, vol. 37, p. 701, sec. 1*).

NOTE.—The organization for carrying on this work is not as yet completed. Therefore no intelligent estimate can be made at this time as to the amount which will be needed during the fiscal year 1914. Supplemental estimate will be submitted at a later date.—*E. E. Hart, Chairman.*

NOTE.—A statement of buildings rented in Washington for use of the Interstate Commerce Commission, with the annual rental of same, reported as required by the act of July 16, 1892 (27 Stat., 199), will be found in Appendix B.

NOTE.—The estimate of the Interstate Commerce Commission for "Printing and binding," under section 3661, page 720, of the Revised Statutes, will be found under the head of "Miscellaneous" *ante*.

Total, Interstate Commerce Commission..... 1,695,000.00 1,695,000.00

UNITED STATES BOARD OF MEDIATION AND CONCILIATION.

*United States Board of Mediation and Conciliation*—

United States Board of Mediation and Conciliation:

Commissioner of Mediation and Conciliation (*acts July 15, 1913, vol. 38, p. 103, sec. 10; Oct. 22, 1913, vol. 38, p. 212, sec. 1*)..... $7,500.00

Assistant Commissioner of Mediation and Conciliation (*same acts*)..... 5,000.00

For the necessary and proper expenses incurred in connection with any arbitration or with the carrying on of the work of mediation and conciliation, including per diem, traveling, and other necessary expenses of members or employees of boards of arbitration and rent in the District of Columbia, furniture, office fixtures and supplies, books, salaries, traveling expenses, and other necessary expenses of members or employees of the Board of Mediation and Conciliation, to be approved by the chairman of said board (*same acts*).. 37,500.00

50,000.00 35,000.00

NOTE.—For statement of quarters occupied by the Board of Mediation and Conciliation, see Appendix B.

| COMMISSION ON INDUSTRIAL RELATIONS. | | |
| *Commission on Industrial Relations—* | | |
| For the purpose of continuing the inquiries and investigations authorized by the act of Aug. 23, 1912, entitled "An act to create a Commission on Industrial Relations," and to provide the expenses of such inquiries and investigations as are enumerated in section 2 of said act (*acts Aug. 23, 1912, vol. 37, p. 415, secs. 1–5; Oct. 22, 1913, vol. 38, p. 225, Sec. 1*)..... | $250,000.00 | |
| NOTE.—For statement of quarters occupied by the Commission on Industrial Relations, see Appendix B. | | |
| Total Miscellaneous under Independent Offices..... | 2,816,850.00 | $2,352,000.00 |
| UNDER THE WAR DEPARTMENT. | | |
| NATIONAL CEMETERIES. | | |
| QUARTERMASTER CORPS, UNITED STATES ARMY. | | |
| *National Cemeteries—* | | |
| For maintaining and improving national cemeteries, including fuel for superintendents, pay of laborers and other employees, purchase of tools and materials (*act June 23, 1913, vol. 38, p. 30, sec. 1*)..... | 146,000.00 | 120,000.00 |
| NOTE.—For several years past this appropriation has proved inadequate to meet the urgent requirements of the 83 national cemeteries to be maintained therefrom, owing to the general deterioration of the buildings and other structures due to the length of time which has elapsed since their erection, many of the buildings having been standing since the cemeteries were first established.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |
| *Pay of Superintendents of National Cemeteries—* | | |
| For pay of 76 superintendents of national cemeteries (*acts July 30, 1912, vol. 37, p. 240, sec. 1; June 23, 1913, vol. 38, p. 30, sec. 1*)..... | 63,120.00 | 63,120.00 |
| *Headstones for Graves of Soldiers—* | | |
| For continuing the work of furnishing headstones of durable stone or other durable material for unmarked graves of Union and Confederate soldiers, sailors, and marines in national, post, city, town, and village cemeteries, naval cemeteries at navy yards and stations of the United States, and other burial places, under the acts of Mar. 3, 1873, Feb. 3, 1879, and Mar. 9, 1906; also for continuing the work of furnishing headstones for unmarked graves of civilians interred in post cemeteries under the acts of Apr. 28, 1904, and June 30, 1906; also for furnishing headstones for the unmarked graves of Confederate soldiers, sailors, and marines in national cemeteries (*act June 23, 1913, vol. 38, p. 30, sec. 1*)..... | 30,000.00 | 30,000.00 |
| *Repairing Roads to National Cemeteries—* | | |
| For repairs to roadways to national cemeteries which have been constructed by special authority of Congress: *Provided*, That no railroad shall be permitted upon the right of way which may have been acquired by the United States to a national cemetery or to encroach upon any roads or walks constructed thereon and maintained by the United States: *Provided further*, That no part of this sum shall be used for repairing any roadway not owned by the United States within the corporate limits of any city, town, or village (*act June 23, 1913, vol. 38, p. 30, sec. 1*)..... | 12,000.00 | 12,000.00 |
| *Burial of Indigent Soldiers—* | | |
| For expenses for burying in the Arlington National Cemetery, or in the cemeteries of the District of Columbia, indigent ex-Union soldiers, ex-sailors, or ex-marines of the United States service, either Regular or Volunteer, who have been honorably discharged or retired and who die in the District of Columbia, to be disbursed by the Secretary of War, at a cost not exceeding $45 for such burial expenses in each case, exclusive of cost of grave, one-half of which sum shall be paid out of the revenues of the District of Columbia (*act June 23, 1913, vol. 38, p. 31, sec. 1*)..... | 3,000.00 | 3,000.00 |
| *Antietam Battle Field, Preservation—* | | |
| For repair and preservation of monuments, tablets, observation tower, roads, and fences, etc., made and constructed by the United States upon public lands within the limits of the Antietam battle field, near Sharpsburg, Md..... $3,000.00 | | |
| For pay of superintendent of Antietam battle field, said superintendent to perform his duties under the direction of the Quartermaster Corps and to be selected and appointed by the Secretary of War, at his discretion, the person selected and appointed to this position to be an honorably discharged Union soldier (*act June 23, 1913, vol. 38, p. 31, sec. 1*)..... 1,500.00 | 4,500.00 | 4,500.00 |
| *Purchase of Dunkard Church Property, Antietam Battle Field, Md.—* | | |
| For the purchase of the Dunkard Church property on the Antietam battle field, Md. (*submitted*)..... | 1,500.00 | |
| NOTE.—This church is located on the Hagerstown Turnpike, was constructed in 1853, and during the Battle of Antietam the wounded of both armies were cared for within its walls. It is a brick structure substantially built, and, in addition to the historic interest connected therewith, it could be used to advantage as an office for the superintendent of the battle field and for the storage of public property.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Disposition of Remains of Officers, Soldiers, and Civil Employees—* | | |
| For the expenses of interment, or of preparation and transportation to their homes or to such national cemeteries as may be designated by proper authority, in the discretion of the Secretary of War, of the remains of officers, including acting assistant surgeons, and enlisted men of the Army active list; for the expenses of interment, or preparation and transportation to their homes, of the remains of civil employees of the Army in the employ of the War Department who die abroad, inclusive of Alaska (*and the Canal Zone, Panama*), or on Army transports, *or who die while on duty in the field or at military posts within the limits of the United States; for the expenses of interment of military prisoners who die at military posts;* for the expenses of removal of remains from abandoned posts to permanent military posts or national cemeteries, including the remains of Federal soldiers, sailors, or marines interred in fields or abandoned private and city cemeteries; and in any case where the expenses of burial or shipment of the remains of officers or enlisted men of the Army who die on the active list are borne by individuals, where such expenses would have been lawful claims against the Government, reimbursement to such individuals may be made of the amount allowed by the Government for such services, to be paid out of the funds appropriated by this act, but no reimbursement shall be made under this act of such expenses incurred prior to the 1st day of July, 1910 (*act June 23, 1913, vol. 38, p. 31, sec. 1*) | $57,500.00 | $57,500.00 |
| NOTE.—Several cases have arisen in recent years where civilian employees of the Army in the employ of the War Department have died within the United States and the relatives desired shipment home at Government expense, which had to be refused as this appropriation did not cover such cases. It is accordingly desired to extend the appropriation to cover such cases, also where death occurs in the Canal Zone.<br>One case arose during the present fiscal year where an enlisted man who had been dishonorably discharged died at a military post and the Judge Advocate General of the Army held that this appropriation was not available for the burial expenses. The expenses were paid from the appropriation "Contingencies of the Army." Such cases seldom occur, however.<br>It is believed that extending this appropriation to cover the above cases will not make necessary an increase in the amount of the appropriation.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |
| *Confederate Mound, Oakwood Cemetery, Chicago—* | | |
| For care, protection, and maintenance of the plat of ground known as "Confederate mound," in Oakwood Cemetery, Chicago (*act June 23, 1913, vol. 38, p. 31, sec. 1*) | 250.00 | 250.00 |
| *Care, etc., Confederate Burial Plats—* | | |
| For care, protection, and maintenance of Confederate burial plats, owned by the United States, located and known by the following designations: Confederate cemetery, North Alton, Ill.; Confederate cemetery, Camp Chase, Columbus, Ohio; Confederate section, Greenlawn Cemetery, Indianapolis, Ind.; Confederate cemetery, Point Lookout, Md.; and Confederate cemetery, Rock Island, Ill. (*act June 23, 1913, vol. 38, p. 32, sec. 1*) | 1,250.00 | 1,250.00 |
| *Monuments or Tablets in Cuba and China—* | | |
| For repairs and preservation of monuments, tablets, roads, fences, etc., made and constructed by the United States in Cuba and China to mark the places where American soldiers fell (*act June 23, 1913, vol. 38, p. 32, sec. 1*) | 1,000.00 | 1,000.00 |
| *Burial of Indigent Patients, Army and Navy Hospital, Hot Springs, Ark.—* | | |
| For expenses of burying in the Little Rock, Ark., National Cemetery, including transportation thereto, indigent ex-soldiers, ex-sailors, or ex-marines of the United States service, either Regular or Volunteer, who have been honorably discharged or retired and who die while patients at the Army and Navy General Hospital, Hot Springs, Ark., to be disbursed by the Secretary of War, at a cost not exceeding $35 for such burial expenses in each case, exclusive of cost of grave (*act June 23, 1913, vol. 38, p. 32, sec. 1*) | 200.00 | |
| NOTE.—The original appropriation for this purpose made for the fiscal year 1911 was $400, and the unexpended balance thereof was made available for the fiscal years 1912, 1913, and 1914. It is believed the amount asked for should be appropriated for the fiscal year 1915.—*J. B. Aleshire, Major General, United States Army, Chief of the Quartermaster Corps.* | | |
| *Road to National Cemetery, Newbern, N. C.—* | | |
| For repairs, including curbs and gutters, to the roadway leading from Newbern, N. C., to the National Cemetery near that city, by resetting curbs and paving the roadway from Cypress Street to the National Cemetery, a total distance of 4,314.2 feet, for which the United States holds a fee simple title (*submitted*) | 15,100.00 | |
| NOTE.—This road was originally constructed in 1888 at a cost of $17,949. Since its construction the only repairs made have consisted of filling holes and ruts as they occurred.<br>The 25 years of traffic which has been constantly increasing in volume has worn the roadway until it has no crown and in many places is lower in the center than at the sides. This condition will not permit the drainage of the surface and together with the disintegrated condition of the marl surface causes the roads to be very muddy for a long time after each rain.<br>This estimate is submitted with the approval of the Assistant Secretary of War under date of Oct. 8, 1913.—*J. B. Aleshire, Major General, United States Army, Chief of the Quartermaster Corps.* | | |
| Total National Cemeteries | 335,420.00 | 292,620.00 |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| MISCELLANEOUS OBJECTS. | | |
| MEDICAL DEPARTMENT. | | |
| *Artificial Limbs—* | | |
| For furnishing artificial limbs and apparatus, or commutation therefor, and necessary transportation (*R. S., p. 929, sec. 4787; R. S., p. 930, sec. 4788; R. S., p. 930, sec. 4790; R. S., p. 930, sec. 4791; acts Aug. 15, 1876, vol. 19, pp. 203, 204, secs. 1, 2; Mar. 3, 1891, vol. 26, p. 1103, sec. 1; June 23, 1913, vol. 38, p. 38, sec. 1*)..... | $275,000.00 | $85,000.00 |

NOTE.—During the year ending June 30, 1915, the surviving beneficiaries of the artificial-limb laws whose rights matured during the year ended June 30, 1912, will again need to be provided for. The disbursements from the 1912 appropriation amounted to $293,342.46. It is believed that the decrease in the number of beneficiaries since June 30, 1912, and the further decrease to be expected before July 1, 1914, will warrant the reduction shown by this estimate below the disbursements for the year 1912.

In compliance with sec. 6 of the sundry civil act of Aug. 24, 1912, I append a statement of the expenditures made or obligated (partly estimated) out of the appropriation "Artificial limbs, 1913," and those contemplated under the same heads during 1915. No persons are employed under this appropriation except examining surgeons on a fee basis.

| Objects of expenditure. | Estimated, 1915. | Paid or obligated, 1913. |
|---|---|---|
| Artificial limbs and apparatus furnished in kind | $6,200.00 | $1,700.00 |
| Commutation of artificial limbs or apparatus | 268,000.00 | 99,925.00 |
| Fees of examining surgeons | 300.00 | 57.00 |
| Transportation | 500.00 | 144.00 |
| Total | 275,000.00 | 101,826.00 |

*—Geo. H. Torney, Surgeon General, U. S. Army.*

*Appliances for Disabled Soldiers—*

For furnishing surgical appliances to persons disabled in the military or naval service of the United States, and not entitled to artificial limbs or trusses for the same disabilities (*act June 23, 1913, vol. 38, p. 38, sec. 1*)..... 1,500.00 2,000.00

*Trusses for Disabled Soldiers—*

For trusses for persons entitled thereto under section 1176, Revised Statutes of the United States, and the act of Congress amendatory thereof approved Mar. 3, 1879 (*R. S., p. 211, sec. 1176; acts Mar. 3, 1879, vol. 20, p. 353, sec. 1; May 27, 1908, vol. 35, p. 367, sec. 1; June 23, 1913, vol. 38, p. 38, sec. 1*)..... 3,500.00 4,000.00

ENGINEER DEPARTMENT.

*Survey of Northern and Northwestern Lakes—*

For survey of northern and northwestern lakes, Lake Champlain, and the natural navigable waters embraced in the navigation system of the New York canals, including all necessary expenses for preparing, correcting, extending, printing, binding, and issuing charts and bulletins, and of investigating lake levels with a view to their regulation (*to be immediately available and to remain available until expended*) (*act June 23, 1913, vol. 38, p. 38, sec. 1*)..... 175,000.00 125,000.00

NOTE.—The wording of the appropriation item is revised as above to render it more logical and concise. No change in scope of the work as now authorized is intended.

The Lake surveys were originally planned for a 12-foot navigation, and many charts were prepared on that basis. Present commerce now demands that the bottom be accurately charted to depths of not less than 30 feet on open lakes and of 25 feet in their connecting waters. The increase in volume of commerce is illustrated by records at Sault Ste. Marie, Mich., and Ontario, the total freight passing both American and Canadian canals being 2,029,521 tons in 1882, 51,751,080 in 1906, and 72,472,676 tons in 1912; increase over 1911 commerce is 36 per cent. Detroit River commerce for 1912 is reported as 78,671,208 tons. Advance in size of boats is indicated by the facts that in 1904 there were no boats over 500 feet long engaged in the traffic and now there are 127 boats 500 to 600 feet long and 12 over 600 feet long. This great increase in volume of traffic and in size of vessels demands wider channels; the greater drafts especially require the examination of larger areas; this calls for extensive surveys and a large amount of office work, all of which must be done with great care and accuracy.

Since 1908 inclusive the Lake survey appropriations have been $125,000 annually, which amount was sufficient at the beginning of this period, but expenses of the work have increased as follows:

For preparation and issue of charts, about $8,000 per year, mostly due to—

(*a*) Increased demand for Lake survey charts (total issue, 19,800 for year 1907; and 24,210 for year 1912; rate of increase, 22 per cent).

(*b*) Consequent acceleration in rate of standardizing projection and water level planes of the charts.

(*c*) Printing and issue of Mercator charts, taken over from Hydrographic Office, to eliminate duplication of work.

For field work, about $7,000 per year, due to—

(*d*) Additional work on magnetic observations, much needed and has already produced data extremely valuable to and greatly appreciated by lake navigators; requires operation of additional steamer, about $5,000 per year.

(*e*) Increased repairs necessary to floating plant, which is yet in good condition, but most of the boats have reached an age when rapid depreciation is to be expected (5 steamers and accessory small boats) $2,000 per year.

Therefore $15,000 per year is required in addition to the annual appropriation since 1908, making $140,000 per year, for the Great Lakes surveys, which is urgently needed to operate the present plant and equipment to its full capacity with the greatest economy and efficiency.

In the sundry civil act of 1911 the duties of the Lake survey were extended to include the survey and charting of the natural navigable waters of the New York canal system: $10,000 for this work was added to the $140,000 required as above for Lake survey work, making the $150,000 asked for fiscal year 1914. With $10,000 per year a moderate rate of progress was contemplated. In order to meet the urgent demand for charts of the New York waters when the new canal system is opened to navigation, a part early in 1914 and the remainder at beginning of navigation season of 1915, it is necessary that $25,000 more per year be provided.

With the expenditure of $35,000 per year for two seasons, it is estimated that the field surveys for all the charts would be completed and most of the charts made ready for issue late in 1915. This amount added to $140,000 required for the Lake survey proper makes the total estimate for fiscal year 1915, $175,000.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Survey of Northern and Northwestern Lakes*—Continued. | | | |
| It is important that the funds be made available as early in the season as possible. In 1912 when appropriation was not available until late in August, one steamer party could not be sent out at all, and the working time of two other parties was materially reduced. In 1908 it was reported that assuming adequate appropriations were made the completion of the general Lake survey project would require 11 working seasons, including 1908. Shortage of funds has affected progress of work on the general project. The fixed charges, cost of maintenance, fitting out and laying up of floating plant, which is a large percentage of field operation cost, is independent of the length of field season or size of parties. The work of the Lake survey is continuous and the field work, largely dependent upon weather conditions, may be much reduced in some seasons by unfavorable conditions. If funds are available until expended, advantage can be taken later in favorable working seasons, the field parties increased and work brought nearer to its normal average.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | | |
| *Maps, War Department—* | | | |
| For publication of engineer maps for use of the War Department, inclusive of war maps (*act June 23, 1913, vol. 38, p. 38, sec. 1*)..... | | $10,000.00 | $7,500.00 |
| NOTE.—An estimate of $10,000 is submitted for this purpose in view of the urgent necessity of printing certain important military maps now being prepared.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | | |
| *Expenses, California Débris Commission—* | | | |
| For defraying the expenses of the commission in carrying on the work authorized by the act of Congress approved Mar. 1, 1893, including printing, binding, and blank books (*acts Mar. 1, 1893, vol. 27, p. 507, secs. 1–25; June 23, 1913, vol. 38, p. 38, sec. 1*)..... | | 15,000.00 | 15,000.00 |
| *Prevention of Deposits, Harbor of New York—* | | | |
| For prevention of obstructive and injurious deposits within the harbor and adjacent waters of New York City: | | | |
| For pay of inspectors, deputy inspectors, crews, and office force, and for maintenance of patrol fleet and expenses of office, including printing, binding, and blank books (*acts June 29, 1888, vol. 25, p. 209, secs. 1–6; Aug. 18, 1894, vol. 28, p. 360, sec. 3; June 13, 1902, vol. 32, p. 375, sec. 12; May 28, 1908, vol. 35, p. 426, sec. 8; June 23, 1913, vol. 38, p. 38, sec. 1*)..... | $91,260.00 | | |
| NOTE.—The appropriation for this work made by the sundry civil act approved June 23, 1913, was in two items, one of which provided for the pay of inspectors, deputy inspectors, office force, and expenses of office, and the other for the pay of crews and maintenance of patrol fleet. This use of two items to provide for one and the same work appears to have originated in this particular instance with the appropriation made by the act approved Aug. 30, 1890, which introduced a specific provision for the pay of crew and the maintenance of the one patrol boat which had been obtained up to the time when the estimate was submitted on which that appropriation was based. Subsequent appropriations introduced items providing by the name of the boat for the pay of the crew and for the maintenance of other boats as they were added to the patrol fleet. That practice continued until the act approved June 11, 1896, when the different items were consolidated in two items similar in form to those found in the act approved June 23, 1913. There appears to be no good reason for continuing the practice, which seems to have no other result than to increase bookkeeping and clerical work. The money is all expended under one direction for one purpose. Some of the inspectors also serve as masters or mates of the patrol boats, and no reason is perceived for providing for their pay in one item and for that of the other members of the crew in another. It is therefore recommended that the appropriation be made in one item, as proposed above. This is an increase of $6,000 over current appropriation, due to increase in cost of coal, amounting to $3,254; to increase in cost of docking and necessary repairs, amounting to $2,248; and a slight increase in the cost of ship chandlery supplies. The current appropriation has been found insufficient to make necessary repairs to the vessels to keep them in efficient condition, and an increase is absolutely essential, as some of the vessels are old and considerably worn from long service. Salaries and subsistence of crews remain as heretofore. Senate bill 4239, Sixty-second Congress, which passed the Senate, contained a provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | | |
| For purchase or construction of one patrol vessel, including printing, binding, and blank books (*submitted*)..... | 65,000.00 | | |
| | | 156,260.00 | 85,260.00 |
| NOTE.—The necessity for the purchase or construction of an additional patrol vessel is presented at length in the annual report of the supervisor of New York Harbor for the fiscal year ending June 30, 1911 (p. 2919 of the Annual Report of the Chief of Engineers for 1911), and also in a note printed on page 396 of the Book of Estimates of Appropriations, 1913. The territory to be supervised comprises the entire waters of Long Island Sound, the Hudson River as far as Troy, Staten Island Sound, Newark Bay, New York Bay and Harbor, together with the tributary waters. The fleet at the disposal of the supervisor during the larger portion of the fiscal year ending June 30, 1913, consisted of 5 steam tugs and 1 launch. Four of the boats were utilized in maintaining a constant patrol, night and day, of New York Bay and Harbor as far at sea as 5 miles outside Scotland Lightship; a fifth boat patrolled Hudson River, East River, and Long Island Sound when operations in that direction were absolutely necessary; the launch watched the waters around Staten Island, Newark Bay, Passaic, Hackensack, and Raritan Rivers. Constant patrol was maintained with difficulty on account of the fact that two of the patrol fleet, the Nimrod and the Scout, are unfit for further service outside the Narrows, except under the most favorable weather conditions. Those vessels are 23 and 17 years old, respectively. On June 25, 1913, the drum of the Nimrod's boiler gave way while getting up steam to go on patrol. Examination showed the necessity of obtaining a new boiler and a special estimate for that purpose was submitted to Congress on July 18. Constant patrol required that all of the vessels be kept in good condition at all times, and even before the disability of the Nimrod, the number of vessels was insufficient to permit a proper policing of Hudson River and Long Island Sound, and there was no substitute for a vessel undergoing repairs. Experience has shown that any relaxation of a strict patrol at the mouth of the harbor is sure to result in injury to the channels by illegal dumping. In view of the above facts, it is recommended that an appropriation for a new vessel as proposed above be made. Senate bill 4239, Sixty-second Congress, which passed the Senate, contained the provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "printing, binding, and blank books" has been included in this estimate.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Reimbursement to Lieut. Col. Mason M. Patrick, Corps of Engineers, U. S. Army*— | | |
| To reimburse Lieut. Col. Mason M. Patrick, Corps of Engineers, for moneys expended by him for insertion in certain newspapers of an advertisement inviting public bids for the privilege of importing into the United States power generated in Canada from the waters of the Niagara River, said payment amounting to $6.90, to be made from funds heretofore appropriated by Congress for the "Preservation of Niagara Falls" (*submitted*) | $6.90 | |
| NOTE.—Under date of Aug. 24, 1912, the Secretary of War directed the Chief of Engineers to invite public bids from various cities interested in Niagara power importation, in accordance with an approved schedule and form of application, the bids to be received at places designated by the Chief of Engineers not later than Nov. 1, 1912. On Sept. 3 the papers were forwarded to Lieut. Col. Mason M. Patrick, Corps of Engineers, in charge of the United States Lake Survey Office at Detroit, Mich., with instructions to take action as directed, first submitting for approval a general project covering the subject and the necessary application for authority to advertise in newspapers. Under date of Sept. 11 Lieut. Col. Patrick submitted the required project, together with the usual formal request for authority to advertise in 31 selected papers published in cities along the Canadian border. The project was approved by the Secretary of War Sept. 26, and after further consideration was, on Oct. 5, sent to Lieut. Col. Patrick with instructions to proceed in accordance with the plan. On Oct. 5 the request for authority to advertise was approved by the Secretary of War for 30 specified papers, 9 of those on the list submitted by Lieut. Col. Patrick being omitted and 8 others substituted therefor. The authority to advertise, as thus modified, was received by Lieut. Col. Patrick Oct. 9. In the meantime, in order to give sufficient advertisement before the limiting date fixed by the Secretary of War for opening the bids, Lieut. Col. Patrick, anticipating the approval of his request, had on Oct. 7 sent copies of the advertisement with request for publication to all the papers named on his original list. Upon receiving the modified authority he at once canceled by telegraph the orders sent to the papers which had been stricken from the list and forwarded the necessary copies with request to publish to the substituted papers. Before the cancellation of the orders, however, 7 of the omitted papers had published the advertisement one or more times, for which service bills were subsequently presented, and it having been held by the Comptroller of the Treasury and by the Judge Advocate General that authority to publish advertisements must be given in advance, and that no subsequent approval without prior authority can legalize such publication, Lieut. Col. Patrick, though his action was taken in good faith in an effort to carry out precisely the instructions he had received, was compelled to pay from his private funds for the publication of the advertisement in the papers not authorized by the modified list.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| *Reimbursement to Washington C. Bradyhouse*— | | |
| To reimburse Washington C. Bradyhouse, a civilian employee of the Engineer Department at Large for the value of personal effects destroyed as a result of an explosion of the dynamite cargo aboard the steamship Alum Chine in the harbor of Baltimore, Md., Mar. 7, 1913, $22; and this sum is hereby appropriated out of any money in the Treasury not otherwise appropriated (*submitted*) | 22.00 | |
| NOTE.—Mr. Bradyhouse was employed as inspector on work being done by the Engineer Department for the Isthmian Canal Commission, to supervise loading of dynamite cargo aboard the steamship Alum Chine in Baltimore Harbor, and while performing that duty Mar. 7, 1913, the cargo exploded, as a result of which he was badly injured, and his personal effects to the value of $22 were destroyed. The claim is believed to be just and reasonable.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| *Reimbursement to Certain Civilian Employees of the Engineer Department at Large, U. S. Army*— | | |
| To reimburse civilian employees of the Engineer Department at Large, U. S. Army, for value of personal effects lost by burning of the United States Dredge General C. B. Comstock, off the mouth of the Brazos River, Tex., Feb. 17, 1913, as follows: | | |
| Robert Moore, cook | $75.00 | |
| John Westerlund, boatswain | 88.00 | |
| H. H. Harden, master | 386.90 | |
| Earl Shappie, engineman | 94.00 | |
| Frank A. Reynolds, steam engineer | 67.15 | |
| Wm. Ross, first mate | 33.00 | |
| Robert Gallagher, winchman | 42.75 | |
| Wm. Anderson, fireman | 70.00 | |
| Charles Petersen, second mate | 137.75 | |
| P. E. McKenna, jr., inspector | 180.25 | |
| Fred Seligman, oiler | 63.50 | |
| Geo. Hespe, boatswain | 42.85 | |
| Edward M. Pepper, waiter | 52.50 | |
| Thomas Hiorth, deckhand | 53.00 | |
| Harry Anderson, stoker | 64.50 | |
| G. H. Lindan, winchman | 59.00 | |
| John Peters, fireman | 79.00 | |
| Axel Hendrickson, oiler | 106.50 | |
| E. Tomsen, seaman | 63.25 | |
| Albert Anderson, deckhand | 76.55 | |
| Simon C. Mathews, gas engineer | 332.50 | |
| John McConnell, ship carpenter | 193.00 | |
| | 2,360.95 | |
| In all, $2,360.95; and this sum is hereby appropriated for this purpose out of any money in the Treasury not otherwise appropriated (*submitted*) | 2,360.95 | |
| NOTE.—The U. S. dredge General C. B. Comstock, while dredging at the mouth of the Brazos River, Tex., Feb. 17, 1913, took fire and was burned to the water line. The fire originated in the boiler room from the bursting of the supply pipe leading from the oil pumps to the burners, and was probably caused by back firing due to a surplus of fuel oil being suddenly delivered to the furnace, the oil-supply pipe being clogged with some substance which under accumulated pressure was suddenly released, and the consequent concussion burst the pipe. No blame is attached to any of the crew, as the fire was an accident. Very little was saved, the crew losing their personal effects as stated, the value of which, as indicated above, is believed to be just and reasonable.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Reimbursement to Certain Civilian Employees of the Engineer Department at Large, U. S. Army*—Contd. | | |
| That the accounting officers of the Treasury be, and are hereby, authorized and directed to remove any suspensions or disallowances in accounts of disbursing officers of the War Department for the payment of fees for affidavits of civilian employees to accounts for travel expenses, which may have been paid by such disbursing officers prior to the receipt by them of notice of the passage of section 8 of the sundry civil act approved August 24, 1912; and to refund to such disbursing officers any sums deposited by them on account of such suspensions or disallowances, and a sum sufficient to make such refunds is hereby appropriated, out of any money in the Treasury not otherwise appropriated. | | |
| NOTE.—It is presumed that the committee of Congress which framed section 8 of the sundry civil act, in fixing the date upon which it should become operative, intended to give to all concerned due notice of the change in the existing practice in the matter of the payment of fees for affidavits to these accounts. Owing to the date of passage of the act, however, the date on which the section was to become effective had passed before the act was approved; and under these circumstances the Comptroller of the Treasury has ruled that provisions of the section were in full force and effect from and after the date of approval of the act. The act was published to the Army by War Department Bulletin No. 16, Sept. 19, 1912, and to the Engineer Department at Large by circular letter from the Office of the Chief of Engineers, Sept. 26, 1912. For most of the district officers in the Engineer Department at Large the receipt of this circular letter of Sept. 26 was the first notice of the passage of the provision in question; and prior to its receipt many of the disbursing officers had made reimbursement of payments to notaries and others, for fees for executing affidavits to travel-expense vouchers, as authorized by past practice. All such payments subsequent to Aug. 24, 1912, have been or will be disallowed by the accounting officers, the comptroller having ruled that the provision is mandatory and must be made effective from the date of approval of the act. The result of this is that many of the disbursing officers have been, or will be, called upon to refund the amount of payments made for this purpose before information as to the passage of the legislation reached them.—*Wm. T. Rossell, Chief of Engineers, U. S. Army.* | | |
| That the accounting officers of the Treasury be, and are hereby, authorized and directed to remove any suspensions or disallowances in the accounts of officers of the Corps of Engineers for the temporary hire of motor vehicles, carriages, horses, or other means of transportation, for the use of officers of the Corps of Engineers while traveling under competent orders, in the execution and inspection of works of river and harbor improvement or other work in their charge, at points beyond easy reach of ordinary regular transportation lines, when approved by the Secretary of War as necessary for the public service; and to refund to such officers any sums deposited by them on account of such suspension or disallowances, less any sums drawn by them as mileage for journeys by such means of transportation; and a sum sufficient to make such refunds is hereby appropriated out of any money in the Treasury not otherwise appropriated. | | |
| NOTE.—The Auditor for the War Department has suspended or disallowed certain accounts of officers of the Corps of Engineers for the hire of automobiles, buggies, and other means of transportation needed to reach points which they were required to visit in the discharge of their duties, and which could not be reached by common carriers or by regularly established transportation lines. On appeal to the Comptroller of the Treasury, the action of the auditor was sustained, on the ground that mileage at 7 cents per mile is the only legal form of reimbursement of travel expenses of an officer of the Army under any conditions. When travel is required to points beyond the reach of regular transportation lines, the mileage allowance is an inadequate reimbursement, for the reason that special vehicles must be hired for the trip, at a cost usually considerably in excess of 7 cents per mile. Provision was made in the river and harbor act approved July 25, 1912, for the payment by the United States of the cost of hire of necessary transportation in such cases, but the provision is not retroactive. The intent of the proposed legislation is to remove suspensions and disallowances against officers of the Corps of Engineers for past transactions of this nature, as was done for the Quartermaster's Department, United States Army, by provisions of the Army appropriation act of Mar. 3, 1911.—*Wm. T. Rossell, Chief of Engineers, United States Army.* | | |
| QUARTERMASTER CORPS, UNITED STATES ARMY. | | |
| *Relief of the Southern Express Co.*— | | |
| For payment to the Southern Express Co. for express charges on 25 conical tents, complete, weighing 4,256 pounds, shipped by the Quartermaster's Department May 7, 1909, from Philadelphia, Pa., to Pulaski, Tenn., for use of sufferers from the floods in that State in April, 1909 (*submitted*)..... | $148.96 | |
| NOTE.—This claim is a proper one, and the services were performed by the express company on Quartermaster's Department bill of lading No. 3201, issued by the depot quartermaster, Philadelphia, Pa. It was first presented to the Auditor for the War Department Oct. 5, 1909, with the understanding that it was payable from the balance of appropriation of $250,000, made by joint resolution No. 20, approved May 11, 1908, amended by joint resolution No. 21 of the same date, for "Relief of sufferers from the cyclone in certain Southern States," but favorable consideration was refused on the ground that the appropriation named was not available for the relief of destitute persons rendered homeless or in needy circumstances as a result of the cyclone which occurred in April, 1909. Under date of Nov. 7, 1911, estimate of appropriation required was submitted in due form, with the expectation that the sum of $148.96 would be included in the urgent deficiency bill at the then approaching session of Congress, but the said estimate failed to receive favorable consideration.<br>The Auditor for the War Department in an indorsement of Oct. 9, 1913, says: "There appears to be no doubt as to the justness of the claim submitted by the Southern Express Co., but this office knows of no way by which payment can be made except by direct appropriation made by Congress for that purpose," and with the object in view of obtaining such appropriation this estimate is now submitted in accordance with the instructions of the Secretary of War of Oct. 14, 1913.—*J. B. Aleshire, Major General, U. S. Army, Chief of the Quartermaster Corps.* | | |

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

NOTE.—For details of the following estimates and explanation, see Appendix O.

*Support of National Home for Disabled Volunteer Soldiers—*

Central Branch, at Dayton, Ohio—

For current expenses, namely: Pay of officers and noncommissioned officers of the home, with such exceptions as are hereinafter noted, and their clerks, weighmasters, and orderlies; also payments for chaplains, religious instruction, and entertainment for the members of the home, printers, bookbinders, librarians, musicians, telegraph and telephone operators, guards, janitors, watchmen and fire company; for all property and materials purchased for their use, including repairs not done by the home; for necessary expenditures for articles of amusement, library books, magazines, papers, pictures, musical instruments, and for repairs not done by the home; and for stationery, advertising, legal advice, for payments due heirs of deceased members: *Provided*, That all receipts on account of the effects of deceased members during the fiscal year shall also be available for such payments; and for such other expenditures as can not properly be included under other heads of expenditure (*R. S., p. 937, sec. 4830; acts Mar. 3, 1875, vol. 18, p. 360, sec. 1; Mar. 3, 1879, vol. 20, p. 390, sec. 1; July 5, 1884, vol. 23, p. 121, sec. 4; Mar. 3, 1885, vol. 23, pp. 509, 510, sec. 1; Mar. 2, 1887, vol. 24, p. 444, sec. 1; Mar. 3, 1887, vol. 24, pp. 537, 538, sec. 1; Oct. 2, 1888, vol. 25, p. 540, sec. 1; Aug. 18, 1894, vol. 28, p. 408–412, sec. 1; June 11, 1896, vol. 29, pp. 445–448, sec. 1; May 26, 1900, vol. 31, p. 217, sec. 1; Jan. 28, 1901, vol. 31, p. 745, secs. 1–5; May 29, 1902, vol. 32, p. 282, secs. 1–2; Mar. 3, 1903, vol. 32, pp. 1135–1137, sec. 1; June 30, 1906, vol. 34, pp. 745–749, sec. 1; Mar. 4, 1907, vol. 34, pp. 1351–1356, sec. 1; May 27, 1908, vol. 35, pp. 368–373, sec. 1; Mar. 4, 1909, vol. 35, pp. 1007–1012, sec. 1; June 25, 1910, vol. 36, pp. 732–736, sec. 1; Mar. 4, 1911, vol. 36, pp. 1408–1412, sec. 1; Aug. 24, 1912, vol. 37, p. 449, sec. 1; June 23, 1913, vol. 38, pp. 39–42, sec. 1*)..... $62,000.00

For subsistence, namely: Pay of commissary sergeants, commissary clerks, porters, laborers, bakers, cooks, dishwashers, waiters, and others employed in the subsistence department; the cost of all articles purchased for the regular ration, and the subsistence of civilian employees regularly employed and residing at the branch, their freight, preparation, and serving; aprons, caps, and jackets for kitchen and dining-room employees; of tobacco; of all dining room and kitchen furniture and utensils, bakers' and butchers' tools and appliances and their repair not done by the home (*same acts*)..... 255,000.00

*Statement to accompany estimate under subsistence head of expenditure, Central Branch, National Home for Disabled Volunteer Soldiers, for fiscal year 1914, as required by sec. 6, act approved Aug. 24, 1912 (Stat. 37, p. 487).*

| ESTIMATED SERVICES, FISCAL YEAR 1915. | | EXPENDITURES FOR SERVICES, FISCAL YEAR 1913. | |
|---|---|---|---|
| 1 commissary sergeant, at $30 per month | $360.00 | 1 commissary sergeant, at $30 per month. | $360.00 |
| 1 baker, at $12.50 per month | 150.00 | 1 baker, at $12.50 per month | 150.00 |
| 1 baker, at $15 per month | 180.00 | 1 baker, at $15 per month | 178.00 |
| 3 bakers, at $20 per month | 720.00 | 3 bakers, at $20 per month | 719.33 |
| 1 baker, at $40 per month | 480.00 | 1 baker, at $40 per month | 474.66 |
| 1 baker, at $50 per month | 600.00 | 1 baker, at $50 per month | 600.00 |
| 1 butcher, at $15 per month | 180.00 | 1 butcher, at $15 per month | 180.00 |
| 1 butcher, at $20 per month | 240.00 | 1 butcher, at $20 per month | 240.00 |
| 2 clerks, at $25 per month | 600.00 | 2 clerks, at $20 per month | 480.00 |
| 9 cooks, at $10 per month | 1,080.00 | 9 cooks, at $10 per month | 1,050.03 |
| 4 cooks, at $12.50 per month | 600.00 | 4 cooks, at $12.50 per month | 575.54 |
| 7 cooks, at $15 per month | 1,260.00 | 7 cooks, at $15 per month | 1,218.00 |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *State or Territorial Homes for Disabled Soldiers and Sailors*— | | |
| For continuing aid to State or Territorial homes for the support of disabled volunteer soldiers, in conformity with the act approved Aug. 27, 1888, including all classes of soldiers admissible to the National Home for Disabled Volunteer Soldiers: *Provided*, That no part of this appropriation shall be apportioned to any State or Territorial home that maintains a bar or canteen where intoxicating liquors are sold: *Provided further*, That for any sum or sums collected in any manner from inmates of such State or Territorial homes to be used for the support of said homes a like amount shall be deducted from the aid herein provided for, but this proviso shall not apply to any State or Territorial home into which the wives or widows of soldiers are admitted and maintained (*acts Aug. 27, 1888, vol. 25, p. 450, sec. 1; Aug. 5, 1892, vol. 27, p. 384, sec. 1; June 30, 1906, vol. 34, p. 749, sec. 1; Mar. 4, 1911, vol. 36, p. 1412, sec. 1; June 23, 1913, vol. 38, p. 43, sec. 1*)..... | $1,150,000.00 | $1,200,000.00 |
| *Arrears of Pay, Bounty, etc. (Certified Claims)*— | | |
| For payment of amounts for arrears of pay of two and three year Volunteers, for bounty to Volunteers and their widows and legal heirs, for bounty under the act of July 28, 1866, and for amounts of commutation of rations to prisoners of war in States of the so-called Confederacy, and to soldiers on furlough, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1915 (*act June 23, 1913, vol. 38, p. 43, sec. 1*)..... | 50,000.00 | 25,000.00 |
| *Pay, etc., of the Army, War with Spain (Certified Claims)*— | | |
| For payment of amounts for arrears of pay and allowances on account of service of officers and men of the Army during the War with Spain and in the Philippine Islands that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1915 and that are chargeable to the appropriations that have been carried to the surplus fund (*act June 23, 1913, vol. 38, p. 43, sec. 1*)..... | 10,000.00 | 5,000.00 |
| NOTE.—Owing to the limitation in the deficiency act of Dec. 22, 1911 (37 Stat., 49), barring all claims payable from this appropriation unless filed on or before Dec. 31, 1914, it is anticipated that there will be an increase in the number of claims filed prior to that date, hence the increase asked for. | | |
| Total Miscellaneous under War Department..... | 6,160,718.81 | 5,827,645.00 |
| **UNDER THE DEPARTMENT OF THE INTERIOR.** | | |
| **PUBLIC LAND SERVICE.** | | |
| *Salaries and Commissions of Registers and Receivers*— | | |
| For salaries and commissions of registers of district land offices and receivers of public moneys at district land offices, at not exceeding $3,000 per annum each (reduction of $10,000 submitted) (*R. S., p. 392, sec. 2237; R. S., p. 393, secs. 2238–2240; act June 23, 1913, vol. 38, p. 45, sec. 1*)..... | 550,000.00 | 560,000.00 |
| Persons intended to be employed: Registers..... 99; Receivers..... 99; Rate of compensation to each not to exceed. $3,000 — Persons employed during fiscal year 1912: Registers..... 102; Receivers..... 102; Rate of compensation paid each not exceeding. $3,000 | | |
| NOTE.—The compensation of registers and receivers, including salaries, fees, and commissions, is fixed by law at not to exceed $3,000 per annum each. The total compensation earned and paid said officers during the fiscal year 1913 amounted to $535,000. In the estimate submitted provision is made for any new offices that may be established. | | |
| *Contingent Expenses of Land Offices*— | | |
| For clerk hire, rent, and other incidental expenses of the district land offices, including the exchange of typewriters [$320,000], *$350,000: Provided*, That this appropriation shall be available for the payment of per diem, in lieu of subsistence, not exceeding $4 per day, of clerks detailed to examine the books and management of district land offices and to assist in the operation of said offices, and in the opening of new land offices and reservations while on such duty, and for actual necessary traveling expenses of said clerks, including necessary sleeping-car fares: *Provided further*, That no expenses chargeable to the Government shall be incurred by registers and receivers in the conduct of local land offices except upon previous specific authorization by the Commissioner of the General Land Office (*act June 23, 1913, vol. 38, p. 45, sec. 1*)..... $320,000.00<br>Increase (see explanatory note p. 558) (*submitted*)..... 30,000.00 | 350,000.00 | 320,000.00 |
| Persons intended to be employed (244): 1 clerk, at $2,400 (in Alaska). 7 clerks, at $1,500 each. 32 clerks, at $1,440 each. 20 clerks, at $1,380 each. 30 clerks, at $1,320 each. 21 clerks, at $1,260 each. 44 clerks, at $1,200 each. 15 clerks, at $1,140 each. 11 clerks, at $1,080 each. 13 clerks, at $1,020 each. 22 clerks, at $960 each. 28 clerks, at $900 each. — 244 Total..... $290,680.00 | | |
| Persons employed during fiscal year 1913 (245): 1 clerk, at $2,400 (in Alaska). 4 clerks, at $1,500 each. 30 clerks, at $1,440 each. 17 clerks, at $1,380 each. 34 clerks, at $1,320 each. 15 clerks, at $1,260 each. 51 clerks, at $1,200 each. 11 clerks, at $1,140 each. 12 clerks, at $1,080 each. 10 clerks, at $1,020 each. 1 clerk, at $1,000. 16 clerks, at $960 each. 43 clerks, at $900 each. — 245 Total..... $284,178.71 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

*Contingent Expenses of Land Offices*—Continued.

Contemplated expenditures for objects other than clerical hire:

| | | | |
|---|---|---|---|
| Rent | $35,000.00 | Expended for detailed clerks | $1,465.27 |
| Registration | 11,000.00 | Expended for rent | 41,906.90 |
| Freight, drayage, and advertising | 1,350.00 | Expended for registration | 11,376.50 |
| Detailed clerks | 2,500.00 | Expended for freight, drayage, and advertising | 1,352.00 |
| Incidentals: Furniture, binding records, typewriters, safes, etc. | 9,470.00 | Incidentals: Furniture, binding records, typewriters, safes, etc. | 19,058.41 |
| | 350,000.00 | Total expenditures | 359,339.79 |
| | | Total appropriation | 410,000.00 |

NOTE.—To provide for the necessary clerical assistance, rent, registration, and other urgent and absolute essentials of the service, and prevent a congestion of the public business, as well as to avoid annoyance and delay to settlers in the adjustment of their entries, the full amount of this estimate will be required for the operation of the local land offices for the fiscal year 1915. The estimate is $30,000 in excess of the appropriation now available for the current fiscal year 1914, but $60,000 less than the appropriation provided for the fiscal year 1913, just closed. The amount provided for the current year is undoubtedly inadequate, and a deficiency of at least $30,000 will be necessary in order to meet the urgent and absolute needs of the service for the current fiscal year.

*Expenses of Depositing Public Moneys*—

For expenses of depositing money received from the disposal of public lands, by registered mail, bank exchange, or otherwise, as may be directed by the Secretary of the Interior, and under rules to be approved by the Secretary of the Treasury (*R. S., p. 713, sec. 3617; act June 23, 1913, vol. 38, p. 45, sec. 1*)..... $1,000.00 | $1,000.00

*Protecting Public Lands, Timber, etc.*—

Depredations on public timber, protecting public lands, and settlement of claims for swamp land and swamp-land indemnity: To meet the expenses of protecting timber on the public lands, and for the more efficient execution of the law and rules relating to the cutting thereof; of protecting public lands from illegal and fraudulent entry or appropriation, and of adjusting claims for swamp lands, and indemnity for swamp lands, including not exceeding $15,000 for clerical services in bringing up and making current the work of the General Land Office, and not exceeding $25,000 additional for expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law, $500,000: *Provided*, That agents and others employed under this appropriation shall be allowed per diem, subject to such rules and regulations as the Secretary of the Interior may prescribe, in lieu of subsistence, at a rate not exceeding $3 per day each and actual necessary expenses for transportation, including necessary sleeping-car fares; except when agents are employed in the District of Alaska they may be allowed not exceeding $6 per day each, in lieu of subsistence: *Provided further, That not exceeding $10,000 of this appropriation shall be available for the purchase of two motor boats for use of the special agents and other representatives of the General Land Office operating in Alaska (act June 23, 1913, vol. 38, p. 45, sec. 1)*..... 500,000.00 | 500,000.00

NOTE.—In the wording of the proposed items of appropriation the matter "italicized" is submitted as new law. (See explanatory note following.)

Persons intended to be employed (204):
- 1 chief of field service, at $3,000.
- Chiefs of field divisions—
  - 2, at $2,400 each.
  - 1, at $2,220.
  - 4, at $2,100 each.
  - 4, at $1,860 each.
  - 2, at $1,800 each.
- Special agents:
  - 1, at $2,000.
  - 1, at $1,860.
  - 11, at $1,800 each.
  - 2, at $1,620 each.
  - 1, at $1,600.
  - 4, at $1,560 each.
  - 17, at $1,500 each.
  - 10, at $1,440 each.
  - 27, at $1,320 each.
  - 11, at $1,200 each.
  - 1, at $900.
- Mineral inspectors:
  - 7, at $1,800 each.
  - 2, at $1,620 each.
  - 10, at $1,500 each.
  - 2, at $1,440 each.
  - 19, at $1,320 each.
- Timber cruisers:
  - 1, at $1,800.
  - 1, at $1,440.
  - 12, at $1,320 each.
  - 1, at $1,220.
  - 2, at $1,200 each.
  - 1, at $1,080.
- Special disbursing agents:
  - 2, at $1,800 each.
  - 1, at $1,620.

Persons employed during fiscal year 1913 (224):
- 1 chief of field service, at $3,000.
- Chiefs of field divisions—
  - 2, at $2,400 each.
  - 1, at $2,220.
  - 4, at $2,100 each.
  - 4, at $1,860 each.
  - 2, at $1,800 each.
- Special agents:
  - 1, at $2,000.
  - 1, at $1,860.
  - 11, at $1,800 each.
  - 2, at $1,620 each.
  - 1, at $1,600.
  - 4, at $1,560 each.
  - 17, at $1,500 each.
  - 10, at $1,440 each.
  - 27, at $1,320 each.
  - 11, at $1,200 each.
  - 1, at $900.
- Mineral inspectors:
  - 7, at $1,800 each.
  - 2, at $1,620 each.
  - 9, at $1,500 each.
  - 2, at $1,440 each.
  - 17, at $1,320 each.
- Timber cruisers:
  - 1, at $1,800.
  - 1, at $1,440.
  - 12, at $1,320 each.
  - 1, at $1,220.
  - 2, at $1,200 each.
  - 1, at $1,080.
- Practical miners:
  - 1, at $1,500.
  - 2, at $1,320 each.
- Special disbursing agents:
  - 2, at $1,800 each.
  - 1, at $1,620.

| NOTE.—The provision that $10,000 be made available for the purchase of two motor boats is inserted for the following reasons: During the open season in Alaska, approximately 4 months, the agents operating in Alaska are compelled to cover a vast expanse of territory in connection with the investigation of the unlawful cutting of timber from the public domain, and of the inspection of timber cutting under permits authorized by the act of May 14, 1898 (30 Stats., 414), and of alleged illegal entries. The only mode of travel at this time of the year is by the Yukon River and its tributaries, which are navigable for ordinary river boats for approximately 4,000 miles. At the present time the agents depend entirely on the regular scheduled river boats to transport them from one point to another, and it has been found that this is a very expensive means of travel, particularly for the reason that a great deal of time is consumed in waiting for the regular boats to arrive at given points after the business engaged upon has been completed. Then again, it is very often necessary to conduct investigations of timber depredations in localities which are at some distance from the usual traveled routes, in which event it becomes necessary to charter a small boat at an exorbitant rate to enable the agent to reach the desired place, conduct his investigations, and return to his starting point. By having a motor boat available for his use at all times during the open seasons an agent is enabled to cover a great amount of territory and thus conduct his investigations more expeditiously than is possible under existing conditions. It has been ascertained that suitable motor boats can be built and equipped especially for this service at a cost of approximately $5,000 each. The special agents operating in Alaska are allowed by law a per diem of $6, in lieu of subsistence, in addition to the salary paid them and it is a matter of economical administration that they be furnished all necessary equipment to enable them to prosecute their official duties expeditiously and not be compelled to wait as long as a week or 10 days for a regularly scheduled river boat or accept the alternative of chartering a privately owned boat at an exorbitant rental. | | |
| *Expenses of Hearings in Land Entries*—<br>For expenses of hearings or other proceedings held by order of the Commissioner of the General Land Office to determine the character of lands; whether alleged fraudulent entries are of that character or have been made in compliance with law; and of hearings in disbarment proceedings (*act June 23, 1913, vol. 38, p. 45, sec. 1*) ..... | $35,000.00 | $35,000.00 |
| *Reproducing Plats of Surveys, General Land Office*—<br>To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file, and other plats constituting a part of the records of said office, to furnish local land offices with the same, and for reproducing by photolithography original plats of surveys prepared in the offices of surveyors general (*act June 23, 1913, vol. 38, p. 45, sec. 1*) ..... | 5,000.00 | 5,000.00 |
| *Restoration of Lands in Forest Reserves*—<br>To enable the Secretary of the Interior to meet the expenses of advertising the restoration to the public domain of lands in forest reserves, or of lands temporarily withdrawn for forest reserve purposes (*acts June 4, 1897, vol. 30, p. 36, sec. 1; June 11, 1906, vol. 34, p. 233, sec. 1; June 23, 1913, vol. 38, p. 45, sec. 1*) ..... | 16,000.00 | 16,000.00 |
| *Opening Indian Reservations (Reimbursable)*—<br>To meet the expenses pertaining to the opening to entry and settlement of such Indian reservation lands as may be opened during the fiscal year 1915: *Provided*, That the expenses pertaining to the opening of each of said reservations and paid for out of this appropriation shall be reimbursed to the United States from the money received from the sale of the lands embraced in said reservations, respectively (*act June 23, 1913, vol. 38, p. 45, 46, sec. 1*) ..... | 20,000.00 | 20,000.00 |
| Total Public Land Service, exclusive of surveying ..... | 1,477,000.00 | 1,457,000.00 |
| SURVEYING THE PUBLIC LANDS. | | |
| *Surveying the Public Lands*—<br>For surveys and resurveys of public lands, under the supervision of the Commissioner of the General Land Office and direction of the Secretary of the Interior, $700,000: *Provided*, That in expending this appropriation preference shall be given, first, in favor of surveying townships occupied, in whole or in part, by actual settlers and of lands granted to the States by the act approved Feb. 22, 1889, and the acts approved July 3 and July 10, 1890, and to surveying under such other acts as provide for land grants to the several States and Territories, | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Surveying the Public Lands*—Continued. and such indemnity lands as the several States and Territories may be entitled to in lieu of lands granted them for educational and other purposes which may have been sold or included in some reservation or otherwise disposed of, except railroad land grants, and other surveys shall include lands adapted to agriculture and lands deemed advisable to survey on account of availability for irrigation or dry farming, lines of reservations, and lands within boundaries of forest reservations: *Provided, That this appropriation shall also be available for surveys and resurveys of lands within abandoned military reservations, lighthouse, and naval reserves, transferred to the control of the Secretary of the Interior under the provisions of an act of Congress approved July 5, 1884 (23 Stat., 103), and any law prior thereto.* The surveys and resurveys *provided for in this appropriation* to be made by such competent surveyors as the Secretary of the Interior may select, at such compensation, not exceeding $200 per month each, as he may prescribe, except that the Secretary of the Interior may appoint not to exceed two supervisors of surveys, whose compensation shall not exceed $250 per month each, and except in the District of Alaska, where a compensation not exceeding $10 per day may be allowed such surveyors and such per diem allowance, in lieu of subsistence, not exceeding $3, as he may prescribe, and actual necessary expenses for transportation, including necessary sleeping-car fares, said per diem and traveling expenses to be allowed to all surveyors employed hereunder and to such clerks who are competent surveyors who may be detailed to make surveys, resurveys, or examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, [coal fields,] and timber districts, and for making, by such competent surveyors, fragmentary surveys, [examination of unaccepted contract surveys heretofore made] and such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States: *Provided further*, That the sum of not exceeding 10 per cent of the amount hereby appropriated may be expended by the Commissioner of the General Land Office, with the approval of the Secretary of the Interior, for the purchase of metal or other equally durable monuments to be used for public-land survey corners wherever practicable: [*Provided further*, So much of the above amount, not exceeding $25,000, as may be necessary, is hereby made available to complete the surveys of the unsurveyed portion of the lands belonging to the United States within the limits of the grant to the Southern Pacific Railway Co., in San Bernardino County, Cal., including the necessary office work in the Surveyor General's Office connected therewith] (*R. S., p. 390, sec. 2223; act June 23, 1913, vol. 38, p. 46, sec. 1*)..... | $700,000.00 | $700,000.00 |

Persons intended to be employed (154):
Supervisors of surveys:
1, at $250 per month.
1, at $225 per month.

Surveyors:
1, at $10 per day (Alaska).
3, at $200 per month each.
4, at $182.50 per month each.
26, at $150 per month each.
24, at $137.50 per month each.
32, at $125 per month each.
15, at $112.50 per month each.
41, at $100 per month each.
1, at $80 per month.
Mineral inspectors:
2, at $150 per month each.
1, at $135 per month.
1, at $110 per month.
Clerks to supervisors:
1, at $135 per month.
Total employees, 154.

Based on the number of "regular employees" now in the service. No "field assistance" are included in the reported, as it is impracticable to state in advance the number of such assistants that may be employed during any one year. During the past fiscal year 1,019 assistants were employed; their services, however, were temporary, and they were engaged from time to time only as the exigencies of the work demanded.

Amount intended for salaries, per diem allowance, traveling, and other expenses of field employees, including field equipment .... $630,000.00
For purchase of metal monuments ..... 70,000.00
Total..... 700,000.00

Persons employed during fiscal year 1913 (1,168):
Supervisors of surveys:
2, at $250 per month each.
Assistant supervisors:
[4, at $200 per month each.
[4, at $182.50 per month each.
2, at $152 per month each.
[Surveyors:
2, at $10 per day each (Alaska).
1, at $175 per month.
8, at $152 per month each.
10, at $150 per month each.
17, at $137.50 per month each.
25, at $125 per month each.
4, at $112.50 per month each.
Transitmen:
15, at $150 per month each.
5, at $125 per month each.
4, at $112.50 per month each.
36, at $100 per month each.
4, at $80 per month each.
Clerks to supervisors:
1, at $1,500 per annum.
1, at $900 per annum.
Field assistants:
18, at $150 per month each.
7, at $105 per month each.
14, at $90 per month each.
6, at $82.50 per month each.
3, at $75 per month each.
307, at $60 per month each.
50, at $55 per month each.
27, at $52.50 per month each.
208, at $50 per month each.
377, at $45 per month each.
2, at $40 per month each.
Mineral inspectors:
3, at $1,800 per annum each.
1, at $1,320 per annum.
Total employees, 1,168.

Expended on account of salaries, per diem allowance, traveling, and other expenses [of field employees, including field equipment..... $574,650.00
Expenses for purchase of metal monuments. 70,000.00

[ALTERNATIVE ESTIMATE.]

NOTE.—It is recommended that in the foregoing estimate for surveying the public lands the appropriation be increased $100,000 and the wording of the appropriation act, as now in force, be modified to read as follows:

*Surveying the Public Lands—*

For surveys and resurveys of public lands, under the supervision of the Commissioner of the General Land Office and direction of the Secretary of the Interior, [$700,000] *$800,000: Provided*, That in expending this appropriation preference shall be given, first, in favor of surveying townships occupied, in whole or in part, by actual settlers and of lands granted to the States by the act approved February 22, 1889, and the acts approved July 3 and July 10, 1890, and to surveying under such other acts as provide for land grants to the several States and Territories, and such indemnity lands as the several States and Territories may be entitled to in lieu of lands granted them for educational and other purposes which may have been sold or included in some reservation or otherwise disposed of, except railroad land grants, and other surveys shall include lands adapted to agriculture and lands deemed advisable to survey on account of availability for irrigation or dry farming, lines of reservations, and lands within boundaries of forest reservations: *Provided*, That this appropriation shall also be available for surveys and resurveys of lands within abandoned military reservations, lighthouse, and naval reserves, transferred to the control of the Secretary of the Interior under the provisions of an act of Congress approved July 5, 1884 (23 Stat., 103), and any law prior thereto, and for such surveys as may be applied for under the deposit system by settlers, persons, or associations lawfully possessed of coal lands, or the owners or grantees of public lands in pursuance to the provisions of sections 2401, 2402, and 2403, United States Revised Statutes, as amended by the act of August 20, 1894 (28 Stat., 423), the act of August 18, 1894 (28 Stat., 394), the act of February 27, 1899 (30 Stat., 892), and the act of June 25, 1910 (36 Stat., 834), in all cases where the cost of the surveys applied for has been deposited to the credit of the United States by the applicants as provided in the aforesaid statutes. The surveys and resurveys provided for in this appropriation to be made by such competent surveyors as the Secretary of the Interior may select, at such compensation, not exceeding $200 per month each, as he may prescribe, except that the Secretary of the Interior may appoint not to exceed two supervisors of surveys, whose compensation shall not exceed $250 per month each, and except in the District of Alaska, where a compensation not exceeding $10 per day may be allowed such surveyors and such per diem allowance, in lieu of subsistence, not exceeding $3, as he may prescribe, and actual necessary expenses for transportation, including necessary sleeping-car fares, said per diem and traveling expenses to be allowed to all surveyors employed hereunder and to such clerks who are competent surveyors who may be detailed to make surveys, resurveys, or examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, [coal fields] and timber districts, and for making, by such competent surveyors, fragmentary surveys, [examination of unexcepted contract surveys heretofore made] and such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States: *Provided further*, That the sum of not exceeding 10 per cent of the amount hereby appropriated may be expended by the Commissioner of the General Land Office, with the approval of the Secretary of the Interior, for the purchase of metal or other equally durable monuments to be used for public-land survey corners wherever practicable: *Provided further*, That all moneys deposited after June 30, 1914, by applicants to cover the cost of surveys applied for under the provisions of the aforesaid sections 2401, 2402, and 2403, United States Revised Statutes, as amended by the act of August 20, 1894, the act of August 18, 1894, the act of February 27, 1899, and the act of June 25, 1910, shall be covered into the Treasury of the United States as miscellaneous receipts to reimburse the United States for the amounts paid out or to be paid out of the annual appropriation for the survey of public lands, and after reserving the sum of $10,000 under the indefinite appropriation entitled "Deposits by individuals for surveying public lands," and the sum of $10,000 under the indefinite appropriation entitled "Completing surveys within railroad land grants" in order to provide for the payment of expenses properly incurred thereunder prior to July 1, 1914, which appropriations were created by the moneys deposited under the provisions of the aforesaid statutes, and by the act of July 2, 1864 (13 Stat., 365, sec. 21), the Secretary of the Treasury is hereby directed to cover into the Treasury on June 30, 1914, as miscellaneous receipts all balances then remaining on the books of the Treasury or in the possession of fiscal officers under the aforesaid appropriations: *Provided further*, That the indefinite appropriation for "Surveying within land grants (reimbursable)" made by the act approved March 2, 1895 (28 Stat., 937-8), is hereby terminated as an appropriation from and after June 30, 1914, in the same manner and under the same conditions as any annual appropriation for the fiscal year ending June 30, 1914, and any amounts that shall be reimbursed to that appropriation by railroad companies or otherwise under the terms of the act shall thereafter be covered into the Treasury to the credit of miscellaneous receipts: *Provided further*, That should the deposits covered into the Treasury to the credit of the United States, during the fiscal year ending June 30, 1914, on account of surveys applied for by settlers or others under the provisions of the statutes referred to herein exceed the sum of $100,000 an amount equal to such excess deposits made over the said $100,000 is hereby appropriated out of any moneys in the Treasury not otherwise appropriated, and the same shall be placed to the credit of this appropriation and be available in addition thereto for the execution of surveys during the fiscal year ending June 30, 1915: *Provided further*, That after June 30, 1914, all excess amounts of deposits for surveys as are authorized to be repaid to the depositors by section 2402, United States Revised Statutes, the act of August 18, 1894, the act of February 24, 1909, and the act of June 25, 1910, shall be paid out of any moneys in the Treasury not otherwise appropriated, $800,000.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|

EXPLANATORY NOTE.—The said modification is required in order to make the said appropriation hereafter available for the execution of all classes of surveys of public lands applied for under the jurisdiction of this bureau, thereby dispensing with the numerous appropriations under which the surveys are now being made and confining all of the surveys in the future to the one general appropriation estimated for. In order to carry into effect the provisions referred to the increase of $100,000 asked for herein will be required for the service. In the execution of surveys under the one general appropriation for the purpose much better progress could be made with less confusion and less expense, and the matter of accounting would be greatly simplified.

Surveys are now made under appropriations as follows:

"Surveying the public lands." (Annual appropriation.)

"Surveying within land grants." (Reimbursable; indefinite appropriation, act of Mar. 2, 1895.)

"Survey, appraisal, and sale of abandoned military reservations." (Annual appropriation.)

"Completing surveys within railroad land grants." (Indefinite appropriation created from deposits made by railroads under the act of June 25, 1910.)

"Deposits by individuals for surveying the public lands." (Indefinite appropriation created from deposits made by settlers, persons, or associations lawfully possessed of coal lands, or the owners or grantees of public lands under the provisions of sections 2401, 2402, and 2403, U. S. Rev. Stats., as amended by the act of Aug. 20, 1894, by the act of Aug. 18, 1894, the act of Feb. 27, 1899, and the act of July 2, 1864.)

Should the wording of the annual appropriation for "Surveying the public lands" be amended in accordance with the provisions as inserted in this estimate, the balances remaining on June 30, 1914, to the credit of all other appropriations for surveys referred to herein would be covered into the Treasury as unappropriated moneys. The amount now remaining in the Treasury to the credit of the indefinite appropriation "Deposits by individuals for surveying public lands," is approximately $750,000 in excess of the liabilities chargeable thereto. This great excess or surplus amount of funds represents the accumulation of deposits made by settlers over and above the actual cost of surveys applied for by them since the passage of the act of May 30, 1862. (Sec. 2401, U. S. Rev. Stats.) While section 2402, said statutes, provides for the repayment of such excess deposits, only a small percentage of the depositors make application for such repayments, they having preferred under the provisions of section 2403, said statutes, to use the certificates issued for the deposits for their face value in payment of the purchase price of the lands settled upon by them. The Government having redeemed the certificates for their face value in land under the provisions of said section 2403, the accumulated amount of the deposits referred to has therefore become public moneys and should be covered into the Treasury as such.

The provision for "Inspecting coal fields," now in force under the appropriation for "Surveying the public lands," has been eliminated in the estimate submitted. The work in connection with such coal inspections is performed under the jurisdiction of the U. S. Geological Survey, and the director of said bureau states in letter dated July 18, 1913, that an appropriation for the purpose for the fiscal year 1915 has been included in the estimates submitted by him.

The increase of $100,000 is merely nominal, it being required only to defray the costs of surveys applied for by applicants under the special-deposit system in such cases only where the entire cost of the surveys applied for has been deposited in the Treasury in advance by the applicants.

The words included in brackets should be omitted.

NOTE.—In the wording of the proposed items of appropriation all matter "italicized" is submitted as new law. That inclosed by "brackets" is to be omitted.

The necessity for the above second proviso is explained as follows: The act of June 25, 1910 (36 Stats., p. 834), provided for the completion of all unsurveyed land within the limits of all land grant railroads but carried no appropriation therefor, the expense to be borne jointly by the railroad companies and the Government. The work has been carried on by use of the fund appropriated by the act of Aug. 18, 1894 (28 Stats., 395), as amended by the act of Mar. 2, 1895 (28 Stats., 937), for the survey of lands within railroad land grants (reimbursable). The railroad company, however, was only granted every other odd section of land within the grant limits in San Bernardino County, Cal., and therefore the comptroller decided that the reimbursement to this appropriation, "Surveying within land grants (reimbursable)," caused by the expenditure of any portion thereof for surveys of the Government's part of these lands, would apply only to an amount equal to that paid by the railroad company as reimbursement for the cost of the survey of its lands, so that as $50,013.60 represents the total estimated cost of the completion of the survey of the grant lands in said county, the railroad company will be required to furnish the cost of surveying only their portion or one-quarter of the total 714,480 acres, and under the provisions of the act this will be demanded of them to the extent of $13,069. The cost of the Government's three-quarters will be $36,944.60. When the expenditure of this sum has been certified to the Treasury there can be reimbursed to the appropriation the amount of the railroad company's deposit, or $13,069. In consideration of the fact that the appropriation "Surveying within land grants (reimbursable)" will be needed to supply funds for the completion of surveys within railroad grants in other States than California, it is recommended that the regular appropriation be made available for these railroad surveys in San Bernardino County, Cal., to meet a situation which does not exist in any other part of the United States. This is urged in view of the comptroller's opinion that where there is an existing available balance in an appropriation for the purpose the regular appropriation can not be used.

Inasmuch as the allotment of the fund, "Deposits by individuals for surveying public lands" for repayments, Central Pacific and Union Pacific Railroad Companies, act July 2, 1864 (13 Stats., 365), is available for office work only during the fiscal year 1914, and of the further fact that the allotment in this deposit fund for individuals under section 2401, U. S. Rev. Stat., the allotment for railroad companies under the act of Feb. 27, 1899 (30 Stats., 892), and the allotment for individuals (mineral work, see section 2334, U. S. Rev. Stats., and par. 91 of the mining regulations), are not authorized by law for office work, although they are being used for same, it is recommended that the following legislation be enacted to make these deposits available for office work, so that the depositors and railroad companies may bear the just cost of such work, and also that the appropriation "Surveying within land grants (reimbursable)," $100,000, by the act of Mar. 2, 1895 (28 Stat., 937), which is now only available for office work until the close of the fiscal year 1914, be made permanently available for that work:

From and after July 1, 1914, the appropriation of $100,000, made by the act of Mar. 2, 1895 (28 Stat., 937), known as "Surveying within land grants (reimbursable)," shall be available for office work, and deposits made in pursuance of the provisions of sections 2401 et seq., United States Revised Statutes, the act of Aug. 20, 1894 (28 Stat., 423), the act of Feb. 27, 1899 (30 Stat., 892), the act of June 25, 1910 (36 Stat., 834), sections 2334 and 2325, United States Revised Statutes and regulations thereunder, and the act of July 2, 1864 (13 Stats., 365), shall from and after July 1, 1914, be available for office work.

*Completing Field Notes of Surveys in Minnesota and North Dakota—*

To complete the drafting and field-note writing pertaining to the surveys in the States of Minnesota and North Dakota caused by the discontinuance of the offices of the surveyors general in those States (*act June 23, 1913, vol. 38, p. 47, sec. 1*)..... $2,920.00

OMITTED.—Provision for the 2 clerks employed hereunder is made in the estimates for "Salaries, General Land Office," 1 at $1,600 and 1 at $1,400. In event the 2 additional clerks are not appropriated for under "Salaries, General Land Office," then the amount of this special appropriation of $2,920 should be restored.

*Appraisal and Sale of Abandoned Military Reservations—*

For necessary expenses of [survey,] appraisal and sale of abandoned military reservations, *lighthouse and naval reserves* transferred to the control of the Secretary of the Interior under the provisions of an act of Congress approved July 5, 1884, and any law prior thereto, including a custodian of the ruin of Casa Grande (*acts July 5, 1884, vol. 23, p. 103, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*)..... $3,000.00 10,000.00

NOTE.—The reduction of $7,000 recommended in this appropriation is caused by the elimination of the provision heretofore contained in the appropriation act for the survey of abandoned military reservations. Provision has been made in the estimate submitted for "Surveying the public lands" for the survey of such reservations. In the event that the surveys are not provided for under "Surveying the public lands," then this estimate should be restored to $10,000 and the word "Survey" added before the word "appraisal."

In the wording of the proposed items of appropriation the matter italicized is submitted as new law. That inclosed by brackets is to be omitted.

| | | 29,900.00 | 29,900.00 |

NOTE.—The following estimates for the Geological Survey are submitted in compliance with the provision contained in the sundry civil act for fiscal year ended June 30, 1903 (32 Stat., p. 455), namely:

"Hereafter, in lieu of the specific estimates for personal services now required by law, there shall be submitted in the annual Book of Estimates, under each item of appropriation under 'General expenses of the Geological Survey' notes showing the number of persons employed and the rate of compensation paid to each from each of said appropriations during the fiscal year next preceding the fiscal year for which estimates are submitted."

In the case of several appropriations, the periods for which the compensation of some employees is paid by cooperating States can not be determined in advance.

*General Expenses, Geological Survey—*

General expenses: For every expenditure requisite for and incident to the authorized work of the Geological Survey, including personal services in the District of Columbia, and in the field, to be expended under the regulations from time to time prescribed by the Secretary of the Interior, and under the following heads, namely:

Pay of skilled laborers and various temporary employees (*acts Mar. 3, 1879, vol. 20, p. 394, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*) ... 20,000.00 | 20,000.00

*Skilled laborers and various temporary employees.*

| | |
|---|---|
| One assistant electrical engineer | $1,800.00 |
| One engineer | 1,200.00 |
| One carpenter-cabinetmaker | 1,080.00 |
| One skilled laborer | 1,020.00 |
| One laborer (classified) | 960.00 |
| Two laborers (classified), at $900 per annum | 1,800.00 |
| One skilled laborer | 900.00 |
| One fireman | 900.00 |
| One skilled laborer | 840.00 |
| One skilled laborer | 780.00 |
| Three firemen, at $720 per annum | 2,160.00 |
| One laborer (classified) | 720.00 |
| Two laborers, at $720 per annum | 1,440.00 |
| One laborer | 660.00 |
| Two laborers, at $600 per annum | 1,200.00 |
| One laborer | 540.00 |
| One messenger boy | 540.00 |

| | | | |
|---|---|---|---|
| For geologic surveys in various portions of the United States, one-half to be immediately available (*acts Mar. 3, 1879, vol. 20, p. 394, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*) | $300,000.00 | | |
| Increase (*submitted*) | 100,000.00 | | |
| | | $400,000.00 | $300,000.00 |

NOTE.—Public-land legislation within the past few years has necessitated a coordination of the scientific work of the Geological Survey with the administrative functions of the rest of the Department of the Interior, resulting in demands upon this field service that require prompt and adequate attention. The classification of the public lands has been put upon a practical working basis, but the progress urged by the public can not be attained except by increase in number of geologic field parties.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *General Expenses, Geological Survey*—Continued. | | | |
| NOTE.—Phenomenal growth of the mineral industry during the past eight years has brought an almost proportionate increase in the correspondence and other clerical work connected with the preparation of the annual report on the mineral resources. At the same time there has been a raising of the standard as to both the scientific and the statistical phases of the work, together with a large gain in promptness of publication. In the same period, however, there has been no increase in appropriation, and further advance is now difficult, if indeed the present standard even can be kept up, at the current appropriation. | | | |
| *Mineral resources of the United States.* | | | |
| One statistician | $4,000.00 | | |
| One geologist | 3,600.00 | | |
| One geologist | 3,000.00 | | |
| One statistician | 3,000.00 | | |
| Two geologists, at $2,700 per annum | 5,400.00 | | |
| One geologist, at $2,700 per annum (9 months) | 2,025.00 | | |
| One geologist, at $2,400 per annum (4 months) | 800.00 | | |
| One statistician | 2,400.00 | | |
| One statistician | 2,280.00 | | |
| One statistician | 2,160.00 | | |
| One statistician | 1,980.00 | | |
| One senior clerk, at $1,980 per annum (2 months) | 330.00 | | |
| One statistician | 1,740.00 | | |
| One assistant statistician | 1,440.00 | | |
| Two statistical experts, at $1,440 per annum | 2,880.00 | | |
| Six junior clerks, at $1,440 per annum | 8,640.00 | | |
| Four junior clerks, at $1,260 per annum | 5,040.00 | | |
| One statistician | 1,260.00 | | |
| One junior clerk | 1,200.00 | | |
| Four under clerks, at $1,080 per annum | 4,320.00 | | |
| One under clerk | 1,020.00 | | |
| One under clerk | 960.00 | | |
| One editorial assistant | 900.00 | | |
| One under clerk, at $900 per annum (4 months) | 300.00 | | |
| One under clerk | 720.00 | | |
| One skilled laborer | 1,080.00 | | |
| One messenger | 840.00 | | |
| One messenger boy | 480.00 | | |
| One messenger boy | 300.00 | | |
| One clerk | 2,000.00 | | |
| One clerk | 1,500.00 | | |
| One under clerk | 1,140.00 | | |
| One lieutenant of watch | 840.00 | | |
| One watchman | 720.00 | | |
| One messenger boy | 300.00 | | |
| Total | 70,595.00 | | |
| For gauging the streams and determining the water supply of the United States, and for the investigation of underground currents and artesian wells and the preparation of reports upon the best methods of utilizing the water resources (*acts Aug. 18, 1894, vol. 28, p. 398, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*) | $150,000.00 | | |
| Increase (*submitted*) | 50,000.00 | | |
| | | $200,000.00 | $150,000.00 |
| NOTE.—Since 1906, when this appropriation item was $200,000, the work of investigating the Nation's water resources has been in arrears. The contributions from this branch to public-land administration have become large; but the many demands for authoritative data that can not be furnished are embarrassing and make apparent the inadequateness of the current appropriation. The thorough investigation of the flood problem in the Ohio Basin, for instance, has been impossible from lack of funds. | | | |
| *Water resources.* | | | |
| One hydraulic engineer | $4,000.00 | | |
| One hydraulic engineer | 3,600.00 | | |
| Three hydraulic engineers, at $2,700 per annum | 8,100.00 | | |
| One engineer | 2,700.00 | | |
| Four hydraulic engineers, at $2,400 per annum | 9,600.00 | | |
| One chemist | 2,400.00 | | |
| Two assistant engineers, at $2,160 per annum | 4,320.00 | | |
| Two assistant engineers, at $1,980 per annum | 3,960.00 | | |

| One messenger | 840.00 | | |
| One messenger | 720.00 | | |
| One under clerk | 600.00 | | |
| One messenger boy | 420.00 | | |
| One messenger boy | 300.00 | | |
| Total | 153,959.00 | | |
| For the purchase of necessary books for the library, including directories and professional and scientific periodicals needed for statistical purposes, including payment in advance for subscriptions to publications (*acts Mar. 3, 1879, vol. 20, p. 394, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*) | | $2,000.00 | $2,000.00 |
| For engraving and printing the geologic maps (*acts Aug. 4, 1886, vol. 24, p. 255, sec. 1; June 23, 1913, vol. 38, p. 47, sec. 1*) | $110,000.00 | | |
| Increase (*submitted*) | 10,000.00 | | |
| | | 120,000.00 | 110,000.00 |

NOTE.—The popularity of the maps engraved and printed under this item is shown by the steadily increasing sales. The returns to the United States Treasury from sales of maps the past fiscal year aggregated nearly $29,000, an increase of about $7,500 over last year. There has been also a large increase in the map distribution to Congress and the departments. This increase in current printing is resulting in the engraving of new work getting in arrears, so that an increase in funds becomes necessary.

|---|---|---|

*General Expenses, Geological Survey*—Continued.

DEPARTMENT OF THE INTERIOR,
OFFICE OF THE DIRECTOR UNITED STATES GEOLOGICAL SURVEY,
*Washington, October 15, 1913.*

SIR: I have the honor to transmit herewith estimates for the Geological Survey for the fiscal year ending June 30, 1915. In accordance with the requirements of law (32 Stat., p. 455), there is appended to each item of the estimates a note showing the number of persons employed and the rate of compensation paid to each from each of said appropriations for the month of July, 1913, and for those estimates exceeding $250,000 in amount statements prepared in accordance with the provisions of section 6, sundry civil act approved Aug. 24, 1912, follow each estimate exceeding that amount.

To meet simply what may be termed the present emergency—that is, to bring up only the more urgent arrears in public land examinations and reports based thereon, and in map publication, and in collection of mineral statistics—the following increases are needed, aggregating $177,600:

| | |
|---|---|
| For increased work in land classification: | |
| Under item "for geologic surveys in the United States" | $100,000.00 |
| Under item "for gauging streams and determining the water supply of the United States" | 50,000.00 |
| For the preparation of the report on the mineral resources of the United States | 10,000.00 |
| For engraving and printing geologic maps | 10,000.00 |
| For rent | 7,600.00 |
| | 177,600.00 |

The reasons for asking for the various increases of appropriations are given in notes following each item.

As a résumé of these statements of fact I desire to bring to your attention the present crisis in the public work under my direction. The authorized activities of this bureau have been increasing faster than the appropriations provided therefor, until now the point is reached where it becomes all too apparent that the organization is undermanned and underequipped. Overtime work under adverse conditions is evidence of enthusiastic loyalty to the public service, but the strain is accumulative and the organization will soon weaken and both the quality and quantity of product plainly suffer unless adequate funds are voted by Congress. The demand upon this bureau for more work can not be checked, but the means to meet that demand can be provided.

Very respectfully, GEO. OTIS SMITH, *Director.*

THE SECRETARY OF THE INTERIOR.

| | | |
|---|---|---|
| Total, Geological Survey | $1,475,520.00 | $1,305,520.00 |
| Total, surveying the public lands | 2,178,520.00 | 2,018,440.00 |

BUREAU OF MINES.

*General Expenses, Bureau of Mines*—

For the general expenses of the Bureau of Mines, including the pay of the Director and the necessary assistants, clerks, and other employees in the office at Washington, D. C., and in the field, and for every other expense requisite for and incident to the general work of the Bureau of Mines in Washington, D. C., and in the field, to be expended under the direction of the Secretary of the Interior (*acts May 16, 1910, vol. 36, p. 369, secs. 1–6; Feb. 25, 1913, vol. 37, p. 681, sec. 1; June 23, 1913, vol. 38, p. 48, sec. 1*) 70,000.00 70,000.00

*Investigating Mine Accidents*—

For the investigation as to the causes of mine explosions, methods of mining, especially in relation to the safety of miners, the appliances best adapted to prevent accidents, the possible improvement of conditions under which mining operations are carried on, the use of explosives and electricity, the prevention of accidents, and other inquiries and technologic investigations pertinent to the mining industry, including personal services in the District of Columbia (*act June 23, 1913, vol. 38, p. 48, sec. 1*) 347,000.00 347,000.00

*Salaries and other payments in the mine accidents division of the Bureau of Mines.*

*Equipment for Mine Rescue Cars and Stations*—
For the purchase of mine rescue, first-aid, and fire-fighting equipment and supplies for use in the operation of mine rescue cars and stations (*submitted*) ..... $30,000.00

NOTE.—The equipment and supplies are necessary for replacing such of the equipment now on hand as has become worn out or has been rendered obsolete by newer and safer devices, and are essential for maintaining the 8 mine rescue cars and the 6 mine rescue stations of the bureau in efficient condition for meeting demands for training miners or giving aid at mine disasters during the year.

*Equipment for Testing Plant*—
For the purchase of steam and electric equipment for supplying light and power to the testing plant of the Bureau of Mines at Pittsburgh, Pa. (*submitted*) ..... 10,000.00

NOTE.—The present power and electric service plant at the experiment station, Pittsburgh, Pa., is on the eve of breakdown. Part of the equipment is old and should be retired. Duplicate equipment is not available. New equipment to replace this should be of a type suitable for installation in any new plant which the bureau may move into.

*Testing Fuels*—
For the analyzing and testing of the coals, lignites, ores, and other mineral fuel substances belonging to or for the use of the United States, including personal services in the Bureau of Mines at Washington, D. C., not in excess of the number and total compensation of those so employed during the fiscal year 1912 (*act June 23, 1913, vol. 38, p. 48, sec. 1*)..... 135,000.00 $135,000.00

NOTE.—In order that the activities relating to the fuel-testing work of the Bureau of Mines, as authorized by the amended organic act of Feb. 25, 1913 (37 Stat., 681), may be covered by the foregoing appropriation, it is urgently recommended that the wording thereof be changed to read as follows:

For investigation of mineral fuels and unfinished mineral products belonging to or for the use of the United States, with a view to their most efficient mining, preparation, treatment, and use, including personal services in the District of Columbia.

*Mineral Mining Investigations*—
For inquiries and investigations into the mining and treatment of ores and other mineral substances, with special reference to safety and waste: *Provided*, That no part thereof may be used for investigation in behalf of any private party, nor shall any part thereof be used for work authorized or required by law to be done by any other branch of the public service (*act June 23, 1913, vol. 38, p. 48, sec. 1*)..... 120,000.00 100,000.00

NOTE.—In order that the activities relating to the metal-mining work of the Bureau of Mines, as authorized by the amended organic act of Feb. 25, 1913 (37 Stat., 681), may be covered by the foregoing appropriation, it is urgently recommended that the wording thereof be changed to read as follows:

For inquiries and scientific and technologic investigations concerning the mining, preparation, treatment, and utilization of ores and other mineral substances, with a view to improving health conditions, and increasing safety, efficiency, economic development, and conserving resources through the prevention of waste in the mining, quarrying, metallurgical, and other mineral industries; to inquire into the economic conditions affecting these industries; and to disseminate information concerning the same, including personal services in the District of Columbia.

*Inquiries and Investigations of Petroleum and Natural Gas*—
For inquiries and investigations concerning the mining, preparation, treatment, and utilization of petroleum and natural gas, with a view to economic development, and conserving resources through the prevention of waste; to inquire into the economic conditions affecting the industry; and to disseminate information concerning the same (*submitted*)..... 30,000.00

NOTE.—In 1911 the total value of the petroleum produced in this country was $134,044,752: that of the natural gas usefully produced was $74,127,534. The magnitude of the petroleum industry, the increasing value of petroleum and natural gas as fuel, and the rapid decline of the yield from many fields emphasize the need of conducting inquiries concerning the mining, treatment, and utilization of petroleum and natural gas, with a view to economical and efficient development of these resources, as well as inquiries into the economic conditions that have developed in the oil and gas industries, with a view to the determination of the factors governing production and the means whereby supplies of oil and gas, especially those on public lands or on lands controlled by the Government, can be utilized to best advantage in promoting the public welfare.

As illustrating the need for inquiries and investigations concerning petroleum and natural gas, with a view to economic development, it is pertinent to note the following extract from a recent report received by the Bureau of Mines regarding the Cushing field of Oklahoma: "The maximum yield of oil from the Cushing field has never reached 30,000 barrels per day. For a long period it has been considerably less than 20,000 barrels per day. The average

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Inquiries and Investigations of Petroleum and Natural Gas*—Continued. | | | |
| value of oil at the highest market quotation probably lies below $20,000 per day. During this time there has been wasting from drilling wells not less than 100,000,000 cubic feet of gas, while the waste from flowing wells is perhaps in excess of 200,000,000 cubic feet, making a total daily waste of 300,000,000 ,which, at the domestic rate of 25 cents per thousand, would be $75,000 per day in fuel or a matter of perhaps $20,000 a day to the oil producer. It is not only possible to conserve this gas, but it also is possible in many cases to so manage the wells that they can furnish oil without allowing the gas to escape. The main purpose of the oil producer is to get the oil and let the gas escape." There are other fields in the United States where enormous daily waste of gas occurs. Practically all the oil purchased by the different branches of the service of the United States has been tested by the Bureau of Mines. This is particularly true of tests for the Navy Department, these purchases amounting during the past year to about 21,000,000 gallons of oil. | | | |
| *Inspecting Mines in Alaska*— | | | |
| For 1 mine inspector for duty in Alaska (*act June 23, 1913, vol. 38, p. 48, sec. 1*) | | $3,000.00 | $3,000.00 |
| For per diem, subject to such rules and regulations as the Secretary of the Interior may prescribe, in lieu of subsistence at a rate not exceeding $5 per day when absent on official business from his designated headquarters, and for actual necessary traveling *and field* expenses of said inspector (*same act*) | $2,500.00 | | |
| For clerical assistance at the office of the mine inspector in Alaska (*submitted*) | 1,500.00 | | |
| | | 4,000.00 | 3,500.00 |
| NOTE.—The words italicized are submitted as new law. This proposed amendment will enable the mine inspector for Alaska to purchase the necessary material and supplies required in the prosecution of his duties as inspector. Clerical assistance at the office of the mine inspector in Alaska is deemed necessary in the writing of reports, the compilation of statistics, and such other clerical work as the inspector is unable to perform himself. | | | |
| *Books and Publications*— | | | |
| For technical and scientific books and publications and books of reference, including payment in advance for subscriptions to publications (*act June 23, 1913, vol. 38, p. 48, sec. 1*) | 1,500.00 | | |
| Increase (*submitted*) | 500.00 | | |
| | | 2,000.00 | 1,500.00 |
| NOTE.—This increase of $500 for the purchase of technical and scientific books and publications and books of reference is inadequate because of the fact that the employees at practically all of the field offices of the Bureau of Mines, including mine rescue cars and stations, have no access to technical libraries. There is a large demand by these men for technical and scientific books and publications that are urgently needed in connection with investigations that are constantly being carried on, and they need to have access to all the information they can get. The Bureau of Mines appropriation for books was reduced from $2,000 to $1,500,and this reduction has caused a serious break in its sets of publications. Libraries of the Government have relatively few books relating to the mining industry. The work of the bureau is embarrassed by the need of such books, and this is the only fund from which the bureau can make purchases of books and publications. | | | |
| *Land, Leases, etc., for Mine Rescue Cars*— | | | |
| For the purchase or lease of the necessary land, where and under such conditions as the Secretary of the Interior may direct, for the headquarters of five mine rescue cars and for the construction of the necessary railway sidings on the same: *Provided*, That the Secretary of the Interior is hereby authorized to accept any suitable land or lands that may be donated for said purpose (*act June 23, 1913, vol. 38, p. 48, sec. 1*) | | 1,000.00 | 2,000.00 |
| Total, Bureau of Mines | | 752,000.00 | 662,000.00 |
| MISCELLANEOUS OBJECTS, INTERIOR DEPARTMENT. | | | |
| *Expenses of Testimony in Disbarment Proceedings*— | | | |
| For actual and necessary expenses to enable the Secretary of the Interior to take testimony, and prepare the same, in connection with disbarment proceedings instituted against persons charged with improper practices before the Department of the Interior, its bureaus and offices, $500, or so much thereof as may be necessary (*act June 23, 1913, vol. 38, p. 48, sec. 1*) | | 500.00 | 1,000.00 |
| *Care and Custody of the Insane of Alaska*— | | | |
| For the care and custody of persons legally adjudged insane in the Territory of Alaska, including transportation and other expenses (*acts Jan. 27, 1905, vol. 33, p. 619, sec. 1; June 23, 1913, vol. 38, p. 48, sec. 1*) | | 77,500.00 | 57,000.00 |
| NOTE.—*Fiscal year 1912.*—Appropriations during the fiscal year 1912 totaled $51,145.24 ($50,000 being appropriated in the sundry civil act approved Mar. 4, 1911 (36 Stat., 1420), and $1,145.24 provided in the general deficiency act approved Aug. 26, 1912). At the beginning of the year 143 patients were under treatment, and at the end of the year 150 patients; the above funds providing for care of all patients, including the increase of 7. *Fiscal year 1913.*—Appropriations for this year, contained in the sundry civil act approved Aug. 24, 1912, amounted to $60,000. One hundred and fifty patients were under treatment on July 1, 1912, and 173 patients at the end of the fiscal year, an increase of 23 patients. All were provided for, including increase in population mentioned, and after defraying all expense of maintenance and of return of discharged patients to Alaska and of funerals of deceased patients, an unexpended balance remained in the appropriation of $5,717.50. *Fiscal year 1914.*—In view of such unexpended balance in the 1913 appropriation, at the department's suggestion the 1914 appropriation was reduced to $57,000. This amount is believed to be inadequate for 1914, as during the first quarter (July 1 to Sept. 30, 1914) 24 patients were committed to Morningside Hospital, resulting in a net increase for the quarter of 16 patients; so that a deficiency estimate, in small amount, will in all likelihood be submitted by the department for consideration. *Fiscal year 1915.*—In view of the net increase in population of Morningside Hospital during the fiscal year 1913 of 23 patients, and of net increase during the first quarter of 1914 from 173 to 189 patients (16 in number) as above stated, it is the belief of the department that, at the rate of increase shown, at the beginning of the fiscal year 1915 a minimum of 210 patients will be under treatment in Morningside Hospital, which, at contract price of $330 per patient per annum, will require $69,300 for maintenance during the year. It is also believed that normal increase during the fiscal year 1915 in population will require an amount about equal to maintenance of 8 patients during the entire year, at $330 per annum, or $2,640. The contract under which these insane persons are now provided for, with The Sanitarium Co., of Portland, Oreg., will expire Jan. 15, 1915, and new contract will have to be entered into by the department. Should the department be unsuccessful in securing proposals for this service at a minimum rate of $330 or less, a further increase in appropriation will be necessary to provide for service between Jan. 16 and June 30, 1915, such amount being estimated at $2,410. In case of award of contract as above outlined to a contractor other than The Sanitarium Co., the expense of removal of the population of Morningside Hospital to the quarters provided by such new contractor will become an additional charge against this appropriation, and it is believed that an additional amount of $3,150 (computed upon a basis of 210 patients at $15 per capita) will be required. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Protection of Game in Alaska—* | | | |
| For carrying out the provisions of the act approved May 11, 1908, entitled "An act for the protection of game in Alaska, and for other purposes," including salaries, traveling expenses of game wardens, and all other necessary expenses, to be expended under the direction of the governor of Alaska (*acts May 11, 1908, vol. 35, p. 102, sec. 1; June 23, 1913, vol. 38, p. 49, sec. 1*)..... | | $20,000.00 | $15,000.00 |
| NOTE.—The governor of Alaska reports that the increase of $5,000 is to cover the employment of two additional game wardens whose services are greatly needed to patrol large game regions at present unprotected on account of lack of sufficient funds, and where much unlawful killing occurs. | | | |
| *Suppressing Traffic in Intoxicating Liquors among Natives of Alaska—* | | | |
| For the suppression of the traffic in intoxicating liquors among the natives of Alaska, to be expended under the direction of the Secretary of the Interior (*act June 23, 1913, vol. 38, p. 49, sec. 1*)..... | | 15,000.00 | 12,000.00 |
| NOTE.—The governor of Alaska reports that the present appropriation of $12,000 is entirely inadequate to carry on this work in all parts of the Territory where violations of the law are of frequent occurrence. In the last two years most of the work has been confined to the first judicial division, where conditions are greatly improved. There is urgent need of similar work in the other divisions (three in number), but the appropriation at present available will permit of effective work in but two—the third and fourth—leaving the second division without a special officer. During the fiscal year 1914 one white special agent is being stationed in the first division, one in the third, and one in the fourth, but even this limited force is somewhat handicapped for lack of funds for travel expenses, and it is impossible to employ any native policemen for the larger villages, as was done in the two years preceding. There is great need of placing a white officer in the second division, and the increase of $3,000 is urgently needed for this purpose. | | | |
| *Education of Natives of Alaska—* | | | |
| To enable the Secretary of the Interior, in his discretion and under his direction, to provide for the education and support of the Eskimos, Aleuts, Indians, and other natives of Alaska; for erection, repair, and rental of school buildings; for textbooks and industrial apparatus; for pay and necessary traveling expenses of general agent, assistant agent, superintendents, teachers, [physicians], and other employees, and all other necessary miscellaneous expenses which are not included under the above special heads (*act June 23, 1913, vol. 38, pp. 48, 49, sec. 1*)..... | | 200,000.00 | 200,000.00 |
| So much of which sum as may be necessary for the purchase of supplies shall be immediately available: *Provided*, That no person employed hereunder as special agent or inspector, or to perform any special or unusual duty in connection herewith, shall receive as compensation exceeding $200 per month, in addition to actual traveling expenses and per diem not exceeding $4 in lieu of subsistence, when absent on duty from his designated and actual post of duty: *Provided*, That of the sum hereby appropriated not exceeding $7,000 may be expended for personal services in the District of Columbia. | | | |
| All expenditures of money appropriated herein for school purposes in Alaska for schools other than those for the education of white children under the jurisdiction of the governor thereof, shall be under the supervision and direction of the Commissioner of Education and in conformity with such conditions, rules, and regulations as to conduct and methods of instruction and expenditure of money as may from time to time be recommended by him and approved by the Secretary of the Interior. | | | |
| NOTE.—This entire sum of $200,000 is urgently needed for the maintenance of schools in Alaska and for the establishment of additional schools in regions where no educational facilities have yet been provided. The word "physicians" should therefore be omitted from the language of this appropriation and special provision should be made for medical relief of the natives of Alaska, as estimated. | | | |
| *Reindeer for Alaska—* | | | |
| For the support of reindeer stations in Alaska, and for the instruction of Alaskan natives in the care and management of the reindeer, *so much of which sum as may be necessary for the purchase of supplies shall be immediately available* (*act June 23, 1913, vol. 38, p. 49, sec. 1*)..... | $5,000.00 | | |
| NOTE. —The language in italics is new and is necessary because the supplies should be shipped to northwestern Alaska before June 30. Late shipments are uncertain and costly. | | | |
| Increase (*submitted*)..... | 3,000.00 | | |
| | | 8,000.00 | 5,000.00 |
| NOTE.—The increase of $3,000 is necessary for the establishment of new herds in districts far removed from present herds. | | | |
| *Medical Relief in Alaska—* | | | |
| To enable the Secretary of the Interior, in his discretion and under his direction, with the advice and cooperation of the Public Health Service, to provide for the medical and sanitary relief of the Eskimos, Aleuts, Indians, and other natives of Alaska; for erection, purchase, repair, rental, and equipment of hospital buildings; for books and surgical apparatus; for pay and necessary traveling expenses of physicians, nurses, and other employees, and all other necessary miscellaneous expenses which are not included under the above special heads, to be immediately available (*submitted*)..... | | 125,000.00 | |
| NOTE.—More adequate provision for the medical and sanitary relief of the Eskimos, Indians, Aleuts, and other natives of Alaska is imperative. Most of these natives live in villages far away from any white settlement with a practicing physician, and so must depend on Government physicians for ordinary medical attention and care. Without hospitals for the segregation and proper care of persons afflicted with tuberculosis, trachoma, and other prevalent communicable diseases, it is impossible to reduce their prevalency. For this service are needed not less than 10 small hospitals and detention camps, the erection and equipment of each of which will cost about $12,500. The amount estimated will be sufficient for the erection and equipment of five or six of these in as many communities, and for the necessary immediate extension and improvement of the medical service in other communities. This is a matter of vital importance not only to the natives but also to white settlers in Alaska. | | | |

| *Hot Springs Reservation, Ark.*— | | |
| Authority is hereby granted the Secretary of the Interior to expend the sum of $20,000, or so much thereof as may be necessary, from the revenues, Hot Springs Reservation, for labor and material required in the remodeling of the Government free bathhouse on the Hot Springs Reservation and in expenses incident thereto (*acts Dec. 16, 1878, vol. 20, p. 258, sec. 1; June 28, 1902, vol. 32, p. 456, sec. 1*). | | |
| *Current Expenses, Government Hospital for the Insane*— | | |
| For support, clothing, and treatment in the Government Hospital for the Insane of the insane from the Army and Navy, Marine Corps, Revenue-Cutter Service, inmates of the National Home for Disabled Volunteer Soldiers, persons charged with or convicted of crimes against the United States who are insane, all persons who have become insane since their entry into the military and naval service of the United States who have been admitted to the hospital and who are indigent, including purchase, maintenance, and driving of necessary horses and vehicles, and of horses and vehicles for official use of the superintendent, $284,943.32; and not exceeding $1,500 of this sum may be expended in defraying the expense of the removal of patients to their friends; not exceeding $1,000 may be expended in the purchase of such books, periodicals, and papers as may be required for the purposes of the hospital and for the medical library, and not exceeding $1,500 for actual and necessary expenses incurred in the apprehension and return to the hospital of escaped patients (*R. S., p. 938, secs. 4838–4858; act June 23, 1913, vol. 38, p. 50, sec. 1*) | 284,943.32 | $302,400.00 |
| NOTE.—The amount estimated for is based on 3,070 patients, at $220 per capita, together with $55,000 for general repairs and improvements and $5,000 for roadways, walks, and grading, under the head of Buildings and Grounds of the Government Hospital for the Insane. This number is arrived at by estimating the probable increase on the basis of what the increase has been in past years. Pursuing the same method of calculation for the District of Columbia patients, their share is $390,456.68, leaving a balance of $284,943.32 to be provided for in the sundry civil bill (R. S., p. 938, secs. 4838–4858; act Aug. 24, 1912, vol. 37, p. 460, sec. 1). | | |
| Authority is hereby granted to sell or exchange condemned typewriting machines, laundry machinery, and other equipment, applying the proceeds therefrom to replacing new equipment for the Government Hospital for the Insane (*submitted*). | | |
| NOTE.—This method of disposing of unserviceable property was in vogue at the hospital until prohibited by a recent ruling of the Comptroller of the Treasury. He held that specific legislative authority was necessary.<br>NOTE.—The estimate for buildings and grounds, Government Hospital for the Insane, will be found under "Public works—Department of the Interior," page 464. | | |

*Government Hospital for the Insane.*

Statement submitted in compliance with section 6 (Public, No. 302) (H. R. 25060), an act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1913, and for other purposes, approved Aug. 24, 1912:

*Number of persons to be employed and their rates of compensation to each, estimated for the fiscal year ending June 30, 1915.*

| | Per annum. |
|---|---|
| 1 superintendent | $5,000.00 |
| 1 first assistant physician | 2,000.00–2,500.00 |
| 5 senior assistant physicians | 1,500.00–2,000.00 |
| 5 assistant physicians | 1,200.00–1,500.00 |
| 9 junior assistant physicians | 900.00–1,200.00 |
| 7 medical internes | 900.00 |

The medical internes are in lieu of junior assistant physicians. Our physicians are first employed as medical internes and during their probationary period must take a course of study to make themselves efficient before being promoted to the position of junior assistant physicians. Their future promotions are based upon their efficiency, as approved by the board of visitors, before reaching the higher grade.

*Number of persons employed and their rates of compensation to each for the fiscal year ending June 30, 1913.*

| | Per annum. |
|---|---|
| 1 superintendent | $5,000.00 |
| 1 first assistant physician | 2,300.00 |
| 1 senior assistant physician | 2,000.00 |
| 1 senior assistant physician | 1,600.00 |
| 1 assistant physician | 1,500.00 |
| 9 junior assistant physicians | 1,200.00 |
| 5 medical internes | 900.00 |
| 1 medical interne | 600.00 |

| 2 special attendants, female..... 360.00 | | |
| The charge attendants and attendants in this group are in lieu of charge nurses and nurses. When this class of employees first enter the service it is always as attendants, and they must take the training and graduate from the school before becoming nurses. Generally it is required that an attendant before becoming charge of a ward and securing a title of charge attendant take the training, and therefore have the title of charge nurse. It is desirable in all cases to have charge nurses to look after the wards and nurses to attend the patients, but in the absence of a sufficient number it is necessary to designate attendants as charge and have the other attendants to look after patients. | | |

| 1 coach painter | p. d. 3.20 |
| 20 laborers | p. d. 1.50–1.75 |
| 1 clock repairer | 50.00 |
| 1 organ repairer | 25.00 |
| 14 patients | 12.00–120.00 |

$30 a year is paid extra to employees who sing in the choir or play in the band.

As it is absolutely necessary that most of these employees live on the premises, maintenance is included for all those who reside on the reservation.

All positions where noted, graded salaries permit of an automatic increase if their efficiency report is up to the proper standard.

The balance of the appropriation requested is for food and other supplies for the support, clothing, and treatment of the patients.

1 veterinarian to assist the hospital veterinarian to make tuberculine tests of the cows once or twice a year at the rate of $10 per day for the actual time employed, not over 3 days at a test.

*Current Expenses, Columbia Institution for the Deaf*—

For the support of the institution, including salaries and incidental expenses, for books and illustrative apparatus and for general repairs and improvements (*acts June 10, 1872, vol. 17, p. 360, sec. 1; June 23, 1913, vol. 38, p. 50, sec. 1*)..... $70,000.00

NOTE.—An additional estimate of $12,250 has been sent to the District Commissioners to be included in their estimates for the fiscal year ending June 30, 1915. $11,900 was appropriated for the fiscal year ending June 30, 1914.

Buildings and grounds: For repairs to the buildings of the institution, including plumbing and steam fitting, and for repairs to pavements and roadways within the grounds..... 7,500.00

$77,500.00 $71,500.00

NOTE.—The estimate for buildings, Columbia Institution for the Deaf, will be found under "Public Works—Department of the Interior," page 464.

COLUMBIA INSTITUTION FOR THE DEAF,
*Washington, D. C., July 10, 1913.*

SECRETARY OF THE TREASURY,
*Washington, D. C.*

SIR: I have the honor to submit herewith the estimates of appropriations required for the fiscal year ending June 30, 1915, by the Columbia Institution for the Deaf, as recommended by its board of directors.

For current expenses, an increase of $3,500 is asked. By the opening of the school term next fall the number of students in the institution will have increased one-third over the number present in the institution three years ago. In the meantime the appropriations granted for support have increased less than 2 per cent. As still further additions to the number of our students and pupils are expected for the fiscal year ending June 30, 1915, the small percentage of increase in the current expenses asked for seems absolutely necessary.

The grounds of the institution comprise 103 acres, with several miles of walks, roads, and fences, and 25 buildings. The expense of the construction of these buildings has been more than one-half million dollars. For special repairs and improvements, including necessary repairs to the fences, walks, and driveways, the additional sum of $2,500 is asked. It will be economy to spend this additional sum in the next fiscal year to prevent the deterioration of the property of the institution.

The building now used as a dormitory for the college women has long been overcrowded, unsafe, and insanitary. During the coming school year it will be necessary to crowd four students into a number of rooms that should be used for only two. The building was constructed about the year 1859, and added to in the next few years in such a way that the halls and passageways do not permit of easy escape in case of fire. For two years the board of directors have urged an appropriation for removing this building and replacing it with a modern structure. This is the most pressing need of our institution to-day.

Our central power plant when constructed some 10 years ago was connected with the old piping in the various buildings of the institution, and only part of the buildings were wired for electric light and power. No central hot-water heating plant has ever been provided, nor has there been any connection for power and light at our farm and dairy buildings situated only some 1,100 feet from the power plant. It would add greatly to the economy and efficiency of our plant to install the vacuum system of heating, to wire one of our dormitories now lighted by gas, to complete the wiring of two recitation buildings, to connect with our dairy buildings so that electric light and power may be used therein, to install a central hot-water heating plant for circulating hot water through our main buildings, and to connect our heating plant with our greenhouses. For this purpose, and for modernizing our central heating and power plant, a sum of $21,000 is asked.

I am inclosing, as required by the sundry civil act approved August 30, 1890, a list of the regular employees of the institution for the past fiscal year, with salaries.

Very respectfully,

PERCIVAL HALL, *President.*

| *Freedmen's Hospital*— | | | |
| For salaries and compensation of the surgeon in chief, not to exceed $3,000, and for all other professional and other services that may be required and expressly approved by the Secretary of the Interior (*act June 23, 1913, vol. 38, p. 51, sec. 1*) | $32,040.00 | | |
| Increase (*submitted*) | 5,120.00 | | |
| A detailed statement of the expenditure of this sum shall be submitted to Congress. | | | |
| NOTE.—The increase is requested over current appropriation for salaries in order to provide $620 for the promotion of worthy employees and $4,500 for additional employees, as follows: | | | |
| Storekeeper $1,200; Assistant anesthetist 900; Cook 360; Laundryman 300; 10 pupil nurses 600; Telephone operator $360; Laborer 300; Seamstress 300; Maid 180 | | | |
| For subsistence, fuel and light, clothing, bedding, forage, medicine, medical and surgical supplies, surgical instruments, electric lights, repairs, furniture, and other absolutely necessary expenses (*act June 23, 1913, vol. 38, p. 51, sec. 1*) | 26,000.00 | | |
| Increase (*submitted*) | 2,000.00 | | |
| NOTE.—This increase is requested so that the ward, which was occupied by pupil nurses pending the construction of the nurses' home, can be utilized for patients. | | | |
| For painting, repairs, and improvements to the hospital building and grounds (*submitted*) | 6,000.00 | | |
| | | $71,160.00 | $58,040.00 |
| NOTE.—The hospital has not been painted, only in places, since it was occupied over five years ago. The walls are greatly in need of repair and painting. The west roadway has been destroyed in part, owing to frequent washouts. The current appropriation is insufficient to provide for these extraordinary repairs. | | | |
| *Howard University*— | | | |
| For maintenance of the Howard University, to be used in payment of part of the salaries of the officers, professors, teachers, and other regular employees of the university, and for ice and stationery, the balance of which shall be paid from donations and other sources, of which sum not less than $1,500 shall be used for normal instruction, $65,000 (*act June 23, 1913, vol. 38, pp. 50, 51, sec. 1*). | | | |
| NOTE.—The expenditures proposed, under the above item, are as follows: | | | |
| Administration: | | | |
| One president, in part | 3,600.00 | | |
| One secretary, dean of the commercial college, and professor, in part | 2,055.00 | | |
| One treasurer, registrar, and professor, in part | 2,025.00 | | |
| College of arts and sciences: | | | |
| One dean and professor of mathematics, in part | 1,584.00 | | |
| Four professors, 1 history, 1 Latin, 1 biology, 1 English, in part, each $1,485 | 5,940.00 | | |
| One professor of chemistry, in part | 1,035.00 | | |
| One professor of Greek, in part | 450.00 | | |
| One professor of physics, in part | 1,440.00 | | |
| One professor of zoology, in part | 1,125.00 | | |
| One professor of German, in part | 90.00 | | |
| One assistant professor of English, in part | 720.00 | | |
| One instructor in French, in part | 1,238.00 | | |
| One associate professor of mathematics, in part | 1,080.00 | | |
| One instructor in English, in part | 675.00 | | |
| One instructor in chemistry, in part | 720.00 | | |
| One instructor in sciences, in part | 540.00 | | |
| One instructor in German, in part | 810.00 | | |
| One instructor in physiology, in part | 765.00 | | |
| One instructor in German, in part | 630.00 | | |
| One assistant in physics, in part | 270.00 | | |

HOWARD UNIVERSITY,
PRESIDENT'S OFFICE,
*Washington, D. C., Sept. 24, 1913.*

Hon. FRANKLIN K. LANE,
*Secretary of the Interior.*

SIR: In sending in the annual report of Howard University for the year ending June 30, 1913, I desire to call attention to the list of needs numerated in the last paragraphs of the report. Among these the two needs which were emphasized last year still stand out prominently, because they have not yet been met: We have lost this year some fine teachers who could have been kept if we had been able to pay them adequate salaries. This is bound to be the case just so long as the salaries of Howard University are below the salaries paid by corresponding universities in other parts of the country. We are able to increase only the lower salaries at the present moment. We have teachers who give themselves with great devotion to the work. Some of them are obliged to seek for other ways of supplementing what they are paid here. In such circumstances it is not possible to get the best service. It is therefore necessary to provide, before many years, higher salaries. The increased cost of living is a sufficient argument for raising these very small salaries which have heretofore been paid.

The need stated last year for a large assembly hall has been emphasized during the year in a large number of ways. Instead of building a hall with music rooms in connection, we plan now to build an assembly hall with administration offices at the front. The present offices of administration, because of the enlargement of our work, are becoming very much cramped and very inconvenient for the handling of business. They could be used for classrooms if we could take the business of the university out of them. It is therefore thought that administration offices could be put at the front of the building which would contain the assembly hall. This need is one which can not be too greatly emphasized.

The other needs spoken of in the report are very noticeable to anyone who comes into contact with the work of the university. We omit special mention of them, hoping that the two referred to above can be met this year.

Yours, very respectfully, S. M. NEWMAN, *President.*

## UNDER THE DEPARTMENT OF COMMERCE.

### LIGHTHOUSE SERVICE.

*General Expenses, Lighthouse Service*—

For supplies, repairs, maintenance, and incidental expenses of lighthouses and other lights, beacons, buoyage, fog signals, lighting of rivers heretofore authorized to be lighted, light vessels, other aids to navigation, and lighthouse tenders, including the establishment, repair, and improvement of beacons and day marks, and purchase of land for same, the establishment of post lights, buoys, submarine signals, and fog signals, the establishment of oil or carbide houses, not to exceed $10,000: *Provided*, That no oil or carbide house erected hereunder shall exceed $550 in cost; the construction of necessary outbuildings at a cost not exceeding $200 at any one light station in any fiscal year, the improvements of grounds and buildings connected with light stations and depots, wages of laborers attending post lights, pay of temporary employees and field force while engaged on works of general repair and maintenance, and pay of laborers and mechanics at lighthouse depots; rations and provisions or commutation thereof for keepers of lighthouses, officers, and crews of light vessels and tenders, and officials and other authorized persons of the Lighthouse Service on duty on board of such tenders or vessels, and money accruing from commutation for rations and provisions for the above-named persons on board of tenders and light vessels, may be paid on proper vouchers to the person having charge of the mess of such vessels, reimbursement under rules prescribed by the Secretary of Commerce of keepers of light stations and masters of light vessels and of lighthouse tenders for rations and provisions and clothing furnished shipwrecked persons who may be temporarily provided for by them, not exceeding in all $5,000 in any fiscal year; fuel and rent of quarters where necessary for keepers of lighthouses; the purchase of land sites for fog signals, and necessary additional land for light stations and depots under rules prescribed by the Secretary of Commerce: *Provided*, That no single acquisition of such additional land shall cost in excess of $500, the rent of necessary ground for all such lights and beacons as are for temporary use or to mark changeable channels and which in consequence can not be made permanent; the rent of offices, depots, and wharves; traveling expenses,

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *General Expenses, Lighthouse Service*—Continued. | | |
| including per diem in lieu of subsistence, under rules prescribed by the Secretary of Commerce, at not to exceed $4 per day; and mileage, library books for light stations and vessels, and technical books and periodicals not exceeding $1,000, and for all other contingent expenses of district offices and depots and for contingent expenses of the Office of the Bureau of Lighthouses in Washington (increase of $95,000 submitted) (*act June 23, 1913, vol. 38, p. 57, sec. 1*)..... | $2,845,000.00 | $2,750,000.00 |
| Hereafter employees of the Lighthouse Service compensated at a per diem rate of pay may be granted 15 working days' leave of absence each year without forfeiture of pay during such absence under rules prescribed by the Secretary of Commerce: *Provided*, That no employee of the class herein mentioned shall be entitled to any leave until he has served 12 consecutive months, when he may be granted 15 days' leave, and that during the second or any subsequent year 15 days' leave at the rate of one and one-fourth days per month, as earned, may be granted from the beginning of the second service year: *Provided further*, That the inspectors of the several lighthouse districts shall have discretion as to the time when the leave can be allowed without detriment to the service, and that absence on account of sickness shall be deducted from the leave hereby granted. | | |
| Hereafter post-lantern lights and other aids to navigation may be established and maintained, in the discretion of the Commissioner of Lighthouses, out of the annual appropriations for the Lighthouse Service, on Lakes Okechobee and Hicpochee and connecting waterways across the State of Florida. | | |

NOTE.—The amount estimated for is $95,000 in excess of the appropriation for the fiscal year 1914, consisting of the following items:

| | |
|---|---|
| Installation of radio sets on lighthouse tenders | $20,000 |
| Leave of absence for per diem employees | 15,000 |
| General increase of service | 75,000 |
| | 110,000 |
| Transfer of salaries of permanent foremen to appropriation "Salaries, Lighthouse Service" | 15,000 |
| | 95,000 |

The item of $20,000 for wireless installation on tenders is believed to be an urgent matter for the best efficiency of the service, in order to permit of prompt communication of orders and information, thereby avoiding unnecessary steaming to points at which mail or telegraph facilities are at hand. It is also believed that these installations on Government vessels will be of general public benefit in the saving of life and property or similar emergencies. It is proposed to proceed with these installations in a moderate manner from year to year at the rate of about five vessels annually, until all important seagoing tenders are so equipped.

The item of $15,000 for leave of absence of per diem employees is dependent on legislation recommended for that purpose. A bill (House bill No. 1780) to provide such legislation was introduced at the Sixty-third Congress, first session, but failed of passage. Legislation to this effect is recommended in the above estimate of appropriation. It is believed that the granting of this leave would be of benefit to both the employees and the Lighthouse Service, but in order that the work of the service may not be delayed it is necessary to provide funds to meet this expense.

The further increase of $75,000 is considered necessary on account of the increase in numbers of aids required for the safety of navigation and to keep the Lighthouse Service in an economical state of repair and efficiency. This increase of $75,000 is 2.7 per cent over the appropriation last year, while the total number of aids increased during the fiscal year 1913 from 12,824 to 13,459, an increase of 635, or 5 per cent. In order to keep pace with the constant development of commerce it is believed that proper provision for maintenance and repair, as well as for the establishment of necessary additional minor aids frequently requested by mariners, should be made.

The item of $15,000 which it is desired to transfer to the appropriation, Salaries, Lighthouse Service, arises from the fact that it is the object to include in the latter appropriation the salaries of those employees whose service is definite and continuous, it having been found in carrying out the legislation enacted last year that certain foremen heretofore classed as temporary employees have been continuously employed throughout the year and should therefore be considered properly as part of the permanent force.

In connection with the estimate of appropriation submitted herewith, authority is requested to establish and maintain post lantern lights and other aids to navigation on Lakes Okechobee and Hicpochee and connecting waterways across the State of Florida. The lighting of rivers or inland waters is limited to those specifically authorized by Congress, and such authority has not been granted for the waters herein specified. Petitions of maritime interests in these localities have urged the establishment of lights, and investigation by the Lighthouse Service has found the same to be warranted.

It is further recommended that consideration be given to the consolidation of the four general maintenance appropriations, under the single appropriation, General Expenses, by naming in the consolidated general appropriation a specific amount as the limit of all salary items included therein. It is believed that this step would effect a more economical and efficient administration of the Lighthouse Service, by simplification of the accounting system and permitting the costs of work to be kept in a more systematic and comprehensive manner, showing clearly for each principal feature the relative amounts paid for salaries, materials, supplies, equipment, and other component items. Among additional advantages of consolidation of items of general appropriation may be stated the following: (*a*) Laborers in charge of lights are now paid out of two different appropriations, those attending lights on rivers authorized by Congress to be lighted being paid out of general expenses, and those at other lights not on rivers being paid out of salaries of keepers; (*b*) commutation of rations of keepers and other employees (which may be properly considered as part of their compensation) now must be paid out of the appropriation General Expenses, while the salaries proper are paid out of the respective salary appropriations; (*c*) the items recommended for consolidation have natural limitations. For example, the number and average salary of keepers is limited by law. A necessary limitation is also imposed by the number of vessels in service.

*Salaries of Keepers of Lighthouses*—

For salaries of not exceeding 1,800 lighthouse and fog signal keepers and laborers attending other lights, exclusive of post lights (increase of $10,000 submitted) (*act June 23, 1913, vol. 38, p. 58, sec. 1*)..... $940,000.00 $930,000.00

NOTE.—Revised Statutes, sec. 4673, authorizes the regulation of salaries of lighthouse keepers, based upon an average of not exceeding $600 to each keeper. The above estimate is for approximately 1,775 keepers at an average of $530 and provides for an increase of 50 positions, and an amount of $10,000 over the figures appropriated for the fiscal year 1914. There were 1,744 authorized positions on July 1, 1913, and it is believed the increase submitted will provide for the growth of the service. The authorized maximum number of keepers in recent years is shown in the following list:

| | Positions |
|---|---|
| Act of Mar. 3, 1901 | 1,600 |
| Act of June 28, 1902 | 1,650 |
| Act of Mar. 4, 1909 | 1,700 |
| Act of June 25, 1910 | 1,750 |
| Submitted | 1,800 |

*Itemized estimate of appropriation for the fiscal year ending June 30, 1915, and itemized statement of expenditures for the fiscal year ended June 30, 1913, as required by the act of Congress approved June 25, 1910 (36 Stat., 755). (See note to itemized estimate under General Expenses, Lighthouse Service.)*

| | Estimate, 1915. | Expenditures, 1913. |

*Salaries, Lighthouse Vessels*—

For salaries and wages of officers and crews of light vessels and lighthouse tenders, including temporary employment when necessary (increase of $70,580 submitted) (*act June 25, 1910, vol. 38, p. 58, sec. 1*) ..... $1,038,000.00 $967,420.00

NOTE.—The amount estimated for is $70,580 in excess of the appropriation for the fiscal year 1914, consisting of the following items:

| | |
|---|---|
| Equalization of pay for crews of vessels | $40,400 |
| Complements of new vessels | 24,680 |
| Wireless operators | 5,500 |
| | $70,580 |

The item of $40,400 is occasioned on account of the difficulty experienced in obtaining and holding satisfactory seamen, firemen, and other employees of vessels; it is proposed to make the minimum pay $35 per month instead of $30 per month, to conform to general practice. About 670 employees at an average increase of $60 per annum will be affected by this change, which it is believed will materially improve conditions in the personnel of the vessels.

The item of $24,680 arises from the fact that two new tenders and three new light vessels are expected to go into commission during the fiscal year 1915, and complements based on those of similar classes should be provided for them.

The item of $5,500 for wireless operators is intended to provide for the additional employees required for proposed installations on light-house tenders, the necessity for which has been explained under the estimate "General expenses."

*Itemized estimate of appropriation for the fiscal year ending June 30, 1915: and itemized statement of expenditures for the fiscal year ended June 30, 1913, as required by the act of Congress approved June 25, 1910 (36 Stat., 766). (See note to itemized estimate under General Expenses, Lighthouse Service.)*

| | Estimate, 1915. | Expenditures, 1913. |
|---|---|---|
| Salaries and wages, lighthouse tenders | $674,000 | $599,097 |
| Salaries and wages, light vessels | 364,000 | 333,392 |
| Total | 1,038,000 | 932,489 |

| | | 4 deckhands, at | 480 |
| | | 8 deckhands, at | 420 |

*Salaries, Lighthouse Service*—

For salaries of seventeen lighthouse inspectors, and of clerks and other authorized permanent employees in the district offices and depots of the Lighthouse Service, exclusive of those regularly employed in the office of the Bureau of Lighthouses, Washington, District of Columbia. Hereafter the annual salaries of lighthouse inspectors, including one inspector for the general service, and excepting the inspector of the third lighthouse district shall not exceed $2,700 each (increase of $25,000 submitted) (*act June 23, 1913, vol. 38, p. 58, sec. 1*) ..... $385,000.00 $360,000.00

NOTE.—An increase of $25,000 over the appropriation for the fiscal year 1914 is submitted, consisting of the following:

| | |
|---|---|
| Transfer of salaries of permanent foremen from appropriation "General expenses" | $15,000 |
| Additional clerks and draftsmen | 10,000 |
| | 25,000 |

The necessity for the first item of $15,000 is explained under the estimate, general expenses. About 10 positions at salaries averaging $125 per month will be affected by this transfer.

The item of $10,000 is occasioned by the general growth of the service, in order that the technical and clerical work of the district offices may be dispatched promptly. About 10 positions at salaries ranging from $900 to $1,500 per annum will be thus provided for.

The salaries of lighthouse inspectors are, by the act of June 17, 1910 (36 Stat., 538), limited to $2,400 a year, except the inspector of the third district, whose salary is fixed at $3,600. The salary of $2,400 is inadequate because of the heavy responsibilities with which the inspector is charged, and the technical and business ability required to successfully discharge the duties. The compensation of these positions should be sufficient to bring into and retain in the Lighthouse Service a class of persons fully competent to efficiently conduct such important work. The inspectors should be men of high character and qualifications, including technical knowledge as to engineering and nautical affairs, and should have business ability. The maximum total increase under this change is $4,800.

*Itemized estimate of appropriation for the fiscal year ending June 30, 1915, and itemized statement of expenditures for the fiscal year ended June 30, 1913, as required by act of Congress approved June 25, 1910 (36 Stat., 755). (See note to itemized estimate under General Expenses, lighthouse service.)*

| | Estimate, 1915. | Expenditures, 1913. |
|---|---|---|
| Salaries, executive and technical | $145,000 | $132,494 |
| Salaries, clerical and messenger | 140,000 | 130,180 |
| Salaries, authorized depot force | 100,000 | 195,385 |
| Total | 385,000 | 458,059 |

*Statement of persons estimated for and employed under lump-sum appropriations in the Lighthouse Service exceeding $250,000, to accompany estimates of appropriations for the fiscal year to end June 30, 1915, as required by section 6 of the act (Public, No 302) approved Aug. 24, 1912.*

COAST AND GEODETIC SURVEY.

For every expenditure requisite for and incident to the work of the Coast and Geodetic Survey, and including compensation, not otherwise appropriated for, of persons employed in the field work, and commutation to officers of the field force while on field duty, at a rate not exceeding $2.50 per day each, to be expended in accordance with the regulations relating to the Coast and Geodetic Survey, from time to time prescribed by the Secretary of Commerce, and under the following heads: *Provided*, That advances of money under this appropriation may be made to the Coast and Geodetic Survey and by authority of the superintendent thereof to chiefs of parties, who shall give bond under such rules and regulations and in such sum as the Secretary of Commerce may direct, and accounts arising under such advances shall be rendered through and by the Coast and Geodetic Survey to the Treasury Department as under advances heretofore made to chiefs of parties.

*Party Expenses, Coast and Geodetic Survey*—

Field expenses:

Atlantic coast: For surveys and necessary resurveys of the Atlantic and Gulf coasts of the United States, including the coasts of outlying islands under the jurisdiction of the United States: *Provided*, That not more than $25,000 of this amount shall be expended on the coasts of said outlying islands, and the Atlantic entrance to the Panama Canal (*R. S., p. 910, secs. 4681 to 4691; acts Mar. 3, 1871, vol. 16, p. 508, sec. 1; Jan. 28, 1898, vol. 30, p. 251, sec. 1; Feb. 14, 1903, vol. 32, p. 826, sec. 4; June 25, 1913, vol. 38, pp. 58, 59, sec. 1*)..... 99,000.00 65,000.00

NOTE.—Included in the amount estimated is an estimate of $25,000 for one additional wire drag party, and $3,000 for one additional topographic and chart revision party. This estimate also covers work in Porto Rico, Navassa Island, and the Atlantic entrance to the Panama Canal.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Party Expenses, Coast and Geodetic Survey*—Continued. | | |
| Field expenses—Continued. | | |
| Pacific coast: For surveys and necessary resurveys of coasts on the Pacific Ocean under the jurisdiction of the United States (*R. S., p. 910, secs. 4681 to 4691; acts Mar. 3, 1871, vol. 16, p. 508, sec. 1: Jan. 28, 1898, vol. 30, p. 251, sec. 1; Feb. 14, 1903, vol. 32, p. 826, sec. 4; June 25, 1913, vol. 38, pp. 58, 59, sec. 1*)..... | $225,000.00 | $165,000.00 |
| NOTE.—This estimate covers work along the Pacific coast of the United States, Alaska, Guam, Hawaii, the Philippines, Tutuila, and the Pacific entrance to the Panama Canal. The increase asked for contemplates the providing of sufficient funds to keep the larger vessels on the Pacific coast in commission the whole year; $50,000 is estimated for an additional wire drag party to be employed on the coast of Alaska in summer and along the southern coasts during the winter; and $10,000 for the extension of the coast triangulation. | | |
| For continuing researches in physical hydrography relating to harbors and bars, and for tidal and current observations on the coasts of the United States, or other coasts under the jurisdiction of the United States (*same acts*)..... | 12,000.00 | 6,400.00 |
| NOTE.—Of the increase requested $4,000 would be used for the construction and maintenance of new tidal stations, and $1,600 to secure additional current observations in cooperation with employees on the light vessels along the coast. | | |
| For offshore soundings and examination of reported dangers on the coasts of the United States and of coasts under the jurisdiction of the United States, and to continue the compilation of the Coast Pilot, and to make special hydrographic examinations, and including the employment of such pilots and nautical experts in the field and office as may be necessary for the same (*same acts*)..... | 20,000.00 | 15,000.00 |
| NOTE.—The increase asked is for necessary additional work on the Coast Pilot of inland water routes and for field revision of the Alaska Coast Pilot. | | |
| For continuing magnetic observations and to establish meridian lines in connection therewith in all parts of the United States, and for making magnetic observations in other regions under the jurisdiction of the United States, including the purchase of additional magnetic instruments, and the lease of sites where necessary and the erection of temporary magnetic buildings; for continuing the line of exact levels between the Atlantic, Pacific, and Gulf coasts; for furnishing points to State surveys, to be applied as far as practicable in States where points have not been furnished; for determinations of geographical positions, including the trigonometrical connection of the Bering Sea triangulation and the one hundred and forty-first meridian; for continuing gravity observations, and for determining trans-Atlantic longitude, including instrumental equipment, $75,000, together with the unexpended balance of the appropriation for these objects for the fiscal year 1914 (*same acts*)..... | 75,000.00 | 56,000.00 |
| NOTE.—The increase asked for is intended to start the work of carrying the triangulation across Alaska from Bering Sea to the eastern boundary, the one hundred and forty-first meridian. No accurate and reliable maps of the interior of Alaska can be made with this triangulation. The work will take several years to complete and is demanded now for use of the Geological Survey, as well as other surveying bureaus of the Government, and will be extremely valuable in the determination of the transportation questions for Alaska, now under public discussion.<br>The unexpended balance of the appropriation for 1914, which it is asked be made available for 1915, is to be used for the purpose of determining the trans-Atlantic longitude in connection with the operations of the International Geodetic Association. For this purpose Congress last year added $6,000 to the appropriation, but owing to the delay in the passage of the appropriation act the special instrumental equipment could not be obtained in time to use it during the fiscal year 1914. The balance of the appropriation will therefore be used for the execution of the work in the fiscal year 1915. | | |
| For any special surveys that may be required by the Bureau of Lighthouses or other proper authority and contingent expenses incident thereto (*same acts*)..... | 15,000.00 | 10,000.00 |
| NOTE.—Of the increase asked, $5,000 will be used for the oyster survey in the State of Florida, authority for the making of which is contained in a bill pending in Congress. | | |
| For objects not hereinbefore named that may be deemed urgent, including the preparation or purchase of preliminary plans and specifications of vessels; the reimbursement of officers of the Coast and Geodetic Survey for food, clothing, medicines, and other supplies furnished for the temporary relief of distressed persons in remote localities and to shipwrecked persons temporarily provided for by them, not to exceed $500; the actual necessary expenses of officers of the field force temporarily ordered to the office at Washington for consultation with the superintendent, and for the expenses of the attendance of the American delegates at the meetings of the International Geodetic Association, not to exceed $550 (*same acts*)..... | 4,000.00 | 3,000.00 |
| NOTE.—The increase asked is to be used for the purchase of plans for vessels for which estimates are asked. | | |
| *Provided*, That 10 per cent of the foregoing amounts shall be available interchangeably for expenditure on the objects named, but no more than 10 per cent shall be added to any one item of appropriation. | | |
| In all, for field expenses..... | 450,000.00 | 320,400.00 |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Repairs and Maintenance of Vessels*— | | |
| For repairs and maintenance of the complement of vessels used in the Coast and Geodetic Survey, including the traveling expenses of the person inspecting the repairs, but excluding engineer's supplies and other ship chandlery (*act June 23, 1913, vol. 38, p. 59. sec. 1*)..... | $40,000.00 | $40,000.00 |
| *Pay, etc., Officers and Men, Vessels, Coast Survey*— | | |
| For all necessary employees to man and equip the vessels of the Coast and Geodetic Survey, including professional seamen serving as mates on vessels of the survey, to execute the work of the survey herein provided for and authorized by law: *Provided*, That hereafter contracts for the employment of seamen on the vessels may be made for the period of the surveying season in Alaska (*act June 23, 1913, vol. 38, p. 59, sec. 1*)..... | 275,000.00 | 252,200.00 |

NOTE.—The additional amount asked for is needed to enable the Coast and Geodetic Survey to keep the Pacific coast fleet in commission the whole year.

*Salaries, Coast and Geodetic Survey*—

| | | | |
|---|---|---|---|
| Superintendent (*R. S., p. 911, sec. 4689; act June 23, 1913, vol. 38, p. 59, sec. 1*) | $6,000.00 | | |
| Assistants, to be employed in the field or office, as the superintendent may direct, one of whom may be designated by the Secretary of Commerce to act as assistant superintendent: | | | |
| Two, at $4,000 each (*same acts*) | 8,000.00 | | |
| One, at $3,200 (*same acts*) | 3,200.00 | | |
| Five, at $3,000 each (*same acts*) | 15,000.00 | | |
| Five, at $2,500 each (*same acts*) | 12,500.00 | | |
| Seven, at $2,400 each (increase of 6 submitted) (*same acts*) | 16,800.00 | | |
| Eight, at $2,200 each (*same acts*) | 17,600.00 | | |
| Eight, at $2,000 each (*same acts*) | 16,000.00 | | |
| Eight, at $1,800 each (*same acts*) | 14,400.00 | | |
| Eight, at $1,600 each (*same acts*) | 12,800.00 | | |
| Eight, at $1,400 each (*same acts*) | 11,200.00 | | |
| Ten, at $1,200 each (*same acts*) | 12,000.00 | | |
| Aids: | | | |
| Ten at $1,100 each (increase of 4 submitted) (*same acts*) | 11,000.00 | | |
| Nineteen, at $1,000 each (increase of 1 submitted, 5 at $900 each omitted) (*same acts*) | 19,000.00 | | |
| In all, salaries | | $175,500.00 | $160,200.00 |
| Pay of office force: | | | |
| One chief accountant, at $2,500 (in lieu of disbursing agent) (*same acts*) | 2,500.00 | | |
| One editor, at $2,000 (*submitted*) | 2,000.00 | | |
| One chief of division of library and archives (*R. S., p. 911, sec. 4689; act June 23, 1913, vol. 38, pp., 59, 60, sec. 1*) | 1,800.00 | | |
| Clerical force, namely: | | | |
| Three clerks, at $1,800 each (increase of 1 submitted) (*same acts*) | 5,400.00 | | |
| Three clerks, at $1,650 each (*same acts*) | 4,950.00 | | |
| Four clerks, at $1,400 each (*same acts*) | 5,600.00 | | |
| Eight clerks, at $1,200 each (*same acts*) | 9,600.00 | | |
| Five clerks, at $1,000 each (*same acts*) | 5,000.00 | | |
| Ten clerks, at $900 each (*same acts*) | 9,000.00 | | |
| Six clerks, at $720 each (*same acts*) | 4,320.00 | | |
| Topographic and hydrographic draftsmen, namely: | | | |
| Two, at $2,400 each (*same acts*) | 4,800.00 | | |
| Three, at $2,200 each (*same acts*) | 6,600.00 | | |
| Three, at $2,000 each (*same acts*) | 6,000.00 | | |
| Three, at $1,800 each (*same acts*) | 5,400.00 | | |
| Three, at $1,600 each (*same acts*) | 4,800.00 | | |
| Three, at $1,400 each (*same acts*) | 4,200.00 | | |
| Three, at $1,200 each (*same acts*) | 3,600.00 | | |
| Three, at $1,000 each (increase of 1 submitted) (*same acts*) | 3,000.00 | | |

| Three, at $1,800 each (*same acts*) | 5,400.00 | | |
| Two, at $1,600 each (*same acts*) | 3,200.00 | | |
| Two, at $1,400 each (*same acts*) | 2,800.00 | | |
| One, at $1,200 (1 transferred to lithographer at the same salary) (*same acts*) | 1,200.00 | | |
| Two, at $1,000 each (*same acts*) | 2,000.00 | | |
| Engravers and apprentices, at not exceeding $1,000 each (*same acts*) | 3,600.00 | | |
| Instrument makers and carpenters, namely: | | | |
| One instrument maker, at $2,400 (*same acts*) | 2,400.00 | | |
| One instrument maker, at $1,600 (*same acts*) | 1,600.00 | | |
| Two instrument makers, at $1,400 each (*same acts*) | 2,800.00 | | |
| One instrument maker, at $1,200 (*same acts*) | 1,200.00 | | |
| Three instrument makers, at $1,000 each (*same acts*) | 3,000.00 | | |
| Three carpenters, at $1,200 each (*same acts*) | 3,600.00 | | |
| One carpenter and painter, at $900 (*same acts*) | 900.00 | | |
| Electrotypers and photographers, lithographers, plate printers and their helpers, engineer, and other skilled laborers, namely: | | | |
| One, at $2,000 (*same acts*) | 2,000.00 | | |
| One, at $1,800 (submitted in lieu of position now paid from the appropriation "General expenses, Coast and Geodetic Survey") (*same acts*) | 1,800.00 | | |
| One, at $1,700 (submitted in lieu of position now paid from the appropriation "General expenses, Coast and Geodetic Survey") (*same acts*) | 1,700.00 | | |
| One, at $1,600 (*same acts*) | 1,600.00 | | |
| One, at $1,400 (*same acts*) | 1,400.00 | | |
| Eight, at $1,200 each (increase of 1 submitted, transferred from lithographer at the same salary) (*same acts*) | 9,600.00 | | |
| Two, at $1,000 each (*same acts*) | 2,000.00 | | |
| Two, at $900 each (*same acts*) | 1,800.00 | | |
| One, at $720 (*submitted*) | 720.00 | | |
| Seven, at $700 each (increase of 2 submitted) (*R. S., p. 911, sec. 4689; act June 23, 1913, vol. 38, p. 60, sec. 1*) | 4,900.00 | | |
| Watchmen, firemen, messengers, and laborers, namely: | | | |
| Three, at $880 each (*same acts*) | 2,640.00 | | |
| Four, at $820 each (*same acts*) | 3,280.00 | | |
| Four, at $720 each (increase of 1 submitted) (*same acts*) | 2,880.00 | | |
| Four, at $700 each (*same acts*) | 2,800.00 | | |
| Two, at $640 each (*same acts*) | 1,280.00 | | |
| Three, at $630 each (*same acts*) | 1,890.00 | | |
| Four, at $550 each (*same acts*) | 2,200.00 | | |
| In all, pay of office force | | $210,260.00 | $199,120.00 |
| *General Expenses, Coast and Geodetic Survey*— | | | |
| For the purchase of new instruments, including their exchange, for materials and supplies required in the instrument shop, carpenter shop, and drawing division, and for books, scientific and technical books and journals and books of reference, maps, charts, and subscriptions; for copperplates, chart paper, printer's ink, copper, zinc, and chemicals for electrotyping and photographing; engraving, printing, photographing, and electrotyping supplies; and for photolithographing charts and printing from stone and copper for immediate use; for stationery for the office and field parties, transportation of instruments and supplies when not charged to party expenses, horses, vehicles, heating, lighting, and power; telephones, including the operation of switchboard, telegrams, ice, and washing; office furniture, repairs, traveling expenses of assistants and others employed in the office sent on special duty in the service of the office; extra labor not to exceed $4,300; miscellaneous expenses and contingencies of all kinds (increase of $6,000 submitted) (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | | 56,000.00 | 50,000.00 |
| That no part of the money herein appropriated for the Coast and Geodetic Survey shall be available for allowance to civilian or other officers for subsistence while on duty at Washington (except as hereinbefore provided for officers of the field force ordered to Washington for short periods for consultation with the superintendent), except as now provided by law. | | | |
| *New Vessels, Coast and Geodetic Survey*— | | | |
| For 6 new vessels for the Coast and Geodetic Survey, including their equipment (*submitted*) | | 525,000.00 | |

NOTE.—This estimate contemplates the construction of 6 new vessels for the Coast and Geodetic Survey, 3 of the vessels to be about 75 feet long, which are intended to replace the expensive hired equipment now used. These 3 vessels will cost about $25,000 each. The other 3 vessels will be of a larger type of about 450 tons each, and are intended for Pacific coast work. They will be used in Alaskan waters during the summer and along the coast during the winter. It is estimated that these 3 vessels will cost about $450,000.

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Lithographic Presses, Coast and Geodetic Survey—* | | | |
| For 4 flat-bed lithographic presses (*submitted*) | | $22,800.00 | |
| NOTE.—The installation of these presses will very much increase the efficiency of the service in printing maps. If purchased they will provide a separate press for each color, and as the frequent corrections in charts restrict the print to small editions, which require but a few minutes to run off, while cleaning up for a change in color involves from an hour to two hours and a half, a great saving of time will result. | | | |
| *Extension for Lithographic and Aluminum-Plate Printing Room—* | | | |
| For a 1-story brick building in extension of the present lithographic and aluminum-plate printing room (*submitted*) | | 2,400.00 | |
| NOTE.—This extension is urgently needed, as the present room is now inadequate and overcrowded, and the aluminum-plate work is constantly increasing. | | | |
| *Brick Building for Storage—* | | | |
| For a new 1-story brick building of 3,200 square feet floor space, with suitable partitions, for the accommodation of material now stored in temporary wooden structures on the south lot of the Coast and Geodetic Survey grounds (*submitted*) | | 4,000.00 | |
| NOTE.—These wooden structures are old and worn out, are unsightly, dangerous in case of fire, and should be immediately removed and replaced by the one brick building asked for. | | | |
| Total, Coast and Geodetic Survey | | 1,760,960.00 | $1,021,920.00 |
| BUREAU OF FISHERIES. | | | |
| *Salaries, Bureau of Fisheries—* | | | |
| Office of commissioner: | | | |
| Commissioner (*R. S., p. 851, secs. 4395–4398; acts June 20, 1888, vol. 25, p. 1, sec. 1; Feb. 14, 1903, vol. 32, p. 827, sec. 4; June 23, 1913, vol. 38, p. 60, sec. 1*) | $6,000.00 | | |
| Deputy commissioner (*acts Aug. 5, 1892, vol. 27, p. 362, sec. 1; Feb. 14, 1903, vol. 32, p. 827, sec. 4; June 23, 1913, vol. 38, p. 60, sec. 1*) | 3,500.00 | | |
| Assistant in charge of office (*same acts*) | 2,500.00 | | |
| Assistant in charge, division of fish culture (*same acts*) | 2,700.00 | | |
| Assistant in charge, division of inquiry respecting food fishes (*same acts*) | 2,700.00 | | |
| Assistant in charge, division of statistics and methods of the fisheries (*same acts*) | 2,500.00 | | |
| One assistant, at $2,500 (*same acts*) | 2,500.00 | | |
| One assistant, at $2,000 (*submitted*) | 2,000.00 | | |
| Two assistants, at $1,800 each (1 submitted; 1 transferred from Alaska) (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | 3,600.00 | | |
| One assistant, at $1,600 (*same act*) | 1,600.00 | | |
| Two assistants, at $1,200 each (*same act*) | 2,400.00 | | |
| Two assistants, at $900 each (*same act*) | 1,800.00 | | |
| Fish pathologist, to be appointed by the Secretary of Commerce (*submitted*) | 2,500.00 | | |
| Architect and engineer (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | 2,200.00 | | |
| Civil engineer (*submitted*) | 2,000.00 | | |
| Assistant architect (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | 1,600.00 | | |
| Draftsman (*same act*) | 1,200.00 | | |
| Accountant (*same act*) | 2,100.00 | | |
| Librarian (*same act*) | 1,500.00 | | |
| Superintendent of car and messenger service (*same act*) | 1,600.00 | | |
| Clerk to commissioner (*same act*) | 1,600.00 | | |
| Three clerks of class 4 (*same act*) | 5,400.00 | | |
| Four clerks of class 3 (*same act*) | 6,400.00 | | |
| Four clerks of class 2 (1 transferred from Alaska service) (*same act*) | 5,600.00 | | |
| Six clerks of class 1 (1 submitted; 1 transferred from Alaska service) (*same act*) | 7,200.00 | | |
| Three clerks, at $1,000 each (*same act*) | 3,000.00 | | |
| Fifteen clerks, at $900 each (1 transferred from Alaska service) (*same act*) | 13,500.00 | | |
| Engineer (*same act*) | 1,080.00 | | |
| Three firemen, at $720 each (*same act*) | 2,160.00 | | |
| Two watchmen, at $720 each (*same act*) | 1,440.00 | | |
| Five janitors and messengers, at $720 each (*same act*) | 3,600.00 | | |
| Janitress (*same act*) | 480.00 | | |
| Messenger boy (*same act*) | 360.00 | | |
| Four charwomen, at $240 each (*same act*) | 960.00 | | |
| One statistical agent (*same act*) | 1,400.00 | | |
| One statistical agent (*submitted*) | 1,200.00 | | |
| Two statistical agents, at $1,000 each (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | 2,000.00 | | |
| Two local agents, at $1,200 each (*submitted*) | 2,400.00 | | |
| One local agent at Boston, Mass. (*act June 23, 1913, vol. 38, p. 60, sec. 1*) | 300.00 | | |
| One local agent at Gloucester, Mass. (*same act*) | 600.00 | | |
| One local agent at Seattle, Wash. (*same act*) | 600.00 | | |
| | | 109,780.00 | 96,680.00 |
| NOTE.—The salaries for the office of the bureau in Washington are submitted under one head, instead of six heads, as heretofore. All employees of the office of the commissioner, office architect and engineer, Division of Fish Culture, Division of Inquiry Respecting Food Fishes, Division of Statistics and Methods of the Fisheries, and the Division of Alaska Fisheries are included under the above estimate. | | | |

| Engineer (*same act*) | 1,100.00 | | |
| Fireman (*same act*) | 720.00 | | |
| Two seamen, at $600 each (*same act*) | 1,200.00 | | |
| | | 4,220.00 | 4,220.00 |
| Alaska Service: | | | |
| For the following, to be appointed by the Secretary of Commerce: | | | |
| (Chief of division, at $3,500, omitted) (*acts Mar. 4, 1911, vol. 36, p. 1439, sec. 1; June 23, 1913, vol. 38, p. 63, sec. 1*). | | | |
| (Assistant, at $1,800, omitted; transferred to appropriation "Salaries, Bureau of Fisheries") (*same acts*). | | | |
| (Clerk, class 2, omitted; transferred to appropriation "Salaries, Bureau of Fisheries") (*same acts*). | | | |
| (Clerk, class 1, omitted; transferred to appropriation "Salaries, Bureau of Fisheries") (*same acts*). | | | |
| (Clerk, at $900, omitted; transferred to appropriation "Salaries, Bureau of Fisheries") (*same acts*). | | | |
| Two agents and caretakers, Pribilof Islands, at $2,000 each (*same acts*) | 4,000.00 | | |
| (Naturalist, fur-seal service, at $3,000, omitted) (*same acts*). | | | |
| Janitor service, Pribilof Islands (*same acts*) | 480.00 | | |
| Two physicians, Pribilof Islands, at $1,500 each (*same acts*) | 3,000.00 | | |
| Three school teachers, Pribilof Islands, at $1,200 each (increase of 1, in lieu of 1 paid from the appropriation "Protecting sea and salmon fisheries of Alaska") (*same acts*). | 3,600.00 | | |
| Storekeeper, Pribilof Islands (*same acts*) | 1,800.00 | | |
| Agent, Alaska service (in lieu of agent, Alaska salmon fisheries) (*same acts*) | 2,500.00 | | |
| Three assistant agents, at $2,000 each (increase of 2 submitted) (*same acts*) | 6,000.00 | | |
| Two assistant agents, at $1,800 each (increase of 1 submitted) (*same acts*) | 3,600.00 | | |
| Assistant agent (*submitted*) | 1,500.00 | | |
| Assistant agent (*submitted*) | 1,200.00 | | |
| Inspector, Alaska service (*act June 23, 1913, vol. 38, p. 63, sec. 1*) | 1,800.00 | | |
| Warden, Alaska service (*same act*) | 1,200.00 | | |
| Six deputy wardens, at $900 each (increase of 2 submitted) (*same act*) | 5,400.00 | | |
| | | 36,080.00 | 31,080.00 |
| Total for salaries, Bureau of Fisheries | | 421,100.00 | 391,180.00 |
| NOTE.—The positions appropriated for during the fiscal year 1914 for the service in Washington, D. C., have been estimated for under "Salaries, Bureau of Fisheries." Without change in the amount of compensation, the department recommends the change of title of foreman in the bureau to fish culturist, and of skilled laborers and laborers to apprentice fish culturists. This designation more clearly describes the duties of the employees concerned. Promotion from the apprentice fish culturist grade to the fish culturist grade will be made only after examination. | | | |
| *Miscellaneous Expenses, Bureau of Fisheries*— | | | |
| Expenses of administration: For the expenses of the office of the commissioner, including stationery, scientific and reference books and periodicals, and newspapers, for library, furniture, telegraph and telephone service, repairs to and heating, lighting, and equipment of buildings, and compensation of temporary employees, and all other necessary expenses connected therewith (*acts Mar. 3, 1893, vol. 27, p. 585, sec. 1; Feb. 14, 1903, vol. 32, p. 827, sec. 4; June 23, 1913, vol. 38, p. 63, sec. 1*) | 10,000.00 | | |
| Propagation of food fishes: For maintenance, equipment, and operations of the fish-cultural stations of the bureau, the general propagation of food fishes and their distribution, including the movement, maintenance, and repair of cars, purchase of equipment and apparatus, contingent expenses, and temporary labor, and for the propagation and distribution of fresh-water mussels, and the necessary expenses connected therewith, not to exceed $10,000 (increase of $25,000 submitted); in all (*same acts*) | 360,000.00 | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Miscellaneous Expenses, Bureau of Fisheries*—Continued. | | | |
| *Provided*, That none of the foregoing amount shall be expended for hatching or planting fish or eggs in any State in which, in the judgment of the Secretary of Commerce, there are not enforced adequate laws for the protection of the fishes, nor in any State in which the United States Commissioner of Fisheries and his duly authorized agents are not accorded full and free right to conduct fish-cultural operations and all fishing and other operations necessary therefor, in such manner and at such times as is considered necessary and proper by the said commissioner or his agents: *And provided further*, That before any final steps shall have been taken for the construction of any fish-cultural stations that may hereafter be established by Congress, the respective States, through appropriate legislative action, shall accord the United States Commissioner of Fisheries and his duly authorized agents the right to conduct the fish-cultural operations and all operations connected therewith in any manner and at any time that may by them be considered necessary and proper, any fishery laws of the State to the contrary notwithstanding. | | | |
| Maintenance of vessels: For maintenance of the vessels and launches, including the purchase and repair of boats, apparatus, machinery, and other facilities required for use with the same, hire of vessels, and all other necessary expenses in connection therewith (increase of $15,000 submitted) (*acts Mar. 3, 1893, vol. 27, p. 585, sec. 1; Feb. 14, 1903, vol. 32, p. 827, sec. 4; June 23, 1913, vol. 38, p. 65, sec. 1*) | $75,000.00 | | |
| Inquiry respecting food fishes: For expenses of the inquiry into the causes of the decrease of food fishes in the waters of the United States, and for investigations and experiments in respect to the aquatic animals, plants, and waters, in the interest of fish culture and the fishery industries, including expenses of travel and preparation of reports, and not to exceed $5,000 for oyster survey in the State of Florida, and for all other necessary expenses in connection therewith (increase of $10,000 submitted) (*same acts*) | 50,000.00 | | |
| Statistical inquiry: For expenses in the collection and compilation of the statistics of the fisheries and the study of their methods and relations, including travel and preparation of reports and all other necessary expenses in connection therewith (*same acts*) | 7,500.00 | | |
| Total miscellaneous expenses, Bureau of Fisheries | | $502,500.00 | $452,500.00 |

*Classified statement of estimates under "Miscellaneous expenses, Bureau of Fisheries," subhead "Propagation of food fishes," for fiscal year 1915, and expenditures for fiscal year 1913, as required by sundry civil appropriation act of Aug. 24, 1912.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Distribution Cars, Bureau of Fisheries*— | | |
| For the construction of 4 steel cars for the distribution of useful food fishes to take the place of 4 wooden cars, obsolete and unsafe, to be available until expended (increase of $30,000 submitted) (*act June 23, 1913, vol. 38, p. 64, sec. 1*) | $60,000.00 | $30,000.00 |
| *Marine Biological Station, Beaufort, N. C.*— | | |
| For repairs and additions to buildings and improvements to grounds, to be available until expended (*submitted*) | 5,000.00 | |
| *Biological Station, Fairport, Iowa*— | | |
| For completion of buildings and installation of central heating and lighting plants, to be available until expended (*submitted*) | 7,500.00 | |
| *Vessels and Boats, Alaska Fishery Service*— | | |
| For construction or purchase of vessels and boats in connection with the enforcement of the laws and regulations for the protection of the fisheries and fur-bearing animals of Alaska, including 1 sea-going vessel, 1 light-draft tug, and 6 rapid motor boats, to be available until expended (*submitted*) | 100,000.00 | |
| *Fur-Seal Islands, Alaska, Cold-Storage Plant*— | | |
| For the purchase and installation of a cold-storage plant on the Pribilof Islands, to be available until expended (*submitted*) | 3,000.00 | |
| *Fur-Seal Islands, Alaska, Construction and Repair of Buildings*— | | |
| For the construction and repair of buildings on St. George and St. Paul Islands, Alaska, to be available until expended (*submitted*) | 9,500.00 | |
| *Payments to Great Britain and Japan*— | | |
| For payments to be made to Great Britain and Japan under the terms of Article XI of the convention for protection and preservation of the fur seal and sea otters in lieu of their share of sealskins for the yearly season of 1914, and in accordance with the act of Aug. 24, 1912, to give effect to the above named convention (decrease of $20,000 submitted) (*acts Aug. 24, 1912, vol. 37, p. 499, sec. 11; June 23, 1913, vol. 38, p. 64, sec. 1*) | 20,000.00 | 40,000.00 |
| *Alteration and Extension to Building, Washington, D. C.*— | | |
| For alteration and extension of the office building in Washington, D. C., of the Bureau of Fisheries, and rebuilding and extending the aquarium, to be available until expended (*submitted*) | 30,000.00 | |
| Total, Bureau of Fisheries | 1,393,000.00 | 992,180.00 |
| BUREAU OF STANDARDS. | | |
| *Testing of Large Scales, Bureau of Standards*— | | |
| For the testing of railroad track scales, elevator scales, and other scales used in weighing interstate shipments and to secure equipment and assistance for testing the scales used by the Government in its transactions with the public, such as post office, navy yard, and customhouse scales, including personal services in the District of Columbia and in the field (increase of $75,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 787, sec. 1*) | 100,000.00 | 25,000.00 |
| NOTE.—The errors of railway track scales disclosed by the investigations of the Bureau of Standards, and the Interstate Commerce Commission, and the resulting activities on the part of the railroads in the installations of heavy scales, made it necessary to provide for the testing and inspection of these scales and to make even the most superficial inspection of railroads and other scales as recommended by the Interstate Commerce Commission, several test car equipments will be necessary together with the equipment and personnel required for their operation. During the past year the requests for the testing and inspection of scales and weights in use by the Government has been very great, over 57,000 scales have been inspected and tested for the Post Office Department. | | |
| Total Miscellaneous under Department of Commerce | 8,461,960.00 | 7,046,520.00 |
| UNDER THE DEPARTMENT OF LABOR. | | |
| BUREAUS OF IMMIGRATION AND NATURALIZATION. | | |
| *Expenses of Regulating Immigration*— | | |
| For all expenses of the enforcement of laws regulating immigration of aliens into the United States, including the contract-labor laws; for the cost of the reports of decisions of the Federal courts, and digests thereof, for use of the Commissioner General of Immigration; for salaries and expenses of all officers, clerks and employees appointed to enforce said laws; for the enforcement of the provisions of the act of Feb. 20, 1907, entitled "An act to regulate the immigration of aliens into the United States" and acts amendatory thereof; for expenses of necessary supplies, including exchange of typewriting machines, alterations and repairs, and for all other expenses authorized by said act; also for preventing the unlawful entry of Chinese into the United States by the appointment of suitable officers to enforce the laws in relation thereto, and the expenses of returning to China all Chinese persons found to be unlawfully in the United States, including the cost of imprisonment and actual expenses of conveyance of Chinese persons to the frontier or seaboard for deportation, and for the refunding of head tax upon presentation of evidence showing conclusively that collection was made through error of Government officers; all to be expended under direction of the Secretary of Labor (increase of $360,000 submitted) (*acts Mar. 4, 1909, vol. 35, p. 982, sec. 1; June 23, 1913, vol. 38, p. 65, sec. 1*) | 2,910,000.00 | 2,550,000.00 |
| NOTE.—The increase submitted is intended to cover the cost of expansion of the service to meet traffic conditions on the land boundaries, to man the new stations authorized by Congress and provide for their upkeep; also to give effect to the act approved Mar. 26, 1910, having reference to the deportation of prostitutes, procurers, and similar persons made subject to deportation by the terms of that statute but who can not now be arrested and deported because of lack of funds for men to carry out the law and to meet the expenses of returning such persons to the countries whence they came. | | |
